# LIBERTY LIFE'S SPECTRUM SELECT<sup>®</sup> AND SPECTRUM SELECT PLUS<sup>®</sup> VARIABLE LIFE INSURANCE

# Semiannual Report June 30, 2012

A spectrum of choices...a lifetime of protection<sup>®</sup> Liberty Life Assurance Company of Boston

This report may be used with the public only when preceded or accompanied by a current prospectus for Liberty Life's Spectrum Select or Spectrum Select Plus. The prospectuses contain complete information concerning charges and expenses and should be read carefully before you invest or send money.

LIBERTY LIFE ASSURANCE COMPANY OF BOSTON

Dear Policyholder,

This Semiannual Report represents the investment performance of the portfolios invested in by the sub-accounts available with Liberty Life's Spectrum Select<sup>®</sup> and Spectrum Select Plus<sup>®</sup> variable life insurance contracts.

All of us at Liberty Life thank you for your business.

Sincerely,

Elaine Dansureau

Elaine Dansereau Liberty Life Assurance Company of Boston Director – Policyholder Services 100 Liberty Way Dover, NH 03820

# Invesco Van Kampen V.I. American Franchise Fund

Effective April 30, 2012, Invesco Van Kampen V.I. Capital Growth Fund was renamed Invesco Van Kampen V.I. American Franchise Fund. Semiannual Report to Shareholders I June 30, 2012

The Fund provides a complete list of its holdings four times in each fiscal year, at the quarter-ends. For the second and fourth quarters, the lists appear in the Fund's semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the lists with the Securities and Exchange Commission (SEC) on Form N-Q. The Fund's Form N-Q filings are available on the SEC website, sec.gov. Copies of the Fund's Forms N-Q may be reviewed and copied at the SEC Public Reference Room in Washington, D.C. You can obtain information on the operation of the Public Reference Room, including information about duplicating fee charges, by calling 202 551 8090 or 800 732 0330, or by electronic request at the following email address: publicinfo@sec.gov. The SEC file numbers for the Fund are 811-07452 and 033-57340. The Fund's most recent portfolio holdings, as filed on Form N-Q, have also been made available to insurance companies issuing variable annuity contracts and variable life insurance policies ("variable products") that invest in the Fund.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 959 4246 or at invesco.com/proxyguidelines. The information is also available on the SEC website, sec.gov.

Information regarding how the Fund voted proxies related to its portfolio securities during the 12 months ended June 30, 2012, is available at invesco.com/proxysearch. The information is also available on the SEC website, sec.gov.

Invesco Advisers, Inc. is an investment adviser; it provides investment advisory services to individual and institutional clients and does not sell securities. Invesco Distributors, Inc. is the US distributor for Invesco Ltd.'s retail mutual funds, exchange-traded funds and institutional money market funds. Both are wholly owned, indirect subsidiaries of Invesco Ltd.

This report must be accompanied or preceded by a currently effective Fund prospectus and variable product prospectus, which contain more complete information, including sales charges and expenses. Investors should read each carefully before investing.

Invesco Distributors, Inc.

Source(s): ▼Lipper Inc.

The **S&P 500<sup>®</sup> Index** is an unmanaged index considered representative of the US stock market.

The **Russell 1000® Growth Index** is an unmanaged index considered representative of large-cap growth stocks. The Russell 1000 Growth Index is a trademark/ service mark of the Frank Russell Co. Russell<sup>®</sup> is a trademark of the Frank Russell Co.

The **Lipper VUF Large-Cap Growth Funds Index** is an unmanaged index considered representative of large-cap growth variable insurance underlying funds tracked by Lipper.

The Fund is not managed to track the performance of any particular index, including the index(es) defined here, and consequently, the performance of the Fund may deviate significantly from the performance of the index(es).

A direct investment cannot be made in an index. Unless otherwise indicated, index results include reinvested dividends, and they do not reflect sales charges. Performance of the peer group, if applicable, reflects fund expenses; performance of a market index does not.

Effective June 1, 2010, Class I and Class II shares of the predecessor fund, Van Kampen Life Investment Trust Capital Growth Portfolio, advised by Van Kampen Asset Management were reorganized into Series I and Series II shares, respectively, of Invesco Van Kampen V.I. Capital Growth Fund. Returns shown above for Series I and Series II shares are blended returns of the predecessor fund and Invesco Van Kampen V.I. Capital Growth Fund (renamed Invesco Van Kampen V.I. American Franchise Fund on April 30, 2012). Share class returns will differ from the predecessor fund because of different expenses.

The performance data quoted represent past performance and cannot guarantee comparable future results; current performance may be lower or higher. Please contact your variable product issuer or financial adviser for the most recent month-end variable product performance. Performance figures reflect Fund expenses, reinvested distributions and changes in net asset value. Investment return and principal value will fluctuate so that you may have a gain or loss when you sell shares.

The net annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for Series I and Series II shares was 0.90% and 1.15%, respectively.<sup>1</sup> The total annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for Series I and Series II shares was 0.95% and 1.20%, respectively. The expense ratios presented above may vary from the expense ratios presented in other sections of this report that are based on expenses incurred during the period covered by this report.

Invesco Van Kampen V.I. American Franchise Fund, a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds), is currently offered through insurance companies issuing variable products. You cannot purchase shares of the Fund directly. Performance figures given represent the Fund and are not intended to reflect actual variable product values. They do not reflect sales charges, expenses and fees assessed in connection with a variable product. Sales charges, expenses and fees, which are determined by the variable product issuers, will vary and will lower the total return.

#### Average Annual Total Returns As of 6/30/12

#### Series I Shares

| Inception (7/3/95)  | 7.68%  |
|---------------------|--------|
| 10 Years            | 4.23   |
| 5 Years             | 2.26   |
| 1 Year              | -3.96  |
| Series II Shares    |        |
| Inception (9/18/00) | -3.74% |
| 10 Years            | 3.97   |
| 5 Years             | 2.01   |
| 1 Year              | -4.23  |

The most recent month-end performance data at the Fund level, excluding variable product charges, is available at 800 451 4246. As mentioned above, for the most recent month-end performance including variable product charges, please contact your variable product issuer or financial adviser.

1 Total annual Fund operating expenses after any contractual fee waivers and/or expense reimbursements by the adviser in effect through at least June 30, 2014. See current prospectus for more information.

# Notes to Financial Statements

June 30, 2012 (Unaudited)

### **NOTE 1—Significant Accounting Policies**

Invesco Van Kampen V.I. American Franchise Fund, formerly Invesco Van Kampen V.I. Capital Growth Fund, (the "Fund") is a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"). The Trust is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end series management investment company consisting of twenty-five separate portfolios, (each constituting a "Fund"). The assets, liabilities and operations of each portfolio are accounted for separately. Information presented in these financial statements pertains only to the Fund. Matters affecting each Fund or class will be voted on exclusively by the shareholders of such Fund or class. Current Securities and Exchange Commission ("SEC") guidance, however, requires participating insurance companies offering separate accounts to vote shares proportionally in accordance with the instructions of the contract owners whose investments are funded by shares of each Fund or class.

The Fund's investment objective is to seek capital growth.

The Fund currently offers two classes of shares, Series I and Series II, both of which are offered to insurance company separate accounts funding variable annuity contracts and variable life insurance policies ("variable products").

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements.

A. Security Valuations — Securities, including restricted securities, are valued according to the following policy.

A security listed or traded on an exchange (except convertible bonds) is valued at its last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded, or lacking any sales or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued by an independent pricing service they may be considered fair valued. Futures contracts are valued at the final settlement price set by an exchange on which they are principally traded. Listed options are valued at the mean between the last bid and ask prices from the exchange on which they are principally traded. Options not listed on an exchange are valued by an independent source at the mean between the last bid and ask prices. For purposes of determining net asset value per share, futures and option contracts generally are valued 15 minutes after the close of the customary trading session of the New York Stock Exchange ("NYSE").

Investments in open-end and closed-end registered investment companies that do not trade on an exchange are valued at the end of day net asset value per share. Investments in open-end and closed-end registered investment companies that trade on an exchange are valued at the last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded.

Debt obligations (including convertible bonds) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate, yield, quality, type of issue, coupon rate, maturity, individual trading characteristics and other market data. Debt securities are subject to interest rate and credit risks. In addition, all debt securities involve some risk of default with respect to interest and/or principal payments.

Foreign securities (including foreign exchange contracts) are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the NYSE. If market quotations are available and reliable for foreign exchange traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that are significant and make the closing price unreliable, the Fund may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith using procedures approved by the Board of Trustees. Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trade is not the current value as of the close of the NYSE. Foreign securities meeting the approved degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes, potential for sharply devalued currencies and high inflation, political and economic upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available or are unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust's officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/ask quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general economic conditions, interest rates, investor perceptions and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

B. Securities Transactions and Investment Income — Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income is recorded on the accrual basis from settlement date. Dividend income (net of withholding tax, if any) is recorded on the ex-dividend date.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Statement of Operations as realized gain (loss) for investments no longer held and as unrealized gain (loss) for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of net realized and unrealized gain (loss) from investment securities reported in the Statement of Operations and the Statement of Changes in Net Assets and the net realized and unrealized gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Fund's net asset value and, accordingly, they reduce the Fund's total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Statement of Changes in Net Assets, or the net investment income per share and ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser.

The Fund allocates income and realized and unrealized capital gains and losses to a class based on the relative net assets of each class.

- **C. Country Determination** For the purposes of making investment selection decisions and presentation in the Schedule of Investments, the investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues and the country that has the primary market for the issuer's securities, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the issuer maintains 50% or more of its assets, the type of security, financial guarantees and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.
- **D. Distributions** Distributions from income and net realized capital gain, if any, are generally declared and paid to separate accounts of participating insurance companies annually and recorded on the ex-dividend date.
- **E.** Federal Income Taxes The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code necessary to qualify as a regulated investment company and to distribute substantially all of the Fund's taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the financial statements.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally, the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

- F. Expenses Fees provided for under the Rule 12b-1 plan of a particular class of the Fund and which are directly attributable to that class are charged to the operations of such class. All other expenses are allocated among the classes based on relative net assets.
- **G.** Accounting Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the financial statements are released to print.

- **H. Indemnifications** Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification clauses is considered remote.
- 1. Securities Lending The Fund may lend portfolio securities having a market value up to one-third of the Fund's total assets. Such loans are secured by collateral equal to no less than the market value of the loaned securities determined daily by the securities lending provider. Such collateral will be cash or debt securities issued or guaranteed by the U.S. Government or any of its sponsored agencies. Cash collateral received in connection with these loans is invested in short-term money market instruments or affiliated money market funds and is shown as such on the Schedule of Investments. It is the Fund's policy to obtain additional collateral from or return excess collateral to the borrower by the end of the next business day, following the valuation date of the securities loaned. Therefore, the value of the collateral held may be temporarily less than the value of the securities on loan. Lending securities entails a risk of loss to the Fund if and to the extent that the market value of the borrower to return the securities, collateral may be liquidated and the securities may be purchased on the open market to replace the loaned securities. The Fund could experience delays and costs in gaining access to the collateral. The Fund bears the risk of any deficiency in the amount of the collateral available for return to the borrower due to any loss on the collateral invested. Dividends received on cash collateral investments for securities lending transactions, which are net of compensation to counterparties, is included in *Dividends from affiliated money market funds* on the Statement of Operations. The aggregate value of securities out on loan is shown as a footnote on the Statement of Assets and Liabilities, if any.
- J. Foreign Currency Translations Foreign currency is valued at the close of the NYSE based on quotations posted by banks and major currency dealers. Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at date of valuation. Purchases and sales of portfolio securities (net of foreign taxes withheld on disposition) and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for the portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. The combined results of changes in foreign exchange rates and the fluctuation of market prices on investments (net of estimated foreign tax withholding) are included with the net realized and unrealized gain or loss from investments in the Statement of Operations. Reported net realized foreign currency gains or losses arise from (1) sales of foreign currencies, (2) currency gains or losses realized between the trade and settlement dates on securities transactions, and (3) the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

The Fund may invest in foreign securities which may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable.

**K.** Foreign Currency Contracts — The Fund may enter into foreign currency contracts to manage or minimize currency or exchange rate risk. The Fund may also enter into foreign currency contracts for the purchase or sale of a security denominated in a foreign currency in order to "lock in" the U.S. dollar price of that security. A foreign currency contract is an obligation to purchase or sell a specific currency for an agreed-upon price at a future date. The use of foreign currency contracts does not eliminate fluctuations in the price of the underlying securities the Fund owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the contract date and reporting date exchange rates and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized and unrealized gains (losses) on the contracts are included in the Statement of Operations. The primary risks associated with foreign currency contracts include failure of the counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks may be in excess of the amounts reflected in the Statement of Assets and Liabilities.

### NOTE 2—Advisory Fees and Other Fees Paid to Affiliates

The Trust has entered into a master investment advisory agreement with Invesco Advisers, Inc. (the "Adviser" or "Invesco"). Under the terms of the investment advisory agreement, the Fund pays an advisory fee to the Adviser based on the annual rate of the Fund's average daily net assets as follows:

| Average Daily Net Assets | Rate   |
|--------------------------|--------|
| First \$250 million      | 0.695% |
| Next \$250 million       | 0.67%  |
| Next \$500 million       | 0.645% |
| Next \$500 million       | 0.62%  |
| Next \$3.45 billion      | 0.60%  |
| Next \$250 million       | 0.595% |
| Next \$2.25 billion      | 0.57%  |
| Next \$2.5 billion       | 0.545% |
| Over \$10 billion        | 0.52%  |
|                          |        |

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the "Affiliated Sub-Advisers") the Adviser, not the Fund, may pay 40% of the fees paid to the Adviser to any such Affiliated Sub-Adviser(s) that provide(s) discretionary investment management services to the Fund based on the percentage of assets allocated to such Sub-Adviser(s).

Effective July 1, 2012, the Adviser has contractually agreed, through at least June 30, 2014, to waive advisory fees and/or reimburse expenses to the extent necessary to limit total annual fund operating expenses after fee waiver and/or expense reimbursement (excluding certain items discussed below) of Series I shares to 0.90% and Series II shares to 1.15% of average daily net assets. Prior to July 1, 2012, the Adviser had contractually agreed to waive advisory fees and/or reimburse expenses to the extent necessary to limit total annual operating fund expenses after fee waivers and/or expense reimbursements (excluding certain items discussed below) of Series I shares to 0.84% and Series II shares to 1.09% of average daily net assets. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the total annual operating expenses after fee waiver and/or expense reimbursement to exceed the numbers reflected above: (1) interest; (2) taxes; (3) dividend expense on short sales; (4) extraordinary or non-routine items, including litigation expenses; and (5) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. Unless the Board of the Trustees and Invesco mutually agree to amend or continue the fee waiver agreement, it will terminate on June 30, 2014. To the extent that the annualized expense ratio does not exceed the expense limitation, the Adviser will retain its ability to be reimbursed for such fee waivers or reimbursements prior to the end of each fiscal year.

Further, the Adviser has contractually agreed, through at least June 30, 2013, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash in such affiliated money market funds.

For the six months ended June 30, 2012, the Adviser waived advisory fees of \$300,085.

The Trust has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco a fee for costs incurred in providing accounting services and fund administrative services to the Fund and to reimburse Invesco for administrative services fees paid to insurance companies that have agreed to provide services to the participants of separate accounts. These administrative services provided by the insurance companies may include, among other things: the printing of prospectuses, financial reports and proxy statements and the delivery of the same to existing participants; the maintenance of master accounts; the facilitation of purchases and redemptions requested by the participants; and the servicing of participants' accounts. Pursuant to such agreement, for the six months ended June 30, 2012, Invesco was paid \$51,162 for accounting and fund administrative services and reimbursed \$454,123 for services provided by insurance companies.

The Trust has entered into a transfer agency and service agreement with Invesco Investment Services, Inc. ("IIS") pursuant to which the Fund has agreed to pay IIS a fee for providing transfer agency and shareholder services to the Fund and reimburse IIS for certain expenses incurred by IIS in the course of providing such services. For the six months ended June 30, 2012, expenses incurred under the agreement are shown in the Statement of Operations as *Transfer agent fees*.

The Trust has entered into a master distribution agreement with Invesco Distributors, Inc. ("IDI") to serve as the distributor for the Fund. The Trust has adopted a plan pursuant to Rule 12b-1 under the 1940 Act with respect to the Fund's Series II shares (the "Plan"). The Fund, pursuant to the Plan, pays IDI compensation at the annual rate of 0.25% of the Fund's average daily net assets of Series II shares. Of the Plan payments, up to 0.25% of the average daily net assets of the Series II shares may be paid to insurance companies who furnish continuing personal shareholder services to customers who purchase and own Series II shares of the Fund. For the six months ended June 30, 2012, expenses incurred under the Plan are detailed in the Statement of Operations as *Distribution fees*.

Certain officers and trustees of the Trust are officers and directors of the Adviser, IIS and/or IDI.

#### **NOTE 3—Additional Valuation Information**

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3) generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

Level 1 — Prices are determined using quoted prices in an active market for identical assets.

- Level 2 Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.
- Level 3 Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of June 30, 2012. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

|                   | Level 1       | Level 2      | Level 3 | Total         |
|-------------------|---------------|--------------|---------|---------------|
| Equity Securities | \$739,122,284 | \$12,841,878 | \$      | \$751,964,162 |

#### **NOTE 4—Security Transactions with Affiliated Funds**

The Fund is permitted to purchase or sell securities from or to certain other Invesco Funds under specified conditions outlined in procedures adopted by the Board of Trustees of the Trust. The procedures have been designed to ensure that any purchase or sale of securities by the Fund from or to another fund or portfolio that is or could be considered an affiliate by virtue of having a common investment adviser (or affiliated investment advisers), common Trustees and/or common officers complies with Rule 17a-7 of the 1940 Act. Further, as defined under the procedures, each transaction is effected at the current market price. Pursuant to these procedures, for the six months ended June 30, 2012, the Fund engaged in securities purchases of \$534,154 and securities sales of \$626,133, which resulted in net realized gains of \$76,374.

#### NOTE 5—Trustees' and Officers' Fees and Benefits

"Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund. Trustees have the option to defer compensation payable by the Fund, and "Trustees' and Officers' Fees and Benefits" also include amounts accrued by the Fund to fund such deferred compensation amounts. Those Trustees who defer compensation have the option to select various Invesco Funds in which their deferral accounts shall be deemed to be invested. Finally, certain current Trustees are eligible to participate in a retirement plan that provides for benefits to be paid upon retirement to Trustees over a period of time based on the number of years of service. The Fund may have certain former Trustees who also participate in a retirement plan and receive benefits under such plan. "Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to fund such retirement benefits. Obligations under the deferred compensation and retirement plans represent unsecured claims against the general assets of the Fund.

#### **NOTE 6—Cash Balances**

The Fund is permitted to temporarily carry a negative or overdrawn balance in its account with State Street Bank and Trust Company, the custodian bank. Such balances, if any at period end, are shown in the Statement of Assets and Liabilities under the payable caption *Amount due custodian*. To compensate the custodian bank for such overdrafts, the overdrawn Fund may either (1) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (2) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate.

#### **NOTE 7—Tax Information**

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the Fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryforward) under income tax regulations. The tax character of distributions paid during the year and the tax components of net assets will be reported at the Fund's fiscal year-end.

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. The Regulated Investment Company Modernization Act of 2010 (the "Act") eliminated the eight-year carryover period for capital losses that arise in taxable years beginning after its enactment date of December 22, 2010. Consequently, these capital losses can be carried forward for an unlimited period. However, capital losses with an expiration period may not be used to offset capital gains until all net capital losses without an expiration date have been utilized. Additionally, post-enactment capital loss carryforward in their character as either short-term or long-term capital losses instead of as short-term capital losses as under prior law. The ability to utilize capital loss carryforward in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund had a capital loss carryforward as of December 31, 2011, which expires as follows:

#### Capital Loss Carryforward\*

| Expiration        | Short-Term   | Long-Term | Total        |
|-------------------|--------------|-----------|--------------|
| December 31, 2016 | \$ 7,871,502 | \$        | \$ 7,871,502 |
| December 31, 2017 | 5,236,281    |           | 5,236,281    |
| December 31, 2018 | 13,944,388   |           | 13,944,388   |
|                   | \$27,052,171 | \$        | \$27,052,171 |

\* Capital loss carryforward as of the date listed above is reduced for limitations, if any, to the extent required by the Internal Revenue Service. To the extent that unrealized gains as of May 2, 2011, the date of the reorganization of Invesco V.I. Large Cap Growth Fund and April 30, 2012, the date of the reorganizations of Invesco V.I. Capital Appreciation Fund and Invesco V.I. Leisure Fund into the Fund are realized on securities held in each fund at such date of reorganizations, the capital loss carryforward may be further limited for up to five years from the date of the reorganizations.

#### **NOTE 8—Investment Securities**

The aggregate amount of investment securities (other than short-term securities, U.S. Treasury obligations and money market funds, if any) purchased and sold by the Fund during the six months ended June 30, 2012 was \$687,499,448 and \$253,413,956, respectively. Cost of investments on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed federal income tax reporting period-end.

#### Unrealized Appreciation (Depreciation) of Investment Securities on a Tax Basis

| Aggregate unrealized appreciation of investment securities   | \$153,533,754 |
|--|---------------|
| Aggregate unrealized (depreciation) of investment securities | (27,444,213)  |
| Net unrealized appreciation of investment securities         | \$126,089,541 |

Cost of investments for tax purposes is \$625,874,621.

### **NOTE 9—Share Information**

|   |             | Summary of S                                     | Share Activit | y             |
|---|-------------|--|---------------|---------------|
|   |             | Six months ended<br>June 30, 2012 <sup>(a)</sup> |               |               |
|   | Shares      | Amount   | Shares        | Amount        |
| Sold:   |             |  |               |               |
| Series I  | 649,629     | \$ 23,743,115                                    | 148,444       | \$ 4,995,733  |

| Issued in connection with acquisitions: <sup>(b)(c)</sup> |             |  |               |               |
| Series I  | 11,970,981  | 445,461,917                                      | 2,764,202     | 102,182,035   |
| Series II   | 4,415,803   | 161,335,668                                      | 17,638        | 641,933       |
| Reacquired:   |             |  |               |               |
| Series I  | (1,518,088) | (52,956,152)                                     | (1,259,447)   | (43,079,074)  |
| Series II   | (505,466)   | (17,669,286)                                     | (876,910)     | (29,785,988)  |
| Net increase in share activity                            | 15,195,733  | \$566,265,619                                    | 1,105,593     | \$ 45,425,613 |

(a) There are entities that are record owners of more than 5% of the outstanding shares of the Fund and in the aggregate own 21% of the outstanding shares of the Fund. The Fund and the Fund's principal underwriter or adviser, are parties to participation agreements with these entities whereby these entities sell units of interest in separate accounts funding variable products that are invested in the Fund. The Fund, Invesco and/or Invesco affiliates may make payments to these entities, which are considered to be related to the Fund, for providing services to the Fund, Invesco and/or Invesco affiliates including but not limited to services such as, securities brokerage, third party record keeping and account servicing and administrative services. The Fund has no knowledge as to whether all or any portion of the shares owned of record by these entities are also owned beneficially.

As of the open of business on April 30, 2012, the Fund acquired all the net assets of Invesco V.I. Capital Appreciation Fund and Invesco V.I. Leisure Fund (the "Target Funds") pursuant to a plan of reorganization approved by the Trustees of the Fund on November 30, 2011 and by the shareholders of the Target Fund on April 2, 2012. The acquisition was accomplished by a tax-free exchange of 16,386,784 shares of the Fund for 23,847,677 shares outstanding of Invesco VI. Capital Appreciation Fund and 2,145,577 shares outstanding of Invesco V.I. Leisure Fund as of the close of business on April 27, 2012. Each class of the Target Funds were exchanged for the like class of shares of the Fund, based on the relative net asset value of the Target Funds to the net asset value of the Fund on the close of business, April 27, 2012. Invesco V.I. Capital Appreciation Fund's net assets as of the close of business on April 27, 2012 of \$586,894,436, including \$120,477,190 of unrealized appreciation and Invesco VI. Leisure Fund's net assets as of the close of business on April 27, 2012 of \$19,903,149, including \$5,495,250 of unrealized appreciation, were combined with those of the Fund. The net assets of the Fund immediately before the acquisition were \$226,713,532. The net assets immediately after the acquisition were \$833,511,117.

The pro forma results of operations for the six months ended June 30, 2012 assuming the reorganization had been completed on January 1, 2012, the beginning of the annual reporting period are as follows:

(c)

| Net investment income                          | \$ 430,496   |
|--|--------------|
| Net realized/unrealized gains                  | 59,663,116   |
| Change in net assets resulting from operations | \$60,093,612 |

The combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, it is not practicable to separate the amounts of revenue and earnings of the Target Fund that have been included in the Fund's Statement of Operations since April 30, 2012.

As of the open of business on May 2, 2011, the Fund acquired all the net assets of Invesco V.I. Large Cap Growth Fund (the "Target Fund") pursuant to a plan of reorganization approved by the Trustees of the Fund on November 10, 2010 and by the shareholders of the Target Fund on April 1, 2011. The acquisition was accomplished by a tax-free exchange of 2,781,840 shares of the Fund for 6,596,443 shares outstanding of the Target Fund as of the close of business on April 29, 2011. Each class of the Target Fund was exchanged for the like class of shares of the Fund based on the relative net asset value of the Target Fund to the net asset value of the Fund on the close of business, April 29, 2011. The Target Fund's net assets at that date of \$102,823,968, including \$19,535,310 of unrealized appreciation, were combined with those of the Fund. The net assets of the Fund immediately before the acquisition were \$188,601,217. The net assets of the Fund immediately after the acquisition were \$291,425,185.

The pro forma results of operations for the year ended December 31, 2011 assuming the reorganization had been completed on January 1, 2011, the beginning of the annual reporting period are as follows:

| Net investment income (loss)                   | \$ (731,640)   |
|--|----------------|
| Net realized/unrealized gains (losses)         | (13,447,533)   |
| Change in net assets resulting from operations | \$(14,179,173) |

The combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, it is not practicable to separate the amounts of revenue and earnings of the Target Fund that have been included in the Fund's Statement of Operations since May 2, 2011.

### **NOTE 10—Financial Highlights**

The following schedule presents financial highlights for a share of the Fund outstanding throughout the periods indicated.

|                           | Net asset<br>value,<br>beginning<br>of period | Net<br>investment | Net gains<br>(losses)<br>on securities<br>(both<br>realized and<br>unrealized) | Total from | Dividends<br>from net<br>investment<br>income | Return of capital<br>distributions | Total<br>distributions | Net asset<br>value, end<br>of period | Total<br>return        | Net assets,<br>end of period<br>(000s omitted) | Ratio of<br>expenses<br>to average<br>net assets<br>with fee waivers<br>and/or expenses<br>absorbed | Ratio of<br>expenses<br>to average net<br>assets without<br>fee waivers<br>and/or expenses<br>absorbed |                      | Portfolio<br>turnover <sup>(b)</sup> |
|---------------------------|---|-------------------|--|------------|---|------------------------------------|------------------------|--------------------------------------|------------------------|--|---|--|----------------------|--------------------------------------|
| Series I <sup>(c)</sup>   |   |                   |  |            |   |                                    |                        |                                      |                        |  |   |  |                      |                                      |

| Year ended 12/31/07       | 28.54   | 0.03              | 4.72   | 4.75       | —   | —                                  | —                      | 33.29                                | 16.64 <sup>(g)</sup>   | 261,198  | 1.05  | 1.05   | 0.11                 | 177                                  |

<sup>(a)</sup> Calculated using average shares outstanding.

(b) Portfolio turnover is calculated at the fund level and is not annualized for periods less than one year, if applicable. For the period ended June 30, 2012, the portfolio turnover calculation excludes the value of securities purchased of \$14,357,093 and sold of \$12,843,484 in the effort to realign the Fund's portfolio holdings after the reorganization of Invesco VI. Capital Appreciation Fund and Invesco VI. Leisure Fund into the Fund. For the year ended December 31, 2011, the portfolio turnover calculation excludes the value of securities purchased of \$81,993,574 and sold of \$49,870,241 in the effort to realign the Fund's portfolio holdings after the reorganization of Invesco VI. Large Cap Growth Fund into the Fund.

(c) On June 1, 2010, the predecessor Fund's former Class I and Class II shares were reorganized into Series I and Series II shares.

(d) Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Total returns are not annualized for periods less than one year, if applicable and do not reflect charges assessed in connection with a variable product, which if included would reduce total returns.

(e) Ratios are annualized and based on average daily net assets (000's) of \$263,297 and \$140,556 for Series I and Series II, respectively.

<sup>(f)</sup> Amount is less than \$0.01 per share.

<sup>(g)</sup> These returns include combined Rule 12b-1 fees and service fees of up to 0.25%.

# Calculating your ongoing Fund expenses

### Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service fees (12b-1); and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

The actual and hypothetical expenses in the examples below do not represent the effect of any fees or other expenses assessed in connection with a variable product; if they did, the expenses shown would be higher while the ending account values shown would be lower.

#### **Actual expenses**

The table below provides information about actual account values and actual expenses. You may use the information in this table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Actual Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical example for comparison purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the hypothetical information is useful in comparing ongoing costs, and will not help you determine the relative total costs of owning different funds.

|           |  | ACTUAL HYPOTHETICAL<br>(5% annual return before<br>expenses) |  |                                       |  |   |
|-----------|--|--|--|---------------------------------------|--|---|
| Class     | Beginning<br>Account Value<br>(01/01/12) | Ending<br>Account Value<br>(06/30/12) <sup>1</sup>           | Expenses<br>Paid During<br>Period <sup>2,4</sup> | Ending<br>Account Value<br>(06/30/12) | Expenses<br>Paid During<br>Period <sup>2,5</sup> | Annualized<br>Expense<br>Ratio <sup>3</sup> |
| Series I  | \$1,000.00                               | \$1,085.60   | \$4.36   | \$1,020.69                            | \$4.22   | 0.84%                                       |
| Series II | 1,000.00                                 | 1,083.90   | 5.65   | 1,019.44                              | 5.47   | 1.09  |

<sup>1</sup> The actual ending account value is based on the actual total return of the Fund for the period January 1, 2012 through June 30, 2012, after actual expenses and will differ from the hypothetical ending account value which is based on the Fund's expense ratio and a hypothetical annual return of 5% before expenses.

<sup>2</sup> Expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by 182/366 to reflect the most recent fiscal half year.
<sup>3</sup> Effective July 1, 2012, the Adviser had contractually agreed through June 30, 2014 to waive advisory fees and/or reimburse expenses to the extent necessary to limit total annual fund operating expense of Series I and Series II shares to 0.90% and 1.15% for Series I and Series II shares, respectively. The annualized expense ratios restated as if these agreements had not been in effect throughout the entire most recent fiscal half year are 0.90% and 1.15% for Series I and Series II shares, respectively.

<sup>4</sup> The actual expenses paid restated as if the changes discussed above had been in effect throughout the entire most recent fiscal half year are \$4.67 and \$5.96 for Series I and Series II shares, respectively.

<sup>5</sup> The hypothetical expenses paid restated as if the changes discussed above had been in effect throughout the entire most recent fiscal half year are \$4.52 and \$5.77 for Series I and Series II shares, respectively.

(Formerly Known as Invesco Van Kampen V.I. Capital Growth Fund)

The Board of Trustees (the Board) of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) is required under the Investment Company Act of 1940, as amended, to approve annually the renewal of the Invesco Van Kampen V.I. American Franchise Fund (the Fund) investment advisory agreement with Invesco Advisers, Inc. (Invesco Advisers) and the Master Intergroup Sub-Advisory Contract for Mutual Funds (the sub-advisory contracts) with Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the Affiliated Sub-Advisers). During contract renewal meetings held on June 19-20, 2012, the Board as a whole, and the disinterested or "independent" Trustees, who comprise 80% of the Board, voting separately, approved the continuance of the Fund's investment advisory agreement and the sub-advisory contracts for another year, effective July 1, 2012. In doing so, the Board considered the process that it follows in reviewing and approving the Fund's investment advisory agreement and sub-advisory contracts and the information that it is provided. The Board determined that the Fund's investment advisory agreement and the sub-advisory contracts are in the best interests of the Fund and its shareholders and the compensation to Invesco Advisers and the Affiliated Sub-Advisers under the agreements is fair and reasonable.

#### **The Board's Fund Evaluation Process**

The Board's Investments Committee has established three Sub-Committees, each of which is primarily responsible for overseeing the management of a number of the series portfolios of the funds advised by Invesco Advisers (the Invesco Funds). The Sub-Committees meet throughout the year to review the performance of their assigned funds, including reviewing materials prepared under the direction of the independent Senior Officer, an officer of the Invesco Funds who reports directly to the independent Trustees. Over the course of each year, the Sub-Committees meet with portfolio managers for their assigned Invesco Funds and other members of management to review the performance, investment objective(s), policies, strategies, limitations and investment risks of these funds. The Sub-Committees meet regularly and at designated contract renewal meetings each year to conduct a review of the performance, fees, expenses and other matters related to their assigned Invesco Funds. Each Sub-Committee recommends to the Investments Committee, which in turn recommends to the full Board, whether and on what terms to approve the continuance of each Invesco Fund's investment advisory agreement and sub-advisory contracts for another year.

During the contract renewal process, the Trustees receive comparative performance and fee data

regarding the Invesco Funds prepared by Invesco Advisers and an independent company, Lipper Inc. (Lipper). The Trustees also receive an independent written evaluation from the Senior Officer. The Senior Officer's evaluation is prepared as part of his responsibility to manage the process by which the Invesco Funds' proposed management fees are negotiated during the annual contract renewal process to ensure they are negotiated in a manner that is at arms' length and reasonable. The independent Trustees are assisted in their annual evaluation of the Fund's investment advisory agreement by the Senior Officer and by independent legal counsel. In addition to meetings with Invesco Advisers and fund counsel, the independent Trustees also discuss the continuance of the investment advisory agreement and sub-advisory contracts in private sessions with the Senior Officer and independent legal counsel.

In evaluating the fairness and reasonableness of the Fund's investment advisory agreement and sub-advisory contracts, the Board considered, among other things, the factors discussed below. The Trustees also considered information provided in connection with fund reorganizations approved by the Trustees. The Trustees recognized that the advisory fees for the Invesco Funds include advisory fees that are the result of years of review and negotiation between the Trustees and Invesco Advisers as well as advisory fees previously approved by a different board that, at the time, was responsible for overseeing Morgan Stanley and Van Kampen funds, which have become Invesco Funds following the acquisition of the retail mutual fund business of Morgan Stanley. The Trustees' deliberations and conclusions in a particular year may be based in part on their deliberations and conclusions regarding these same arrangements throughout the year and in prior years. One Trustee may have weighed a particular piece of information or factor differently than another Trustee

The discussion below serves as the Senior Officer's independent written evaluation with respect to the Fund's investment advisory agreement as well as a discussion of the material factors and related conclusions that formed the basis for the Board's approval of the Fund's investment advisory agreement and sub-advisory contracts. Unless otherwise stated, this information is current as of June 20, 2012, and may not reflect consideration of factors that became known to the Board after that date, including, for example, changes to the Fund's performance, advisory fees, expense limitations and/or fee waivers.

#### Factors and Conclusions and Summary of Independent Written Fee Evaluation

#### A. Nature, Extent and Quality of Services Provided by Invesco Advisers and the Affiliated Sub-Advisers

The Board reviewed the advisory services provided to the Fund by Invesco Advisers under the Fund's investment advisory agreement, the performance of Invesco Advisers in providing these services, and the credentials and experience of the officers and employees of Invesco Advisers who provide these services, including the Fund's portfolio manager or managers, with whom the Sub-Committees met during the year. The Board's review of the qualifications of Invesco Advisers to provide advisory services included the Board's consideration of Invesco Advisers' performance and investment process oversight, independent credit analysis and investment risk management.

