

# Winter Weather

## Winterizing Your Vehicle

---

During a winter storm it is often safest to remain indoors, however, in the event of an emergency, you may be required to leave your home. For this reason, it is important to have a car ready at all times. Take the following precautions to ensure your vehicle is winter ready.

- Make certain a fully stocked **first aid kit** is in your vehicle at all times.
- Keep your vehicle's **battery connections** clear of corrosion and run your vehicle for a brief period every day to ensure the battery remains charged.
- Ensure your vehicle's **gas tank** is full.
- Keep your vehicle's **antifreeze** reservoir full.
- Consider equipping your vehicle with **chains or snow tires**.