In determining whether to continue the Fund's investment advisory agreement, the Board considered the prior relationship between Invesco Advisers and the Fund, as well as the Board's knowledge of Invesco Advisers' operations, and concluded that it is beneficial to maintain the current relationship, in part because of such prior relationship and knowledge. The Board also considered services that Invesco Advisers and its affiliates provide to the Invesco Funds such as various back office support functions, equity and fixed income trading operations, internal audit, distribution and legal and compliance. The Board concluded that the nature, extent and quality of the services provided to the Fund by Invesco Advisers are appropriate and satisfactory and consistent with the terms of the Fund's investment advisory agreement.

The Board reviewed the services provided by the Affiliated Sub-Advisers under the sub-advisory contracts and the credentials and experience of the officers and employees of the Affiliated Sub-Advisers who provide these services. The Board noted that the Affiliated Sub-Advisers have offices and personnel that are located in financial centers around the world. As a result, the Affiliated Sub-Advisers can provide research and investment analysis on the markets and economies of various countries in which the Fund invests and make recommendations on securities of companies located in such countries. The Board concluded that the sub-advisory contracts benefit the Fund and its shareholders by permitting Invesco Advisers to use the resources and talents of the Affiliated Sub-Advisers in managing the Fund. The Board concluded that the nature, extent and quality of the services provided by the Affiliated Sub-Advisers are appropriate and satisfactory and consistent with the terms of the Fund's sub-advisory contracts.

#### B. Fund Performance

The Board considered Fund performance as a relevant factor in considering whether to approve

the investment advisory agreement. The Board did not view Fund performance as a relevant factor in considering whether to approve the sub-advisory contracts for the Fund, as no Affiliated Sub-Adviser currently manages assets of the Fund.

The Board compared the Fund's performance during the past one, three and five calendar years to the performance of funds in the Lipper performance universe and against the Lipper VA Underlying Funds - Large-Cap Growth Funds Index. The Board noted that performance of Series I shares of the Fund was in the fifth quintile of the performance universe for the one year period and the first quintile for the three and five year periods (the first quintile being the best performing funds and the fifth quintile being the worst performing funds). The Board noted that performance of Series I shares of the Fund was below the performance of the Index for the one year period and above the performance of the Index for the three and five year periods. Invesco Advisers presented an analysis to the Board that included an explanation of reasons for differences in performance relative to that of the universe and index, including differences between the Fund's investment strategies and those of peers. The Board discussed actions that Invesco Advisers had taken or was taking to address performance issues and Invesco Adviser's resources and responsiveness to performance concerns. These explanations provided a sound basis for understanding comparative performance and monitoring and addressing it going forward, and were part of the Board's overall conclusion about the nature, extent and quality of the services provided by Invesco Advisers. The Trustees also reviewed more recent Fund performance and this review did not change their conclusions.

#### C. Advisory and Sub-Advisory Fees and Fee Waivers

The Board compared the Fund's contractual advisory fee rate to the contractual advisory fee rates of funds in the Fund's Lipper expense group at a common asset level. The Board noted that the contractual advisory fee rate for Series I shares of the Fund was below the median contractual advisory fee rate of funds in the expense group. The Board also reviewed the methodology used by Lipper in providing expense group information, which includes using audited financial data from the most recent annual report of each fund in the expense group that was publicly available as of the end of the past calendar year and including only one fund per investment adviser. The Board noted that comparative data is as of varying dates, which may affect the comparability of data during times of market volatility.

The Board also compared the Fund's effective fee rate (the advisory fee after advisory fee waivers and before expense limitations/waivers) to the advisory fee rates of other mutual funds advised by Invesco Advisers and its affiliates with investment strategies comparable to those of the Fund. The Board noted that the Fund's rate was above the rate of the other mutual fund advised by Invesco Advisers with comparable investment strategies. The Board also noted that Invesco Advisers sub-advises two other mutual funds with investment strategies comparable to those of the Fund and that the sub-advisory rate was below the effective fee fate of the Fund.

Other than the mutual funds described above, the Board noted that Invesco Advisers and the Affiliated Sub-Advisers do not manage other mutual funds or client accounts in a manner substantially similar to the management of the Fund.

The Board noted that Invesco Advisers has contractually agreed to waive fees and/or limit expenses of the Fund through at least June 30, 2014 in an amount necessary to limit total annual operating expenses to a specified percentage of average daily net assets for each class of the Fund.

The Board also considered the services provided by the Affiliated Sub-Advisers pursuant to the sub-advisory contracts, as well as the allocation of fees between Invesco Advisers and the Affiliated Sub-Advisers pursuant to the sub-advisory contracts. The Board noted that Invesco Advisers provides services to sub-advised Invesco Funds, including oversight of the Affiliated Sub-Advisers as well as the additional services described above other than day-to-day portfolio management. The Board also noted that the sub-advisory fees have no direct effect on the Fund or its shareholders, as they are paid by Invesco Advisers to the Affiliated Sub-Advisers.

Based upon the information and considerations described above, the Board concluded that the Fund's advisory and sub-advisory fees are fair and reasonable.

### D. Economies of Scale and Breakpoints

The Board considered the extent to which there are economies of scale in the provision of advisory services to the Fund. The Board also considered whether the Fund benefits from economies of scale through contractual breakpoints in the Fund's advisory fee schedule and were assisted in their review by a report from the Senior Officer. The Board also noted that the Fund shares directly in economies of scale through lower fees charged by third party service providers based on the combined size of the Invesco Funds and other clients advised by Invesco Advisers. The Board noted that Invesco Advisers proposes sharing economies of scale in administration expenses by lowering per class administrative fees.

E. Profitability and Financial Resources The Board reviewed information from Invesco Advisers concerning the costs of the advisory and other services that Invesco Advisers and its affiliates provide to the Fund and the profitability of Invesco Advisers and its affiliates in providing these services for the year ended December 31, 2011. The Board reviewed with Invesco Advisers the methodology used to prepare the profitability information. The Board considered the profitability of Invesco Advisers in connection with managing the Fund and the Invesco Funds. The Board noted that although Invesco Advisers received a minimal amount of revenues from advising the Fund, Invesco Advisers and its subsidiaries did not make a profit from managing the Fund as a result of fee and expense waivers. The Board received and accepted information from Invesco Advisers demonstrating that

Invesco Advisers and each Affiliated Sub-Adviser are financially sound and have the resources necessary to perform their obligations under the investment advisory agreement and sub-advisory contracts.

#### F. Collateral Benefits to Invesco Advisers and its Affiliates

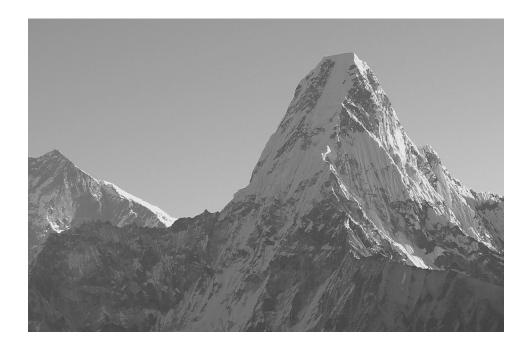

The Board considered various other benefits received by Invesco Advisers and its affiliates from the relationship with the Fund, including the fees received for their provision of administrative, transfer agency and distribution services to the Fund. The Board considered the performance of Invesco Advisers and its affiliates in providing these services and the organizational structure employed to provide these services. The Board also considered that these services are provided to the Fund pursuant to written contracts that are reviewed and approved on an annual basis by the Board; that the services are required for the operation of the Fund; that Invesco Advisers and its affiliates can provide services, the nature and quality of which are at least equal to those provided by others offering the same or similar services: and that the fees for such services are fair and reasonable in light of the usual and customary charges by others for services of the same nature and quality.

The Board considered the benefits realized by Invesco Advisers and the Affiliated Sub-Advisers as a result of portfolio brokerage transactions executed through "soft dollar" arrangements. The Board noted that soft dollar arrangements shift the payment obligation for research services from Invesco Advisers and the Affiliated Sub-Advisers to the Invesco Funds and therefore may reduce Invesco Advisers' and the Affiliated Sub-Advisers' expenses. The Board also considered periodic reports from the Chief Compliance Officer of the Invesco Funds demonstrating that these arrangements are consistent with regulatory requirements. The Board did not deem the soft dollar arrangements to be inappropriate.

The Board considered that the Fund's uninvested cash and cash collateral from any securities lending arrangements may be invested in money market funds advised by Invesco Advisers pursuant to procedures approved by the Board. The Board noted that Invesco Advisers receives advisory fees from these affiliated money market funds attributable to such investments, although Invesco Advisers has contractually agreed to waive through varying periods the advisory fees payable by the Invesco Funds. The waiver is in an amount equal to 100% of the net advisory fee Invesco Advisers receives from the affiliated money market funds with respect to the Fund's investment in the affiliated money market funds of uninvested cash, but not cash collateral. The Board concluded that the Fund's investment of uninvested cash and cash collateral from any securities lending arrangements in the affiliated money market funds is in the best interests of the Fund and its shareholders.

The Board also considered use of an affiliated broker to execute certain trades for the Fund and that such trades are executed in compliance with rules under the Investment Company Act of 1940, as amended.

The Fund provides a complete list of its holdings four times in each fiscal year, at the quarter-ends. For the second and fourth quarters, the lists appear in the Fund's semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the lists with the Securities and Exchange Commission (SEC) on Form N-Q. The Fund's Form N-Q filings are available on the SEC website, sec.gov. Copies of the Fund's Forms N-Q may be reviewed and copied at the SEC Public Reference Room in Washington, D.C. You can obtain information on the operation of the Public Reference Room, including information about duplicating fee charges, by calling 202 551 8090 or 800 732 0330, or by electronic request at the following email address: publicinfo@sec.gov. The SEC file numbers for the Fund are 811-07452 and 033-57340. The Fund's most recent portfolio holdings, as filed on Form N-Q, have also been made available to insurance companies issuing variable annuity contracts and variable life insurance policies ("variable products") that invest in the Fund.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 959 4246 or at invesco.com/proxyguidelines. The information is also available on the SEC website, sec.gov.

Information regarding how the Fund voted proxies related to its portfolio securities during the 12 months ended June 30, 2012, is available at invesco.com/proxysearch. The information is also available on the SEC website, sec.gov.

Invesco Advisers, Inc. is an investment adviser; it provides investment advisory services to individual and institutional clients and does not sell securities. Invesco Distributors, Inc. is the US distributor for Invesco Ltd.'s retail mutual funds, exchange-traded funds and institutional money market funds. Both are wholly owned, indirect subsidiaries of Invesco Ltd.

This report must be accompanied or preceded by a currently effective Fund prospectus and variable product prospectus, which contain more complete information, including sales charges and expenses. Investors should read each carefully before investing.

## **Fund Performance**

#### Performance summary

#### Fund vs. Indexes

Cumulative total returns, 12/31/11 to 6/30/12, excluding variable product issuer charges. If variable product issuer charges were included, returns would be lower.

| Series I Shares  | 1.84% |
|--|-------|
| Series II Shares   | 1.69  |
| Barclays U.S. Aggregate Index <sup>▼</sup> (Broad Market Index)                | 2.37  |
| Barclays U.S. Government Bond Index <sup>▼</sup> (Style-Specific Index)        | 1.48  |
| Lipper VUF General U.S. Government Funds Index <sup>▼</sup> (Peer Group Index) | 2.57  |
| Source(s): ▼Lipper Inc.  |       |

The **Barclays U.S. Aggregate Index** is an unmanaged index considered representative of the US investment-grade, fixed-rate bond market.

The **Barclays U.S. Government Bond Index** is an unmanaged index considered representative of fixed income obligations issued by the US Treasury, government agencies and quasi-federal corporations.

The **Lipper VUF General U.S. Government Funds Index** is an unmanaged index considered representative of general US government variable insurance underlying funds tracked by Lipper.

The Fund is not managed to track the performance of any particular index, including the index(es) defined here, and consequently, the performance of the Fund may deviate significantly from the performance of the index(es).

A direct investment cannot be made in an index. Unless otherwise indicated, index results include reinvested dividends, and they do not reflect sales charges. Performance of the peer group, if applicable, reflects fund expenses; performance of a market index does not.

#### The performance of the Fund's Series I and Series II share classes will differ primarily due to different class expenses.

The performance data quoted represent past performance and cannot guarantee comparable future results; current performance may be lower or higher. Please contact your variable product issuer or financial adviser for the most recent month-end variable product performance. Performance figures reflect Fund expenses, reinvested distributions and changes in net asset value. Investment return and principal value will fluctuate so that you may have a gain or loss when you sell shares.

The net annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for Series I and Series II shares was 0.70% and 0.95%, respectively.<sup>1</sup> The total annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for Series I and Series II shares was 0.75% and 1.00%, respectively. The expense ratios presented above may vary from the expense ratios presented in other sections of this report that are based on expenses incurred during the period covered by this report.

**Invesco V.I. Government Securities** Fund, a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds), is currently offered through insurance companies issuing variable products. You cannot purchase shares of the Fund directly. Performance figures given represent the Fund and are not intended to reflect actual variable product values. They do not reflect sales charges, expenses and fees assessed in connection with a variable product. Sales charges, expenses and fees, which are determined by the variable product issuers, will vary and will lower the total return.

The most recent month-end performance data at the Fund level, excluding variable product charges, is available at 800 451 4246. As mentioned above, for the most recent month-end performance including variable product charges, please contact your variable product issuer or financial adviser.

Notes to Schedule of Investments:

<sup>(a)</sup> Interest or dividend rate is redetermined periodically. Rate shown is the rate in effect on June 30, 2012.

<sup>(b)</sup> Security purchased on a forward commitment basis. This security is subject to dollar roll transactions. See Note 11.

(c) Security purchased or received in a transaction exempt from registration under the Securities Act of 1933, as amended. The security may be resold pursuant to an exemption from registration under the 1933 Act, typically to qualified institutional buyers. The aggregate value of these securities at June 30, 2012 was \$44,841,769, which represented 3.62% of the Fund's Net Assets.

<sup>(d)</sup> All or a portion of the value was pledged as collateral to cover margin requirements for open futures contracts. See Note 1J and Note 4.

(e) Principal amount of security and interest payments are adjusted for inflation.

<sup>(f)</sup> The money market fund and the Fund are affiliated by having the same investment adviser.

# Notes to Financial Statements

June 30, 2012 (Unaudited)

### **NOTE 1—Significant Accounting Policies**

Invesco V.I. Government Securities Fund (the "Fund") is a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"). The Trust is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end series management investment company consisting of twenty-five separate portfolios, (each constituting a "Fund"). The assets, liabilities and operations of each portfolio are accounted for separately. Information presented in these financial statements pertains only to the Fund. Matters affecting each Fund or class will be voted on exclusively by the shareholders of such Fund or class. Current Securities and Exchange Commission ("SEC") guidance, however, requires participating insurance companies offering separate accounts to vote shares proportionally in accordance with the instructions of the contract owners whose investments are funded by shares of each Fund or class.

The Fund's investment objective is total return, comprised of current income and capital appreciation.

The Fund currently offers two classes of shares, Series I and Series II, both of which are offered to insurance company separate accounts funding variable annuity contracts and variable life insurance policies ("variable products").

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements.

A. Security Valuations — Securities, including restricted securities, are valued according to the following policy.

Debt obligations (including convertible bonds) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate, yield, quality, type of issue, coupon rate, maturity, individual trading characteristics and other market data. Debt securities are subject to interest rate and credit risks. In addition, all debt securities involve some risk of default with respect to interest and/or principal payments.

A security listed or traded on an exchange (except convertible bonds) is valued at its last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded, or lacking any sales or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued by an independent pricing service they may be considered fair valued. Futures contracts are valued at the final settlement price set by an exchange on which they are principally traded. Listed options are valued at the mean between the last bid and ask prices from the exchange on which they are principally traded. Options not listed on an exchange are valued by an

independent source at the mean between the last bid and ask prices. For purposes of determining net asset value per share, futures and option contracts generally are valued 15 minutes after the close of the customary trading session of the New York Stock Exchange ("NYSE").

Investments in open-end and closed-end registered investment companies that do not trade on an exchange are valued at the end of day net asset value per share. Investments in open-end and closed-end registered investment companies that trade on an exchange are valued at the last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded.

Foreign securities (including foreign exchange contracts) are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the NYSE. If market quotations are available and reliable for foreign exchange traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that are significant and make the closing price unreliable, the Fund may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith using procedures approved by the Board of Trustees. Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trade is not the current value as of the close of the NYSE. Foreign securities meeting the approved degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes, potential for sharply devalued currencies and high inflation, political and economic upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available or are unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust's officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/ask quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general economic conditions, interest rates, investor perceptions and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

**B.** Securities Transactions and Investment Income — Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income is recorded on the accrual basis from settlement date. Paydown gains and losses on mortgage and asset-backed securities are recorded as adjustments to interest income. Dividend income (net of withholding tax, if any) is recorded on the ex-dividend date. Bond premiums and discounts are amortized and/or accreted for financial reporting purposes.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Statement of Operations as realized gain (loss) for investments no longer held and as unrealized gain (loss) for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of net realized and unrealized gain (loss) from investment securities reported in the Statement of Operations and the Statement of Changes in Net Assets and the net realized and unrealized gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Fund's net asset value and, accordingly, they reduce the Fund's total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Statement of Changes in Net Assets, or the net investment income per share and ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser. The Fund allocates income and realized and unrealized capital gains and losses to a class based on the relative net assets of each class.

- **C. Country Determination** For the purposes of making investment selection decisions and presentation in the Schedule of Investments, the investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues and the country that has the primary market for the issuer's securities, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the issuer maintains 50% or more of its assets, the type of security, financial guarantees and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.
- **D. Distributions** Distributions from income and net realized capital gain, if any, are generally declared and paid to separate accounts of participating insurance companies annually and recorded on the ex-dividend date.
- **E.** Federal Income Taxes The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code necessary to qualify as a regulated investment company and to distribute substantially all of the Fund's taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the financial statements.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally, the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

F. Expenses — Fees provided for under the Rule 12b-1 plan of a particular class of the Fund and which are directly attributable to that class are charged to the operations of such class. All other expenses are allocated among the classes based on relative net assets.

- **G. Accounting Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the financial statements are released to print.
- **H. Indemnifications** Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.
- I. Dollar Rolls and Forward Commitment Transactions The Fund may enter into dollar roll transactions to enhance the Fund's performance. The Fund executes its dollar roll transactions in the *to be announced* ("TBA") market whereby the Fund makes a forward commitment to purchase a security and, instead of accepting delivery, the position is offset by the sale of the security with a simultaneous agreement to repurchase at a future date.

The Fund accounts for dollar roll transactions as purchases and sales and realizes gains and losses on these transactions. These transactions increase the Fund's portfolio turnover rate. The Fund will segregate liquid assets in an amount equal to its dollar roll commitments. Dollar roll transactions are considered borrowings under the 1940 Act.

Dollar roll transactions involve the risk that a counter-party to the transaction may fail to complete the transaction. If this occurs, the Fund may lose the opportunity to purchase or sell the security at the agreed upon price. Dollar rolls transactions also involve the risk that the value of the securities retained by the Fund may decline below the price of the securities that the Fund has sold but is obligated to purchase under the agreement.

- J. Futures Contracts — The Fund may enter into futures contracts to manage exposure to interest rate, equity and market price movements and/or currency risks. A futures contract is an agreement between two parties to purchase or sell a specified underlying security, currency or commodity (or delivery of a cash settlement price, in the case of an index future) for a fixed price at a future date. The Fund currently invests only in exchange-traded futures and they are standardized as to maturity date and underlying financial instrument. Initial margin deposits required upon entering into futures contracts are satisfied by the segregation of specific securities or cash as collateral at the futures commission merchant (broker). During the period the futures contracts are open, changes in the value of the contracts are recognized as unrealized gains or losses by recalculating the value of the contracts on a daily basis. Subsequent or variation margin payments are received or made depending upon whether unrealized gains or losses are incurred. These amounts are reflected as receivables or payables on the Statement of Assets and Liabilities. When the contracts are closed or expire, the Fund recognizes a realized gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the Fund's basis in the contract. The net realized gain (loss) and the change in unrealized gain (loss) on futures contracts held during the period is included on the Statement of Operations. The primary risks associated with futures contracts are market risk and the absence of a liquid secondary market. If the Fund were unable to liquidate a futures contract and/or enter into an offsetting closing transaction, the Fund would continue to be subject to market risk with respect to the value of the contracts and continue to be required to maintain the margin deposits on the futures contracts. Futures contracts have minimal counterparty risk since the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default. Risks may exceed amounts recognized in the Statement of Assets and Liabilities.
- **K.** Other Risks The Funds may invest in obligations issued by agencies and instrumentalities of the U.S. Government that may vary in the level of support they receive from the government. The government may choose not to provide financial support to government sponsored agencies or instrumentalities if it is not legally obligated to do so. In this case, if the issuer defaulted, the underlying fund holding securities of such issuer might not be able to recover its investment from the U.S. Government. Many securities purchased by the Fund are not guaranteed by the U.S. Government.
- L. Collateral To the extent the Fund has pledged or segregated a security as collateral and that security is subsequently sold, it is the Fund's practice to replace such collateral no later than the next business day.

#### NOTE 2—Advisory Fees and Other Fees Paid to Affiliates

The Trust has entered into a master investment advisory agreement with Invesco Advisers, Inc. (the "Adviser" or "Invesco"). Under the terms of the investment advisory agreement, the Fund pays an advisory fee to the Adviser based on the annual rate of the Fund's average daily net assets as follows:

| Average Daily Net Assets | Rate  |
|--------------------------|-------|
| First \$250 million      | 0.50% |
| Over \$250 million       | 0.45% |

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the "Affiliated Sub-Advisers") the Adviser, not the Fund, may pay 40% of the fees paid to the Adviser to any such Affiliated Sub-Adviser(s) that provide discretionary investment management services to the Fund based on the percentage of assets allocated to such Sub-Adviser(s).

Effective July 1, 2012, the Adviser has contractually agreed, through at least April 30, 2013, to waive advisory fees and/or reimburse expenses of all shares to the extent necessary to limit total annual fund operating expenses after fee waivers and/or expense reimbursements (excluding certain items discussed below) of Series I shares to 0.70% and Series II shares to 0.95% of average daily net assets. Prior to July 1, 2012, the Adviser had contractually agreed to waive advisory fees and/or reimburse expenses of all shares to the extent necessary to limit total annual fund operating expenses after fee waivers and/or reimburse expenses after fee waivers and/or expense after fee waivers

reimbursements (excluding certain items discussed below) of Series I to 0.60% and Series II to 0.85% of average daily net assets. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the total annual fund operating expenses after fee waivers and/or expense reimbursements to exceed the numbers reflected above: (1) interest; (2) taxes; (3) dividend expense on short sales; (4) extraordinary or non-routine items, including litigation expenses; and (5) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. Unless the Board of the Trustees and Invesco mutually agree to amend or continue the fee waiver agreement, it will terminate on April 30, 2013. To the extent that the annualized expense ratio does not exceed the expense limitation, the adviser will retain its ability to be reimbursed for such fee waiver or reimbursement prior to the end of each fiscal year.

Further, the Adviser has contractually agreed, through at least June 30, 2013, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash in such affiliated money market funds. For the six months ended June 30, 2012, the Adviser waived advisory fees of \$996,415.

The Trust has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco a fee for costs incurred in providing accounting services and fund administrative services to the Fund and to reimburse Invesco for administrative services fees paid to insurance companies that have agreed to provide services to the participants of separate accounts. These administrative services provided by the insurance companies may include, among other things: the printing of prospectuses, financial reports and proxy statements and the delivery of the same to existing participants; the maintenance of master accounts; the facilitation of purchases and redemptions requested by the participants; and the servicing of participants' accounts. Pursuant to such agreement, for the six months ended June 30, 2012, Invesco was paid \$146,445 for accounting and fund administrative services and reimbursed \$1,499,550 for services provided by insurance companies.

The Trust has entered into a transfer agency and service agreement with Invesco Investment Services, Inc. ("IIS") pursuant to which the Fund has agreed to pay IIS a fee for providing transfer agency and shareholder services to the Fund and reimburse IIS for certain expenses incurred by IIS in the course of providing such services. For the six months ended June 30, 2012, expenses incurred under the agreement are shown in the Statement of Operations as *Transfer agent fees*.

The Trust has entered into a master distribution agreement with Invesco Distributors, Inc. ("IDI") to serve as the distributor for the Fund. The Trust has adopted a plan pursuant to Rule 12b-1 under the 1940 Act with respect to the Fund's Series II shares (the "Plan"). The Fund, pursuant to the Plan, pays IDI compensation at the annual rate of 0.25% of the Fund's average daily net assets of Series II shares. Of the Plan payments, up to 0.25% of the average daily net assets of the Series II shares may be paid to insurance companies who furnish continuing personal shareholder services to customers who purchase and own Series II shares of the Fund. For the six months ended June 30, 2012, expenses incurred under the Plan are detailed in the Statement of Operations as *Distribution fees*.

Certain officers and trustees of the Trust are officers and directors of the Adviser, IIS and/or IDI.

#### **NOTE 3—Additional Valuation Information**

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3) generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

- Level 1 Prices are determined using quoted prices in an active market for identical assets.
- Level 2 Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.
- Level 3 Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of June 30, 2012. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

|                                      | Level 1      | Level 2         | Level 3 | Total           |
|--------------------------------------|--------------|-----------------|---------|-----------------|
| Equity Securities                    | \$21,077,692 | \$              | \$      | \$ 21,077,692   |
| U.S. Treasury Securities             | —            | 147,412,640     |         | 147,412,640     |
| U.S. Government Sponsored Securities | _            | 1,076,954,263   |         | 1,076,954,263   |
| Corporate Debt Securities            | _            | 21,515,882      |         | 21,515,882      |
| Foreign Debt Securities              |              | 27,283,374      |         | 27,283,374      |
| Foreign Sovereign Debt Securities    | —            | 4,834,486       |         | 4,834,486       |
|                                      | \$21,077,692 | \$1,278,000,645 | \$      | \$1,299,078,337 |
| Futures*                             | 2,431,359    | —               |         | 2,431,359       |
| Total Investments                    | \$23,509,051 | \$1,278,000,645 | \$      | \$1,301,509,696 |

\* Unrealized appreciation.

Invesco V.I. Government Securities Fund

#### **NOTE 4—Derivative Investments**

#### Value of Derivative Instruments at Period-End

The table below summarizes the value of the Fund's derivative instruments, detailed by primary risk exposure, held as of June 30, 2012:

|                                  |             | alue        |
|----------------------------------|-------------|-------------|
| Risk Exposure/Derivative Type    | Assets      | Liabilities |
| Interest rate risk               |             |             |
| Futures contracts <sup>(a)</sup> | \$2,958,330 | \$(526,971) |

(a) Includes cumulative appreciation (depreciation) of futures contracts. Only current day's variation margin receivable (payable) is reported within the Statement of Assets and Liabilities.

#### Effect of Derivative Instruments for the six months ended June 30, 2012

The table below summarizes the gains on derivative instruments, detailed by primary risk exposure, recognized in earnings during the period:

|   | Location of Gain on<br>Statement of Operations |
|---|--|
|   | Futures*                                       |
| Realized Gain<br>Interest rate risk                     | \$4,121,947                                    |
| Change in Unrealized Appreciation<br>Interest rate risk | 1,090,200                                      |
| Total   | \$5,212,147                                    |

\* The average notional value of futures outstanding during the period was \$585,487,344.

### **Open Futures Contracts**

| Long Contracts              | Number of<br>Contracts | Expiration<br>Month | Notional<br>Value | Unrealized<br>Appreciation<br>(Depreciation) |
|-----------------------------|------------------------|---------------------|-------------------|--|
| U.S. Treasury 2 Year Notes  | 623                    | September-2012      | \$ 137,176,813    | \$ (44,214)                                  |
| U.S. Treasury 10 Year Notes | 1,209                  | September-2012      | 161,250,375       | 797,415                                      |
| Ultra U.S. Treasury Bonds   | 847                    | September-2012      | 141,316,656       | 2,121,067                                    |
| Subtotal                    |                        |                     | \$ 439,743,844    | \$2,874,268                                  |
| Short Contracts             |                        |                     |                   |  |
| U.S. Treasury 5 Year Notes  | 164                    | September-2012      | \$ (20,330,875)   | \$ (37,501)                                  |
| U.S. Treasury 30 Year Bonds | 663                    | September-2012      | (98,103,281)      | (405,408)                                    |
| Subtotal                    |                        |                     | \$(118,434,156)   | \$ (442,909)                                 |
| Total                       |                        |                     | \$ 321,309,688    | \$2,431,359                                  |

#### NOTE 5—Trustees' and Officers' Fees and Benefits

"Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund. Trustees have the option to defer compensation payable by the Fund, and "Trustees' and Officers' Fees and Benefits" also include amounts accrued by the Fund to fund such deferred compensation amounts. Those Trustees who defer compensation have the option to select various Invesco Funds in which their deferral accounts shall be deemed to be invested. Finally, certain current Trustees are eligible to participate in a retirement plan that provides for benefits to be paid upon retirement to Trustees over a period of time based on the number of years of service. The Fund may have certain former Trustees who also participate in a retirement plan and receive benefits under such plan. "Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to fund such retirement benefits. Obligations under the deferred compensation and retirement plans represent unsecured claims against the general assets of the Fund.

#### **NOTE 6—Cash Balances**

The Fund may borrow for leveraging in an amount up to 5% of the Fund's total assets (excluding the amount borrowed) at the time the borrowing is made. In doing so, the Fund is permitted to temporarily carry a negative or overdrawn balance in its account with State Street Bank and Trust Company, the custodian bank. Such balances, if any at period end, are shown in the Statement of Assets and Liabilities under the payable caption *Amount due custodian*. To compensate the custodian bank for such overdrafts, the overdrawn Fund may either (1) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (2) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate. A Fund may not purchase additional securities when any borrowings from banks exceed 5% of the Fund's total assets.

#### **NOTE 7—Tax Information**

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the Fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryforward) under income tax regulations. The tax character of distributions paid during the year and the tax components of net assets will be reported at the Fund's fiscal year-end.

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. The Regulated Investment Company Modernization Act of 2010 (the "Act") eliminated the eight-year carryover period for capital losses that arise in taxable years beginning after its enactment date of December 22, 2010. Consequently, these capital losses can be carried forward for an unlimited period. However, capital losses with an expiration period may not be used to offset capital gains until all net capital losses without an expiration date have been utilized. Additionally, post-enactment capital loss carryforward in their character as either short-term or long-term capital losses instead of as short-term capital losses as under prior law. The ability to utilize capital loss carryforward in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund had a capital loss carryforward as of December 31, 2011, which expires as follows:

#### **Capital Loss Carryforward\***

| Expiration        | Short-Term  | Long-Term | Total       |
|-------------------|-------------|-----------|-------------|
| December 31, 2015 | \$3,869,214 | \$        | \$3,869,214 |
| December 31, 2017 | 4,362,785   | —         | 4,362,785   |
|                   | \$8,231,999 | \$—       | \$8,231,999 |

\* Capital loss carryforward as of the date listed above is reduced for limitations, if any, to the extent required by the Internal Revenue Code. To the extent that unrealized gains as of May 2, 2011, the date of reorganization of Invesco Van Kampen V.I. Government Fund into the Fund are realized on securities held in each fund at such date of reorganization, the capital loss carryforward may be further limited for up to five years from the date of the reorganization.

#### **NOTE 8—Investment Securities**

The aggregate amount of investment securities (other than short-term securities, U.S. Treasury obligations and money market funds, if any) purchased and sold by the Fund during the six months ended June 30, 2012 was \$827,983,647 and \$854,787,408, respectively. During the same period, purchases and sales of U.S. Treasury obligations were \$62,010,945 and \$65,224,188, respectively. Cost of investments on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed federal income tax reporting period end.

#### Unrealized Appreciation (Depreciation) of Investment Securities on a Tax Basis

| Aggregate unrealized appreciation of investment securities   |              |  |  |  |
|--|--------------|--|--|--|
| Aggregate unrealized (depreciation) of investment securities | (2,364,861)  |  |  |  |
| Net unrealized appreciation of investment securities         | \$37,001,852 |  |  |  |

Cost of investments for tax purposes is \$1,262,076,485.

| Net increase (decrease) in share activity              | (3,799,450) | \$ (47,103,686)                                  | 10,058,640   | \$ 107,821,530       |  |  |

(a) There are entities that are record owners of more than 5% of the outstanding shares of the Fund and in the aggregate own 86% of the outstanding shares of the Fund. The Fund and the Fund's principal underwriter or adviser, are parties to participation agreements with these entities whereby these entities sell units of interest in separate accounts funding variable products that are invested in the Fund. The Fund, Invesco and/or Invesco affiliates may make payments to these entities, which are considered to be related to the Fund, for providing services to the Fund, Invesco and/or Invesco affiliates including but not limited to services such as, securities brokerage, third party record keeping and account servicing and administrative services. The Fund has no knowledge as to whether all or any portion of the shares owned of record by these entities are also owned beneficially.

<sup>b)</sup> As of the opening of business on May 2, 2011 the Fund acquired all the net assets of Invesco Van Kampen V.I. Government Fund (the "Target Fund") pursuant to a plan of reorganization approved by the Trustees of the Fund on November 10, 2010 and by the shareholders of the Target Fund on April 1, 2011. The acquisition was accomplished by a tax-free exchange of 24,886,352 shares of the Fund for 32,516,244 shares outstanding of the Target Fund as of the close of business on April 29, 2011. Each class of the Target Fund was exchanged for the like class of shares of the Fund based on the relative net asset value of the Target Fund to the net asset value of the Fund as of the close of business on April 29, 2011. The Target Fund's net assets at that date of \$289,255,661, including \$4,992,514 of unrealized appreciation, were combined with those of the Fund. The net assets of the Fund immediately before the acquisition were \$1,059,348,706. The net assets of the Fund subsequent to the acquisition were \$1,348,604,367. Assuming the reorganization had been completed on January 1, 2011, the beginning of the annual reporting period, the pro forma results of operations for the year ended December 31, 2011 are as follows:

| Net investment income                          | \$ 28,166,317 |
|--|---------------|
| Net realized/unrealized gains                  | 72,785,041    |
| Change in net assets resulting from operations | \$100,951,358 |

The combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, and it is not practicable to separate the amounts of revenue and earnings of the Target Fund that have been included in the Fund's Statement of Operations since May 2, 2011.

### **NOTE 10—Financial Highlights**

The following schedule presents financial highlights for a share of the Fund outstanding throughout the periods indicated.

<sup>(a)</sup> Calculated using average shares outstanding.

(b) Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Total returns are not annualized for periods less than one year, if applicable, and do not reflect charges assessed in connection with a variable product, which if included would reduce total returns.

(c) Portfolio turnover is calculated at the fund level and is not annualized for periods less than one year, if applicable. For the period ended December 31, 2011, the portfolio turnover calculation excludes the value of securities purchased of \$309,171,077 and sold of \$25,033,352 in the effort to realign the Fund's portfolio holdings after the reorganization of Invesco Van Kampen V.I. Government Fund into the Fund.

(d) Ratios are annualized and based on average daily net assets (000's) of \$958,651 and \$278,302 for Series I and Series II shares, respectively.

# Calculating your ongoing Fund expenses

### Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service fees (12b-1); and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

The actual and hypothetical expenses in the examples below do not represent the effect of any fees or other expenses assessed in connection with a variable product; if they did, the expenses shown would be higher while the ending account values shown would be lower.

#### **Actual expenses**

The table below provides information about actual account values and actual expenses. You may use the information in this table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Actual Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical example for comparison purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the hypothetical information is useful in comparing ongoing costs, and will not help you determine the relative total costs of owning different funds.

|           |  | ACTUAL HYPOTHETICAL<br>(5% annual return before<br>expenses) |        |                                       |   |       |
|-----------|--|--|--------|---------------------------------------|---|-------|
| Class     | Beginning<br>Account Value<br>(01/01/12) | EndingExpensesAccount ValuePaid During(06/30/12)1Period2.3   |        | Ending<br>Account Value<br>(06/30/12) | Annualized<br>Expense<br>Ratio <sup>2</sup> |       |
| Series I  | \$1,000.00                               | \$1,018.40   | \$3.01 | \$1,021.88                            | \$3.02                                      | 0.60% |
| Series II | 1,000.00                                 | 1,016.90   | 4.26   | 1,020.64                              | 4.27  | 0.85  |

<sup>1</sup> The actual ending account value is based on the actual total return of the Fund for the period January 1, 2012 through June 30, 2012, after actual expenses and will differ from the hypothetical ending account value which is based on the Fund's expense ratio and a hypothetical annual return of 5% before expenses.

<sup>2</sup> Expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by 182/366 to reflect the most recent fiscal half year. Effective July 1, 2012, the adviser has contractually agreed to waive advisory fees and/or reimburse expenses to the extent necessary to limit Total Annual Fund Operating Expense of Series I and Series II shares to 0.70% and 0.95% for series I and Series II shares, respectively. The annualized expense ratios restated as if these agreements had been in effect throughout the entire most recent fiscal half year are 0.70% and 0.95% for Series I and Series II shares, respectively.

<sup>3</sup> The actual expenses paid restated as if the changes discussed above had been in effect throughout the entire most recent fiscal half year are \$3.51 and \$4.76 for Series I and Series II shares, respectively.

<sup>4</sup> The hypothetical expenses paid restated as if the changes discussed above had been in effect throughout the entire most recent fiscal half year are \$3.52 and \$4.77 for Series I and Series II shares, respectively.

# Approval of Investment Advisory and Sub-Advisory Contracts

The Board of Trustees (the Board) of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) is required under the Investment Company Act of 1940, as amended, to approve annually the renewal of the Invesco V.I. Government Securities Fund (the Fund) investment advisory agreement with Invesco Advisers, Inc. (Invesco Advisers) and the Master Intergroup Sub-Advisory Contract for Mutual Funds (the sub-advisory contracts) with Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the Affiliated Sub-Advisers). During contract renewal meetings held on June 19-20, 2012, the Board as a whole, and the disinterested or "independent" Trustees, who comprise 80% of the Board, voting separately, approved the continuance of the Fund's investment advisory agreement and the sub-advisory contracts for another year, effective July 1, 2012. In doing so, the Board considered the process that it follows in reviewing and approving the Fund's investment advisory agreement and sub-advisory contracts and the information that it is provided. The Board determined that the Fund's investment advisory agreement and the sub-advisory contracts are in the best interests of the Fund and its shareholders and the compensation to Invesco Advisers and the Affiliated Sub-Advisers under the agreements is fair and reasonable.

# **The Board's Fund Evaluation Process**

The Board's Investments Committee has established three Sub-Committees, each of which is primarily responsible for overseeing the management of a number of the series portfolios of the funds advised by Invesco Advisers (the Invesco Funds). The Sub-Committees meet throughout the year to review the performance of their assigned funds, including reviewing materials prepared under the direction of the independent Senior Officer, an officer of the Invesco Funds who reports directly to the independent Trustees. Over the course of each year, the Sub-Committees meet with portfolio managers for their assigned Invesco Funds and other members of management to review the performance, investment objective(s), policies, strategies, limitations and investment risks of these funds. The Sub-Committees meet regularly and at designated contract renewal meetings each year to conduct a review of the performance, fees, expenses and other matters related to their assigned Invesco Funds. Each Sub-Committee recommends to the Investments Committee, which in turn recommends to the full Board, whether and on

what terms to approve the continuance of each Invesco Fund's investment advisory agreement and sub-advisory contracts for another year.

During the contract renewal process, the Trustees receive comparative performance and fee data regarding the Invesco Funds prepared by Invesco Advisers and an independent company, Lipper Inc. (Lipper). The Trustees also receive an independent written evaluation from the Senior Officer. The Senior Officer's evaluation is prepared as part of his responsibility to manage the process by which the Invesco Funds' proposed management fees are negotiated during the annual contract renewal process to ensure they are negotiated in a manner that is at arms' length and reasonable. The independent Trustees are assisted in their annual evaluation of the Fund's investment advisory agreement by the Senior Officer and by independent legal counsel. In addition to meetings with Invesco Advisers and fund counsel, the independent Trustees also discuss the continuance of the investment advisory agreement and sub-advisory contracts in private sessions with the Senior Officer and independent legal counsel.

In evaluating the fairness and reasonableness of the Fund's investment advisory agreement and sub-advisory contracts, the Board considered, among other things, the factors discussed below. The Trustees recognized that the advisory fees for the Invesco Funds include advisory fees that are the result of years of review and negotiation between the Trustees and Invesco Advisers as well as advisory fees previously approved by a different board that, at the time, was responsible for overseeing Morgan Stanley and Van Kampen funds, which have become Invesco Funds following the acquisition of the retail mutual fund business of Morgan Stanley. The Trustees' deliberations and conclusions in a particular year may be based in part on their deliberations and conclusions regarding these same arrangements throughout the year and in prior years. One Trustee may have weighed a particular piece of information or factor differently than another Trustee.

The discussion below serves as the Senior Officer's independent written evaluation with respect to the Fund's investment advisory agreement as well as a discussion of the material factors and related conclusions that formed the basis for the Board's approval of the Fund's investment advisory agreement and sub-advisory contracts. Unless otherwise stated, this information is current as of June 20, 2012, and may not reflect consideration of factors that became known to the Board after that date, including, for example, changes to the Fund's performance, advisory fees, expense limitations and/or fee waivers.

# Factors and Conclusions and Summary of Independent Written Fee Evaluation

### A. Nature, Extent and Quality of Services Provided by Invesco Advisers and the Affiliated Sub-Advisers

The Board reviewed the advisory services provided to the Fund by Invesco Advisers under the Fund's investment advisory agreement, the performance of Invesco Advisers in providing these services, and the credentials and experience of the officers and employees of Invesco Advisers who provide these services, including the Fund's portfolio manager or managers, with whom the Sub-Committees met during the year. The Board's review of the qualifications of Invesco Advisers to provide advisory services included the Board's consideration of Invesco Advisers' performance and investment process oversight, independent credit analysis and investment risk management.

In determining whether to continue the Fund's investment advisory agreement, the Board considered the prior relationship between Invesco Advisers and the Fund, as well as the Board's knowledge of Invesco Advisers' operations, and concluded that it is beneficial to maintain the current relationship, in part because of such prior relationship and knowledge. The Board also considered services that Invesco Advisers and its affiliates provide to the Invesco Funds such as various back office support functions, equity and fixed income trading operations, internal audit, distribution and legal and compliance. The Board concluded that the nature, extent and quality of the services provided to the Fund by Invesco Advisers are appropriate and satisfactory and consistent with the terms of the Fund's investment advisory agreement.

The Board reviewed the services provided by the Affiliated Sub-Advisers under the sub-advisory contracts and the credentials and experience of the officers and employees of the Affiliated Sub-Advisers who provide these services. The Board noted that the Affiliated Sub-Advisers have offices and personnel that are located in financial centers around the world. As a result, the Affiliated Sub-Advisers can provide research and investment analysis on the markets and economies of various countries in which the Fund invests and make recommendations on securities of companies located in such countries. The Board concluded that the sub-advisory contracts benefit the Fund and its shareholders by permitting Invesco Advisers to use the resources and talents of the Affiliated Sub-Advisers in managing the Fund. The Board concluded that the

nature, extent and quality of the services provided by the Affiliated Sub-Advisers are appropriate and satisfactory and consistent with the terms of the Fund's sub-advisory contracts.

### B. Fund Performance

The Board considered Fund performance as a relevant factor in considering whether to approve the investment advisory agreement. The Board did not view Fund performance as a relevant factor in considering whether to approve the sub-advisory contracts for the Fund, as no Affiliated Sub-Adviser currently manages assets of the Fund.

The Board compared the Fund's performance during the past one, three and five calendar years to the performance of funds in the Lipper performance universe and against the Lipper VA Underlying Funds - General U.S. Government Funds Index. The Board noted that performance of Series I shares of the Fund was in the third quintile of its performance universe for the one year period, the fourth quintile for the three year period and the third quintile for the five year period (the first quintile being the best performing funds and the fifth quintile being the worst performing funds). The Board noted that performance of Series I shares of the Fund was below the performance of the Index for the one and three year periods and above the Index for the five year period. The Trustees also reviewed more recent Fund performance and this review did not change their conclusions.

# C. Advisory and Sub-Advisory Fees and Fee Waivers

The Board compared the Fund's contractual advisory fee rate to the contractual advisory fee rates of funds in the Fund's Lipper expense group at a common asset level. The Board noted that the contractual advisory fee rate for Series I shares of the Fund was below the median contractual advisory fee rate of funds in its expense group. The Board also reviewed the methodology used by Lipper in providing expense group information, which includes using audited financial data from the most recent annual report of each fund in the expense group that was publicly available as of the end of the past calendar year and including only one fund per investment adviser. The Board noted that comparative data is as of varying dates, which may affect the comparability of data during times of market volatility.

The Board noted that Invesco Advisers and the Affiliated Sub-Advisers do not advise other mutual funds or client accounts with investment strategies comparable to those of the Fund.

The Board noted that Invesco Advisers has contractually agreed to waive fees and/or limit expenses of the Fund through at least April 30, 2013 in an amount necessary to limit total annual operating expenses to a specified percentage of average daily net assets for each class of the Fund.

The Board also considered the services provided by the Affiliated Sub-Advisers pursuant to the sub-advisory contracts, as well as the allocation of fees between Invesco Advisers and the Affiliated Sub-Advisers pursuant to the sub-advisory contracts. The Board noted that Invesco Advisers provides services to sub-advised Invesco Funds, including oversight of the Affiliated Sub-Advisers as well as the additional services described above other than day-to-day portfolio management. The Board also noted that the sub-advisory fees have no direct effect on the Fund or its shareholders, as they are paid by Invesco Advisers to the Affiliated Sub-Advisers.

Based upon the information and considerations described above, the Board concluded that the Fund's advisory and sub-advisory fees are fair and reasonable.

D. Economies of Scale and Breakpoints The Board considered the extent to which there are economies of scale in the provision of advisory services to the Fund. The Board also considered whether the Fund benefits from economies of scale through contractual breakpoints in the Fund's advisory fee schedule and were assisted in their review by a report from the Senior Officer. The Board also noted that the Fund shares directly in economies of scale through lower fees charged by third party service providers based on the combined size of the Invesco Funds and other clients advised by Invesco Advisers. The Board noted that Invesco Advisers proposes sharing economies of scale in administration expenses by lowering per class administrative fees.

E. Profitability and Financial Resources The Board reviewed information from Invesco Advisers concerning the costs of the advisory and other services that Invesco Advisers and its affiliates provide to the Fund and the profitability of Invesco Advisers and its affiliates in providing these services for the year ended December 31, 2011. The Board reviewed with Invesco Advisers the methodology used to prepare the profitability information. The Board considered the profitability of Invesco Advisers in connection with managing the Fund and the Invesco Funds. The Board noted that Invesco Advisers continues to operate at a net profit from services Invesco Advisers and its subsidiaries provide to the Invesco Funds. The Board noted that although Invesco Advisers received a minimal amount of revenues from advising the Fund, Invesco Advisers and its subsidiaries did not make a profit from managing the Fund as a result of fee and expense waivers. The Board received and accepted information from Invesco Advisers demonstrating that Invesco Advisers and each Affiliated Sub-Adviser are financially sound and have the resources necessary to perform their obligations under the investment advisory agreement and sub-advisory contracts.

### F. Collateral Benefits to Invesco Advisers and its Affiliates

The Board considered various other benefits received by Invesco Advisers and its affiliates from the relationship with the Fund, including the fees received for their provision of administrative, transfer agency and distribution services to the Fund. The Board considered the performance of Invesco Advisers and its affiliates in providing these services and the organizational structure employed to provide these services. The Board also considered that these services are provided to the Fund pursuant to written contracts that are reviewed and approved on an annual basis by the Board; that the services are required for the operation of the Fund; that Invesco Advisers and its affiliates can provide services, the nature and quality of which are at least equal to those provided by others offering the same or similar services; and that the fees for such services are fair and reasonable in light of the usual and customary charges by others for services of the same nature and quality.

The Board considered the benefits realized by Invesco Advisers and the Affiliated Sub-Advisers as a result of portfolio brokerage transactions executed through "soft dollar" arrangements. Invesco Advisers noted that the Fund does not execute brokerage transactions through "soft dollar" arrangements to any significant degree.

The Board considered that the Fund's uninvested cash and cash collateral from any securities lending arrangements may be invested in money market funds advised by Invesco Advisers pursuant to procedures approved by the Board. The Board noted that Invesco Advisers receives advisory fees from these affiliated money market funds attributable to such investments, although Invesco Advisers has contractually agreed to waive through varying periods the advisory fees payable by the Invesco Funds. The waiver is in an amount equal to 100% of the net advisory fee Invesco Advisers receives from the affiliated money market funds with respect to the Fund's investment in the affiliated money market funds of uninvested cash, but not cash collateral. The Board concluded that the Fund's investment of uninvested cash and cash collateral from any securities lending arrangements in the affiliated money market funds is in the best interests of the Fund and its shareholders.

The Fund provides a complete list of its holdings four times in each fiscal year, at the quarter-ends. For the second and fourth quarters, the lists appear in the Fund's semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the lists with the Securities and Exchange Commission (SEC) on Form N-Q. The Fund's Form N-Q filings are available on the SEC website, sec.gov. Copies of the Fund's Forms N-Q may be reviewed and copied at the SEC Public Reference Room in Washington, D.C. You can obtain information on the operation of the Public Reference Room, including information about duplicating fee charges, by calling 202 551 8090 or 800 732 0330, or by electronic request at the following email address: publicinfo@sec.gov. The SEC file numbers for the Fund are 811-07452 and 033-57340. The Fund's most recent portfolio holdings, as filed on Form N-Q, have also been made available to insurance companies issuing variable annuity contracts and variable life insurance policies ("variable products") that invest in the Fund.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 959 4246 or at invesco.com/proxyguidelines. The information is also available on the SEC website, sec.gov.

Information regarding how the Fund voted proxies related to its portfolio securities during the 12 months ended June 30, 2012, is available at invesco.com/proxysearch. The information is also available on the SEC website, sec.gov.

Invesco Advisers, Inc. is an investment adviser; it provides investment advisory services to individual and institutional clients and does not sell securities. Invesco Distributors, Inc. is the US distributor for Invesco Ltd.'s retail mutual funds, exchange-traded funds and institutional money market funds. Both are wholly owned, indirect subsidiaries of Invesco Ltd.

This report must be accompanied or preceded by a currently effective Fund prospectus and variable product prospectus, which contain more complete information, including sales charges and expenses. Investors should read each carefully before investing.

# **Fund Performance**

### Performance summary

### Fund vs. Indexes

Cumulative total returns, 12/31/11 to 6/30/12, excluding variable product issuer charges. If variable product issuer charges were included, returns would be lower.

| Series I Shares   | 4.44% |
|---|-------|
| Series II Shares  | 4.33  |
| MSCI EAFE Index <sup>▼</sup> (Broad Market Index)                           | 2.96  |
| MSCI EAFE Growth Index <sup>▼</sup> (Style-Specific Index)                  | 3.86  |
| Lipper VUF International Growth Funds Index <sup>▼</sup> (Peer Group Index) | 5.33  |
| Source(s): ▼Linner Inc  |       |

The **MSCI EAFE**<sup>®</sup> **Index** is an unmanaged index considered representative of stocks of Europe, Australasia and the Far East.

The **MSCI EAFE®** Growth Index is an unmanaged index considered representative of growth stocks of Europe, Australasia and the Far East.

The **Lipper VUF International Growth Funds Index** is an unmanaged index considered representative of international growth variable insurance underlying funds tracked by Lipper.

The Fund is not managed to track the performance of any particular index, including the index(es) defined here, and consequently, the performance of the Fund may deviate significantly from the performance of the index(es).

A direct investment cannot be made in an index. Unless otherwise indicated, index results include reinvested dividends, and they do not reflect sales charges. Performance of the peer group, if applicable, reflects fund expenses; performance of a market index does not.

The performance of the Fund's Series I and Series II share classes will differ primarily due to different class expenses.

The performance data quoted represent past performance and cannot guarantee comparable future results; current performance may be lower or higher. Please contact your variable product issuer or financial adviser for the most recent month-end variable product performance. Performance figures reflect Fund expenses, reinvested distributions and changes in net asset value. Investment return and principal value will fluctuate so that you may have a gain or loss when you sell shares.

The total annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for Series I and Series II shares was 1.03% and 1.28%, respectively. The expense ratios presented above may vary from the expense ratios presented in other sections of this report that are based on expenses incurred during the period covered by this report.

Invesco V.I. International Growth Fund, a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds), is currently offered through insurance companies issuing variable products. You cannot purchase shares of the Fund directly. Performance figures given represent the Fund and are not intended to reflect actual variable product values. They do not reflect sales charges, expenses and fees assessed in connection with a variable product. Sales charges, expenses and fees, which are determined by the variable product issuers, will vary and will lower the total return.

The most recent month-end performance data at the Fund level, excluding variable product charges, is available at 800 451 4246. As mentioned above, for the most recent month-end performance including variable product charges, please contact your variable product issuer or financial adviser.

# Notes to Financial Statements

June 30, 2012 (Unaudited)

# **NOTE 1—Significant Accounting Policies**

Invesco V.I. International Growth Fund (the "Fund") is a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"). The Trust is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end series management investment company consisting of twenty-five separate portfolios, (each constituting a "Fund"). The assets, liabilities and operations of each portfolio are accounted for separately. Information presented in these financial statements pertains only to the Fund. Matters affecting each Fund or class will be voted on exclusively by the shareholders of such Fund or class. Current Securities and Exchange Commission ("SEC") guidance, however, requires participating insurance companies offering separate accounts to vote shares proportionally in accordance with the instructions of the contract owners whose investments are funded by shares of each Fund or class.

The Fund's investment objective is long-term growth of capital.

The Fund currently offers two classes of shares, Series I and Series II, both of which are offered to insurance company separate accounts funding variable annuity contracts and variable life insurance policies ("variable products").

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements.

A. Security Valuations — Securities, including restricted securities, are valued according to the following policy.

A security listed or traded on an exchange (except convertible bonds) is valued at its last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded, or lacking any sales or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued by an independent pricing service they may be considered fair valued. Futures contracts are valued at the final settlement price set by an exchange on which they are principally traded. Listed options are valued at the mean between the last bid and ask prices from the exchange on which they are principally traded. Options not listed on an exchange are valued by an independent source at the mean between the last bid and ask prices. For purposes of determining net asset value per share, futures and option contracts generally are valued 15 minutes after the close of the customary trading session of the New York Stock Exchange ("NYSE").

Investments in open-end and closed-end registered investment companies that do not trade on an exchange are valued at the end of day net asset value per share. Investments in open-end and closed-end registered investment companies that trade on an exchange are valued at the last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded.

Debt obligations (including convertible bonds) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate, yield, quality, type of issue, coupon rate, maturity, individual trading characteristics and other market data. Debt securities are subject to interest rate and credit risks. In addition, all debt securities involve some risk of default with respect to interest and/or principal payments.

Foreign securities (including foreign exchange contracts) are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the NYSE. If market quotations are available and reliable for foreign exchange traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that are significant and make the closing price unreliable, the Fund may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith using procedures approved by the Board of Trustees. Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trade is not the current value as of the close of the NYSE. Foreign securities meeting the approved degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes, potential for sharply devalued currencies and high inflation, political and economic upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available or are unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust's officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/ask quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general economic conditions, interest rates, investor perceptions and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

**B.** Securities Transactions and Investment Income — Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income is recorded on the accrual basis from settlement date. Dividend income (net of withholding tax, if any) is recorded on the ex-dividend date.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Statement of Operations as realized gain (loss) for investments no longer held and as unrealized gain (loss) for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of net realized and unrealized gain (loss) from investment securities reported in the Statement of Operations and the Statement of Changes in Net Assets and the net realized and unrealized gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Fund's net asset value and, accordingly, they reduce the Fund's total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Statement of Changes in Net Assets, or the net investment income per share and ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser.

The Fund allocates income and realized and unrealized capital gains and losses to a class based on the relative net assets of each class. **C. Country Determination** — For the purposes of making investment selection decisions and presentation in the Schedule of Investments, the

- investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues and the country that has the primary market for the issuer's securities, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the issuer maintains 50% or more of its assets, the type of security, financial guarantees and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.
- **D. Distributions** Distributions from income and net realized capital gain, if any, are generally declared and paid to separate accounts of participating insurance companies annually and recorded on the ex-dividend date.
- **E.** Federal Income Taxes The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code necessary to qualify as a regulated investment company and to distribute substantially all of the Fund's taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the financial statements.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally, the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

F. Expenses — Fees provided for under the Rule 12b-1 plan of a particular class of the Fund and which are directly attributable to that class are charged to the operations of such class. All other expenses are allocated among the classes based on relative net assets.

- **G. Accounting Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the financial statements are released to print.
- **H. Indemnifications** Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.
- I. Foreign Currency Translations Foreign currency is valued at the close of the NYSE based on quotations posted by banks and major currency dealers. Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at date of valuation. Purchases and sales of portfolio securities (net of foreign taxes withheld on disposition) and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for the portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. The combined results of changes in foreign exchange rates and the fluctuation of market prices on investments (net of estimated foreign tax withholding) are included with the net realized and unrealized gain or loss from investments in the Statement of Operations. Reported net realized foreign currency gains or losses arise from (1) sales of foreign currencies, (2) currency gains or losses realized between the trade and settlement dates on securities transactions, and (3) the difference between the amounts of dividends, interest, and foreign currency gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

The Fund may invest in foreign securities which may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable.

J. Foreign Currency Contracts — The Fund may enter into foreign currency contracts to manage or minimize currency or exchange rate risk. The Fund may also enter into foreign currency contracts for the purchase or sale of a security denominated in a foreign currency in order to "lock in" the U.S. dollar price of that security. A foreign currency contract is an obligation to purchase or sell a specific currency for an agreed-upon price at a future date. The use of foreign currency contracts does not eliminate fluctuations in the price of the underlying securities the Fund owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the contract date and reporting date exchange rates and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized and unrealized gains (losses) on the contracts are included in the Statement of Operations. The primary risks associated with foreign currency contracts include failure of the counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks may be in excess of the amounts reflected in the Statement of Assets and Liabilities.

### NOTE 2—Advisory Fees and Other Fees Paid to Affiliates

The Trust has entered into a master investment advisory agreement with Invesco Advisers, Inc. (the "Adviser" or "Invesco"). Under the terms of the investment advisory agreement, the Fund pays an advisory fee to the Adviser based on the annual rate of the Fund's average daily net assets as follows:

| Average Net Assets  | Rate  |
|---------------------|-------|
| First \$250 million | 0.75% |
| Over \$250 million  | 0.70% |

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the "Affiliated Sub-Advisers") the Adviser, not the Fund, may pay 40% of the fees paid to the Adviser to any such Affiliated Sub-Adviser(s) that provide discretionary investment management services to the Fund based on the percentage of assets allocated to such Sub-Adviser(s).

Effective July 1, 2012, the Adviser has contractually agreed, through at least June 30, 2013, to waive advisory fees and/or reimburse expenses of all shares to the extent necessary to limit total annual fund operating expenses after fee waiver and/or expense reimbursement (excluding certain items discussed below) of Series I shares to 2.25% and Series II shares to 2.50% of average daily net assets. Prior to July 1, 2012, the Adviser had contractually agreed to waive advisory fees and/or reimburse expenses of all shares to the extent necessary to limit total annual fund operating expenses to 1.11% and 1.36% of average daily net assets for Series I and Series II shares, respectively. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the total annual fund operating expenses after fee waiver and/or expense reimbursement to exceed the numbers reflected above: (1) interest; (2) taxes; (3) dividend expense on short sales; (4) extraordinary or non-routine items, including litigation expenses; and (5) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. Unless the Board of the Trustees and Invesco mutually agree to amend or continue the fee waiver agreement, it will terminate on June 30, 2013. The Adviser did not waive fees and/or reimburse expenses during the period under this expense limitation.

Further, the Adviser has contractually agreed, through at least June 30, 2013, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash (excluding investments of cash collateral from securities lending) in such affiliated money market funds.

For the six months ended June 30, 2012, the Adviser waived advisory fees of \$84,344.

The Trust has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco a fee for costs incurred in providing accounting services and fund administrative services to the Fund and to reimburse Invesco for administrative services fees paid to insurance companies that have agreed to provide services to the participants of separate accounts. These administrative services provided by the insurance companies may include, among other things: the printing of prospectuses, financial reports and proxy statements and the delivery of the same to existing participants; the maintenance of master accounts; the facilitation of purchases and redemptions requested by the participants; and the servicing of participants' accounts. Pursuant to such agreement, for the six months ended June 30, 2012, Invesco was paid \$149,904 for accounting and fund administrative services and reimbursed \$1,520,674 for services provided by insurance companies.

The Trust has entered into a transfer agency and service agreement with Invesco Investment Services, Inc. ("IIS") pursuant to which the Fund has agreed to pay IIS a fee for providing transfer agency and shareholder services to the Fund and reimburse IIS for certain expenses incurred by IIS in the course of providing such services. For the six months ended June 30, 2012, expenses incurred under the agreement are shown in the Statement of Operations as *Transfer agent fees*.

The Trust has entered into a master distribution agreement with Invesco Distributors, Inc. ("IDI") to serve as the distributor for the Fund. The Trust has adopted a plan pursuant to Rule 12b-1 under the 1940 Act with respect to the Fund's Series II shares (the "Plan"). The Fund, pursuant to the Plan, pays IDI compensation at the annual rate of 0.25% of the Fund's average daily net assets of Series II shares. Of the Plan payments, up to 0.25% of the average daily net assets of the Series II shares may be paid to insurance companies who furnish continuing personal shareholder services to customers who purchase and own Series II shares of the Fund. For the six months ended June 30, 2012, expenses incurred under the Plan are detailed in the Statement of Operations as *Distribution fees*.

Certain officers and trustees of the Trust are officers and directors of the Adviser, IIS and/or IDI.

### **NOTE 3—Additional Valuation Information**

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3) generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

- Level 1 Prices are determined using quoted prices in an active market for identical assets.
- Level 2 Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.
- Level 3 Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of June 30, 2012. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

During the six months ended June 30, 2012, there were transfers from Level 1 to Level 2 of \$442,750,192 due to foreign fair value adjustments.

|             | Level 1    | Level 2       | Level 3 | Total         |
|-------------|------------|---------------|---------|---------------|

# NOTE 4—Trustees' and Officers' Fees and Benefits

"Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund. Trustees have the option to defer compensation payable by the Fund, and "Trustees' and Officers' Fees and Benefits" also include amounts accrued by the Fund to fund such deferred compensation amounts. Those Trustees who defer compensation have the option to select various Invesco Funds in which their deferral accounts shall be deemed to be invested. Finally, certain current Trustees are eligible to participate in a retirement plan that provides for benefits to be paid upon retirement to Trustees over a period of time based on the number of years of service. The Fund may have certain former Trustees who also participate in a retirement plan and receive benefits under such plan. "Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to fund such retirement benefits. Obligations under the deferred compensation and retirement plans represent unsecured claims against the general assets of the Fund.

# **NOTE 5—Cash Balances**

The Fund is permitted to temporarily carry a negative or overdrawn balance in its account with State Street Bank and Trust Company, the custodian bank. Such balances, if any at period end, are shown in the Statement of Assets and Liabilities under the payable caption *Amount due custodian*. To compensate the custodian bank for such overdrafts, the overdrawn Fund may either (1) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (2) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate.

# **NOTE 6—Tax Information**

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the Fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryforward) under income tax regulations. The tax character of distributions paid during the year and the tax components of net assets will be reported at the Fund's fiscal year-end.

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. The Regulated Investment Company Modernization Act of 2010 (the "Act") eliminated the eight-year carryover period for capital losses that arise in taxable years beginning after its enactment date of December 22, 2010. Consequently, these capital losses can be carried forward for an unlimited period. However, capital losses with an expiration period may not be used to offset capital gains until all net capital losses without an expiration date have been utilized. Additionally, post-enactment capital loss carryforward in their character as either short-term or long-term capital losses instead of as short-term capital losses as under prior law. The ability to utilize capital loss carryforward in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund had a capital loss carryforward as of December 31, 2011, which expires as follows:

# Capital Loss Carryforward\*

| Expiration        | Short-Term    | Long-Term | Total         |
|-------------------|---------------|-----------|---------------|
| December 31, 2016 | \$ 55,375,763 | \$        | \$ 55,375,763 |
| December 31, 2017 | 143,189,697   | _         | 143,189,697   |
| December 31, 2018 | 37,802,555    | _         | 37,802,555    |
|                   | \$236,368,015 | \$        | \$236,368,015 |

\* Capital loss carryforward as of the date listed above is reduced for limitations, if any, to the extent required by the Internal Revenue Code. To the extent that unrealized gains as of May 2, 2011, the date of the reorganization of Invesco Van Kampen V.I. International Growth Equity Fund into the Fund are realized on securities held in each fund at such date of reorganization, the capital loss carryforward may be further limited for up to five years from the date of the reorganization.

# **NOTE 7—Investment Securities**

The aggregate amount of investment securities (other than short-term securities, U.S. Treasury obligations and money market funds, if any) purchased and sold by the Fund during the six months ended June 30, 2012 was \$201,415,847 and \$141,704,030, respectively. Cost of investments on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed federal income tax reporting period-end.

### Unrealized Appreciation (Depreciation) of Investment Securities on a Tax Basis

| Aggregate unrealized appreciation of investment securities   | \$248,453,141 |
|--|---------------|
| Aggregate unrealized (depreciation) of investment securities | (41,704,909)  |
| Net unrealized appreciation of investment securities         | \$206,748,232 |

Cost of investments for tax purposes is \$1,071,752,305.

# **NOTE 8—Share Information**

| Summary of Share Activity |  |  | ty   |
|---------------------------|--|--|--|
|                           | Six months ended Year e<br>June 30, 2012 <sup>(a)</sup> December |  |  |
| Shares                    | Amount   | Shares   | Amount   |

(a) There are entities that are record owners of more than 5% of the outstanding shares of the Fund and in the aggregate own 37% of the outstanding shares of the Fund. The Fund and the Fund's principal underwriter or adviser, are parties to participation agreements with these entities whereby these entities sell units of interest in separate accounts funding variable products that are invested in the Fund. The Fund, Invesco and/or Invesco affiliates may make payments to these entities, which are considered to be related to the Fund, for providing services to the Fund, Invesco and/or Invesco affiliates including but not limited to services such as, securities brokerage, third party record keeping and account servicing and administrative services. The Fund has no knowledge as to whether all or any portion of the shares owned of record by these entities are also owned beneficially.
 (b) An of the sum on Mar 2, 2011 the Fund entities all the art exects of Leveres Van Kerners VII. Letter steed Courth Fund (the "Treast Fund") entities are also owned beneficially.

<sup>b)</sup> As of the open of business on May 2, 2011, the Fund acquired all the net assets of Invesco Van Kampen V.I. International Growth Equity Fund (the "Target Fund") pursuant to a plan of reorganization approved by the Trustees of the Fund on November 10, 2010 and by the shareholders of the Target Fund on April 1, 2011. The acquisition was accomplished by a tax-free exchange of 1,108,314 shares of the Fund for 3,524,810 shares outstanding of the Target Fund as of the close of business on April 29, 2011. Each class of the Target Fund was exchanged for the like class of shares of the Fund based on the relative net asset value of the Target Fund to the net asset value of the Fund on the close of business, April 29, 2011. The Target Fund's net assets at that date of \$34,015,533, including \$7,388,865 of unrealized appreciation, was combined with those of the Fund. The net assets of the Fund immediately before the acquisition were \$1,248,419,884. The net assets of the Fund immediately following the acquisition were \$1,282,435,417.

The pro forma results of operations for the year ended December 31, 2011, assuming the reorganization had been completed on January 1, 2011, the beginning of the annual reporting period are as follows:

| Net investment income                          | \$ 19,406,572   |
|--|-----------------|
| Net realized/unrealized gains (losses)         | (102,914,763)   |
| Change in net assets resulting from operations | \$ (83,508,191) |

The combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, it is not practicable to separate the amounts of revenue and earnings of the Target Fund that have been included in the Fund's Statement of Operations since May 2, 2011.

# **NOTE 9—Financial Highlights**

| Year ended 12/31/07       | 29.16   | 0.26                                       | 3.94   | 4.20                                   | (0.12)  |  | (0.12)                 | 33.24                                | 14.41                          | 745,206  | 1.31  | 1.32   | 0.81                 | 20                                   |

<sup>(a)</sup> Calculated using average shares outstanding.

(b) Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Total returns are not annualized for periods less than one year, if applicable and do not reflect charges assessed in connection with a variable product, which if included would reduce total returns.

(c) Portfolio turnover is calculated at the fund level and is not annualized for periods less than one year, if applicable. For the year ended December 31, 2011, the portfolio turnover calculation excludes the value of securities purchased of \$23,376,285 and sold of \$8,831,296 in the effort to realign the Fund's portfolio holdings after the reorganization of Invesco Van Kampen V.I. International Growth Equity Fund into the Fund.

(d) Ratios are annualized and based on average daily net assets (000's omitted) of \$580,096 and \$687,101 for Series I and Series II shares, respectively.

# Calculating your ongoing Fund expenses

# Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service fees (12b-1); and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

The actual and hypothetical expenses in the examples below do not represent the effect of any fees or other expenses assessed in connection with a variable product; if they did, the expenses shown would be higher while the ending account values shown would be lower.

# **Actual expenses**

The table below provides information about actual account values and actual expenses. You may use the information in this table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Actual Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

# Hypothetical example for comparison purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical example reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the hypothetical information is useful in comparing ongoing costs, and will not help you determine the relative total costs of owning different funds.

|           |  | ACTU   | IAL  | HYPOTH<br>(5% annual re<br>expen      | turn before                                    |                                |
|-----------|--|--|--|---------------------------------------|--|--------------------------------|
| Class     | Beginning<br>Account Value<br>(01/01/12) | Ending<br>Account Value<br>(06/30/12) <sup>1</sup> | Expenses<br>Paid During<br>Period <sup>2</sup> | Ending<br>Account Value<br>(06/30/12) | Expenses<br>Paid During<br>Period <sup>2</sup> | Annualized<br>Expense<br>Ratio |
| Series I  | \$1,000.00                               | \$1,044.40   | \$5.08   | \$1,019.89                            | \$5.02   | 1.00%                          |
| Series II | 1,000.00                                 | 1,043.30   | 6.35   | 1,018.65                              | 6.27   | 1.25                           |

<sup>1</sup> The actual ending account value is based on the actual total return of the Fund for the period January 1, 2012 through June 30, 2012, after actual expenses and will differ from the hypothetical ending account value which is based on the Fund's expense ratio and a hypothetical annual return of 5% before expenses.

<sup>2</sup> Expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by 182/366 to reflect the most recent fiscal half year.

# Approval of Investment Advisory and Sub-Advisory Contracts

The Board of Trustees (the Board) of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) is required under the Investment Company Act of 1940, as amended, to approve annually the renewal of the Invesco V.I. International Growth Fund (the Fund) investment advisory agreement with Invesco Advisers, Inc. (Invesco Advisers) and the Master Intergroup Sub-Advisory Contract for Mutual Funds (the sub-advisory contracts) with Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the Affiliated Sub-Advisers). During contract renewal meetings held on June 19-20, 2012, the Board as a whole, and the disinterested or "independent" Trustees, who comprise 80% of the Board, voting separately, approved the continuance of the Fund's investment advisory agreement and the sub-advisory contracts for another year, effective July 1, 2012. In doing so, the Board considered the process that it follows in reviewing and approving the Fund's investment advisory agreement and sub-advisory contracts and the information that it is provided. The Board determined that the Fund's investment advisory agreement and the sub-advisory contracts are in the best interests of the Fund and its shareholders and the compensation to Invesco Advisers and the Affiliated Sub-Advisers under the agreements is fair and reasonable.

# **The Board's Fund Evaluation Process**

The Board's Investments Committee has established three Sub-Committees, each of which is primarily responsible for overseeing the management of a number of the series portfolios of the funds advised by Invesco Advisers (the Invesco Funds). The Sub-Committees meet throughout the year to review the performance of their assigned funds, including reviewing materials prepared under the direction of the independent Senior Officer, an officer of the Invesco Funds who reports directly to the independent Trustees. Over the course of each year, the Sub-Committees meet with portfolio managers for their assigned Invesco Funds and other members of management to review the performance, investment objective(s), policies, strategies, limitations and investment risks of these funds. The Sub-Committees meet regularly and at designated contract renewal meetings each year to conduct a review of the performance, fees, expenses and other matters related to their assigned Invesco Funds. Each Sub-Committee recommends to the Investments Committee, which in turn recommends to the full Board, whether and on

what terms to approve the continuance of each Invesco Fund's investment advisory agreement and sub-advisory contracts for another year.

During the contract renewal process, the Trustees receive comparative performance and fee data regarding the Invesco Funds prepared by Invesco Advisers and an independent company, Lipper Inc. (Lipper). The Trustees also receive an independent written evaluation from the Senior Officer. The Senior Officer's evaluation is prepared as part of his responsibility to manage the process by which the Invesco Funds' proposed management fees are negotiated during the annual contract renewal process to ensure they are negotiated in a manner that is at arms' length and reasonable. The independent Trustees are assisted in their annual evaluation of the Fund's investment advisory agreement by the Senior Officer and by independent legal counsel. In addition to meetings with Invesco Advisers and fund counsel, the independent Trustees also discuss the continuance of the investment advisory agreement and sub-advisory contracts in private sessions with the Senior Officer and independent legal counsel.

In evaluating the fairness and reasonableness of the Fund's investment advisory agreement and sub-advisory contracts, the Board considered, among other things, the factors discussed below. The Trustees recognized that the advisory fees for the Invesco Funds include advisory fees that are the result of years of review and negotiation between the Trustees and Invesco Advisers as well as advisory fees previously approved by a different board that, at the time, was responsible for overseeing Morgan Stanley and Van Kampen funds, which have become Invesco Funds following the acquisition of the retail mutual fund business of Morgan Stanley. The Trustees' deliberations and conclusions in a particular year may be based in part on their deliberations and conclusions regarding these same arrangements throughout the year and in prior years. One Trustee may have weighed a particular piece of information or factor differently than another Trustee.

The discussion below serves as the Senior Officer's independent written evaluation with respect to the Fund's investment advisory agreement as well as a discussion of the material factors and related conclusions that formed the basis for the Board's approval of the Fund's investment advisory agreement and sub-advisory contracts. Unless otherwise stated, this information is current as of June 20, 2012, and may not reflect consideration of factors that became known to the Board after that date, including, for example, changes to the Fund's performance, advisory fees, expense limitations and/or fee waivers.

### Factors and Conclusions and Summary of Independent Written Fee Evaluation

### A. Nature, Extent and Quality of Services Provided by Invesco Advisers and the Affiliated Sub-Advisers

The Board reviewed the advisory services provided to the Fund by Invesco Advisers under the Fund's investment advisory agreement, the performance of Invesco Advisers in providing these services, and the credentials and experience of the officers and employees of Invesco Advisers who provide these services, including the Fund's portfolio manager or managers, with whom the Sub-Committees met during the year. The Board's review of the qualifications of Invesco Advisers to provide advisory services included the Board's consideration of Invesco Advisers' performance and investment process oversight, independent credit analysis and investment risk management.

In determining whether to continue the Fund's investment advisory agreement, the Board considered the prior relationship between Invesco Advisers and the Fund, as well as the Board's knowledge of Invesco Advisers' operations, and concluded that it is beneficial to maintain the current relationship, in part because of such prior relationship and knowledge. The Board also considered services that Invesco Advisers and its affiliates provide to the Invesco Funds such as various back office support functions, equity and fixed income trading operations, internal audit, distribution and legal and compliance. The Board concluded that the nature, extent and quality of the services provided to the Fund by Invesco Advisers are appropriate and satisfactory and consistent with the terms of the Fund's investment advisory agreement.

The Board reviewed the services provided by the Affiliated Sub-Advisers under the sub-advisory contracts and the credentials and experience of the officers and employees of the Affiliated Sub-Advisers who provide these services. The Board noted that the Affiliated Sub-Advisers have offices and personnel that are located in financial centers around the world. As a result, the Affiliated Sub-Advisers can provide research and investment analysis on the markets and economies of various countries in which the Fund invests and make recommendations on securities of companies located in such countries. The Board concluded that the sub-advisory contracts benefit the Fund and its shareholders by permitting Invesco Advisers to use the resources and talents of the Affiliated Sub-Advisers in managing the Fund. The Board concluded that the nature, extent and quality of the services provided

by the Affiliated Sub-Advisers are appropriate and satisfactory and consistent with the terms of the Fund's sub-advisory contracts.

# B. Fund Performance

The Board considered Fund performance as a relevant factor in considering whether to approve the investment advisory agreement. The Board did not view Fund performance as a relevant factor in considering whether to approve the sub-advisory contracts for the Fund, as no Affiliated Sub-Adviser currently manages assets of the Fund.

The Board compared the Fund's performance during the past one, three and five calendar years to the performance of funds in the Lipper performance universe and against the Lipper VA Underlying Funds - International Growth Funds Index. The Board noted that performance of Series I shares of the Fund was in the first quintile of the performance universe for the one and five year periods and the second quintile for the three year period (the first quintile being the best performing funds and the fifth quintile being the worst performing funds). The Board noted that performance of Series I shares of the Fund was above the performance of the Index for the one, three and five year periods. The Trustees also reviewed more recent Fund performance and this review did not change their conclusions.

# C. Advisory and Sub-Advisory Fees and Fee Waivers

The Board compared the Fund's contractual advisory fee rate to the contractual advisory fee rates of funds in the Fund's Lipper expense group at a common asset level. The Board noted that the contractual advisory fee rate for Series I shares of the Fund was below the median contractual advisory fee rate of funds in the expense group. The Board also reviewed the methodology used by Lipper in providing expense group information, which includes using audited financial data from the most recent annual report of each fund in the expense group that was publicly available as of the end of the past calendar year and including only one fund per investment adviser. The Board noted that comparative data is as of varying dates, which may affect the comparability of data during times of market volatility.

The Board noted that Invesco Advisers and the Affiliated Sub-Advisers do not advise other mutual funds or client accounts with investment strategies comparable to those of the Fund.

The Board also considered the services provided by the Affiliated Sub-Advisers pursuant to the sub-advisory contracts, as well as the allocation of fees between Invesco Advisers and the Affiliated Sub-Advisers pursuant to the sub-advisory contracts. The Board noted that Invesco Advisers provides services to sub-advised Invesco Funds, including oversight of the Affiliated Sub-Advisers as well as the additional services described above other than day-to-day portfolio management. The Board also noted that the sub-advisory fees have no direct effect on the Fund or its shareholders, as they are paid by Invesco Advisers to the Affiliated Sub-Advisers.

Based upon the information and considerations described above, the Board concluded that the Fund's advisory and sub-advisory fees are fair and reasonable.

# D. Economies of Scale and Breakpoints

The Board considered the extent to which there are economies of scale in the provision of advisory services to the Fund. The Board also considered whether the Fund benefits from economies of scale through contractual breakpoints in the Fund's advisory fee schedule and were assisted in their review by a report from the Senior Officer. The Board also noted that the Fund shares directly in economies of scale through lower fees charged by third party service providers based on the combined size of the Invesco Funds and other clients advised by Invesco Advisers. The Board noted that Invesco Advisers proposes sharing economies of scale in administration expenses by lowering per class administrative fees.

E. Profitability and Financial Resources The Board reviewed information from Invesco Advisers concerning the costs of the advisory and other services that Invesco Advisers and its affiliates provide to the Fund and the profitability of Invesco Advisers and its affiliates in providing these services for the year ended December 31, 2011. The Board reviewed with Invesco Advisers the methodology used to prepare the profitability information. The Board considered the profitability of Invesco Advisers in connection with managing the Fund and the Invesco Funds. The Board noted that Invesco Advisers continues to operate at a net profit from services Invesco Advisers and its subsidiaries provide to the Invesco Funds and the Fund. The Board did not deem the level of profits realized by Invesco Advisers and its affiliates from providing services to the Fund to be excessive given the nature, quality and extent of the services provided to the Invesco Funds. The Board received and accepted information from Invesco Advisers demonstrating that Invesco Advisers and each Affiliated Sub-Adviser are financially sound and have the resources necessary to perform their obligations under the investment advisory agreement and sub-advisory contracts.

# F. Collateral Benefits to Invesco Advisers and its Affiliates

The Board considered various other benefits received by Invesco Advisers and its affiliates from

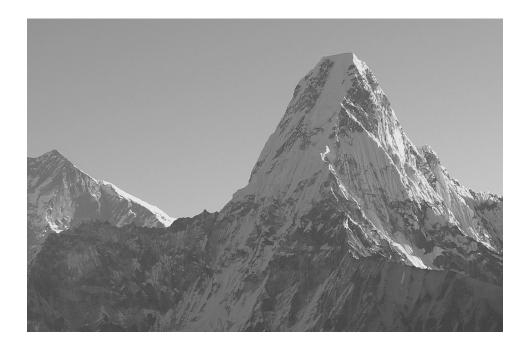

the relationship with the Fund, including the fees received for their provision of administrative, transfer agency and distribution services to the Fund. The Board considered the performance of Invesco Advisers and its affiliates in providing these services and the organizational structure employed to provide these services. The Board also considered that these services are provided to the Fund pursuant to written contracts that are reviewed and approved on an annual basis by the Board; that the services are required for the operation of the Fund; that Invesco Advisers and its affiliates can provide services, the nature and quality of which are at least equal to those provided by others offering the same or similar services; and that the fees for such services are fair and reasonable in light of the usual and customary charges by others for services of the same nature and quality.

The Board considered the benefits realized by Invesco Advisers and the Affiliated Sub-Advisers as a result of portfolio brokerage transactions executed through "soft dollar" arrangements. The Board noted that soft dollar arrangements shift the payment obligation for research services from Invesco Advisers and the Affiliated Sub-Advisers to the Invesco Funds and therefore may reduce Invesco Advisers' and the Affiliated Sub-Advisers' expenses. The Board also considered periodic reports from the Chief Compliance Officer of the Invesco Funds demonstrating that these arrangements are consistent with regulatory requirements. The Board did not deem the soft dollar arrangements to be inappropriate.

The Board considered that the Fund's uninvested cash and cash collateral from any securities lending arrangements may be invested in money market funds advised by Invesco Advisers pursuant to procedures approved by the Board. The Board noted that Invesco Advisers receives advisory fees from these affiliated money market funds attributable to such investments, although Invesco Advisers has contractually agreed to waive through varying periods the advisory fees payable by the Invesco Funds. The waiver is in an amount equal to 100% of the net advisory fee Invesco Advisers receives from the affiliated money market funds with respect to the Fund's investment in the affiliated money market funds of uninvested cash. but not cash collateral. The Board concluded that the Fund's investment of uninvested cash and cash collateral from any securities lending arrangements in the affiliated money market funds is in the best interests of the Fund and its shareholders.

The Board also considered use of an affiliated broker to execute certain trades for the Fund and that such trades are executed in compliance with rules under the Investment Company Act of 1940, as amended.

The Fund provides a complete list of its holdings four times in each fiscal year, at the quarter-ends. For the second and fourth quarters, the lists appear in the Fund's semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the lists with the Securities and Exchange Commission (SEC) on Form N-Q. The Fund's Form N-Q filings are available on the SEC website, sec.gov. Copies of the Fund's Forms N-Q may be reviewed and copied at the SEC Public Reference Room in Washington, D.C. You can obtain information on the operation of the Public Reference Room, including information about duplicating fee charges, by calling 202 551 8090 or 800 732 0330, or by electronic request at the following email address: publicinfo@sec.gov. The SEC file numbers for the Fund are 811-07452 and 033-57340. The Fund's most recent portfolio holdings, as filed on Form N-Q, have also been made available to insurance companies issuing variable annuity contracts and variable life insurance policies ("variable products") that invest in the Fund.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 959 4246 or at invesco.com/proxyguidelines. The information is also available on the SEC website, sec.gov.

Information regarding how the Fund voted proxies related to its portfolio securities during the 12 months ended June 30, 2012, is available at invesco.com/proxysearch. The information is also available on the SEC website, sec.gov.

Invesco Advisers, Inc. is an investment adviser; it provides investment advisory services to individual and institutional clients and does not sell securities. Invesco Distributors, Inc. is the US distributor for Invesco Ltd.'s retail mutual funds, exchange-traded funds and institutional money market funds. Both are wholly owned, indirect subsidiaries of Invesco Ltd.

This report must be accompanied or preceded by a currently effective Fund prospectus and variable product prospectus, which contain more complete information, including sales charges and expenses. Investors should read each carefully before investing.

The SOR EQO® Index is an unmanaged in

The **S&P 500**<sup>®</sup> **Index** is an unmanaged index considered representative of the US stock market.

The **Bank of America Merrill Lynch 100 Technology Index** (price only) is a price-only equal-dollar-weighted index of 100 stocks designed to measure the performance of a cross section of large, actively traded technology stocks and American Depositary Receipts.

The Lipper VUF Science & Technology Funds Category Average represents an average of all of the variable insurance underlying funds in the Lipper Science & Technology Funds category.

The Fund is not managed to track the performance of any particular index, including the index(es) defined here, and consequently, the performance of the Fund may deviate significantly from the performance of the index(es).

A direct investment cannot be made in an index. Unless otherwise indicated, index results include reinvested dividends, and they do not reflect sales charges. Performance of the peer group, if applicable, reflects fund expenses; performance of a market index does not.

Series II shares incepted on April 30, 2004. Performance shown prior to that date is that of Series I shares, restated to reflect the higher 12b-1 fees applicable to Series II. Series I performance reflects any applicable fee waivers or expense reimbursements. The performance of the Fund's Series I and Series II share classes will differ primarily due to different class expenses.

The performance data quoted represent past performance and cannot guarantee comparable future results; current performance may be lower or higher. Please contact your variable product issuer or financial adviser for the most recent month-end variable product performance. Performance figures reflect Fund expenses, reinvested distributions and changes in net asset value. Investment return and principal value will fluctuate so that you may have a gain or loss when you sell shares.

The total annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for Series I and Series II shares was 1.12% and 1.37%, respectively. The expense ratios presented above may vary from the expense ratios presented in other sections of this report that are based on expenses incurred during the period covered by this report.

Invesco V.I. Technology Fund, a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds), is currently offered through insurance companies issuing variable products. You cannot purchase shares of the Fund directly. Performance figures given represent the Fund and are not intended to reflect actual variable product values. They do not reflect sales charges, expenses and fees assessed in connection with a variable product. Sales charges, expenses and fees, which are determined by the variable product issuers, will vary and will lower the total return.

The most recent month-end performance data at the Fund level, excluding variable product charges, is available at 800 451 4246. As mentioned above, for the most recent month-end performance including variable product charges, please contact your variable product issuer or financial adviser.

# Notes to Financial Statements

June 30, 2012 (Unaudited)

# **NOTE 1—Significant Accounting Policies**

Invesco V.I. Technology Fund (the "Fund") is a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"). The Trust is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end series management investment company consisting of twenty-five separate portfolios, (each constituting a "Fund"). The assets, liabilities and operations of each portfolio are accounted for separately. Information presented in these financial statements pertains only to the Fund. Matters affecting each Fund or class will be voted on exclusively by the shareholders of such Fund or class. Current Securities and Exchange Commission ("SEC") guidance, however, requires participating insurance companies offering separate accounts to vote shares proportionally in accordance with the instructions of the contract owners whose investments are funded by shares of each Fund or class.

The Fund's investment objective is long-term growth of capital.

The Fund currently offers two classes of shares, Series I and Series II, both of which are offered to insurance company separate accounts funding variable annuity contracts and variable life insurance policies ("variable products").

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its financial statements.

A. Security Valuations — Securities, including restricted securities, are valued according to the following policy.

A security listed or traded on an exchange (except convertible bonds) is valued at its last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded, or lacking any sales or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued by an independent pricing service they may be considered fair valued. Futures contracts are valued at the final settlement price set by an exchange on which they are principally traded. Listed options are valued at the mean between the last bid and ask prices from the exchange on which they are principally traded. Options not listed on an exchange are valued by an independent source at the mean between the last bid and ask prices. For purposes of determining net asset value per share, futures and option contracts generally are valued 15 minutes after the close of the customary trading session of the New York Stock Exchange ("NYSE").

Investments in open-end and closed-end registered investment companies that do not trade on an exchange are valued at the end of day net asset value per share. Investments in open-end and closed-end registered investment companies that trade on an exchange are valued at the last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded.

Debt obligations (including convertible bonds) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate, yield, quality, type of issue, coupon rate, maturity, individual trading characteristics and other market data. Debt securities are subject to interest rate and credit risks. In addition, all debt securities involve some risk of default with respect to interest and/or principal payments.

Foreign securities (including foreign exchange contracts) are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the NYSE. If market quotations are available and reliable for foreign exchange traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that are significant and make the closing price unreliable, the Fund may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith using procedures approved by the Board of Trustees. Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trade is not the current value as of the close of the NYSE. Foreign securities meeting the approved degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes, potential for sharply devalued currencies and high inflation, political and economic upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available or are unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust's officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/ask quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general economic conditions, interest rates, investor perceptions and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

**B.** Securities Transactions and Investment Income — Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income is recorded on the accrual basis from settlement date. Dividend income (net of withholding tax, if any) is recorded on the ex-dividend date.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Statement of Operations as realized gain (loss) for investments no longer held and as unrealized gain (loss) for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of net realized and unrealized gain (loss) from investment securities reported in the Statement of Operations and the Statement of Changes in Net Assets and the net realized and unrealized gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Fund's net asset value and, accordingly, they reduce the Fund's total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Statement of Changes in Net Assets, or the net investment income per share and ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser. The Fund allocates income and realized and unrealized capital gains and losses to a class based on the relative net assets of each class.

C. Country Determination — For the purposes of making investment selection decisions and presentation in the Schedule of Investments, the investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized where the issuer maintains a principal office, the country in which the issuer is organized where the issuer maintains a principal office.

- laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues and the country that has the primary market for the issuer's securities, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the issuer maintains 50% or more of its assets, the type of security, financial guarantees and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.
- **D. Distributions** Distributions from income and net realized capital gain, if any, are generally declared and paid to separate accounts of participating insurance companies annually and recorded on the ex-dividend date.
- **E.** Federal Income Taxes The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code necessary to qualify as a regulated investment company and to distribute substantially all of the Fund's taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the financial statements.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally, the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

F. Expenses — Fees provided for under the Rule 12b-1 plan of a particular class of the Fund and which are directly attributable to that class are charged to the operations of such class. All other expenses are allocated among the classes based on relative net assets.

- **G. Accounting Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the financial statements are released to print.
- H. Indemnifications Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust is indemnified against certain liabilities that may arise out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.
- I. Other Risks The Fund's investments are concentrated in a comparatively narrow segment of the economy, which may make the Fund more volatile. Many products and services offered in technology-related industries are subject to rapid obsolescence, which may lower the value of the issuers in this sector.

### NOTE 2—Advisory Fees and Other Fees Paid to Affiliates

The Trust has entered into a master investment advisory agreement with Invesco Advisers, Inc. (the "Adviser" or "Invesco"). Under the terms of the investment advisory agreement, the Fund pays an advisory fee to the Adviser based on the annual rate of the Fund's average daily net assets as follows:

| Average Daily Net Assets | Rate  |
|--------------------------|-------|
| First \$250 million      | 0.75% |
| Next \$250 million       | 0.74% |
| Next \$500 million       | 0.73% |
| Next \$1.5 billion       | 0.72% |
| Next \$2.5 billion       | 0.71% |
| Next \$2.5 billion       | 0.70% |
| Next \$2.5 billion       | 0.69% |
| Over \$10 billion        | 0.68% |

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the "Affiliated Sub-Advisers") the Adviser, not the Fund, may pay 40% of the fees paid to the Adviser to any such Affiliated Sub-Adviser(s) that provide discretionary investment management services to the Fund based on the percentage of assets allocated to such Sub-Adviser(s).

The Adviser has contractually agreed, through at least April 30, 2013, to waive advisory fees and/or reimburse expenses to the extent necessary to limit total annual fund operating expenses after fee waiver and/or expense reimbursement (excluding certain items discussed below) of Series I shares to 1.30% and Series II shares to 1.45% of average daily net assets. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the total annual fund operating expenses after fee waiver and/or expenses reimbursement to exceed the numbers reflected above: (1) interest; (2) taxes; (3) dividend expense on short sales; (4) extraordinary or non-routine items, including litigation expenses; and (5) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. Unless the Board of the Trustees and Invesco mutually agree to amend or continue the fee waiver agreement, it will terminate on April 30, 2013. The Adviser did not waive fees and/or reimburse expenses during the period under this expense limitation.

Further, the Adviser has contractually agreed, through at least June 30, 2013, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash (excluding investments of cash collateral from securities lending) in such affiliated money market funds.

For the six months ended June 30, 2012, the Adviser waived advisory fees of \$1,794.

The Trust has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco a fee for costs incurred in providing accounting services and fund administrative services to the Fund and to reimburse Invesco for administrative services fees paid to insurance companies that have agreed to provide services to the participants of separate accounts. These administrative services provided by the insurance companies may include, among other things: the printing of prospectuses, financial reports and proxy statements and the delivery of the same to existing participants; the maintenance of master accounts; the facilitation of purchases and redemptions requested by the participants; and the servicing of participants' accounts. Pursuant to such agreement, for the six months ended June 30, 2012, Invesco was paid \$24,863 for accounting and fund administrative services and reimbursed \$134,623 for services provided by insurance companies.

The Trust has entered into a transfer agency and service agreement with Invesco Investment Services, Inc. ("IIS") pursuant to which the Fund has agreed to pay IIS a fee for providing transfer agency and shareholder services to the Fund and reimburse IIS for certain expenses incurred by IIS in the course of providing such services. For the six months ended June 30, 2012, expenses incurred under the agreement are shown in the Statement of Operations as *Transfer agent fees*.

The Trust has entered into a master distribution agreement with Invesco Distributors, Inc. ("IDI") to serve as the distributor for the Fund. The Trust has adopted a plan pursuant to Rule 12b-1 under the 1940 Act with respect to the Fund's Series II shares (the "Plan"). The Fund, pursuant to the Plan, pays IDI

compensation at the annual rate of 0.25% of the Fund's average daily net assets of Series II shares. Of the Plan payments, up to 0.25% of the average daily net assets of the Series II shares may be paid to insurance companies who furnish continuing personal shareholder services to customers who purchase and own Series II shares of the Fund. For the six months ended June 30, 2012, expenses incurred under the Plan are detailed in the Statement of Operations as *Distribution fees*.

Certain officers and trustees of the Trust are officers and directors of the Adviser, IIS and/or IDI.

# **NOTE 3—Additional Valuation Information**

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3) generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment's assigned level:

- Level 1 Prices are determined using quoted prices in an active market for identical assets.
- Level 2 Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.
- Level 3 Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund's own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of June 30, 2012. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the financial statements may materially differ from the value received upon actual sale of those investments.

|                   | Level 1       | Level 2   | Level 3   | Total         |
|-------------------|---------------|-----------|-----------|---------------|
| Equity Securities | \$102,816,558 | \$883,232 | \$334,476 | \$104,034,266 |

# NOTE 4—Trustees' and Officers' Fees and Benefits

"Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund. Trustees have the option to defer compensation payable by the Fund, and "Trustees' and Officers' Fees and Benefits" also include amounts accrued by the Fund to fund such deferred compensation amounts. Those Trustees who defer compensation have the option to select various Invesco Funds in which their deferral accounts shall be deemed to be invested. Finally, certain current Trustees are eligible to participate in a retirement plan that provides for benefits to be paid upon retirement to Trustees over a period of time based on the number of years of service. The Fund may have certain former Trustees who also participate in a retirement plan and receive benefits under such plan. "Trustees' and Officers' Fees and Benefits" include amounts accrued by the Fund to fund such retirement benefits. Obligations under the deferred compensation and retirement plans represent unsecured claims against the general assets of the Fund.

# **NOTE 5—Cash Balances**

The Fund is permitted to temporarily carry a negative or overdrawn balance in its account with State Street Bank and Trust Company, the custodian bank. Such balances, if any at period end, are shown in the Statement of Assets and Liabilities under the payable caption *Amount due custodian*. To compensate the custodian bank for such overdrafts, the overdrawn Fund may either (1) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (2) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate.

### **NOTE 6—Tax Information**

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the Fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryforward) under income tax regulations. The tax character of distributions paid during the year and the tax components of net assets will be reported at the Fund's fiscal year-end.

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. The Regulated Investment Company Modernization Act of 2010 (the "Act") eliminated the eight-year carryover period for capital losses that arise in taxable years beginning after its enactment date of December 22, 2010. Consequently, these capital losses can be carried forward for an unlimited period. However, capital losses with an expiration period may not be used to offset capital gains until all net capital losses without an expiration date have been utilized. Additionally, post-enactment capital loss carryforward in their character as either short-term or long-term capital losses instead of as short-term capital losses as under prior law. The ability to utilize capital loss carryforward in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund had a capital loss carryforward as of December 31, 2011, which expires as follows:

# Capital Loss Carryforward\*

| Expiration        | Short-Term  | Long-Term | Total       |
|-------------------|-------------|-----------|-------------|
| December 31, 2017 | \$1,524,170 | \$        | \$1,524,170 |

\* Capital loss carryforward as of the date listed above is reduced for limitations, if any, to the extent required by the Internal Revenue Code.

# **NOTE 7—Investment Securities**

The aggregate amount of investment securities (other than short-term securities, U.S. Treasury obligations and money market funds, if any) purchased and sold by the Fund during the six months ended June 30, 2012 was \$21,051,113 and \$29,725,840, respectively. Cost of investments on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed federal income tax reporting period-end.

### Unrealized Appreciation (Depreciation) of Investment Securities on a Tax Basis

| Aggregate unrealized appreciation of investment securities   | \$28,111,785 |
|--|--------------|
| Aggregate unrealized (depreciation) of investment securities | (8,699,603)  |
| Net unrealized appreciation of investment securities         | \$19,412,182 |

Cost of investments for tax purposes is \$84,622,084.

# **NOTE 8—Share Information**

| Summary of Share Activity |  |  |  |  |  |

(a) There are entities that are record owners of more than 5% of the outstanding shares of the Fund and in the aggregate own 64% of the outstanding shares of the Fund. The Fund and the Fund's principal underwriter or adviser, are parties to participation agreements with these entities whereby these entities sell units of interest in separate accounts funding variable products that are invested in the Fund. The Fund, Invesco and/or Invesco affiliates may make payments to these entities brokerage, third party record keeping and account servicing and administrative services. The Fund has no knowledge as to whether all or any portion of the shares owned of record by these entities are also owned beneficially.

# **NOTE 9—Financial Highlights**

The following schedule presents financial highlights for a share of the Fund outstanding throughout the periods indicated.

|                           | Net asset<br>value,<br>beginning<br>of period | Net                     | Net gains<br>(losses) on<br>securities<br>(both<br>realized and<br>unrealized) | Total from<br>investment<br>operations | Dividends<br>from net<br>investment<br>income | Net asset<br>value, end<br>of period | Total<br>return <sup>(a)</sup> | Net assets,<br>end of period<br>(000s omitted) | Ratio of<br>expenses<br>to average<br>net assets<br>with fee waivers<br>and/or expenses<br>absorbed | Ratio of<br>expenses<br>to average net<br>assets without<br>fee waivers<br>and/or expenses<br>absorbed | Ratio of net<br>investment<br>income (loss)<br>to average<br>net assets | Portfolio<br>turnover <sup>(b)</sup> |

(a) Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Total returns are not annualized for periods less than one year, if applicable and do not reflect charges assessed in connection with a variable product, which if included would reduce total returns.

<sup>(b)</sup> Portfolio turnover is calculated at the fund level and is not annualized for periods less than one year, if applicable.

<sup>(c)</sup> Calculated using average shares outstanding.

(d) Ratios are annualized and based on average daily net assets (000's omitted) of \$109,027, and \$1,980 for Series I and Series II, respectively.

# Calculating your ongoing Fund expenses

# Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service fees (12b-1); and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

The actual and hypothetical expenses in the examples below do not represent the effect of any fees or other expenses assessed in connection with a variable product; if they did, the expenses shown would be higher while the ending account values shown would be lower.

# **Actual expenses**

The table below provides information about actual account values and actual expenses. You may use the information in this table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Actual Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

# Hypothetical example for comparison purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical example reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the hypothetical information is useful in comparing ongoing costs, and will not help you determine the relative total costs of owning different funds.

|           |  | ACTUAL   |  | HYPOTH<br>(5% annual re<br>expen      |  |                                |
|-----------|--|--|--|---------------------------------------|--|--------------------------------|
| Class     | Beginning<br>Account Value<br>(01/01/12) | Ending<br>Account Value<br>(06/30/12) <sup>1</sup> | Expenses<br>Paid During<br>Period <sup>2</sup> | Ending<br>Account Value<br>(06/30/12) | Expenses<br>Paid During<br>Period <sup>2</sup> | Annualized<br>Expense<br>Ratio |
| Series I  | \$1,000.00                               | \$1,090.40   | \$5.93   | \$1,019.19                            | \$5.72   | 1.14%                          |
| Series II | 1,000.00                                 | 1,089.50   | 7.22   | 1,017.95                              | 6.97   | 1.39                           |

<sup>1</sup> The actual ending account value is based on the actual total return of the Fund for the period January 1, 2012 through June 30, 2012, after actual expenses and will differ from the hypothetical ending account value which is based on the Fund's expense ratio and a hypothetical annual return of 5% before expenses.

<sup>2</sup> Expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by 182/366 to reflect the most recent fiscal half year.

# Approval of Investment Advisory and Sub-Advisory Contracts

The Board of Trustees (the Board) of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) is required under the Investment Company Act of 1940, as amended, to approve annually the renewal of the Invesco V.I. Technology Fund (the Fund) investment advisory agreement with Invesco Advisers, Inc. (Invesco Advisers) and the Master Intergroup Sub-Advisory Contract for Mutual Funds (the sub-advisory contracts) with Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. (collectively, the Affiliated Sub-Advisers). During contract renewal meetings held on June 19-20, 2012, the Board as a whole, and the disinterested or "independent" Trustees, who comprise 80% of the Board, voting separately, approved the continuance of the Fund's investment advisory agreement and the sub-advisory contracts for another year, effective July 1, 2012. In doing so, the Board considered the process that it follows in reviewing and approving the Fund's investment advisory agreement and sub-advisory contracts and the information that it is provided. The Board determined that the Fund's investment advisory agreement and the sub-advisory contracts are in the best interests of the Fund and its shareholders and the compensation to Invesco Advisers and the Affiliated Sub-Advisers under the agreements is fair and reasonable.

The Board's Fund Evaluation Process The Board's Investments Committee has established three Sub-Committees, each of which is primarily responsible for overseeing the management of a number of the series portfolios of the funds advised by Invesco Advisers (the Invesco Funds). The Sub-Committees meet throughout the year to review the performance of their assigned funds, including reviewing materials prepared under the direction of the independent Senior Officer, an officer of the Invesco Funds who reports directly to the independent Trustees. Over the course of each year, the Sub-Committees meet with portfolio managers for their assigned Invesco Funds and other members of management to review the performance, investment objective(s), policies, strategies, limitations and investment risks of these funds. The Sub-Committees meet regularly and at designated contract renewal meetings each year to conduct a review of the performance, fees, expenses and other matters related to their assigned Invesco Funds. Each Sub-Committee recommends to the Investments Committee, which in turn recommends to the full Board, whether and on what terms to approve the continuance of each Invesco Fund's investment advisory agreement and sub-advisory contracts for another year.

During the contract renewal process, the Trustees receive comparative performance and fee data regarding the Invesco Funds prepared by Invesco Advisers and an independent company, Lipper Inc. (Lipper). The Trustees also receive an independent written evaluation from the Senior Officer. The Senior Officer's evaluation is prepared as part of his responsibility to manage the process by which the Invesco Funds' proposed management fees are negotiated during the annual contract renewal process to ensure they are negotiated in a manner that is at arms' length and reasonable. The independent Trustees are assisted in their annual evaluation of the Fund's investment advisory agreement by the Senior Officer and by independent legal counsel. In addition to meetings with Invesco Advisers and fund counsel, the independent Trustees also discuss the continuance of the investment advisory agreement and sub-advisory contracts in private sessions with the Senior Officer and independent legal counsel.

In evaluating the fairness and reasonableness of the Fund's investment advisory agreement and sub-advisory contracts, the Board considered, among other things, the factors discussed below. The Trustees recognized that the advisory fees for the Invesco Funds include advisory fees that are the result of years of review and negotiation between the Trustees and Invesco Advisers as well as advisory fees previously approved by a different board that, at the time, was responsible for overseeing Morgan Stanley and Van Kampen funds, which have become Invesco Funds following the acquisition of the retail mutual fund business of Morgan Stanley. The Trustees' deliberations and conclusions in a particular year may be based in part on their deliberations and conclusions regarding these same arrangements throughout the year and in prior years. One Trustee may have weighed a particular piece of information or factor differently than another Trustee.

The discussion below serves as the Senior Officer's independent written evaluation with respect to the Fund's investment advisory agreement as well as a discussion of the material factors and related conclusions that formed the basis for the Board's approval of the Fund's investment advisory agreement and sub-advisory contracts. Unless otherwise stated, this information is current as of June 20, 2012, and may not reflect consideration of factors that became known to the Board after that date, including, for example, changes to the Fund's performance, advisory fees, expense limitations and/or fee waivers.

# Factors and Conclusions and Summary of Independent Written Fee Evaluation

### A. Nature, Extent and Quality of Services Provided by Invesco Advisers and the Affiliated Sub-Advisers

The Board reviewed the advisory services provided to the Fund by Invesco Advisers under the Fund's investment advisory agreement, the performance of Invesco Advisers in providing these services, and the credentials and experience of the officers and employees of Invesco Advisers who provide these services, including the Fund's portfolio manager or managers, with whom the Sub-Committees met during the year. The Board's review of the qualifications of Invesco Advisers to provide advisory services included the Board's consideration of Invesco Advisers' performance and investment process oversight, independent credit analysis and investment risk management.

In determining whether to continue the Fund's investment advisory agreement, the Board considered the prior relationship between Invesco Advisers and the Fund, as well as the Board's knowledge of Invesco Advisers' operations, and concluded that it is beneficial to maintain the current relationship, in part because of such prior relationship and knowledge. The Board also considered services that Invesco Advisers and its affiliates provide to the Invesco Funds such as various back office support functions, equity and fixed income trading operations, internal audit, distribution and legal and compliance. The Board concluded that the nature, extent and quality of the services provided to the Fund by Invesco Advisers are appropriate and satisfactory and consistent with the terms of the Fund's investment advisory agreement.

The Board reviewed the services provided by the Affiliated Sub-Advisers under the sub-advisory contracts and the credentials and experience of the officers and employees of the Affiliated Sub-Advisers who provide these services. The Board noted that the Affiliated Sub-Advisers have offices and personnel that are located in financial centers around the world. As a result, the Affiliated Sub-Advisers can provide research and investment analysis on the markets and economies of various countries in which the Fund invests and make recommendations on securities of companies located in such countries. The Board concluded that the sub-advisory contracts benefit the Fund and its shareholders by permitting Invesco Advisers to use the resources and talents of the Affiliated Sub-Advisers in managing the Fund. The Board concluded that the nature, extent and quality of the services provided by the Affiliated Sub-Advisers are appropriate and satisfactory and consistent with the terms of the Fund's sub-advisory contracts.

### B. Fund Performance

The Board considered Fund performance as a relevant factor in considering whether to approve the investment advisory agreement. The Board did not view Fund performance as a relevant factor in considering whether to approve the sub-advisory contracts for the Fund, as no Affiliated Sub-Adviser currently manages assets of the Fund.

The Board compared the Fund's performance during the past one, three and five calendar years

to the performance of funds in the Lipper performance universe and against the Lipper VA Underlying Funds - Science & Technology Funds Index. The Board noted that performance of Series I shares of the Fund was in the second quintile of the performance universe for the one and three year periods and the fourth quintile for the five year period (the first quintile being the best performing funds and the fifth quintile being the worst performing funds). The Board noted that performance of Series I shares of the Fund was above the performance of the Index for the one and three year periods and below the performance of the Index for the five year period. The Trustees also reviewed more recent Fund performance and this review did not change their conclusions.

### C. Advisory and Sub-Advisory Fees and Fee Waivers

The Board compared the Fund's contractual advisory fee rate to the contractual advisory fee rates of funds in the Fund's Lipper expense group at a common asset level. The Board noted that the contractual advisory fee rate for Series I shares of the Fund was below the median contractual advisory fee rate of funds in the expense group. The Board also reviewed the methodology used by Lipper in providing expense group information, which includes using audited financial data from the most recent annual report of each fund in the expense group that was publicly available as of the end of the past calendar year and including only one fund per investment adviser. The Board noted that comparative data is as of varying dates, which may affect the comparability of data during times of market volatility.

The Board also compared the Fund's effective fee rate (the advisory fee after advisory fee waivers and before expense limitations/waivers) to the advisory fee rates of other mutual funds advised by Invesco Advisers and its affiliates with investment strategies comparable to those of the Fund. The Board noted that the Fund's effective fee rate was above the effective fee rate of the two mutual funds advised by Invesco Advisers with comparable investment strategies. The Board noted that Invesco Advisers sub-advises an off-shore fund with comparable investment strategies, which had an effective fee rate higher than the Fund's.

Other than the funds described above, the Board noted that Invesco Advisers and the Affiliated Sub-Advisers do not manage other client accounts in a manner substantially similar to the management of the Fund.

The Board noted that Invesco Advisers has contractually agreed to waive fees and/or limit expenses of the Fund through at least April 30, 2013 in an amount necessary to limit total annual operating expenses to a specified percentage of average daily net assets for each class of the Fund. The Board noted that at the current expense ratio for the Fund, this expense waiver does not have any impact. The Board also considered the services provided by the Affiliated Sub-Advisers pursuant to the sub-advisory contracts, as well as the allocation of fees between Invesco Advisers and the Affiliated Sub-Advisers pursuant to the sub-advisory contracts. The Board noted that Invesco Advisers provides services to sub-advised Invesco Funds, including oversight of the Affiliated Sub-Advisers as well as the additional services described above other than day-to-day portfolio management. The Board also noted that the sub-advisory fees have no direct effect on the Fund or its shareholders, as they are paid by Invesco Advisers to the Affiliated Sub-Advisers.

Based upon the information and considerations described above, the Board concluded that the Fund's advisory and sub-advisory fees are fair and reasonable.

D. Economies of Scale and Breakpoints The Board considered the extent to which there are economies of scale in the provision of advisory services to the Fund. The Board also considered whether the Fund benefits from economies of scale through contractual breakpoints in the Fund's advisory fee schedule and were assisted in their review by a report from the Senior Officer. The Board also noted that the Fund shares directly in economies of scale through lower fees charged by third party service providers based on the combined size of the Invesco Funds and other clients advised by Invesco Advisers. The Board noted that Invesco Advisers proposes sharing economies of scale in administration expenses by lowering per class administrative fees.

E. Profitability and Financial Resources The Board reviewed information from Invesco Advisers concerning the costs of the advisory and other services that Invesco Advisers and its affiliates provide to the Fund and the profitability of Invesco Advisers and its affiliates in providing these services for the year ended December 31, 2011. The Board reviewed with Invesco Advisers the methodology used to prepare the profitability information. The Board considered the profitability of Invesco Advisers in connection with managing the Fund and the Invesco Funds. The Board noted that Invesco Advisers continues to operate at a net profit from services Invesco Advisers and its subsidiaries provide to the Invesco Funds and the Fund. The Board did not deem the level of profits realized by Invesco Advisers and its affiliates from providing services to the Fund to be excessive given the nature, quality and extent of the services provided to the Invesco Funds. The Board received and accepted information from Invesco Advisers demonstrating that Invesco Advisers and each Affiliated Sub-Adviser are financially sound and have the resources necessary to perform their obligations under the investment advisory agreement and sub-advisory contracts.

### F. Collateral Benefits to Invesco Advisers and its Affiliates

The Board considered various other benefits received by Invesco Advisers and its affiliates from the relationship with the Fund, including the fees received for their provision of administrative, transfer agency and distribution services to the Fund. The Board considered the performance of Invesco Advisers and its affiliates in providing these services and the organizational structure employed to provide these services. The Board also considered that these services are provided to the Fund pursuant to written contracts that are reviewed and approved on an annual basis by the Board; that the services are required for the operation of the Fund; that Invesco Advisers and its affiliates can provide services, the nature and quality of which are at least equal to those provided by others offering the same or similar services; and that the fees for such services are fair and reasonable in light of the usual and customary charges by others for services of the same nature and quality.

The Board considered the benefits realized by Invesco Advisers and the Affiliated Sub-Advisers as a result of portfolio brokerage transactions executed through "soft dollar" arrangements. The Board noted that soft dollar arrangements shift the payment obligation for research services from Invesco Advisers and the Affiliated Sub-Advisers to the Invesco Funds and therefore may reduce Invesco Advisers' and the Affiliated Sub-Advisers' expenses. The Board also considered periodic reports from the Chief Compliance Officer of the Invesco Funds demonstrating that these arrangements are consistent with regulatory requirements. The Board did not deem the soft dollar arrangements to be inappropriate.

The Board considered that the Fund's uninvested cash and cash collateral from any securities lending arrangements may be invested in money market funds advised by Invesco Advisers pursuant to procedures approved by the Board. The Board noted that Invesco Advisers receives advisory fees from these affiliated money market funds attributable to such investments, although Invesco Advisers has contractually agreed to waive through varying periods the advisory fees payable by the Invesco Funds. The waiver is in an amount equal to 100% of the net advisory fee Invesco Advisers receives from the affiliated money market funds with respect to the Fund's investment in the affiliated money market funds of uninvested cash, but not cash collateral. The Board concluded that the Fund's investment of uninvested cash and cash collateral from any securities lending arrangements in the affiliated money market funds is in the best interests of the Fund and its shareholders.

The Board also considered use of an affiliated broker to execute certain trades for the Fund and that such trades are executed in compliance with rules under the Investment Company Act of 1940, as amended.

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results. The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than the original cost. For current month-end performance information, please contact your insurance company.

Performance results reflect the effect of any fee waivers or reimbursements of fund expenses by Columbia Management Investment Advisers, LLC and/or any of its affiliates. Absent these fee waivers or expense reimbursement arrangements, performance results would have been lower.

Investment earnings, if any, are tax-deferred until distributed to shareholders, at which time taxes may become due. Total return performance includes changes in share price and assumes reinvestment of dividends and capital gains, if any. Performance results reflect the effect of all fund expenses, but do not include any fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan. If performance results included the effect of these additional charges, they would be lower.

The Russell 2000 Value Index tracks the performance of those Russell 2000 Index companies with lower price-to-book ratios and lower forecasted growth values.

Indices are not available for investment, are not professionally managed and do not reflect sales charges, fees, brokerage commissions, taxes or other expenses of investing. Securities in the fund may not match those in an index.

## **Portfolio Overview**

## Understanding Your Fund's Expenses

(Unaudited)

As an investor, you incur ongoing costs, which generally include management fees, distribution and/or service (Rule 12b-1) fees, and other fund expenses. The following information is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to help you compare these costs with the ongoing costs of investing in other mutual funds.

The information below does not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy (collectively, Contracts) or qualified pension and retirement plan (Qualified Plan), if any. The total fees and expenses you bear may therefore be higher than those shown below.

### **Analyzing Your Fund's Expenses**

To illustrate these ongoing costs, we have provided examples and calculated the expenses paid by investors in each share class of the Fund during the period. The actual and hypothetical information in the table is based on an initial investment of \$1,000 at the beginning of the period indicated and held for the entire period. Expense information is calculated two ways and each method provides you with different information. The amount listed in the "Actual" column is calculated using the Fund's actual operating expenses and total return for the period. You may use the Actual information, together with the amount invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$6,000 account value divided by \$1,000 = 8.6), then multiply the results by the expenses paid during the period under the Actual column. The amount listed in the "Hypothetical" column assumes a 5% annual rate of return before expenses (which is not the Fund's actual return) and then applies the Fund's actual expenses ratio for the period to the hypothetical return. You should not use the hypothetical account values and expenses to estimate either your actual account balance at the end of the period or the expenses you paid during the period. See "Compare With Other Funds" below for details on how to use the hypothetical data.

### **Compare With Other Funds**

Since all mutual funds are required to include the same hypothetical calculations about expenses in shareholder reports, you can use this information to compare the ongoing cost of investing in the Fund with other funds. To do so, compare the hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds. As you compare hypothetical examples of other funds, it is important to note that hypothetical examples are meant to highlight the ongoing costs of investing in a fund only and do not reflect any transaction costs, such as redemption or exchange fees, or expenses that apply to the subaccount or the contract. Therefore, the hypothetical calculations are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If the fees and expenses imposed under your Contract or Qualified Plan, if any, were included, your costs would be higher.

### January 1, 2012 – June 30, 2012

|         |          | at the Beginning<br>Period (\$) |          | at the End of the<br>iod (\$) | •      | Paid During the<br>eriod (\$) | Fund's Annualized<br>Expense Ratio (%) |
|---------|----------|---------------------------------|----------|-------------------------------|--------|-------------------------------|--|
|         | Actual   | Hypothetical                    | Actual   | Hypothetical                  | Actual | Hypothetical                  | Actual                                 |
| Class 1 | 1,000.00 | 1,000.00                        | 1,031.80 | 1,020.49                      | 4.44   | 4.42                          | 0.88                                   |
| Class 2 | 1,000.00 | 1,000.00                        | 1,030.90 | 1,019.74                      | 5.20   | 5.17                          | 1.03                                   |

Expenses paid during the period are equal to the annualized expense ratio for each class as indicated above, multiplied by the average account value over the period and then multiplied by the number of days in the Fund's most recent fiscal half year and divided by 366.

Expenses do not include fees and expenses incurred indirectly by the Fund from the underlying funds in which the Fund may invest (also referred to as "acquired funds"), including affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds).

Had Columbia Management Investment Advisers, LLC and/or certain of its affiliates not waived/reimbursed certain fees and expenses, account value at the end of the period would have been reduced.

### **Notes to Portfolio of Investments**

- (a) Non-income producing.
- (b) At June 30, 2012, security was partially or fully on loan.
- (c) The rate shown is the seven-day current annualized yield at June 30, 2012.
- (d) As defined in the Investment Company Act of 1940, an affiliated company is one in which the Fund owns 5% or more of its outstanding voting securities, or a company which is under common ownership or control with the Fund. Holdings and transactions in these affiliated companies during the period ended June 30, 2012, are as follows:

| Issuer                              | Beginning<br>Cost (\$) | Purchase<br>Cost (\$) | Sales Cost/<br>Proceeds<br>from Sales (\$) | Realized<br>Gain/Loss (\$) | Ending<br>Cost (\$) | Dividends<br>or Interest<br>Income (\$) | Value (\$) |

(e) The table below represents securities received as collateral for repurchase agreements. This collateral is deposited with the Fund's custodian and, pursuant to the terms of the repurchase agreement, must have an aggregate value greater than or equal to the repurchase price plus accrued interest at all times. The value of securities and/or cash held as collateral for repurchase agreements is monitored on a daily basis to ensure the proper level of collateral.

| Security Description                        | Value (\$) |

### **Fair Value Measurements**

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment's level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset or liability's fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- > Level 1 Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (including NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.
- > Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- > Level 3 Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Foreign equity securities actively traded in markets where there is a significant delay in the local close relative to the New York Stock Exchange (NYSE) are classified as Level 2. The values of these securities may include an adjustment to reflect the impact of significant market movements following the close of local trading, as described in Note 2 to the financial statements — Security Valuation.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for carrying out the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are readily available, including recommendation of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third-party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of monitoring this information (which may occur as often as daily). However, the Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

June 30, 2012 (Unaudited)

### Fair Value Measurements (continued)

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category are generally valued using the market approach, in which a security's value is determined through reference to prices and information from market transactions for similar or identical assets. These assets include certain foreign securities for which a third party statistical pricing service may be employed for purposes of fair market valuation. The models utilized by the third party statistical pricing service take into account a security's correlation to available market data including, but not limited to, intraday index, ADR, and ETF movements.

There were no transfers of financial assets between Levels 1 and 2 during the period.

## **Statement of Assets and Liabilities**

## **Financial Highlights**

The following tables are intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single share of a class held for the periods shown. Per share net investment income (loss) amounts are calculated based on average shares outstanding during the period. Total returns assume reinvestment of all dividends and distributions, if any. Total returns do not reflect payment of the expenses that apply to the variable accounts or contract charges, if any, and are not annualized for periods of less than one year.

#### **Notes to Financial Highlights**

(a) In addition to the fees and expenses which the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of the acquired funds in which it invests. Such indirect expenses are not included in the reported expense ratios.

(b) Annualized.

(c) Includes interest expense which rounds to less than 0.01%.

(d) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.

(e) The benefits derived from expense reductions had an impact of less than 0.01%.

(f) The Investment Manager reimbursed interest expense which had an impact of less than 0.01%.

## **Notes to Financial Statements**

June 30, 2012 (Unaudited)

### Note 1. Organization

Columbia Variable Portfolio — Small Cap Value Fund (the Fund), a series of Columbia Funds Variable Insurance Trust (the Trust), is a diversified fund. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company organized as a Massachusetts business trust.

### **Fund Shares**

The Trust may issue an unlimited number of shares (without par value). The Fund offers Class 1 and Class 2 shares to separate accounts funding variable annuity contracts and variable life insurance policies issued by affiliated and unaffiliated life insurance companies as well as qualified pension and retirement plans and other qualified institutional investors authorized by Columbia Management Investment Distributors, Inc. (the Distributor). You may not buy (nor will you own) shares of the Fund directly. You invest by participating in a qualified plan or buying a contract and making allocations to the Fund. All share classes have identical voting, dividend and liquidation rights. Each share class has its own expense structure.

## Note 2. Summary of Significant Accounting Policies

### **Use of Estimates**

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

### **Security Valuation**

All equity securities are valued at the close of business of the New York Stock Exchange (NYSE). Equity securities are valued at the last quoted sales price on the principal exchange or market on which they trade, except for securities traded on the NASDAQ Stock Market, which are valued at the NASDAQ official close price. Unlisted securities or listed securities for which there were no sales during the day are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Foreign securities are valued based on quotations from the principal market in which such securities are normally traded. If any foreign share prices are not readily available as a result of limited share activity the securities are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Foreign currency exchange rates are generally determined at 4:00 p.m. Eastern (U.S.) time. However, many securities markets and exchanges outside the U.S. close prior to the close of the NYSE; therefore, the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the close of the NYSE. In those situations, foreign securities will be fair valued pursuant to the policy adopted by the Board of Trustees (the Board), including utilizing a third party pricing service to determine these fair values. The third party pricing service takes into account multiple factors, including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign exchange rates that have occurred subsequent to the close of the foreign exchange or market, to determine a good faith estimate that reasonably reflects the current market conditions as of the close of the NYSE. The fair value of a security is likely to be different from the quoted or published price, if available.

Investments in other open-end investment companies, including money market funds, are valued at net asset value.

Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates market value. The value of short-term securities originally purchased with maturities greater than 60 days is determined based on an amortized value to par upon reaching 60 days to maturity. Short-term securities maturing in more than 60 days from the valuation date are valued at the market price or approximate market value based on current interest rates.

Investments for which market quotations are not readily available, or that have quotations which management believes are not reliable, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board. If a security or class of securities (such as foreign securities) is valued at fair value, such value is likely to be different from the last quoted market price for the security.

The determination of fair value often requires significant judgment. To determine fair value, management may use assumptions including but not limited to future cash flows and estimated risk premiums. Multiple inputs from various sources may be used to determine fair value.

June 30, 2012 (Unaudited)

### **Foreign Currency Transactions and Translation**

The values of all assets and liabilities denominated in foreign currencies are translated into U.S. dollars at that day's exchange rates. Net realized and unrealized gains (losses) on foreign currency transactions and translations include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments in the Statement of Operations.

### **Repurchase Agreements**

The Fund may engage in repurchase agreement transactions with institutions that management has determined are creditworthy. The Fund, through the custodian, receives delivery of the underlying securities collateralizing a repurchase agreement. Management is responsible for determining that the collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays in or restrictions on a Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

### **Security Transactions**

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

### **Income Recognition**

Corporate actions and dividend income are recorded net of any non-reclaimable tax withholdings, on the ex-dividend date or upon receipt of ex-dividend notification in the case of certain foreign securities.

Interest income is recorded on an accrual basis.

The Fund may receive distributions from holdings in business development companies (BDCs), exchange traded funds (ETFs) and real estate investment trusts (REITs), which report information on the character of their distributions annually. These distributions are allocated to dividend income, capital gain and return of capital based on estimates made by the Fund's management if actual information has not yet been reported. Return of capital is recorded as a reduction of the cost basis of securities held. Management's estimates are subsequently adjusted when the actual character of the distributions is disclosed by the BDCs, ETFs and REITs, which could result in a proportionate change in return of capital to shareholders.

Awards from class action litigation are recorded as a reduction of cost basis if the Fund still owns the applicable securities on the payment date. If the Fund no longer owns the applicable securities, the proceeds are recorded as realized gains.

### Expenses

General expenses of the Trust are allocated to the Fund and other funds of the Trust based upon relative net assets or other expense allocation methodologies determined by the nature of the expense. Expenses directly attributable to the Fund are charged to the Fund. Expenses directly attributable to a specific class of shares are charged to that share class.

### **Determination of Class Net Asset Value**

All income, expenses (other than class-specific expenses, which are charged to that share class, as shown in the Statement of Operations) and realized and unrealized gains (losses) are allocated to each class of the Fund on a daily basis, based on the relative net assets of each class, for purposes of determining the net asset value of each class.

#### **Federal Income Tax Status**

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, because the Fund's sole shareholders are Qualified Investors, the Fund expects not to be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

#### **Distributions to Subaccounts**

Distributions from net investment income, if any, are declared and paid annually. Net realized capital gains, if any, are distributed along with the income dividend. Income distributions and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

All dividends and distributions are reinvested in additional shares of the applicable class of the Fund at net asset value as of the ex-dividend date of the distribution.

June 30, 2012 (Unaudited)

### **Guarantees and Indemnifications**

Under the Trust's organizational documents and, in some cases, by contract, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust or its funds. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

### **Recent Accounting Pronouncement**

### Disclosures about Offsetting Assets and Liabilities

In December 2011, the Financial Accounting Standards Board (FASB) issued ASU No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*. The objective of the FASB is to enhance current disclosure requirements on offsetting of certain assets and liabilities and to enable financial statement users to compare financial statements prepared under GAAP and International Financial Reporting Standards.

Specifically, ASU No. 2011-11 requires an entity to disclose both gross and net information for derivatives and other financial instruments that are subject to a master netting arrangement or similar agreement. The standard requires disclosure of collateral received in connection with the master netting agreements or similar agreements. The effective date of ASU No. 2011-11 is for interim and annual periods beginning on or after January 1, 2013. At this time, management is evaluating the implications of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

## Note 3. Fees and Compensation Paid to Affiliates

### **Investment Management Fees**

Under an Investment Management Services Agreement (IMSA), Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), determines which securities will be purchased, held or sold. The management fee is an annual fee that is equal to a percentage of the Fund's average daily net assets that declines from 0.79% to 0.70% as the Fund's net assets increase. The annualized effective management fee rate for the six months ended June 30, 2012 was 0.79% of the Fund's average daily net assets.

### **Administration Fees**

Under an Administrative Services Agreement, the Investment Manager serves as the Fund Administrator. The Fund pays the Fund Administrator an annual fee for administration and accounting services equal to a percentage of the Fund's average daily net assets that declines from 0.08% to 0.05% as the Fund's net assets increase. The annualized effective administration fee rate for the six months ended June 30, 2012 was 0.08% of the Fund's average daily net assets.

### **Compensation of Board Members**

Board members are compensated for their services to the Fund as disclosed in the Statement of Operations. The Trust's eligible Trustees may participate in a Deferred Compensation Plan (the Plan) which may be terminated at any time. Obligations of the Plan will be paid solely out of the Fund's assets.

### **Compensation of Chief Compliance Officer**

The Board has appointed a Chief Compliance Officer to the Fund in accordance with federal securities regulations. The Fund pays its pro-rata share of the expenses associated with the Chief Compliance Officer. The Fund's expenses for the Chief Compliance Officer will not exceed \$15,000 per year.

### **Transfer Agent Fees**

The Fund has a Transfer Agency and Dividend Disbursing Agent Agreement with Columbia Management Investment Services Corp. (the Transfer Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial. The annual fee rate under this agreement is 0.06% of the Fund's average daily net assets. The Transfer Agent also receives compensation from fees for various shareholder services and reimbursements for certain out-of-pocket fees.

### **Distribution Fees**

The Fund has an agreement with the Distributor, an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial, for distribution services. Pursuant to Rule 12b-1 under the 1940 Act, the Board has approved, and the Fund has adopted, a distribution plan (the Plan) which sets the distribution fees for the Fund. These fees are calculated daily and are intended to compensate the Distributor for selling shares of the Fund. The Plan requires the payment of a monthly distribution fee to the Distributor at the maximum annual rate of 0.25% of the average daily net assets attributable to Class 2 shares of the Fund.

June 30, 2012 (Unaudited)

## Expenses Waived/Reimbursed by the Investment Manager and its Affiliates

The Investment Manager and certain of its affiliates have contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below), through April 30, 2013, unless sooner terminated at the sole discretion of the Board, so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and any overdraft charges from the Fund's custodian, do not exceed the annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.88% |
|---------|-------|
| Class 2 | 1.03  |

Under the agreement, the following fees and expenses are excluded from the waiver/reimbursement commitment, and therefore will be paid by the Fund, if applicable: taxes (including foreign transaction taxes), expenses associated with investments in affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds), transaction costs and brokerage commissions, costs related to any securities lending program, dividend expenses associated with securities sold short, inverse floater program fees and expenses, transaction charges and interest on borrowed money, interest, extraordinary expenses and any other expenses the exclusion of which is specifically approved by the Board. This agreement may be modified or amended only with approval from all parties.

In addition, the Distributor has voluntarily agreed to reimburse the Class 2 distribution fee in excess of 0.15% if the total annual Fund operating expenses applicable to Class 2 shares, including distribution fees, exceed the annual rate of 1.03% of the average daily net assets attributable to Class 2 shares. This arrangement may be modified or terminated by the Distributor at any time.

### Note 4. Federal Tax Information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP because of temporary or permanent book to tax differences.

At June 30, 2012, the cost of investments for federal income tax purposes was approximately \$321,910,000 and the aggregate gross approximate unrealized appreciation and depreciation based on that cost was:

| Unrealized appreciation     | \$28,627,000   |
|-----------------------------|----------------|
| Unrealized depreciation     | (39,969,000)   |
| Net unrealized depreciation | \$(11,342,000) |

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

### Note 5. Portfolio Information

The cost of purchases and proceeds from sales of securities, excluding short-term obligations, aggregated to \$56,140,092 and \$59,664,615, respectively, for the six months ended June 30, 2012.

### Note 6. Lending of Portfolio Securities

The Fund has entered into a Master Securities Lending Agreement (the Agreement) with JPMorgan Chase Bank, N.A. (JPMorgan). The Agreement authorizes JPMorgan as lending agent to lend securities to authorized borrowers in order to generate additional income on behalf of the Fund. Pursuant to the Agreement, the securities loaned are secured by cash or securities that either are issued or guaranteed as to principal and interest by the U.S. government, its agencies, authorities or instrumentalities with value equal to at least 100% of the market value of the loaned securities. Any additional collateral required to maintain those levels due to market fluctuations of the loaned securities is requested to be delivered the following business day. Cash collateral received is invested by the lending agent on behalf of the Fund into authorized investments pursuant to the Agreement. The investments made with the cash collateral are listed in the Portfolio of Investments. The values of such investments and any uninvested cash collateral are disclosed in the Statement of Assets and Liabilities along with the related obligation to return the collateral upon the return of the securities loaned.

Risks of delay in recovery of securities or even loss of rights in the securities may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the securities loaned increases above the value of the collateral received. JPMorgan will indemnify the Fund from losses resulting from a borrower's failure to return a loaned security when due. Such indemnification does not extend to losses associated with declines in the value of cash collateral investments. The Investment Manager is not responsible for any losses incurred by the Fund in connection with the securities lending program. Loans are subject to termination by the Fund or the borrower at any time, and are, therefore, not considered to be illiquid investments.

Pursuant to the Agreement, the Fund receives income for lending its securities either in the form of fees or by earning interest on invested cash collateral, net of negotiated rebates paid to borrowers and fees paid to the lending agent for services provided and any other securities lending expenses. Net income earned from securities lending for the six months ended June 30, 2012 is disclosed in the Statement of

June 30, 2012 (Unaudited)

Operations. The Fund continues to earn and accrue interest and dividends on the securities loaned.

At June 30, 2012, securities valued at \$13,389,552 were on loan, secured by cash collateral of \$13,389,502 (which does not reflect calls for collateral made to borrowers by JPMorgan at period end) that is partially or fully invested in short-term securities or other cash equivalents.

### Note 7. Affiliated Money Market Fund

The Fund may invest its daily cash balances in Columbia Short-Term Cash Fund, an affiliated money market fund established for the exclusive use by the Fund and other affiliated funds. The income earned by the Fund from such investments is included as "Dividends from affiliates" in the Statement of Operations. As an investing fund, the Fund indirectly bears its proportionate share of the expenses of Columbia Short-Term Cash Fund.

### Note 8. Shareholder Concentration

At June 30, 2012, three unaffiliated shareholder accounts owned an aggregate of 88.8% of the outstanding shares of the Fund. The Fund has no knowledge about whether any portion of those shares was owned beneficially by such accounts. Subscription and redemption activity by concentrated accounts may have a significant effect on the operations of the Fund.

### Note 9. Line of Credit

The Fund has entered into a revolving credit facility with a syndicate of banks led by JPMorgan whereby the Fund may borrow for the temporary funding of shareholder redemptions or for other temporary or emergency purposes. The credit facility agreement, as amended, which is a collective agreement between the Fund and certain other funds managed by the Investment Manager, severally and not jointly, permits collective borrowings up to \$500 million. Interest is charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the overnight federal funds rate plus 1.00% or (ii) the one-month LIBOR rate plus 1.00%. Each borrowing under the credit facility matures no later than 60 days after the date of borrowing. The Fund also pays a commitment fee equal to its pro rata share of the amount of the credit facility at a rate of 0.08% per annum.

The Fund had no borrowings during the six months ended June 30, 2012.

### Note 10. Subsequent Events

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

## Note 11. Information Regarding Pending and Settled Legal Proceedings

In December 2005, without admitting or denying the allegations, American Express Financial Corporation (AEFC, which is now known as Ameriprise Financial, Inc. (Ameriprise Financial)) entered into settlement agreements with the Securities and Exchange Commission (SEC) and Minnesota Department of Commerce (MDOC) related to market timing activities. As a result, AEFC was censured and ordered to cease and desist from committing or causing any violations of certain provisions of the Investment Advisers Act of 1940, the Investment Company Act of 1940, and various Minnesota laws. AEFC agreed to pay disgorgement of \$10 million and civil money penalties of \$7 million. AEFC also agreed to retain an independent distribution consultant to assist in developing a plan for distribution of all disgorgement and civil penalties ordered by the SEC in accordance with various undertakings detailed at www.sec.gov/litigation/admin/ia-2451.pdf. Ameriprise Financial and its affiliates have cooperated with the SEC and the MDOC in these legal proceedings, and have made regular reports to the funds' Boards of Trustees.

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Funds are not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or regulatory proceedings that are likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds. Ameriprise Financial is required to make 10-Q, 10-K and, as necessary, 8-K filings with the Securities and Exchange Commission on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares or other adverse consequences to the Funds. Further, although we believe proceedings are not likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial.

## **Board Consideration and Approval of Advisory Agreement**

At meetings held on March 7, 2012 and June 6, 2012, respectively, the Board of Trustees (the "Board") and the Trustees who are not interested persons (as defined in the Investment Company Act of 1940) of the Trust (the "Independent Trustees") unanimously approved the continuation of the Investment Management Services Agreement (the "Advisory Agreement") with Columbia Management Investment Advisers, LLC (the "Investment Manager") with respect to Columbia Variable Portfolio — Small Cap Value Fund (the "Fund"), a series of the Trust. As detailed below, the Advisory Fees and Expenses Committee (the "Committee") and the Board met on multiple occasions to review and discuss, both among themselves and with the management team of the Investment Manager, materials provided by the Investment Manager before determining to approve each continuation of the Advisory Agreement.

In connection with their deliberations regarding each continuation of the Advisory Agreement, the Committee and the Board requested and evaluated materials from the Investment Manager regarding the Fund and the Advisory Agreement, and discussed these materials with representatives of the Investment Manager at Committee meetings held on March 6, 2012, April 25, 2012 and June 5, 2012, and at the Board meetings held on March 7, 2012 and June 6, 2012. In addition, the Board considers matters bearing on the Advisory Agreement at most of its other meetings throughout the year and meets regularly with senior management of the Funds and the Investment Manager. Through the Board's Investment Oversight Committees, Trustees also meet with selected Fund portfolio managers and other investment personnel at various times throughout the year. The Committee and the Board also consulted with Fund counsel and with the Independent Trustees' independent legal counsel, who advised on the legal standard for consideration by the Board and otherwise assisted the Board in its deliberations.

On March 6, 2012, the Committee recommended that the Board approve the continuation of the Advisory Agreement. On March 7, 2012, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement for the Fund. The Committee and the Board met in June 2012 to consider the continuation of the Advisory Agreement for the one-year period ending June 30, 2013, so as to permit the annual consideration of the Advisory Agreement to be conducted each June. On June 5, 2012, the Committee recommended that the Board approve the continuation of the Advisory Agreement. On June 6, 2012, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement.

The Committee and the Board considered all information that they, their legal counsel, or the Investment Manager believed reasonably necessary to evaluate and to determine whether to approve the continuation of the Advisory Agreement. In their deliberations, the Trustees did not identify any particular information that was all-important or controlling, and individual Trustees may have attributed different weights to the various factors. The information and factors considered by the Committee and the Board in recommending for approval or approving the continuation of the Advisory Agreement for the Fund included the following:

- Information on the investment performance of the Fund relative to the performance of the Fund's benchmarks and the performance of a group of comparable mutual funds, as determined by an independent third-party data provider;
- Information on the Fund's advisory fees and total expenses, including information comparing the Fund's expenses to those of a group of comparable mutual funds, as determined by an independent third-party data provider;
- The Investment Manager's agreement to contractually limit or cap total operating expenses for the Fund so that total operating expenses (excluding certain fees and expenses, such as transaction costs and certain other investment related expenses, interest, taxes, acquired fund fees and expenses, and extraordinary expenses) would not exceed the median expenses of a group of comparable funds (as determined from time to time, generally annually, by an independent third-party data provider);
- The terms and conditions of the Advisory Agreement, including that the advisory fee rates payable by the Fund would not change;
- The terms and conditions of other agreements and arrangements with affiliates of the Investment Manager relating to the operations of the Fund, including the Administrative Services Agreement, the Distribution Agreement and the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement certain proposed changes to the fee rates payable thereunder;
- Descriptions of various functions performed by the Investment Manager under the Advisory Agreement, including portfolio management and portfolio trading practices;

# Board Consideration and Approval of Advisory Agreement (continued)

- Information regarding the management fees and investment performance of any comparable portfolios of other clients of the Investment Manager, including institutional separate accounts; and
- The profitability to the Investment Manager and its affiliates from their relationships with the Fund.

### Nature, Extent and Quality of Services to be Provided under the Advisory Agreement

The Committee and the Board considered the nature, extent and quality of services provided to the Fund by the Investment Manager and its affiliates under the Advisory Agreement and under separate agreements for the provision of transfer agency and administrative services, and the resources dedicated to the Fund and the other Columbia Funds by the Investment Manager and its affiliates. The Committee and the Board considered, among other things, the Investment Manager's ability to attract, motivate and retain highly qualified research, advisory and supervisory investment professionals (including personnel and other resources, compensation programs for personnel involved in fund management, reputation and other attributes), the portfolio management services provided by those investment professionals, the quality of the Investment Manager's investment research capabilities and trade execution services, and the other resources that the Investment Manager devotes to the Fund. The Committee and the Board also considered the potential benefits to shareholders of investing in a mutual fund that is part of a fund complex offering exposure to a variety of asset classes and investment disciplines and providing a variety of fund and shareholder services.

The Committee and the Board also considered the professional experience and qualifications of the senior personnel of the Investment Manager. The Committee and the Board noted the compliance programs of and the compliance-related resources provided to the Fund by the Investment Manager and its affiliates, and considered the Investment Manager's ability to provide administrative services to the Fund pursuant to a separate administrative services agreement, including the Investment Manager's ability to coordinate the activities of the Fund's other service providers. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the expected nature, extent and quality of the services to be provided to the Fund under the Advisory Agreement supported the continuation of such agreement.

#### **Investment Performance**

The Committee and the Board reviewed information about the performance of the Fund over various time periods, including performance information relative to benchmarks and information based on reports of an independent third-party data provider that compared the performance of the Fund to the performance of a group of comparable mutual funds. The Committee and the Board also reviewed a description of the third party's methodology for identifying the Fund's peer groups for purposes of performance and expense comparisons. In the case of each Fund whose performance lagged that of a relevant peer group for certain (although not necessarily all) periods, the Committee and the Board concluded that other factors relevant to performance were sufficient, in light of other considerations, to warrant continuation of the Fund's Advisory Agreement. Those factors varied from fund to fund, but included one or more of the following: (i) that the Fund's performance, although lagging in certain recent periods, was stronger over the longer term; (ii) that the underperformance was attributable, to a significant extent, to investment decisions that were reasonable and consistent with the Fund's investment strategy and policies and that the Fund was performing within a reasonable range of expectations, given those investment decisions, market conditions and the Fund's investment strategy; (iii) that the Fund's performance was competitive when compared to other relevant performance benchmarks or peer groups; and (iv) that the Investment Manager had taken or was taking steps designed to help improve the Fund's investment performance, including, but not limited to, replacing portfolio managers, enhancing the resources supporting the portfolio managers, or modifying investment strategies.

The Committee and the Board noted that, through December 31, 2011, the Fund's performance was in the sixty-second, eighty-fifth and thirty-second percentiles (where the best performance would be in the first percentile) of its category selected by an independent third-party data provider for the purposes of performance comparisons for the one-, three- and five- year periods, respectively.

The Committee and the Board also considered the Investment Manager's performance and reputation generally, the Investment Manager's historical responsiveness to Board concerns about performance and the Investment Manager's willingness to take steps intended to improve performance. After reviewing these and related factors, the Committee and the

# Board Consideration and Approval of Advisory Agreement (continued)

Board concluded, within the context of their overall conclusions regarding the Advisory Agreement, that the performance of the Fund and the Investment Manager was sufficient, in light of other considerations, to warrant the continuation of the Advisory Agreement.

### **Investment Advisory Fee Rates and Other Expenses**

The Committee and the Board considered the advisory fees to be charged to the Fund under the Advisory Agreement as well as the total expenses to be incurred by the Fund. In assessing the reasonableness of the fees under the Advisory Agreement, the Committee and the Board considered, among other information, the Fund's advisory fee and its expected total expense ratio as a percentage of average daily net assets. The Committee and the Board noted that the Fund's actual management fee and total net expense ratio are ranked in the second and third quintiles, respectively, against the Fund's expense universe as determined by an independent third-party data provider for purposes of expense comparison. The Committee and the Board also took into account the fee waiver and expense limitation arrangements agreed to by the Investment Manager, as noted above.

The Committee and the Board also considered the fact that the advisory fee rates payable by the Fund to the Investment Manager under the Advisory Agreement were the same as those currently paid by the Fund to the Investment Manager.

The Committee and the Board also received and considered information about the advisory fees charged by the Investment Manager to institutional separate accounts. In considering the fees charged to those accounts, the Committee and the Board took into account, among other things, the Investment Manager's representations about the differences between managing mutual funds as compared to other types of accounts, including differences in the services provided, differences in the risk profile of such business for the Investment Manager and the additional resources required to manage mutual funds effectively. In evaluating the Fund's advisory fees, the Committee and the Board also took into account the demands, complexity and quality of the investment management of the Fund.

After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the advisory fee rates and expenses of the Fund supported the continuation of the Advisory Agreement.

### **Costs of Services to be Provided and Profitability**

The Committee and the Board also took note of the costs of the services provided (both on an absolute and relative basis) and the profitability to the Investment Manager and its affiliates in connection with their relationships with the Fund. In evaluating these considerations, the Committee and the Board took note of the advisory fees charged by the Investment Manager to other clients, including fees charged by the Investment Manager to any institutional separate account clients with similar investment strategies to those of the Fund.

The Committee and the Board also considered the compensation directly or indirectly received by the Investment Manager's affiliates in connection with their relationships with the Fund. The Committee and the Board reviewed information provided by management as to the profitability of the Investment Manager and its affiliates of their relationships with the Fund, and information about the allocation of expenses used to calculate profitability. When reviewing profitability, the Committee and the Board also considered court cases in which adviser profitability was an issue in whole or in part, the performance of the fund, the expense ratio of the fund, and the implementation of expense limitations with respect to the fund. The Committee and the Board also considered information provided by the Investment Manager regarding its financial condition and comparing its profitability to that of other asset management firms that are, or are subsidiaries of, publicly traded companies.

After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the profitability to the Investment Manager and its affiliates from their relationships with the Fund supported the continuation of the Advisory Agreement.

### **Economies of Scale**

The Committee and the Board considered the potential existence of economies of scale in the provision by the Investment Manager of services to the Fund, to groups of related funds, and to the Investment Manager's investment advisory clients as a whole, and whether those economies of scale were shared with the Fund through breakpoints in investment advisory fees or other means, such as expense limitation arrangements and additional investments by the Investment Manager in

## Board Consideration and Approval of Advisory Agreement (continued)

investment, trading and compliance resources. The Committee and the Board noted that the investment advisory fee schedules for the Fund contained breakpoints that would reduce the fee rate on assets above specified threshold levels.

In considering these issues, the Committee and the Board also considered the costs of the services provided (both on an absolute and relative basis) and the profitability to the Investment Manager and its affiliates from their relationships with the Fund, as discussed above. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the extent to which economies of scale were expected to be shared with the Fund supported the continuation of the Advisory Agreement.

### Other Benefits to the Investment Manager

The Committee and the Board received and considered information regarding "fall-out" or ancillary benefits received by the Investment Manager and its affiliates as a result of their relationships with the Fund, such as the engagement of the Investment Manager's affiliates to provide administrative services to the Fund and the engagement of the Investment Manager's affiliates to provide distribution and transfer agency services to the Fund. The Committee and the Board considered that the Fund's distributor retains a portion of the distribution fees from the Fund and receives a portion of the sales charges on sales or redemptions of certain classes of shares of the Fund. The Committee and the Board also considered the benefits of research made available to the Investment Manager by reason of brokerage commissions generated by the Fund's securities transactions, and reviewed information about the Investment Manager's practices with respect to allocating portfolio brokerage for brokerage and research services. The Committee and the Board considered the possible conflicts of interest associated with certain fall-out or other ancillary benefits and the reporting, disclosure and other processes that would be in place to address such possible conflicts of interest. The Committee and the Board recognized that the Investment Manager's profitability would be somewhat lower without these benefits.

### Conclusion

The Committee and the Board reviewed all of the above considerations in reaching their decisions to recommend or approve the continuation of the Advisory Agreement. No single item was identified as paramount or controlling, and individual Trustees may have attributed different weights to various factors. Based on their evaluation of all factors that they deemed to be material, including those factors described above, and assisted by the advice of independent legal counsel, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement.

## **Important Information About This Report**

The policy of the Board is to vote the proxies of the companies in which each fund holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary; or searching the website of the Securities and Exchange Commission (SEC) at http://www.sec.gov. Information regarding how each fund voted proxies relating to portfolio securities is filed with the SEC by August 31 for the most recent 12-month period ending June 30 of that year, and is available without charge by visiting columbiamanagement.com; or searching the website of the SEC at sec.gov.

Each fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each fund's Form N-Q is available on the SEC's website at sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330. Each fund's complete schedule of portfolio holdings, as filed on Form N-Q, can also be obtained without charge, upon request, by calling 800.345.6611.

### **Performance Overview**

(Unaudited)

### **Performance Summary**

- > Columbia Variable Portfolio Strategic Income Fund (the fund) Class 1 shares returned 5.27% for the six-month period ended June 30, 2012.
- > The Barclays U.S. Government/Credit Index returned 2.65% for the same period.
- > The fund's new Blended Benchmark returned 4.38% for the period while the fund's former Blended Benchmark returned 4.48% for the same time frame.
- > Effective on February 29, 2012, the fund changed its Blended Benchmark because the Investment Manager believes it is more consistent with the fund's investment strategy.

| Average Annual Total Returns (%) (for period ended June 30, 2012) |           |                     |        |         |          |  |

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results. The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than the original cost. For current month-end performance information, please contact your insurance company.

Performance results reflect any fee waivers or reimbursements of fund expenses by Columbia Management Investment Advisers, LLC and/or any of its affiliates. Absent these fee waivers or expense reimbursement arrangements, performance results would have been lower.

Investment earnings, if any, are tax-deferred until distributed to shareholders, at which time taxes may become due. Total return performance includes changes in share price and assumes reinvestment of dividends and capital gains, if any. Performance results reflect the effect of all fund expenses, but do not include any fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan. If performance results included the effect of these additional charges, they would be lower.

The Barclays U.S. Government/Credit Index tracks the performance of U.S. government and corporate bonds rated investment grade or better, with maturities of at least one year.

The New Blended Benchmark is a weighted custom composite, established by the Investment Manager, consisting of a 35% weighting of the Barclays U.S. Aggregate Bond Index, a 35% weighting of the BofA Merrill Lynch U.S. High Yield Cash Pay Constrained Index, a 15% weighting of the Citigroup Non-U.S. World Government Bond Index — Unhedged and a 15% weighting of the JPMorgan Emerging Markets Bond Index (EMBI) — Global. The Barclays U.S. Aggregate Bond Index is a market value-weighted index that tracks the daily price, coupon, pay-downs and total return performance of fixed-rate, publicly placed, dollar-denominated and non-convertible investment grade debt issues with at least \$250 million par amount outstanding and with at least one year to final maturity. The BofA Merrill Lynch U.S. High Yield Cash Pay Constrained Index tracks the performance of U.S. dollar-denominated below investment grade corporate debt, currently in a coupon paying period, that is publicly issued in the U.S. domestic market. The Citigroup Non-U.S. World Government Bond Index — Unhedged is calculated on a market-weighted basis and includes all fixed-rate bonds with a remaining maturity of one year or longer and with amounts outstanding of at least the equivalent of U.S. \$25 million while excluding floating or variable rate bonds, securities aimed principally at non-institutional investors and private placement-type securities. The JPMorgan EMBI — Global is based on U.S. dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities, such as Brady bonds, Eurobonds and loans, and reflects reinvestment of all distributions and changes in market prices.

The Former Blended Benchmark consists of 35% Barclays U.S. Aggregate Bond Index, 35% JPMorgan Global High Yield Index, 15% Citigroup Non- U.S. World Government Bond Index-Unhedged and 15% JPMorgan EMBI Global Diversified Index. The JPMorgan Global High Yield Index is designed to mirror the investable universe of the U.S. dollar global high yield corporate debt market, including domestic and international issues. The JPMorgan EMBI Global Diversified Index tracks total returns for traded external debt instruments in the emerging markets including U.S. dollar-denominated Brady bonds, loans and Eurobonds with an outstanding face value of at least \$500 million.

Indices are not available for investment, are not professionally managed and do not reflect sales charges, fees, brokerage commissions, taxes or other expenses of investing. Securities in the fund may not match those in an index.

## **Portfolio Overview**

(Unaudited)

| Portfolio Breakdown (%)<br>(at June 30, 2012)       |                    |

| Other <sup>(b)</sup>                                | 7.4                |

Percentages indicated are based upon total investments (excluding Investments of Cash Collateral Received for Securities on Loan). The Fund's composition is subject to change.

(a) Rounds to less than 0.1%.

(b) Includes investments in money market funds.

| Quality Breakdown (%)<br>(at June 30, 2012) |      |
|---|------|
| AAA rating                                  | 27.0 |
| AA rating                                   | 1.0  |
| A rating                                    | 5.1  |
| BBB rating                                  | 18.1 |
| BB rating                                   | 18.2 |
| B rating                                    | 23.5 |
| Non-investment grade                        | 5.3  |
| Not rated                                   | 1.8  |

Percentages indicated are based upon total fixed income securities (excluding Money Market Funds and Investments of Cash Collateral Received for Securities on Loan).

Bond ratings apply to the underlying holdings of the Fund and not the Fund itself and are divided into categories ranging from AAA (highest) to D (lowest), and are subject to change. The ratings shown are determined by using the lower of the ratings from S&P or Moody's. When a rating from only one agency is available, that rating is used. When a bond is not rated by either of these agencies, it is designated as Not rated. Credit ratings are subjective opinions and not statements of fact.

### Understanding Your Fund's Expenses (Unaudited)

As an investor, you incur ongoing costs, which generally include management fees, distribution and/or service (Rule 12b-1) fees, and other fund expenses. The following information is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to help you compare these costs with the ongoing costs of investing in other mutual funds. The information below does not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy (collectively, Contracts) or qualified pension and retirement plan (Qualified Plan), if any. The total fees and expenses you bear may therefore be higher than those shown below.

### **Analyzing Your Fund's Expenses**

To illustrate these ongoing costs, we have provided examples and calculated the expenses paid by investors in each share class of the Fund during the period. The actual and hypothetical information in the table is based on an initial investment of 1,000 at the beginning of the period indicated and held for the entire period. Expense information is calculated two ways and each method provides you with different information. The amount listed in the "Actual" column is calculated using the Fund's actual operating expenses and total return for the period. You may use the Actual information, together with the amount invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the results by the expenses paid during the period under the Actual column. The amount listed in the "Hypothetical" column assumes a 5% annual rate of return before expenses (which is not the Fund's actual return) and then applies the Fund's actual expenses ratio for the period to the hypothetical return. You should not use the hypothetical account values and expenses to estimate either your actual account balance at the end of the period or the expenses you paid during the period. See "Compare With Other Funds" below for details on how to use the hypothetical data.

### **Compare With Other Funds**

Since all mutual funds are required to include the same hypothetical calculations about expenses in shareholder reports, you can use this information to compare the ongoing cost of investing in the Fund with other funds. To do so, compare the hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds. As you compare hypothetical examples of other funds, it is important to note that hypothetical examples are meant to highlight the ongoing costs of investing in a fund only and do not reflect any transaction costs, such as redemption or exchange fees, or expenses that apply to the subaccount or the contract. Therefore, the hypothetical calculations are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If the fees and expenses imposed under your Contract or Qualified Plan, if any, were included, your costs would be higher.

### January 1, 2012 – June 30, 2012

|         | Account Value at the Beginning<br>of the Period (\$) |              | Account Value at the End of the<br>Period (\$) |              | Expenses Paid During the<br>Period (\$) |              | Fund's Annualized<br>Expense Ratio (%) |
|---------|--|--------------|--|--------------|---|--------------|--|
|         | Actual   | Hypothetical | Actual   | Hypothetical | Actual                                  | Hypothetical | Actual                                 |
| Class 1 | 1,000.00   | 1,000.00     | 1,052.70                                       | 1,021.83     | 3.11                                    | 3.07         | 0.61                                   |
| Class 2 | 1,000.00   | 1,000.00     | 1,050.60                                       | 1,020.54     | 4.44                                    | 4.37         | 0.87                                   |

Expenses paid during the period are equal to the annualized expense ratio for each class as indicated above, multiplied by the average account value over the period and then multiplied by the number of days in the Fund's most recent fiscal half year and divided by 366.

Expenses do not include fees and expenses incurred indirectly by the Fund from the underlying funds in which the Fund may invest (also referred to as "acquired funds"), including affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds).

Had Columbia Management Investment Advisers, LLC and/or certain of its affiliates not waived/reimbursed certain fees and expenses, account value at the end of the period would have been reduced.

June 30, 2012 (Unaudited)

#### Notes to Portfolio of Investments

- (a) Principal amounts are denominated in United States Dollars unless otherwise noted.
- (b) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. This security may be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2012, the value of these securities amounted to \$255,520,296 or 25.00% of net assets.
- (c) At June 30, 2012, security was partially or fully on loan.
- (d) Variable rate security. The interest rate shown reflects the rate as of June 30, 2012.
- (e) Represents a security purchased on a when-issued or delayed delivery basis.
- (f) Identifies issues considered to be illiquid as to their marketability. The aggregate value of such securities at June 30, 2012 was \$584,197, representing 0.06% of net assets. Information concerning such security holdings at June 30, 2012 was as follows:

| Acquisition Dates | Cost (\$)                        |
|-------------------|----------------------------------|
|                   |                                  |
| 10/04/04          | 350,000                          |
| 03/26/09          | 33                               |
| 05/07/10          | _                                |
| 02/14/11          | 378,972                          |
|                   | 10/04/04<br>03/26/09<br>05/07/10 |

- (g) Negligible market value.
- (h) Represents fair value as determined in good faith under procedures approved by the Board of Trustees. At June 30, 2012, the value of these securities amounted to \$33, which represents less than 0.01% of net assets.
- (i) The maturity dates shown represent the original maturity of the underlying obligation. Actual maturity may vary based upon prepayment activity on these obligations. Unless otherwise noted, the coupon rates presented are fixed rates.
- (j) Interest Only (IO) security. The actual effective yield of this security is different than the stated coupon rate.
- (k) At June 30, 2012, investments in securities included securities valued at \$1,394,401 that were partially pledged as collateral to cover initial margin deposits on open interest rate futures contracts.
- (I) Represents securities that have defaulted on payment of interest. The Fund has stopped accruing interest on these securities. At June 30, 2012, the value of these securities amounted to \$210,000, which represents 0.02% of net assets.
- (m)Municipal obligations include debt obligations issued by or on behalf of territories, possessions, or sovereign nations within the territorial boundaries of the United States. At June 30, 2012, the value of these securities amounted to \$210,000 or 0.02% of net assets.
- (n) Senior loans have rates of interest that float periodically based primarily on the London Interbank Offered Rate ("LIBOR") and other short-term rates. The interest rate shown reflects the weighted average coupon as of June 30, 2012. The interest rate shown for senior loans purchased on a when-issued or delayed delivery basis, if any, reflects an estimated average coupon. Remaining maturities of senior loans may be less than the stated maturities shown as a result of contractual or optional prepayments by the borrower. Such prepayments cannot be predicted with certainty.
- (o) The borrower filed for protection under Chapter 11 of the U.S. Federal Bankruptcy Code.

(p) Non-income producing.

- (q) The rate shown is the seven-day current annualized yield at June 30, 2012.
- (r) As defined in the Investment Company Act of 1940, an affiliated company is one in which the Fund owns 5% or more of its outstanding voting securities, or a company which is under common ownership or control with the Fund. Holdings and transactions in these affiliated companies during the period ended June 30, 2012, are as follows:

| Issuer                              | Beginning<br>Cost (\$) | Purchase<br>Cost (\$) | Sales Cost/<br>Proceeds<br>from Sales (\$) | Realized<br>Gain/Loss (\$) | Ending<br>Cost (\$) | Dividends<br>or Interest<br>Income (\$) | Value (\$) |

#### Notes to Portfolio of Investments (continued)

(s) The table below represents securities received as collateral for repurchase agreements. This collateral is deposited with the Fund's custodian and, pursuant to the terms of the repurchase agreement, must have an aggregate value greater than or equal to the repurchase price plus accrued interest at all times. The value of securities and/or cash held as collateral for repurchase agreements is monitored on a daily basis to ensure the proper level of collateral.

| Security Description                        | Value (\$) |

#### **Fair Value Measurements**

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment based on the lowest level of any input that is deemed significant to the asset or liability's fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- > Level 1 Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (including NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.
- > Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- > Level 3 Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for carrying out the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are readily available, including recommendation of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third-party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of monitoring this information (which may occur as often as daily). However, the Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

| Total   | 127,929,614  | 980,520,181  | 7,543,409  | 1,115,993,204 |

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category are generally valued using the market approach, in which a security's value is determined through reference to prices and information from market transactions for similar or identical assets.

The Fund's assets assigned to the Level 3 category are valued utilizing the valuation technique deemed the most appropriate in the circumstances. Certain Residential Mortgage Backed Securities and Senior Loans classified as Level 3 securities are valued using the market approach and utilize single market quotations from broker dealers which may have included, but not limited to, the distressed nature of the security and observable transactions for similar assets in the market. Significant increases (decreases) to any of these inputs would result in a significantly lower (higher) fair value measurement.

Certain warrants classified as Level 3 are valued using a market approach. To determine fair value for these securities, management considered various factors which may have included, but were not limited to, trades of similar securities, estimated earnings of the respected company, market multiplies derived from a set of comparable companies, and the position of the security within the respective company's capital structure. Significant increases (decreases) to any of these inputs would result in a significantly lower (higher) fair value measurement. Generally, a change in estimated earnings of the respective company may result in a change to the comparable companies and market multiples utilized.

There were no transfers of financial assets between Levels 1 and 2 during the period.

Futures contracts, forward foreign currency contracts and swap contracts are valued at unrealized appreciation (depreciation).

June 30, 2012 (Unaudited)

#### Fair Value Measurements (continued)

The following table is a reconciliation of level 3 assets for which significant observable and/or unobservable inputs were used to determine fair value.

|   | Corporate<br>Bonds &<br>Notes (\$) | Residential<br>Mortgage-<br>Backed<br>Securities —<br>Non-Agency (\$) | Senior<br>Loans (\$) | Warrants (\$) | Total (\$)  |

| Balance as of June 30, 2012                                     |                                    | 5,685,126   | 1,858,250            | 33            | 7,543,409   |

(a) Change in unrealized appreciation (depreciation) relating to securities held at June 30, 2012 was \$12,129, which is comprised of Residential Mortgage-Backed Securities — Non-Agency of \$(9) and Senior Loans of \$12,138.

The Fund does not hold any significant investments with unobservable inputs which are categorized as Level 3.

Financial assets were transferred from Level 3 to Level 2 as observable market inputs were utilized and management's determination that there was sufficient, reliable and observable market data to value these assets as of period end.

Financial Assets were transferred from Level 2 to Level 3 due to unavailable market inputs. As a result, as of period end, management determined to fair value the security under consistently applied procedures established by and under the general supervision of the Board of Trustees.

Transfers in and/or out of Level 3 are determined based on the fair value at the beginning of the period for security positions held throughout the period.

### **Financial Highlights**

The following tables are intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single share of a class held for the periods shown. Per share net investment income (loss) amounts of the Fund are calculated based on average shares outstanding during the period. Total returns assume reinvestment of all dividends and distributions, if any. Total returns do not reflect payment of the expenses that apply to the variable accounts or contract charges, if any, and are not annualized for periods of less than one year.

#### **Notes to Financial Highlights**

(a) The amount shown for a share outstanding does not correspond with the aggregate net realized and unrealized gain (loss) on investments due to the timing of purchases and redemptions of Fund shares in relation to fluctuating market values of the investments of the Fund.

(b) In addition to the fees and expenses which the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of the acquired funds in which it invests. Such indirect expenses are not included in the reported expense ratios.

(c) Annualized.

(d) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.

(e) The benefits derived from expense reductions had an impact of less than 0.01%.

(f) Includes mortgage dollar rolls. If mortgage dollar roll transactions were excluded, the portfolio turnover would have been 43% for the six months ended June 30, 2012 and 82% for the year ended December 31, 2011.

(g) Excludes mortgage dollar rolls.

#### **Notes to Financial Highlights**

(a) The amount shown for a share outstanding does not correspond with the aggregate net realized and unrealized gain (loss) on investments due to the timing of purchases and redemptions of Fund shares in relation to fluctuating market values of the investments of the Fund.

(b) In addition to the fees and expenses which the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of the acquired funds in which it invests. Such indirect expenses are not included in the reported expense ratios.

(c) Annualized.

(d) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.

(e) The benefits derived from expense reductions had an impact of less than 0.01%.

(f) Includes mortgage dollar rolls. If mortgage dollar roll transactions were excluded, the portfolio turnover would have been 43% for the six months ended June 30, 2012 and 82% for the year ended December 31, 2011.

(g) Excludes mortgage dollar rolls.

### **Notes to Financial Statements**

June 30, 2012 (Unaudited)

### Note 1. Organization

Columbia Variable Portfolio — Strategic Income Fund (the Fund), a series of Columbia Funds Variable Insurance Trust (the Trust), is a diversified fund. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company organized as a Massachusetts business trust.

#### **Fund Shares**

The Trust may issue an unlimited number of shares (without par value). The Fund offers Class 1 and Class 2 shares to separate accounts funding variable annuity contracts and variable life insurance policies issued by affiliated and unaffiliated life insurance companies as well as qualified pension and retirement plans and other qualified institutional investors authorized by Columbia Management Investment Distributors, Inc. (the Distributor). You may not buy (nor will you own) shares of the Fund directly. You invest by participating in a qualified plan or buying a contract and making allocations to the Fund. All share classes have identical voting, dividend and liquidation rights. Each share class has its own expense structure.

# Note 2. Summary of Significant Accounting Policies

### **Use of Estimates**

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

#### **Security Valuation**

All equity securities are valued at the close of business of the New York Stock Exchange (NYSE). Equity securities are valued at the last quoted sales price on the principal exchange or market on which they trade, except for securities traded on the NASDAQ Stock Market, which are valued at the NASDAQ official close price. Unlisted securities or listed securities for which there were no sales during the day are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Debt securities generally are valued by pricing services approved by the Board of Trustees (the Board) based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available may also be valued based upon an over-the-counter or exchange bid quotation.

Asset and mortgage-backed securities are generally valued by pricing services, which utilize pricing models that incorporate the securities' cash flow and loan performance data. These models also take into account available market data, including trades, market quotations, and benchmark yield curves for identical or similar securities. Factors used to identify similar securities may include, but are not limited to, issuer, collateral type, vintage, prepayment speeds, collateral performance, credit ratings, credit enhancement and expected life. Asset-backed securities for which quotations are readily available may also be valued based upon an over-the-counter or exchange bid quotation.

Foreign securities are valued based on quotations from the principal market in which such securities are normally traded. If any foreign share prices are not readily available as a result of limited share activity the securities are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Foreign currency exchange rates are generally determined at 4:00 p.m. Eastern (U.S.) time. However, many securities markets and exchanges outside the U.S. close prior to the close of the NYSE; therefore, the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the close of the NYSE. In those situations, foreign securities will be fair valued pursuant to the policy adopted by the Board, including utilizing a third party pricing service to determine these fair values. The third party pricing service takes into account multiple factors, including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign exchange rates that have occurred subsequent to the close of the foreign exchange or market, to determine a good faith estimate that reasonably reflects the current market conditions as of the close of the NYSE. The fair value of a security is likely to be different from the quoted or published price, if available.

Investments in other open-end investment companies, including money market funds, are valued at net asset value.

Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates market value.

June 30, 2012 (Unaudited)

The value of short-term securities originally purchased with maturities greater than 60 days is determined based on an amortized value to par upon reaching 60 days to maturity. Short-term securities maturing in more than 60 days from the valuation date are valued at the market price or approximate market value based on current interest rates.

Forward foreign currency exchange contracts are marked-to-market based upon foreign currency exchange rates provided by a pricing service.

Futures and options on futures contracts are valued based upon the settlement price established each day by the board of trade or exchange on which they are traded.

Option contracts are valued at the mean of the latest quoted bid and asked prices on their primary exchanges. Option contracts, including over-the-counter (OTC) option contracts, with no readily available market value are valued using quotations obtained from independent brokers as of the close of the NYSE.

Swap transactions are valued through an independent pricing service or broker, or if neither is available, through an internal model based upon observable inputs.

Investments for which market quotations are not readily available, or that have quotations which management believes are not reliable, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board. If a security or class of securities (such as foreign securities) is valued at fair value, such value is likely to be different from the last quoted market price for the security.

The determination of fair value often requires significant judgment. To determine fair value, management may use assumptions including but not limited to future cash flows and estimated risk premiums. Multiple inputs from various sources may be used to determine fair value.

### **Foreign Currency Transactions and Translation**

The values of all assets and liabilities denominated in foreign currencies are translated into U.S. dollars at that day's exchange rates. Net realized and unrealized gains (losses) on foreign currency transactions and translations include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments in the Statement of Operations.

### **Derivative Instruments**

The Fund invests in certain derivative instruments, as detailed below, to meet its investment objectives. Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more other assets, such as securities, currencies, commodities or indices. Derivative instruments may be used to maintain cash reserves while maintaining exposure to certain other assets, to offset anticipated declines in values of investments, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. The Fund may also use derivative instruments to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. Derivatives may involve various risks, including the potential inability of the counterparty to fulfill its obligation under the terms of the contract, the potential for an illiquid secondary market and the potential for market movements which may expose the Fund to gains or losses in excess of the amount shown in the Statement of Assets and Liabilities.

The Fund and any counterparty are required to maintain an agreement that requires the Fund and that counterparty to monitor (on a daily basis) the net fair value of all derivatives entered into pursuant to the agreement between the Fund and such counterparty. If the net fair value of such derivatives between the Fund and that counterparty exceeds a certain threshold (as defined in the agreement), the Fund or the counterparty (as the case may be) is required to post cash and/or securities as collateral. Fair values of derivatives presented in the financial statements are not netted with the fair value of other derivatives or with any collateral amounts posted by the Fund or any counterparty.

#### **Forward Foreign Currency Exchange Contracts**

Forward foreign currency exchange contracts are agreements between two parties to buy and sell a currency at a set price on a future date. These contracts are intended to be used to minimize the exposure to foreign exchange rate fluctuations during the period between the trade and settlement dates of the contract. The Fund utilized forward foreign currency exchange contracts to hedge the currency exposure associated with some or all of the Fund's securities, to shift foreign currency exposure back to U.S. dollars and to shift investment exposure from one currency to another.

The values of forward foreign currency exchange contracts fluctuate with changes in foreign currency exchange rates. The

June 30, 2012 (Unaudited)

Fund will record a realized gain or loss when the forward foreign currency exchange contract is closed.

The use of forward foreign currency exchange contracts does not eliminate fluctuations in the prices of the Fund's portfolio securities. The risks of forward foreign currency exchange contracts include movement in the values of the foreign currencies relative to the U.S. dollar (or other foreign currencies) and the possibility that counterparties will not complete their contractual obligations, which may be in excess of the amount reflected, if any, in the Statement of Assets and Liabilities.

#### **Futures Contracts**

Futures contracts represent commitments for the future purchase or sale of an asset at a specified price on a specified date. The Fund bought and sold futures contracts to manage the duration and yield curve exposure of the Fund versus the benchmark. Upon entering into futures contracts, the Fund bears risks which may include interest rates, exchange rates or securities prices moving unexpectedly, in which case, the Fund may not achieve the anticipated benefits of the futures contracts and may realize a loss. Additional risks include counterparty credit risk, the possibility of an illiquid market, and that a change in the value of the contract or option may not correlate with changes in the value of the underlying asset.

Upon entering into a futures contract, the Fund pledges cash or securities with the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments (variation margin) are made or received by the Fund each day. The variation margin payments are equal to the daily change in the contract value and are recorded as variation margin receivable or payable and are offset in unrealized gains or losses. The Fund recognizes a realized gain or loss when the contract is closed or expires. Futures contracts involve, to varying degrees, risk of loss in excess of the variation margin disclosed in the Statement of Assets and Liabilities.

#### Options

Options are contracts which entitle the holder to purchase or sell securities or other identified assets at a specified price, or in the case of index option contracts, to receive or pay the difference between the index value and the strike price of the index option contract. The Fund purchased and wrote option contracts to manage the duration and yield curve exposure of the Fund versus the benchmark. Completion of transactions for option contracts traded in the OTC market depends upon the performance of the other party. Cash collateral may be collected or posted by the Fund to secure certain OTC option contract trades. Cash collateral held or posted by the Fund for such option contract trades must be returned to the counterparty or the Fund upon closure, exercise or expiration of the contract.

Option contracts purchased are recorded as investments and options contracts written are recorded as liabilities of the Fund. The Fund will realize a gain or loss when the option contract expires. When option contracts are exercised, the proceeds on sales for a written call or purchased put option contract, or the purchase cost for a written put or purchased call option contract, is adjusted by the amount of premium received or paid.

The risk in buying an option contract is that the Fund pays a premium whether or not the option contract is exercised. The Fund also has the additional risk of being unable to enter into a closing transaction if a liquid secondary market does not exist. The risk in writing a call option contract is that the Fund gives up the opportunity for profit if the market price of the security increases. The risk in writing a put option contract is that the Fund may incur a loss if the market price of the security decreases and the option contract is exercised. The Fund's maximum payout in the case of written put option contracts represents the maximum potential amount of future payments (undiscounted) that the Fund could be required to make under the contract. For OTC options contracts, the transaction is also subject to counterparty credit risk. The maximum payout amount may be offset by the subsequent sale, if any, of assets obtained upon the exercise of the put option contracts by holders of the option contracts or proceeds received upon entering into the contracts.

Contracts and premiums associated with options contracts written for the six months ended June 30, 2012 are as follows:

|                              | Calls         |           |  |
|------------------------------|---------------|-----------|--|
|                              | Contracts Pre |           |  |
| Balance at December 31, 2011 | _             |           |  |
| Opened                       | 380           | 126,591   |  |
| Expired                      | (380)         | (126,591) |  |
| Balance at June 30, 2012     |               |           |  |

#### **Credit Default Swap Contracts**

Credit default swap contracts are agreements in which one party pays fixed periodic payments to a counterparty in consideration for a guarantee from the counterparty to make a specific payment should a specified negative credit event(s) take place. The Fund entered into credit default swap contracts to increase or decrease its credit exposure to a single issuer of debt securities.

As the purchaser of a credit default swap contract, the Fund purchases protection by paying a periodic interest rate on the

June 30, 2012 (Unaudited)

notional amount to the counterparty. The interest amount is accrued daily as a component of unrealized appreciation (depreciation) and is recorded as a realized loss upon payment. If a credit event as specified in the contract occurs, the Fund may have the option either to deliver the reference obligation to the seller in exchange for a cash payment of its par amount, or to receive a net cash settlement equal to the par amount less an agreed-upon value of the reference obligation as of the date of the credit event. The difference between the value of the obligation or cash delivered and the notional amount received will be recorded as a realized gain (loss).

As the seller of a credit default swap contract, the Fund sells protection to a buyer and will generally receive a periodic interest rate on the notional amount. The interest amount is accrued daily as a component of unrealized appreciation (depreciation) and is recorded as a realized gain upon receipt of the payment. If a credit event as specified in the contract occurs, the Fund may either be required to accept the reference obligation from the buyer in exchange for a cash payment of its notional amount, or to pay the buyer a net cash settlement equal to the notional amount less an agreed-upon value of the reference obligation as of the date of the credit event. The difference between the value of the obligation or cash received and the notional amount paid will be recorded as a realized gain (loss). The maximum potential amount of undiscounted future payments the Fund could be required to make as the seller of protection under a credit default swap contract is equal to the notional amount of the reference obligation. Notional amounts of all credit default swap contracts outstanding for which the Fund is the seller of protection, if any, are disclosed in the Credit Default Swap Contracts Outstanding schedule following the Portfolio of Investments. These potential amounts may be partially offset by any recovery values of the respective reference obligations or premiums received upon entering into the agreement.

As a protection seller, the Fund bears the risk of loss from the credit events specified in the contract. Although specified events are contract specific, credit events are generally defined as bankruptcy, failure to pay, restructuring, obligation acceleration, obligation default, or repudiation/moratorium. For credit default swap contracts on credit indices, quoted market prices and resulting market values serve as an indicator of the current status of the payment/performance risk. Increasing market values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the reference entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the contract. Market values for credit default swap contracts in which the Fund is the seller of

protection, if any, are disclosed in the Credit Default Swap Contracts Outstanding schedule following the Portfolio of Investments.

The notional amounts and market values of credit default swap contracts are not recorded in the financial statements. Any premium paid or received by the Fund upon entering into a credit default swap contract is recorded as an asset or liability, respectively, and amortized daily as a component of realized gain (loss) in the Statement of Operations. Credit default swap contracts are valued daily, and the change in value is recorded as unrealized appreciation (depreciation) until the termination of the swap, at which time a realized gain (loss) is recorded.

Credit default swap contracts can involve greater risks than if a fund had invested in the reference obligation directly since, in addition to general market risks, credit default swaps are subject to counterparty credit risk, leverage risk, hedging risk, correlation risk and liquidity risk. The Fund will enter into credit default swap transactions only with counterparties that meet certain standards of creditworthiness.

### Effects of Derivative Transactions in the Financial Statements

The following tables are intended to provide additional information about the effect of derivatives on the financial statements of the Fund, including: the fair value of derivatives by risk category and the location of those fair values in the Statement of Assets and Liabilities; the impact of derivative transactions on the Fund's operations over the period including realized gains or losses and unrealized gains or losses. The derivative schedules following the Portfolio of Investments present additional information regarding derivative instruments outstanding at the end of the period, if any.

The following table is a summary of the fair value of derivative instruments at June 30, 2012:

|                            | Asset Derivatives  |                 |  |  |
|----------------------------|--|-----------------|--|--|
| Risk Exposure<br>Category  | Statement of Assets and<br>Liabilities Location                              | Fair Value (\$) |  |  |
| Foreign exchange contracts | Unrealized appreciation on<br>forward foreign currency<br>exchange contracts | 565,949         |  |  |

June 30, 2012 (Unaudited)

### **Repurchase Agreements**

The Fund may engage in repurchase agreement transactions with institutions that management has determined are creditworthy. The Fund, through the custodian, receives delivery of the underlying securities collateralizing a repurchase agreement. Management is responsible for determining that the collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays in or restrictions on a Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

### **Delayed Delivery Securities**

The Fund may trade securities on other than normal settlement terms, including securities purchased or sold on a "when-issued" basis. This may increase the risk if the other party to the transaction fails to deliver and causes the Fund to subsequently invest at less advantageous prices. The Fund designates cash or liquid securities in an amount equal to the delayed delivery commitment.

### Mortgage Dollar Roll Transactions

The Fund may enter into mortgage "dollar rolls" in which the Fund sells securities for delivery in the current month and simultaneously contracts with the same counterparty to repurchase similar (same type, coupon and maturity) but not identical securities on a specified future date not exceeding 120 days. During the roll period, the Fund loses the right to receive principal and interest paid on the securities sold. However, the Fund will benefit because it receives negotiated amounts in the form of reductions of the purchase price for the future purchase plus the interest earned on the cash proceeds of the securities sold until the settlement date of the forward purchase. The Fund records the incremental difference between the forward purchase and sale of each forward roll as a realized gain or loss. Unless any realized gains exceed the income, capital appreciation, and gain or loss due to mortgage prepayments that would have been realized on the securities sold as part of the mortgage dollar roll, the use of this technique will diminish the investment performance of the Fund compared to what the performance would have been without the use of mortgage dollar rolls. All cash proceeds will be invested in instruments that are permissible investments for the Fund. The Fund identifies within its Portfolio of Investments cash or liquid securities in an amount equal to the forward purchase price.

For financial reporting and tax purposes, the Fund treats "to be announced" mortgage dollar rolls as two separate transactions, one involving the purchase of a security and a separate transaction involving a sale. This treatment may exaggerate the Fund's portfolio turnover rate. The Fund does not currently enter into mortgage dollar rolls that are accounted for as financing transactions.

Mortgage dollar rolls involve certain risks. If the broker-dealer to whom the Fund sells the securities becomes insolvent, the Fund's right to purchase or repurchase the mortgage-related securities may be restricted and the instruments which the Fund is required to repurchase may be worth less than instruments which the Fund originally held. Successful use of mortgage dollar rolls may depend upon the Investment Manager's ability to predict interest rates and mortgage prepayments. For these reasons, there is no assurance that mortgage dollar rolls can be successfully employed.

### **Treasury Inflation Protected Securities**

The Fund may invest in treasury inflation protected securities (TIPS). The principal amount of TIPS is adjusted periodically and is increased for inflation or decreased for deflation based on a monthly published index. Interest payments are based on the adjusted principal at the time the interest is paid. These adjustments are recorded as interest income in the Statement of Operations.

#### **Loan Participations and Commitments**

The Fund may invest in loan participations. When the Fund purchases a loan participation, the Fund typically enters into a contractual relationship with the lender or third party selling such participation (Selling Participant), but not the borrower. However, the Fund assumes the credit risk of the borrower, Selling Participant and any other persons interpositioned between the Fund and the borrower. The Fund may not directly benefit from the collateral supporting the senior loan which it has purchased from the Selling Participant.

#### **Stripped Securities**

The Fund may invest in Interest Only (IO) and Principal Only (PO) stripped mortgage-backed securities. These securities are derivative multi-class mortgage securities structured so that one class receives most, if not all, of the principal from the underlying mortgage assets, while the other class receives most, if not all, of the interest and the remainder of the principal. If the underlying mortgage assets experience greater than anticipated prepayments of principal, the Fund may fail to fully recoup its initial investment in an IO security, therefore the daily interest accrual factor is adjusted each month to reflect the paydown of principal. The market value of these securities can be extremely volatile in response to changes in interest rates. Credit risk reflects the risk that the Fund may not receive all or part of its principal because the issuer or credit enhancer has defaulted on its obligation.

June 30, 2012 (Unaudited)

### **Security Transactions**

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

#### **Income Recognition**

Interest income is recorded on an accrual basis. Market premium and discount are amortized and accreted, respectively, on all debt securities, unless otherwise noted. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis, if any.

Corporate actions and dividend income are recorded net of any non-reclaimable tax withholdings, on the ex-dividend date or upon receipt of ex-dividend notification in the case of certain foreign securities.

The value of additional securities received as an income payment is recorded as income and increases the cost basis of such securities.

#### **Expenses**

General expenses of the Trust are allocated to the Fund and other funds of the Trust based upon relative net assets or other expense allocation methodologies determined by the nature of the expense. Expenses directly attributable to the Fund are charged to the Fund. Expenses directly attributable to a specific class of shares are charged to that share class.

### **Determination of Class Net Asset Value**

All income, expenses (other than class-specific expenses, which are charged to that share class, as shown in the Statement of Operations) and realized and unrealized gains (losses) are allocated to each class of the Fund on a daily basis, based on the relative net assets of each class, for purposes of determining the net asset value of each class.

### Federal Income Tax Status

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, because the Fund's sole shareholders are Qualified Investors, the Fund expects not to be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

### **Foreign Taxes**

The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries, as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Realized gains in certain countries may be subject to foreign taxes at the Fund level, based on statutory rates. The Fund accrues for such foreign taxes on net realized and unrealized gains at the appropriate rate for each jurisdiction, as applicable.

#### **Distributions to Subaccounts**

Distributions from net investment income, if any, are declared and paid annually. Net realized capital gains, if any, are distributed along with the income dividend. Income distributions and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

All dividends and distributions are reinvested in additional shares of the applicable class of the Fund at net asset value as of the ex-dividend date of the distribution.

#### **Guarantees and Indemnifications**

Under the Trust's organizational documents and, in some cases, by contract, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust or its funds. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

#### **Recent Accounting Pronouncement**

Disclosures about Offsetting Assets and Liabilities In December 2011, the Financial Accounting Standards Board (FASB) issued ASU No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*. The objective of the FASB is to enhance current disclosure requirements on offsetting of certain assets and liabilities and to enable financial statement users to compare financial statements prepared under GAAP and International Financial Reporting Standards.

Specifically, ASU No. 2011-11 requires an entity to disclose both gross and net information for derivatives and other financial instruments that are subject to a master netting arrangement or similar agreement. The standard requires disclosure of collateral received in connection with the master netting agreements or similar agreements. The effective date of ASU No. 2011-11 is for interim and annual periods beginning on or after January 1, 2013. At this time, management is evaluating the implications of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

June 30, 2012 (Unaudited)

## Note 3. Fees and Compensation Paid to Affiliates

### **Investment Management Fees**

Under an Investment Management Services Agreement (IMSA), Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), determines which securities will be purchased, held or sold. The management fee is an annual fee that is equal to a percentage of the Fund's average daily net assets that declines from 0.530% to 0.353% as the Fund's net assets increase. The annualized effective management fee rate for the six months ended June 30, 2012 was 0.53% of the Fund's average daily net assets.

### **Administration Fees**

Under an Administrative Services Agreement, the Investment Manager serves as the Fund Administrator. The Fund pays the Fund Administrator an annual fee for administration and accounting services equal to a percentage of the Fund's average daily net assets that declines from 0.07% to 0.04% as the Fund's net assets increase. The annualized effective administration fee rate for the six months ended June 30, 2012 was 0.07% of the Fund's average daily net assets.

#### **Compensation of Board Members**

Board members are compensated for their services to the Fund as disclosed in the Statement of Operations. The Trust's eligible Trustees may participate in a Deferred Compensation Plan (the Plan) which may be terminated at any time. Obligations of the Plan will be paid solely out of the Fund's assets.

#### **Compensation of Chief Compliance Officer**

The Board has appointed a Chief Compliance Officer to the Fund in accordance with federal securities regulations. The Fund pays its pro-rata share of the expenses associated with the Chief Compliance Officer. The Fund's expenses for the Chief Compliance Officer will not exceed \$15,000 per year.

### **Transfer Agent Fees**

The Fund has a Transfer Agency and Dividend Disbursing Agent Agreement with Columbia Management Investment Services Corp. (the Transfer Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial. The annual fee rate under this agreement is 0.06% of the Fund's average daily net assets. The Transfer Agent also receives compensation from fees for various shareholder services and reimbursements for certain out-of-pocket fees.

### **Distribution Fees**

The Fund has an agreement with the Distributor, an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial, for distribution services. Pursuant to Rule 12b-1 under the 1940 Act, the Board has approved, and the Fund has adopted, a distribution plan (the Plan) which sets the distribution fees for the Fund. These fees are calculated daily and are intended to compensate the Distributor for selling shares of the Fund. The Plan requires the payment of a monthly distribution fee to the Distributor at the maximum annual rate of 0.25% of the average daily net assets attributable to Class 2 shares of the Fund.

### Expenses Waived/Reimbursed by the Investment Manager and its Affiliates

Effective May 1, 2012, the Investment Manager and certain of its affiliates have contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below), through April 30, 2013, unless sooner terminated at the sole discretion of the Board, so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and any overdraft charges from the Fund's custodian, do not exceed the following annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.71% |
|---------|-------|
| Class 2 | 0.96  |

Prior to May 1, 2012, the Investment Manager and its affiliates contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below), so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and/or overdraft charges from the Fund's custodian, did not exceed the following annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.58% |
|---------|-------|
| Class 2 | 0.83  |

Under the agreement, the following fees and expenses are excluded from the waiver/reimbursement commitment, and therefore will be paid by the Fund, if applicable: taxes (including foreign transaction taxes), expenses associated with investments in affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds), transaction costs and brokerage commissions, costs related to any securities lending program, dividend expenses associated with securities sold short, inverse floater program fees and expenses, transaction charges and interest on borrowed money, interest, extraordinary expenses and any other expenses the exclusion of which is specifically approved by the Board. This agreement may be modified or amended only with approval from all parties.

June 30, 2012 (Unaudited)

### Note 4. Federal Tax Information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP because of temporary or permanent book to tax differences.

At June 30, 2012, the cost of investments for federal income tax purposes was approximately \$1,070,728,000 and the aggregate gross approximate unrealized appreciation and depreciation based on that cost was:

| Unrealized appreciation     | \$54,389,000 |
|-----------------------------|--------------|
| Unrealized depreciation     | (8,875,000)  |
| Net unrealized appreciation | \$45,514,000 |

The following capital loss carryforward, determined as of December 31, 2011 may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

| Year of Expiration | Amount (\$) |
|--------------------|-------------|
| 2016               | 1,918,681   |
| 2017               | 6,611,145   |
| Total              | 8,529,826   |

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

### Note 5. Portfolio Information

The cost of purchases and proceeds from sales of securities, excluding short-term obligations, aggregated to \$591,370,766 and \$655,533,977, respectively, for the six months ended June 30, 2012, of which \$377,725,595 and \$348,130,757, respectively, were U.S. government securities.

### Note 6. Lending of Portfolio Securities

The Fund has entered into a Master Securities Lending Agreement (the Agreement) with JPMorgan Chase Bank, N.A. (JPMorgan). The Agreement authorizes JPMorgan as lending agent to lend securities to authorized borrowers in order to generate additional income on behalf of the Fund. Pursuant to the Agreement, the securities loaned are secured by cash or securities that either are issued or guaranteed as to principal and interest by the U.S. government, its agencies, authorities or instrumentalities with value equal to at least 100% of the market value of the loaned securities. Any additional collateral required to maintain those levels due to market fluctuations of the loaned securities is requested to be delivered the following business day. Cash collateral received is invested by the lending agent on behalf of the Fund into authorized investments pursuant to the Agreement. The investments made with the cash collateral are listed in the Portfolio of Investments. The values of such investments and any uninvested cash collateral are disclosed in the Statement of Assets and Liabilities along with the related obligation to return the collateral upon the return of the securities loaned.

Risks of delay in recovery of securities or even loss of rights in the securities may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the securities loaned increases above the value of the collateral received. JPMorgan will indemnify the Fund from losses resulting from a borrower's failure to return a loaned security when due. Such indemnification does not extend to losses associated with declines in the value of cash collateral investments. The Investment Manager is not responsible for any losses incurred by the Fund in connection with the securities lending program. Loans are subject to termination by the Fund or the borrower at any time, and are, therefore, not considered to be illiquid investments.

Pursuant to the Agreement, the Fund receives income for lending its securities either in the form of fees or by earning interest on invested cash collateral, net of negotiated rebates paid to borrowers and fees paid to the lending agent for services provided and any other securities lending expenses. Net income earned from securities lending for the six months ended June 30, 2012 is disclosed in the Statement of Operations. The Fund continues to earn and accrue interest and dividends on the securities loaned.

At June 30, 2012, securities valued at \$43,563,246 were on loan, secured by U.S. government and agency securities valued at \$804,479 and by cash collateral of \$43,381,318 (which does not reflect calls for collateral made to borrowers by JPMorgan at period end) that is partially or fully invested in short-term securities or other cash equivalents.

### Note 7. Affiliated Money Market Fund

The Fund may invest its daily cash balances in Columbia Short-Term Cash Fund, an affiliated money market fund established for the exclusive use by the Fund and other affiliated funds. The income earned by the Fund from such investments is included as "Dividends from affiliates" in the Statement of Operations. As an investing fund, the Fund indirectly bears its proportionate share of the expenses of Columbia Short-Term Cash Fund.

### Note 8. Shareholder Concentration

At June 30, 2012, affiliated shareholder accounts owned 89.1% of the outstanding shares of the Fund. Subscription and

June 30, 2012 (Unaudited)

redemption activity by concentrated accounts may have a significant effect on the operations of the Fund.

### Note 9. Line of Credit

The Fund has entered into a revolving credit facility with a syndicate of banks led by JPMorgan whereby the Fund may borrow for the temporary funding of shareholder redemptions or for other temporary or emergency purposes. The credit facility agreement, as amended, which is a collective agreement between the Fund and certain other funds managed by the Investment Manager, severally and not jointly, permits collective borrowings up to \$500 million. Interest is charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the overnight federal funds rate plus 1.00% or (ii) the one-month LIBOR rate plus 1.00%. Each borrowing under the credit facility matures no later than 60 days after the date of borrowing. The Fund also pays a commitment fee equal to its pro rata share of the amount of the credit facility at a rate of 0.08% per annum.

The Fund had no borrowings during the six months ended June 30, 2012.

### Note 10. Fund Merger

At the close of business on April 29, 2011, the Fund acquired the assets and assumed the identified liabilities of RiverSource Variable Portfolio — Strategic Income Fund, a series of Columbia Funds Variable Series Trust II. The reorganization was completed after shareholders approved the plan on February 15, 2011. The purpose of the transaction was to combine two funds managed by the Investment Manager with comparable investment objectives and strategies.

The aggregate net assets of the Fund immediately before the acquisition were \$64,473,972 and the combined net assets immediately after the acquisition were \$1,063,335,495.

The merger was accomplished by a tax-free exchange of 96,054,561 shares of RiverSource Variable Portfolio — Strategic Income Fund valued at \$998,861,523 (including \$42,951,869 of unrealized appreciation).

In exchange for RiverSource Variable Portfolio — Strategic Income Fund shares, the Fund issued the following number of shares:

|         | Shares      |
|---------|-------------|
| Class 1 | 116,606,245 |
| Class 2 | 369,809     |

For financial reporting purposes, net assets received and shares issued by Columbia Variable Portfolio — Strategic Income Fund were recorded at fair value; however, RiverSource Variable Portfolio — Strategic Income Fund's cost of investments was carried forward.

The financial statements reflect the operations of the Fund for the period prior to the merger and the combined fund for the period subsequent to the merger. Because the combined investment portfolios have been managed as a single integrated portfolio since the merger was completed, it is not practicable to separate the amounts of revenue and earnings of RiverSource Variable Portfolio — Strategic Income Fund that have been included in the combined Fund's Statement of Operations since the merger was completed.

Assuming the merger had been completed on January 1, 2011, the Fund's pro-forma net investment income, net gain on investments, net change in unrealized appreciation and net increase in net assets from operations for the year ended December 31, 2011 would have been approximately \$54.4 million, \$12.3 million, \$(1.3) million and \$65.4 million, respectively.

### Note 11. Significant Risks

### **High Yield Securities Risk**

Investing in high-yield fixed income securities may involve greater credit risk and considerations not typically associated with investing in U.S. Government bonds and other higher quality fixed income securities. These securities are non-investment grade securities, often referred to as "junk" bonds. Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid to the extent that there is no established secondary market.

### **Foreign Securities Risk**

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local and regional economic, political and social conditions, which may result in greater market volatility. In addition, certain foreign securities may not be as liquid as U.S. securities. Investing in emerging markets may accentuate these risks.

Investments in emerging market countries are subject to additional risk. The risk of foreign investments is typically increased in less developed countries. These countries are also more likely to experience high levels of inflation, deflation or currency devaluation which could hurt their economies and securities markets.

June 30, 2012 (Unaudited)

### **Asset-Backed Securities Risk**

The value of asset-backed securities may be affected by, among other factors, changes in interest rates, the market's assessment of the quality of underlying assets, the creditworthiness of the servicer for the underlying assets, factors concerning the interests in and structure of the issuer or the originator of the underlying assets, or the creditworthiness or rating of the entities that provide any supporting letters of credit, surety bonds, derivative instruments, or other credit enhancement. The value of asset-backed securities also will be affected by the exhaustion, termination or expiration of any credit enhancement. Most asset-backed securities are subject to prepayment risk, which is the possibility that the underlying debt may be refinanced or prepaid prior to maturity during periods of declining or low interest rates, causing the Fund to have to reinvest the money received in securities that have lower yields. In addition, the impact of prepayments on the value of asset-backed securities may be difficult to predict and may result in greater volatility.

### **Mortgage-Backed Securities Risk**

The value of mortgage-backed securities may be affected by, among other things, changes in interest rates, factors concerning the interests in and structure of the issuer or the originator of the mortgages, the creditworthiness of the entities that provide any supporting letters of credit, surety bonds or other credit enhancements or the quality of underlying assets or the market's assessment thereof. Mortgage-backed securities are subject to prepayment risk, which is the possibility that the underlying mortgage may be refinanced or prepaid prior to maturity during periods of declining or low interest rates, causing the Fund to have to reinvest the money received in securities that have lower yields. In addition, the impact of prepayments on the value of mortgage-backed securities may be difficult to predict and may result in greater volatility.

### **Note 12. Subsequent Events**

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

## Note 13. Information Regarding Pending and Settled Legal Proceedings

In December 2005, without admitting or denying the allegations, American Express Financial Corporation (AEFC, which is now known as Ameriprise Financial, Inc. (Ameriprise Financial)) entered into settlement agreements with the Securities and Exchange Commission (SEC) and Minnesota

Department of Commerce (MDOC) related to market timing activities. As a result, AEFC was censured and ordered to cease and desist from committing or causing any violations of certain provisions of the Investment Advisers Act of 1940, the Investment Company Act of 1940, and various Minnesota laws. AEFC agreed to pay disgorgement of \$10 million and civil money penalties of \$7 million. AEFC also agreed to retain an independent distribution consultant to assist in developing a plan for distribution of all disgorgement and civil penalties ordered by the SEC in accordance with various undertakings detailed at www.sec.gov/litigation/admin/ia-2451.pdf. Ameriprise Financial and its affiliates have cooperated with the SEC and the MDOC in these legal proceedings, and have made regular reports to the funds' Boards of Trustees.

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Funds are not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or regulatory proceedings that are likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds. Ameriprise Financial is required to make 10-Q, 10-K and, as necessary, 8-K filings with the Securities and Exchange Commission on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares or other adverse consequences to the Funds. Further, although we believe proceedings are not likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial.

### **Board Consideration and Approval of Advisory Agreement**

At meetings held on March 7, 2012 and June 6, 2012, respectively, the Board of Trustees (the "Board") and the Trustees who are not interested persons (as defined in the Investment Company Act of 1940) of the Trust (the "Independent Trustees") unanimously approved the continuation of the Investment Management Services Agreement (the "Advisory Agreement") with Columbia Management Investment Advisers, LLC (the "Investment Manager") with respect to Columbia Variable Portfolio-Strategic Income Fund (the "Fund"), a series of the Trust. As detailed below, the Advisory Fees and Expenses Committee (the "Committee") and the Board met on multiple occasions to review and discuss, both among themselves and with the management team of the Investment Manager, materials provided by the Investment Manager before determining to approve each continuation of the Advisory Agreement.

In connection with their deliberations regarding each continuation of the Advisory Agreement, the Committee and the Board requested and evaluated materials from the Investment Manager regarding the Fund and the Advisory Agreement, and discussed these materials with representatives of the Investment Manager at Committee meetings held on March 6, 2012, April 25, 2012 and June 5, 2012, and at the Board meetings held on March 7, 2012 and June 6, 2012. In addition, the Board considers matters bearing on the Advisory Agreement at most of its other meetings throughout the year and meets regularly with senior management of the Funds and the Investment Manager. Through the Board's Investment Oversight Committees, Trustees also meet with selected Fund portfolio managers and other investment personnel at various times throughout the year. The Committee and the Board also consulted with Fund counsel and with the Independent Trustees' independent legal counsel, who advised on the legal standard for consideration by the Board and otherwise assisted the Board in its deliberations.

On March 6, 2012, the Committee recommended that the Board approve the continuation of the Advisory Agreement. On March 7, 2012, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement for the Fund. The Committee and the Board met in June 2012 to consider the continuation of the Advisory Agreement for the one-year period ending June 30, 2013, so as to permit the annual consideration of the Advisory Agreement to be conducted each June. On June 5, 2012, the Committee recommended that the Board approve the continuation of the Advisory Agreement. On June 6, 2012, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement.

The Committee and the Board considered all information that they, their legal counsel, or the Investment Manager believed reasonably necessary to evaluate and to determine whether to approve the continuation of the Advisory Agreement. In their deliberations, the Trustees did not identify any particular information that was all-important or controlling, and individual Trustees may have attributed different weights to the various factors. The information and factors considered by the Committee and the Board in recommending for approval or approving the continuation of the Advisory Agreement for the Fund included the following:

- Information on the investment performance of the Fund relative to the performance of the Fund's benchmarks and the performance of a group of comparable mutual funds, as determined by an independent third-party data provider;
- Information on the Fund's advisory fees and total expenses, including information comparing the Fund's expenses to those of a group of comparable mutual funds, as determined by an independent third-party data provider;
- The Investment Manager's agreement to contractually limit or cap total operating expenses for the Fund so that total operating expenses (excluding certain fees and expenses, such as transaction costs and certain other investment related expenses, interest, taxes, acquired fund fees and expenses, and extraordinary expenses) would not exceed the median expenses of a group of comparable funds (as determined from time to time, generally annually, by an independent third-party data provider);
- The terms and conditions of the Advisory Agreement, including that the advisory fee rates payable by the Fund would not change;
- The terms and conditions of other agreements and arrangements with affiliates of the Investment Manager relating to the operations of the Fund, including the Administrative Services Agreement, the Distribution Agreement and the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement certain proposed changes to the fee rates payable thereunder;
- Descriptions of various functions performed by the Investment Manager under the Advisory Agreement, including portfolio management and portfolio trading practices;

### **Board Consideration and Approval of Advisory Agreement** (continued)

- Information regarding the management fees and investment performance of any comparable portfolios of other clients of the Investment Manager, including institutional separate accounts; and
- The profitability to the Investment Manager and its affiliates from their relationships with the Fund.

### Nature, Extent and Quality of Services to be Provided under the Advisory Agreement

The Committee and the Board considered the nature, extent and quality of services provided to the Fund by the Investment Manager and its affiliates under the Advisory Agreement and under separate agreements for the provision of transfer agency and administrative services, and the resources dedicated to the Fund and the other Columbia Funds by the Investment Manager and its affiliates. The Committee and the Board considered, among other things, the Investment Manager's ability to attract, motivate and retain highly qualified research, advisory and supervisory investment professionals (including personnel and other resources, compensation programs for personnel involved in fund management, reputation and other attributes), the portfolio management services provided by those investment professionals, the quality of the Investment Manager's investment research capabilities and trade execution services, and the other resources that the Investment Manager devotes to the Fund. The Committee and the Board also considered the potential benefits to shareholders of investing in a mutual fund that is part of a fund complex offering exposure to a variety of asset classes and investment disciplines and providing a variety of fund and shareholder services.

The Committee and the Board also considered the professional experience and qualifications of the senior personnel of the Investment Manager. The Committee and the Board noted the compliance programs of and the compliance-related resources provided to the Fund by the Investment Manager and its affiliates, and considered the Investment Manager's ability to provide administrative services to the Fund pursuant to a separate administrative services agreement, including the Investment Manager's ability to coordinate the activities of the Fund's other service providers. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the expected nature, extent and quality of the services to be provided to the Fund under the Advisory Agreement supported the continuation of such agreement.

#### **Investment Performance**

The Committee and the Board reviewed information about the performance of the Fund over various time periods, including performance information relative to benchmarks and information based on reports of an independent third-party data provider that compared the performance of the Fund to the performance of a group of comparable mutual funds. The Committee and the Board also reviewed a description of the third party's methodology for identifying the Fund's peer groups for purposes of performance and expense comparisons. In the case of each Fund whose performance lagged that of a relevant peer group for certain (although not necessarily all) periods, the Committee and the Board concluded that other factors relevant to performance were sufficient, in light of other considerations, to warrant continuation of the Fund's Advisory Agreement. Those factors varied from fund to fund, but included one or more of the following: (i) that the Fund's performance, although lagging in certain recent periods, was stronger over the longer term; (ii) that the underperformance was attributable, to a significant extent, to investment decisions that were reasonable and consistent with the Fund's investment strategy and policies and that the Fund was performing within a reasonable range of expectations, given those investment decisions, market conditions and the Fund's investment strategy; (iii) that the Fund's performance was competitive when compared to other relevant performance benchmarks or peer groups; and (iv) that the Investment Manager had taken or was taking steps designed to help improve the Fund's investment performance, including, but not limited to, replacing portfolio managers, enhancing the resources supporting the portfolio managers, or modifying investment strategies.

The Committee and the Board noted that, through December 31, 2011, the Fund's performance was in the thirty-sixth, sixtythird and thirty-second percentiles (where the best performance would be in the first percentile) of its category selected by an independent third-party data provider for the purposes of performance comparisons for the one-, three- and five- year periods, respectively.

The Committee and the Board also considered the Investment Manager's performance and reputation generally, the Investment Manager's historical responsiveness to Board concerns about performance and the Investment Manager's willingness to take steps intended to improve performance. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions regarding the Advisory Agreement, that the performance of

# Board Consideration and Approval of Advisory Agreement (continued)

the Fund and the Investment Manager was sufficient, in light of other considerations, to warrant the continuation of the Advisory Agreement.

### **Investment Advisory Fee Rates and Other Expenses**

The Committee and the Board considered the advisory fees to be charged to the Fund under the Advisory Agreement as well as the total expenses to be incurred by the Fund. In assessing the reasonableness of the fees under the Advisory Agreement, the Committee and the Board considered, among other information, the Fund's advisory fee and its expected total expense ratio as a percentage of average daily net assets. The Committee and the Board noted that the Fund's actual management fee and total net expense ratio are ranked in the first and second quintiles, respectively, against the Fund's expense universe as determined by an independent third-party data provider for purposes of expense comparison. The Committee and the Board also took into account the fee waiver and expense limitation arrangements agreed to by the Investment Manager, as noted above.

The Committee and the Board also considered the fact that the advisory fee rates payable by the Fund to the Investment Manager under the Advisory Agreement were the same as those currently paid by the Fund to the Investment Manager.

The Committee and the Board also received and considered information about the advisory fees charged by the Investment Manager to institutional separate accounts. In considering the fees charged to those accounts, the Committee and the Board took into account, among other things, the Investment Manager's representations about the differences between managing mutual funds as compared to other types of accounts, including differences in the services provided, differences in the risk profile of such business for the Investment Manager and the additional resources required to manage mutual funds effectively. In evaluating the Fund's advisory fees, the Committee and the Board also took into account the demands, complexity and quality of the investment management of the Fund.

After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the advisory fee rates and expenses of the Fund supported the continuation of the Advisory Agreement.

#### **Costs of Services to be Provided and Profitability**

The Committee and the Board also took note of the costs of the services provided (both on an absolute and relative basis) and the profitability to the Investment Manager and its affiliates in connection with their relationships with the Fund. In evaluating these considerations, the Committee and the Board took note of the advisory fees charged by the Investment Manager to other clients, including fees charged by the Investment Manager to any institutional separate account clients with similar investment strategies to those of the Fund.

The Committee and the Board also considered the compensation directly or indirectly received by the Investment Manager's affiliates in connection with their relationships with the Fund. The Committee and the Board reviewed information provided by management as to the profitability of the Investment Manager and its affiliates of their relationships with the Fund, and information about the allocation of expenses used to calculate profitability. When reviewing profitability, the Committee and the Board also considered court cases in which adviser profitability was an issue in whole or in part, the performance of the fund, the expense ratio of the fund, and the implementation of expense limitations with respect to the fund. The Committee and the Board also considered information provided by the Investment Manager regarding its financial condition and comparing its profitability to that of other asset management firms that are, or are subsidiaries of, publicly traded companies.

After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the profitability to the Investment Manager and its affiliates from their relationships with the Fund supported the continuation of the Advisory Agreement.

#### **Economies of Scale**

The Committee and the Board considered the potential existence of economies of scale in the provision by the Investment Manager of services to the Fund, to groups of related funds, and to the Investment Manager's investment advisory clients as a whole, and whether those economies of scale were shared with the Fund through breakpoints in investment advisory fees or other means, such as expense limitation arrangements and additional investments by the Investment Manager in investment, trading and compliance resources. The Committee and the Board noted that the investment advisory fee schedules for the Fund contained breakpoints that would reduce the fee rate on assets above specified threshold levels.

# Board Consideration and Approval of Advisory Agreement (continued)

In considering these issues, the Committee and the Board also considered the costs of the services provided (both on an absolute and relative basis) and the profitability to the Investment Manager and its affiliates from their relationships with the Fund, as discussed above. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the extent to which economies of scale were expected to be shared with the Fund supported the continuation of the Advisory Agreement.

### **Other Benefits to the Investment Manager**

The Committee and the Board received and considered information regarding "fall-out" or ancillary benefits received by the Investment Manager and its affiliates as a result of their relationships with the Fund, such as the engagement of the Investment Manager's affiliates to provide administrative services to the Fund and the engagement of the Investment Manager's affiliates to provide distribution and transfer agency services to the Fund. The Committee and the Board considered that the Fund's distributor retains a portion of the distribution fees from the Fund and receives a portion of the sales charges on sales or redemptions of certain classes of shares of the Fund. The Committee and the Board also considered the benefits of research made available to the Investment Manager by reason of brokerage commissions generated by the Fund's securities transactions, and reviewed information about the Investment Manager's practices with respect to allocating portfolio brokerage for brokerage and research services. The Committee and the Board considered the possible conflicts of interest associated with certain fall-out or other ancillary benefits and the reporting, disclosure and other processes that would be in place to address such possible conflicts of interest. The Committee and the Board recognized that the Investment Manager's profitability would be somewhat lower without these benefits.

### Conclusion

The Committee and the Board reviewed all of the above considerations in reaching their decisions to recommend or approve the continuation of the Advisory Agreement. No single item was identified as paramount or controlling, and individual Trustees may have attributed different weights to various factors. Based on their evaluation of all factors that they deemed to be material, including those factors described above, and assisted by the advice of independent legal counsel, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement. ### **Important Information About This Report**

The policy of the Board is to vote the proxies of the companies in which each fund holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary; or searching the website of the Securities and Exchange Commission (SEC) at http://www.sec.gov. Information regarding how each fund voted proxies relating to portfolio securities is filed with the SEC by August 31 for the most recent 12-month period ending June 30 of that year, and is available without charge by visiting columbiamanagement.com; or searching the website of the SEC at sec.gov.

Each fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each fund's Form N-Q is available on the SEC's website at sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330. Each fund's complete schedule of portfolio holdings, as filed on Form N-Q, can also be obtained without charge, upon request, by calling 800.345.6611.

The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than the original cost. For current month-end performance information, please contact your insurance company.

Performance results reflect any fee waivers or reimbursements of fund expenses by Columbia Management Investment Advisers, LLC and/or any of its affiliates. Absent these fee waivers or expense reimbursement arrangements, performance results would have been lower.

Investment earnings, if any, are tax-deferred until distributed to shareholders, at which time taxes may become due. Total return performance includes changes in share price and assumes reinvestment of dividends and capital gains, if any. Performance results reflect the effect of all fund expenses, but do not include any fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan. If performance results included the effect of these additional charges, they would be lower.

\* The returns shown for periods prior to the share class inception date (including returns since inception if shown, which are since fund inception) include the returns of the fund's oldest share class. These returns are adjusted to reflect any higher class-related operating expenses of the newer share classes, as applicable. Please visit columbiamanagement.com/variable-products/appended-performance for more information.

The Russell 1000 Value Index, an unmanaged index, measures the performance of those stocks in the Russell 1000 Index with lower price-to-book ratios and lower forecasted growth values. The index reflects reinvestment of all distributions and changes in market prices.

Indices are not available for investment, are not professionally managed and do not reflect sales charges, fees, brokerage commissions, taxes or other expenses of investing. Securities in the fund may not match those in an index.

### **Portfolio Overview**

### **Understanding Your Fund's Expenses**

(Unaudited)

As an investor, you incur ongoing costs, which generally include management fees, distribution and/or service (Rule 12b-1) fees, and other fund expenses. The following information is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to help you compare these costs with the ongoing costs of investing in other mutual funds.

The information below does not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy (collectively, Contracts) or qualified pension and retirement plan (Qualified Plan), if any. The total fees and expenses you bear may therefore be higher than those shown below.

### **Analyzing Your Fund's Expenses**

To illustrate these ongoing costs, we have provided examples and calculated the expenses paid by investors in each share class of the Fund during the period. The actual and hypothetical information in the table is based on an initial investment of \$1,000 at the beginning of the period indicated and held for the entire period. Expense information is calculated two ways and each method provides you with different information. The amount listed in the "Actual" column is calculated using the Fund's actual operating expenses and total return for the period. You may use the Actual information, together with the amount invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the results by the expenses paid during the period under the Actual column. The amount listed in the "Hypothetical" column assumes a 5% annual rate of return before expenses (which is not the Fund's actual return) and then applies the Fund's actual expense ratio for the period to the hypothetical return. You should not use the hypothetical account values and expenses to estimate either your actual account balance at the end of the period or the expenses you paid during the period. See "Compare With Other Funds" below for details on how to use the hypothetical data.

### **Compare With Other Funds**

Since all mutual funds are required to include the same hypothetical calculations about expenses in shareholder reports, you can use this information to compare the ongoing cost of investing in the Fund with other funds. To do so, compare the hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds. As you compare hypothetical examples of other funds, it is important to note that hypothetical examples are meant to highlight the ongoing costs of investing in a fund only and do not reflect any transaction costs, such as redemption or exchange fees, or expenses that apply to the subaccount or the contract. Therefore, the hypothetical calculations are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If the fees and expenses imposed under your Contract or Qualified Plan, if any, were included, your costs would be higher.

### January 1, 2012 – June 30, 2012

|         | Beginn   | Account Value at the<br>Beginning of the<br>Period (\$) |          | Account Value at the<br>End of the<br>Period (\$) |        | es Paid During<br>Period (\$) | Fund's Annualized<br>Expense Ratio (%) |
|---------|----------|---|----------|---|--------|-------------------------------|--|
|         | Actual   | Hypothetical  | Actual   | Hypothetical                                      | Actual | Hypothetical                  | Actual                                 |
| Class 1 | 1,000.00 | 1,000.00  | 1,080.50 | 1,021.38  | 3.62   | 3.52                          | 0.70                                   |
| Class 2 | 1,000.00 | 1,000.00  | 1,079.30 | 1,020.14  | 4.91   | 4.77                          | 0.95                                   |
| Class 3 | 1,000.00 | 1,000.00  | 1,079.90 | 1,020.79  | 4.24   | 4.12                          | 0.82                                   |

Expenses paid during the period are equal to the annualized expense ratio for each class as indicated above, multiplied by the average account value over the period and then multiplied by the number of days in the Fund's most recent fiscal half year and divided by 366.

Expenses do not include fees and expenses incurred indirectly by the Fund from the underlying funds in which the Fund may invest (also referred to as "acquired funds"), including affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange-traded funds).

Had Columbia Management Investment Advisers, LLC and/or certain of its affiliates not waived/reimbursed certain fees and expenses, account value at the end of the period would have been reduced.

### Notes to Portfolio of Investments

(a) At June 30, 2012, security was partially or fully on loan.

(b) Non-income producing.

(c) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. This security may be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2012, the value of these securities amounted to \$40,899,814 or 1.39% of net assets.

(d) The rate shown is the seven-day current annualized yield at June 30, 2012.

June 30, 2012 (Unaudited)

#### Notes to Portfolio of Investments (continued)

(e) As defined in the Investment Company Act of 1940, an affiliated company is one in which the Fund owns 5% or more of its outstanding voting securities, or a company which is under common ownership or control with the Fund. Holdings and transactions in these affiliated companies during the period ended June 30, 2012, are as follows:

| Issuer                        | Beginning<br>Cost (\$) | Purchase<br>Cost (\$) | Sales Cost/<br>Proceeds<br>From Sales (\$) | Realized<br>Gain/Loss (\$) | Ending<br>Cost (\$) | Dividends<br>or Interest<br>Income (\$) | Value (\$) |
|-------------------------------|------------------------|-----------------------|--|----------------------------|---------------------|---|------------|
| Columbia Short-Term Cash Fund | 79,103,189             | 328,141,107           | (365,180,207)                              | _                          | 42,064,089          | 54,842                                  | 42,064,089 |

(f) The table below represents securities received as collateral for repurchase agreements. This collateral is deposited with the Fund's custodian and, pursuant to the terms of the repurchase agreement, must have an aggregate value greater than or equal to the repurchase price plus accrued interest at all times. The value of securities and/or cash held as collateral for repurchase agreements is monitored on a daily basis to ensure the proper level of collateral.

#### **Fair Value Measurements**

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment's level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset or liability's fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value market.

Fair value inputs are summarized in the three broad levels listed below:

- > Level 1 Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (including NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.
- > Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- > Level 3 Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Foreign equity securities actively traded in markets where there is a significant delay in the local close relative to the New York Stock Exchange (NYSE) are classified as Level 2. The values of these securities may include an adjustment to reflect the impact of significant market movements following the close of local trading, as described in Note 2 to the financial statements — Security Valuation.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for carrying out the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are readily available, including recommendation of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third- party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of monitoring this information (which may occur as often as daily). However, the Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

| Total   | 2,905,477,361  | 137,994,164  | _  | 3,043,471,525 |

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category are generally valued using the market approach, in which a security's value is determined through reference to prices and information from market transactions for similar or identical assets. These assets include certain foreign securities for which a third party statistical pricing service may be employed for purposes of fair market valuation. The models utilized by the third party statistical pricing service take into account a security's correlation to available market data including, but not limited to, intraday index, ADR, and ETF movements.

There were no transfers of financial assets between Levels 1 and 2 during the period.

### **Financial Highlights**

The following tables are intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single share of a class held for the periods shown. For the periods ended 2009 and after, per share net investment income (loss) amounts are calculated based on average shares outstanding during the period. Total returns assume reinvestment of all dividends and distributions. Total returns do not reflect payment of the expenses that apply to the variable accounts or contract charges, if any, and are not annualized for periods of less than one year.

| Net assets, end of period (in thousands)                             | \$1,185,665                          | \$1,222,104             | \$1,572,800 | \$3,857,317 | \$2,765,112 | \$4,078,779 |
| Portfolio turnover   | 18%                                  | 41%                     | 26%         | 49%         | 41%         | 29%         |

#### **Notes to Financial Highlights**

(a) In addition to the fees and expenses which the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of the acquired funds in which it invests. Such indirect expenses are not included in the reported expense ratios.

(b)Annualized.

(c) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.

### **Notes to Financial Statements**

June 30, 2012 (Unaudited)

#### Note 1. Organization

Columbia Variable Portfolio – Dividend Opportunity Fund (the Fund), formerly known as Columbia Variable Portfolio – Diversified Equity Income Fund, a series of Columbia Funds Variable Series Trust II (the Trust), is a diversified fund. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company organized as a Massachusetts business trust.

#### **Fund Shares**

The Trust may issue an unlimited number of shares (without par value). The Fund offers Class 1, Class 2 and Class 3 shares to separate accounts funding variable annuity contracts and variable life insurance policies issued by affiliated and unaffiliated life insurance companies as well as qualified pension and retirement plans and other qualified institutional investors authorized by Columbia Management Investment Distributors, Inc. (the Distributor). You may not buy (nor will you own) shares of the Fund directly. You invest by participating in a qualified plan or buying a contract and making allocations to the Fund. All share classes have identical voting, dividend and liquidation rights. Each share class has its own expense structure.

# Note 2. Summary of Significant Accounting Policies

#### **Use of Estimates**

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

#### **Security Valuation**

All equity securities are valued at the close of business of the New York Stock Exchange (NYSE). Equity securities are valued at the last quoted sales price on the principal exchange or market on which they trade, except for securities traded on the NASDAQ Stock Market, which are valued at the NASDAQ official close price. Unlisted securities or listed securities for which there were no sales during the day are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Debt securities generally are valued by pricing services approved by the Board of Trustees (the Board) based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available may also be valued based upon an over-the-counter or exchange bid quotation.

Foreign securities are valued based on quotations from the principal market in which such securities are normally traded. If any foreign share prices are not readily available as a result of limited share activity the securities are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Foreign currency exchange rates are generally determined at 4:00 p.m. Eastern (U.S.) time. However, many securities markets and exchanges outside the U.S. close prior to the close of the NYSE; therefore, the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the close of the NYSE. In those situations, foreign securities will be fair valued pursuant to the policy adopted by the Board, including utilizing a third party pricing service to determine these fair values. The third party pricing service takes into account multiple factors, including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign exchange rates that have occurred subsequent to the close of the foreign exchange or market, to determine a good faith estimate that reasonably reflects the current market conditions as of the close of the NYSE. The fair value of a security is likely to be different from the quoted or published price, if available.

Investments in other open-end investment companies, including money market funds, are valued at net asset value.

Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates market value. The value of short-term securities originally purchased with maturities greater than 60 days is determined based on an amortized value to par upon reaching 60 days to maturity. Short-term securities maturing in more than 60 days from the valuation date are valued at the market price or approximate market value based on current interest rates.

Investments for which market quotations are not readily available, or that have quotations which management believes are not reliable, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board. If a security or class of securities (such as foreign securities) is valued at fair value, such value is likely to be different from the last quoted market price for the security.

June 30, 2012 (Unaudited)

The determination of fair value often requires significant judgment. To determine fair value, management may use assumptions including but not limited to future cash flows and estimated risk premiums. Multiple inputs from various sources may be used to determine fair value.

#### **Foreign Currency Transactions and Translation**

The values of all assets and liabilities denominated in foreign currencies are translated into U.S. dollars at that day's exchange rates. Net realized and unrealized gains (losses) on foreign currency transactions and translations include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments in the Statement of Operations.

#### **Repurchase Agreements**

The Fund may engage in repurchase agreement transactions with institutions that management has determined are creditworthy. The Fund, through the custodian, receives delivery of the underlying securities collateralizing a repurchase agreement. Management is responsible for determining that the collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays in or restrictions on a Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

#### **Security Transactions**

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

#### **Income Recognition**

Corporate actions and dividend income are recorded net of any non-reclaimable tax withholdings, on the ex-dividend date or upon receipt of ex-dividend notification in the case of certain foreign securities.

Awards from class action litigation are recorded as a reduction of cost basis if the Fund still owns the applicable securities on the payment date. If the Fund no longer owns the applicable securities, the proceeds are recorded as realized gains. Interest income is recorded on an accrual basis.

#### **Expenses**

General expenses of the Trust are allocated to the Fund and other funds of the Trust based upon relative net assets or other expense allocation methodologies determined by the nature of the expense. Expenses directly attributable to the Fund are charged to the Fund. Expenses directly attributable to a specific class of shares are charged to that share class.

#### **Determination of Class Net Asset Value**

All income, expenses (other than class-specific expenses, which are charged to that share class, as shown in the Statement of Operations) and realized and unrealized gains (losses) are allocated to each class of the Fund on a daily basis, based on the relative net assets of each class, for purposes of determining the net asset value of each class.

#### **Federal Income Tax Status**

The Fund is treated as a partnership for federal income tax purposes, and the Fund does not expect to make regular distributions. The Fund will not be subject to federal income tax, and therefore, there is no provision for federal income taxes. The partners of the Fund are subject to tax on their distributive share of the Fund's income and loss. The components of the Fund's net assets are reported at the partner-level for federal income tax purposes, and therefore, are not presented in the Statement of Assets and Liabilities.

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

#### **Foreign Taxes**

The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries, as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Realized gains in certain countries may be subject to foreign taxes at the Fund level, based on statutory rates. The Fund accrues for such foreign taxes on net realized and unrealized gains at the appropriate rate for each jurisdiction, as applicable.

June 30, 2012 (Unaudited)

#### **Guarantees and Indemnifications**

Under the Trust's organizational documents and, in some cases, by contract, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust or its funds. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

#### **Recent Accounting Pronouncement**

#### Disclosures about Offsetting Assets and Liabilities

In December 2011, the Financial Accounting Standards Board (FASB) issued ASU No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*. The objective of the FASB is to enhance current disclosure requirements on offsetting of certain assets and liabilities and to enable financial statement users to compare financial statements prepared under GAAP and International Financial Reporting Standards.

Specifically, ASU No. 2011-11 requires an entity to disclose both gross and net information for derivatives and other financial instruments that are subject to a master netting arrangement or similar agreement. The standard requires disclosure of collateral received in connection with the master netting agreements or similar agreements. The effective date of ASU No. 2011-11 is for interim and annual periods beginning on or after January 1, 2013. At this time, management is evaluating the implications of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

# Note 3. Fees and Compensation Paid to Affiliates

#### **Investment Management Fees**

Under an Investment Management Services Agreement, Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), determines which securities will be purchased, held or sold. The management fee is an annual fee that is equal to a percentage of the Fund's average daily net assets that declines from 0.66% to 0.49% as the Fund's net assets increase. The annualized effective management fee rate for the six months ended June 30, 2012 was 0.57% of the Fund's average daily net assets.

#### **Administration Fees**

Under an Administrative Services Agreement, the Investment Manager serves as the Fund Administrator. The Fund pays the Fund Administrator an annual fee for administration and accounting services equal to a percentage of the Fund's average daily net assets that declines from 0.06% to 0.03% as the Fund's net assets increase. The annualized effective administration fee rate for the six months ended June 30, 2012 was 0.05% of the Fund's average daily net assets.

#### **Other Expenses**

Other expenses are for, among other things, certain expenses of the Fund or the Board, including: Fund boardroom and office expense, employee compensation, employee health and retirement benefits, and certain other expenses. Payment of these Fund and Board expenses is facilitated by a company providing limited administrative services to the Fund and the Board. For the six months ended June 30, 2012, other expenses paid to this company were \$6,779.

#### **Compensation of Board Members**

Board members are compensated for their services to the Fund as disclosed in the Statement of Operations. Under a Deferred Compensation Plan (the Plan), the Board members who are not "interested persons" of the Fund, as defined under the 1940 Act, may elect to defer payment of up to 100% of their compensation. Deferred amounts are treated as though equivalent dollar amounts had been invested in shares of certain funds managed by the Investment Manager. The Fund's liability for these amounts is adjusted for market value changes and remains in the Fund until distributed in accordance with the Plan.

#### **Transfer Agency Fees**

The Fund has a Transfer Agency and Dividend Disbursing Agent Agreement with Columbia Management Investment Services Corp. (the Transfer Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial. The annual fee rate under this agreement is 0.06% of the Fund's average daily net assets. The Transfer Agent also receives compensation from fees for various shareholder services and reimbursements for certain out-of-pocket fees.

#### **Distribution Fees**

The Fund has an agreement with the Distributor, an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial, for distribution services. Under a Plan and Agreement of Distribution pursuant to Rule 12b-1, the Fund pays a fee at an annual rate of up to 0.25% of the Fund's average daily net assets attributable to Class 2 shares and an annual rate of up to 0.125% of the Fund's average daily net assets attributable to Class 3 shares. The Fund pays no distribution and service fees for Class 1 shares.

June 30, 2012 (Unaudited)

# Expenses Waived/Reimbursed by the Investment Manager and its Affiliates

Effective May 1, 2012, the Investment Manager and certain of its affiliates have contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described), through April 30, 2013, unless sooner terminated at the sole discretion of the Board, so that the Fund's net operating expenses, after giving effect to fees waived/ expenses reimbursed and/or overdraft charges from the Fund's custodian, do not exceed the following annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.76%  |
|---------|--------|
| Class 2 | 1.01%  |
| Class 3 | 0.885% |
|         |        |

#### Note 4. Portfolio Information

The cost of purchases and proceeds from sales of securities, excluding short-term obligations, aggregated to \$537,518,319 and \$720,358,887, respectively, for the six months ended June 30, 2012.

#### Note 5. Lending of Portfolio Securities

The Fund has entered into a Master Securities Lending Agreement (the Agreement) with JPMorgan Chase Bank, N.A. (JPMorgan). The Agreement authorizes JPMorgan as lending agent to lend securities to authorized borrowers in order to generate additional income on behalf of the Fund. Pursuant to the Agreement, the securities loaned are secured by cash or securities that either are issued or guaranteed as to principal and interest by the U.S. government, its agencies, authorities or instrumentalities with value equal to at least 100% of the market value of the loaned securities. Any additional collateral required to maintain those levels due to market fluctuations of the loaned securities is requested to be delivered the following business day. Cash collateral received is invested by the lending agent on behalf of the Fund into authorized investments pursuant to the Agreement. The investments made with the cash collateral are listed in the Portfolio of Investments. The values of such investments and any uninvested cash collateral are disclosed in the Statement of Assets and Liabilities along with the related obligation to return the collateral upon the return of the securities loaned.

Risks of delay in recovery of securities or even loss of rights in the securities may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the securities loaned increases above the value of the collateral received. JPMorgan will indemnify the Fund from losses resulting from a borrower's failure to return a loaned security when due. Such indemnification does not extend to losses associated with declines in the value of cash collateral investments. The Investment Manager is not responsible for any losses incurred by the Fund in connection with the securities lending program. Loans are subject to termination by the Fund or the borrower at any time, and are, therefore, not considered to be illiquid investments.

Pursuant to the Agreement, the Fund receives income for lending its securities either in the form of fees or by earning interest on invested cash collateral, net of negotiated rebates paid to borrowers and fees paid to the lending agent for services provided and any other securities lending expenses. Net income earned from securities lending for the six months ended June 30, 2012 is disclosed in the Statement of Operations. The Fund continues to earn and accrue interest and dividends on the securities loaned.

At June 30, 2012, securities valued at \$87,369,060 were on loan, and by cash collateral of \$87,299,714 (which does not reflect calls for collateral made to borrowers by JPMorgan at period end) that is partially or fully invested in short-term securities or other cash equivalents.

#### Note 6. Affiliated Money Market Fund

The Fund may invest its daily cash balances in Columbia Short-Term Cash Fund, an affiliated money market fund established for the exclusive use by the Fund and other affiliated funds. The income earned by the Fund from such investments is included as "Dividends from affiliates" in the Statement of Operations. As an investing fund, the Fund indirectly bears its proportionate share of the expenses of Columbia Short-Term Cash Fund.

#### Note 7. Shareholder Concentration

At June 30, 2012, one unaffiliated shareholder account owned 93.7% of the outstanding shares of the Fund. Subscription and redemption activity by concentrated accounts may have a significant effect on the operations of the Fund.

#### Note 8. Line of Credit

The Fund has entered into a revolving credit facility with a syndicate of banks led by JPMorgan whereby the Fund may borrow for the temporary funding of shareholder redemptions or for other temporary or emergency purposes. The credit facility agreement, as amended, which is a collective agreement between the Fund and certain other funds managed by the Investment Manager, severally and not jointly, permits collective borrowings up to \$500 million. Interest is charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the overnight federal funds rate plus 1.00% or (ii) the one-month LIBOR rate plus 1.00%. Each borrowing under the credit facility matures no later than 60 days after the date of borrowing. The Fund also pays a commitment fee equal to its pro rata share of the amount of the credit facility at a rate of 0.08% per annum.

The Fund had no borrowings during the six months ended June 30, 2012.

June 30, 2012 (Unaudited)

#### Note 9. Fund Merger

At the close of business on April 29, 2011, the Fund acquired the assets and assumed the identified liabilities of Columbia Large Cap Value Fund, Variable Series (the acquired fund), a series of Columbia Funds Variable Insurance Trust. The reorganization was completed after shareholders of the acquired fund approved a plan of reorganization on February 15, 2011. The purpose of the transaction was to combine two funds managed by the Investment Manager with comparable investment objectives and strategies.

The aggregate net assets of the Fund immediately before the acquisition were \$3,334,199,867 and the combined net assets immediately after the acquisition were \$3,437,215,847.

The merger was accomplished by a tax-free exchange of 7,555,251 shares of the acquired fund valued at \$103,015,980 (including \$24,411,317 of unrealized appreciation).

In exchange for the acquired fund's shares, the Fund issued the following number of shares:

|         | Shares    |
|---------|-----------|
| Class 1 | 6,125,550 |
| Class 2 | 1,032,751 |

For financial reporting purposes, net assets received and shares issued by the Fund were recorded at fair value; however, the acquired fund's cost of investments was carried forward. The financial statements reflect the operations of the Fund for the period prior to the merger and the combined Fund for the period subsequent to the merger. Because the combined investment portfolios have been managed as a single integrated portfolio since the merger was completed, it is not practicable to separate the amounts of revenue and earnings of the acquired fund that have been included in the combined Fund's Statement of Operations since the merger was completed.

Assuming the merger had been completed on January 1, 2011, the Fund's pro-forma net investment income, net gain on investments, net change in unrealized depreciation and net decrease in net assets from operations for the year ended December 31, 2011, would have been approximately \$52.9 million, \$209.8 million, \$(411.6) million and \$(148.9) million, respectively.

#### Note 10. Subsequent Events

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

# Note 11. Information Regarding Pending and Settled Legal Proceedings

In December 2005, without admitting or denying the allegations, American Express Financial Corporation (AEFC,

which is now known as Ameriprise Financial, Inc. (Ameriprise Financial)) entered into settlement agreements with the Securities and Exchange Commission (SEC) and Minnesota Department of Commerce (MDOC) related to market timing activities. As a result, AEFC was censured and ordered to cease and desist from committing or causing any violations of certain provisions of the Investment Advisers Act of 1940, the Investment Company Act of 1940, and various Minnesota laws. AEFC agreed to pay disgorgement of \$10 million and civil money penalties of \$7 million. AEFC also agreed to retain an independent distribution consultant to assist in developing a plan for distribution of all disgorgement and civil penalties ordered by the SEC in accordance with various undertakings detailed at www.sec.gov/litigation/ admin/ia-2451.pdf. Ameriprise Financial and its affiliates have cooperated with the SEC and the MDOC in these legal proceedings, and have made regular reports to the funds' Boards of Trustees.

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Funds are not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or regulatory proceedings that are likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds. Ameriprise Financial is required to make 10-O, 10-K and, as necessary, 8-K filings with the Securities and Exchange Commission on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares or other adverse consequences to the Funds. Further, although we believe proceedings are not likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial.

### **Supplemental Information**

(Unaudited)

#### **Change in Independent Registered Public Accounting Firm**

At a meeting held on June 14, 2012, the Board, upon recommendation of the Audit Committee, approved the replacement of Ernst & Young LLP (Ernst & Young) as the independent registered public accounting firm for the Fund and certain other funds in the Columbia Family of Funds (collectively, the Funds) and appointed PricewaterhouseCoopers LLP (PwC). PwC's engagement is effective at the completion of Ernst & Young's audits of the financial statements of the Funds with fiscal years ending July 31, 2012, which are expected to be completed in September 2012. The Fund did not consult with PwC during the fiscal years ended December 31, 2011 and 2010 and through the June meeting.

Ernst & Young's reports on the financial statements of the Fund as of and for the fiscal years ended December 31, 2011 and 2010 contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During such fiscal periods and through the June meeting, there were no: (1) disagreements between the Fund and Ernst & Young on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to Ernst & Young's satisfaction, would have caused them to make reference to the subject matter of the disagreement in connection with their reports, or (2) reportable events.

### **Approval of Investment Management Services Agreement**

Columbia Management Investment Advisers, LLC (Columbia Management or the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), serves as the investment manager to Columbia Variable Portfolio — Dividend Opportunity Fund (the Fund). Under an investment management services agreement (the IMS Agreement), Columbia Management provides investment advice and other services to the Fund and all funds distributed by Columbia Management Investment Distributors, Inc. (collectively, the Funds).

On an annual basis, the Fund's Board of Trustees (the Board), including the independent Board members (the Independent Trustees), considers renewal of the IMS Agreement. Columbia Management prepared detailed reports for the Board and its Contracts Committee in March and April 2012, including reports based on analyses of data provided by an independent organization and a comprehensive response to each item of information requested by independent legal counsel to the Independent Trustees (Independent Legal Counsel) in a letter to the Investment Manager, to assist the Board in making this determination. All of the materials presented in March and April were first supplied in draft form to designated representatives of the Independent Trustees, *i.e.*, Independent Legal Counsel, the Chair of the Board and the Chair of the Contracts Committee, and the final materials were revised to reflect comments provided by these Board representatives. In addition, throughout the year, the Board (or its committees) regularly meets with portfolio management teams and senior management personnel, and reviews information prepared by Columbia Management addressing the services Columbia Management provides and Fund performance. The Board accords particular weight to the work, deliberations and conclusions of the Contracts Committee, the Investment Review Committee and the Compliance Committee in determining whether to continue the IMS Agreement.

The Board, at its April 10-12, 2012 in-person Board meeting (the April Meeting), considered the renewal of the IMS Agreement for an additional one-year term. At the April Meeting, Independent Legal Counsel reviewed with the Independent Trustees various factors relevant to the Board's consideration of advisory agreements and the Board's legal responsibilities related to such consideration. Following an analysis and discussion of the factors identified below, the Board, including all of the Independent Trustees, approved the renewal of the IMS Agreement.

#### Nature, Extent and Quality of Services Provided by Columbia Management

The Independent Trustees analyzed various reports and presentations they had received detailing the services performed by Columbia Management, as well as its expertise, resources and capabilities. The Independent Trustees specifically considered many developments during the past year concerning the services provided by Columbia Management, including, in particular, the continued investment in, and resources dedicated to, the Funds' operations and the successful completion of various integration initiatives and the consolidation of dozens of Funds. The Independent Trustees noted the information they received concerning Columbia Management's ability to retain key portfolio management personnel. In that connection, the Independent Trustees took into account their meetings with Columbia Management's Chief Investment Officer (the CIO) and considered the CIO's successful execution of additional risk and portfolio management oversight applied to the Funds. The Independent Trustees also assessed Columbia Management's significant investment in upgrading technology (such as an equity trading system) and considered management's commitments to enhance existing resources in this area.

In connection with the Board's evaluation of the overall package of services provided by Columbia Management, the Board also considered the quality of administrative services provided to the Fund by Columbia Management. In addition, the Board also reviewed the financial condition of Columbia Management (and its affiliates) and each entity's ability to carry out its responsibilities under the IMS Agreement and the Fund's other services agreements with affiliates of Ameriprise Financial. The Board also discussed the acceptability of the terms of the IMS Agreement (including the relatively broad scope of services required to be performed by Columbia Management). The Board concluded that the services being performed under the IMS Agreement were of a reasonably high quality.

Based on the foregoing, and based on other information received (both oral and written, including the information on investment performance referenced below) and other considerations, the Board concluded that Columbia Management and its affiliates were in a position to continue to provide a high quality and level of services to the Fund.

#### **Investment Performance**

For purposes of evaluating the nature, extent and quality of services provided under the IMS Agreement, the Board carefully reviewed the investment performance of the Fund. In this regard, the Board considered detailed reports providing the results of analyses performed by an independent organization showing, for various periods, the performance of the Fund, the performance of a benchmark index, the percentage ranking of the Fund among its comparison group and the net assets of the Fund. The Board

### Approval of Investment Management Services Agreement (continued)

observed that the Fund's investment performance reflected the interrelationship of market conditions with the particular investment strategies employed by the portfolio management team.

# Comparative Fees, Costs of Services Provided and the Profits Realized By Columbia Management and its Affiliates from their Relationships with the Fund

The Board reviewed comparative fees and the costs of services to be provided under the IMS Agreement. The Board members considered detailed comparative information set forth in an annual report on fees and expenses, including, among other things, data (based on analyses conducted by an independent organization) showing a comparison of the Fund's expenses with median expenses paid by funds in its comparative peer universe, as well as data showing the Fund's contribution to Columbia Management's profitability.

The Board accorded particular weight to the notion that the level of fees should reflect a rational pricing model applied consistently across the various product lines in the Fund family, while assuring that the overall fees for each Fund (with few defined exceptions) are generally in line with the "pricing philosophy" (*i.e.*, that the total expense ratio of the Fund is at, or below, the median expense ratio of funds in the same comparison universe of the Fund). The Board took into account that the Fund's total expense ratio (after considering proposed expense caps/waivers) was slightly below the peer universe's median expense ratio shown in the reports. Based on its review, the Board concluded that the Fund's management fee was fair and reasonable in light of the extent and quality of services that the Fund receives.

The Board also considered the expected profitability of Columbia Management and its affiliates in connection with Columbia Management providing investment management services to the Fund. In this regard, the Board referred to a detailed profitability report, discussing the profitability to Columbia Management and Ameriprise Financial from managing, operating and distributing the Funds. In this regard, the Board observed that 2011 profitability, while slightly lower than 2010, was generally in line with the reported profitability of other asset management firms. The Board also considered the indirect economic benefits flowing to Columbia Management or its affiliates in connection with managing or distributing the Funds, such as the enhanced ability to offer various other financial products to Ameriprise Financial customers, soft dollar benefits and overall reputational advantages. The Board noted that the fees paid by the Funds should permit the Investment Manager to offer competitive compensation to its personnel, make necessary investments in its business and earn an appropriate profit. The Board concluded that profitability levels were reasonable.

#### Economies of Scale to be Realized

The Board also considered the economies of scale that might be realized by Columbia Management as the Fund grows and took note of the extent to which Fund shareholders might also benefit from such growth.

Based on the foregoing, the Board, including all of the Independent Trustees, concluded that the investment management service fees were fair and reasonable in light of the extent and quality of services provided. In reaching this conclusion, no single factor was determinative. On April 12, 2012, the Board, including all of the Independent Trustees, approved the renewal of the IMS Agreement.

### **Important Information About This Report**

The policy of the Board is to vote the proxies of the companies in which each fund holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary; or searching the website of the Securities and Exchange Commission (SEC) at http://www.sec.gov. Information regarding how each fund voted proxies relating to portfolio securities is filed with the SEC by August 31 for the most recent 12-month period ending June 30 of that year, and is available without charge by visiting columbiamanagement.com; or searching the website of the SEC at sec.gov.

Each fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each fund's Form N-Q is available on the SEC's website at sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330. Each fund's complete schedule of portfolio holdings, as filed on Form N-Q, can also be obtained without charge, upon request, by calling 800.345.6611.

Columbia Variable Portfolio – Dividend Opportunity Fund (formerly Columbia Variable Portfolio – Diversified Equity Income Fund) P.O. Box 8081 Boston, MA 02266-8081

This information is for use with concurrent or prior delivery of a fund prospectus. Please carefully consider the investment objectives, risks, charges and expenses of any variable fund and its related variable contract before investing. For variable fund and variable contract prospectuses, which contain this and other important information, contact your financial advisor or insurance representative. Please read the prospectus carefully before you invest. The fund is distributed by Columbia Management Investment Distributors, Inc., member FINRA, and managed by Columbia Management Investment Advisers, LLC.

### **Performance Overview**

(Unaudited)

#### **Performance Summary**

- > Columbia Variable Portfolio Asset Allocation Fund (the fund) Class 1 shares returned 5.76% for the six-month period ended June 30, 2012.
- > The fund's benchmarks, the Barclays U.S. Aggregate Bond Index and the S&P 500 Index, returned 2.37% and 9.49%, respectively, for the same period.

#### Average Annual Total Returns (%) (for period ended June 30, 2012)

|                                    |           | 6 Months   |        |         |          |
|------------------------------------|-----------|------------|--------|---------|----------|
|                                    | Inception | cumulative | 1 Year | 5 Years | 10 Years |
| Class 1                            | 01/01/89  | 5.76       | -0.12  | 1.65    | 5.56     |
| Class 2                            | 06/01/00  | 5.63       | -0.36  | 1.45    | 5.39     |
| S&P 500 Index                      |           | 9.49       | 5.45   | 0.22    | 5.33     |
| Barclays U.S. Aggregate Bond Index |           | 2.37       | 7.47   | 6.79    | 5.63     |

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results. The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than the original cost. For current month-end performance information, please contact your insurance company.

Performance results reflect the effect of any fee waivers or reimbursements of fund expenses by Columbia Management Investment Advisers, LLC and/or any of its affiliates. Absent these fee waivers or expense reimbursement arrangements, performance results would have been lower.

Investment earnings, if any, are tax-deferred until distributed to shareholders, at which time taxes may become due. Total return performance includes changes in share price and assumes reinvestment of dividends and capital gains, if any. Performance results reflect the effect of all fund expenses, but do not include any fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan. If performance results included the effect of these additional charges, they would be lower.

The Barclays U.S. Aggregate Bond Index is a market value-weighted index that tracks the daily price, coupon, pay-downs, and total return performance of fixed-rate, publicly placed, dollar-denominated, and non-convertible investment-grade debt issues with at least \$250 million par amount outstanding and with at least one year to final maturity.

The S&P 500 Index tracks the performance of 500 widely held, large-capitalization U.S. stocks.

Indices are not available for investment, are not professionally managed and do not reflect sales charges, fees, brokerage commissions, taxes or other expenses of investing. Securities in the fund may not match those in an index.

# **Understanding Your Fund's Expenses**

(Unaudited)

As an investor, you incur ongoing costs, which generally include management fees, distribution and/or service (Rule 12b-1) fees, and other fund expenses. The following information is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to help you compare these costs with the ongoing costs of investing in other mutual funds.

The information below does not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy (collectively, Contracts) or qualified pension and retirement plan (Qualified Plan), if any. The total fees and expenses you bear may therefore be higher than those shown below.

#### **Analyzing Your Fund's Expenses**

To illustrate these ongoing costs, we have provided examples and calculated the expenses paid by investors in each share class of the Fund during the period. The actual and hypothetical information in the table is based on an initial investment of \$1,000 at the beginning of the period indicated and held for the entire period. Expense information is calculated two ways and each method provides you with different information. The amount listed in the "Actual" column is calculated using the Fund's actual operating expenses and total return for the period. You may use the Actual information, together with the amount invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$6,000 account value divided by \$1,000 = 8.6), then multiply the results by the expenses paid during the period under the Actual column. The amount listed in the "Hypothetical" column assumes a 5% annual rate of return before expenses (which is not the Fund's actual return) and then applies the Fund's actual expenses ratio for the period to the hypothetical return. You should not use the hypothetical account values and expenses to estimate either your actual account balance at the end of the period or the expenses you paid during the period. See "Compare With Other Funds" below for details on how to use the hypothetical data.

#### **Compare With Other Funds**

Since all mutual funds are required to include the same hypothetical calculations about expenses in shareholder reports, you can use this information to compare the ongoing cost of investing in the Fund with other funds. To do so, compare the hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds. As you compare hypothetical examples of other funds, it is important to note that hypothetical examples are meant to highlight the ongoing costs of investing in a fund only and do not reflect any transaction costs, such as redemption or exchange fees or expenses that apply to the subaccount or the contract. Therefore, the hypothetical calculations are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If the fees and expenses imposed under your Contract or Qualified Plan, if any, were included, your costs would be higher.

#### January 1, 2012 – June 30, 2012

|         | the Be   | it Value at<br>ginning of<br>eriod (\$) | at th    | unt Value<br>e End of<br>eriod (\$) | Ď      | enses Paid<br>uring the<br>eriod (\$) | Fund's Annualized<br>Expense Ratio (%) | Paid   | ve Expenses<br>During the<br>eriod (\$) | Fund's Effective<br>Annualized<br>Expense Ratio (%) |
|---------|----------|---|----------|-------------------------------------|--------|---------------------------------------|--|--------|---|---|
|         | Actual   | Hypothetical                            | Actual   | Hypothetical                        | Actual | Hypothetical                          | Actual                                 | Actual | Hypothetical                            | Actual  |
| Class 1 | 1,000.00 | 1,000.00                                | 1,057.60 | 1,024.07                            | 0.82   | 0.81                                  | 0.16                                   | 4.60   | 4.53                                    | 0.90  |
| Class 2 | 1,000.00 | 1,000.00                                | 1,056.30 | 1,022.82                            | 2.10   | 2.06                                  | 0.41                                   | 5.88   | 5.78                                    | 1.15  |

Expenses paid during the period are equal to the annualized expense ratio for each class as indicated above, multiplied by the average account value over the period and then multiplied by the number of days in the Fund's most recent fiscal half year and divided by 366.

Effective expenses paid during the period and the Fund's effective annualized expense ratio include expenses borne directly to the class plus the Fund's pro rata portion of the ongoing expenses charged by the underlying funds using the expense ratio of each class of the underlying funds as of the underlying fund's most recent shareholder report.

Had Columbia Management Investment Advisers, LLC and/or certain of its affiliates not waived/reimbursed a portion of fees and expenses, account value at the end of the period would have been reduced.

#### **Notes to Portfolio of Investments**

(a) Investment in affiliated mutual fund advised by Columbia Management Investment Advisers, LLC or one of its affiliates.

(b) The rate shown is the seven-day current annualized yield at June 30, 2012.

#### **Fair Value Measurements**

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment based on the lowest level of any input that is deemed significant to the asset or liability's fair value measurement. The input levels are not necessarily an indication of the riquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- > Level 1 Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (to include NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.
- > Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- > Level 3 Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for carrying out the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are readily available, including recommendation of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third-party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of

### Portfolio of Investments (continued)

#### Fair Value Measurements (continued)

monitoring this information (which may occur as often as daily). However, the Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

The following table is a summary of the inputs used to value the Fund's investments at June 30, 2012:

| Description                     | Level 1<br>Quoted Prices in Active<br>Markets for Identical<br>Assets (\$) | Level 2<br>Other Significant<br>Observable Inputs (\$) | Level 3<br>Significant<br>Unobservable Inputs (\$) | Total (\$) |
|---------------------------------|--|--|--|------------|
| Mutual Funds                    |  |  |  |            |
| Investments in Affiliated Funds | 96,518,078   | _  | _  | 96,518,078 |
| Total Mutual Funds              | 96,518,078   | _  | _  | 96,518,078 |
| Bonds                           |  |  |  |            |
| Inflation-Indexed Bonds         | —  | 2,557,919  | _  | 2,557,919  |
| Total Bonds                     | _  | 2,557,919  | _  | 2,557,919  |
| Total                           | 96,518,078   | 2,557,919  | —  | 99,075,997 |

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category are generally valued using the market approach, in which a security's value is determined through reference to prices and information from market transactions for similar or identical assets.

There were no transfers of financial assets between Levels 1 and 2 during the period.

### **Financial Highlights**

The following tables are intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single share of a class held for the periods shown. Per share net investment income (loss) amounts are calculated based on average shares outstanding during the period. Total returns assume reinvestment of all dividends and distributions, if any. Total returns do not reflect payment of sales charges, if any, and are not annualized for periods of less than one year.

#### **Notes to Financial Highlights**

(a) Total return includes a reimbursement of a loss experienced by the Fund due to a compliance violation. The reimbursement had an impact of less than 0.01% on total return.

(b) In addition to the fees and expenses which the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of the acquired funds in which it invests. Such indirect expenses are not included in the reported expense ratios.

(c) Annualized.

- (d) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.
- (e) The benefits derived from expense reductions had an impact of less than 0.01%.
- (f) Effective October 22, 2010, the Fund transitioned to a fund-of-funds structure. If the Fund had not transitioned, portfolio turnover would have been lower.

#### **Notes to Financial Highlights**

(a) Total return includes a reimbursement of a loss experienced by the Fund due to a compliance violation. The reimbursement had an impact of less than 0.01% on total return.

(b) In addition to the fees and expenses which the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of the acquired funds in which it invests. Such indirect expenses are not included in the reported expense ratios.

(c) Annualized.

(d) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.

(e) The benefits derived from expense reductions had an impact of less than 0.01%.

(f) Effective October 22, 2010, the Fund transitioned to a fund-of-funds structure. If the Fund had not transitioned, portfolio turnover would have been lower.

### **Notes to Financial Statements**

June 30, 2012 (Unaudited)

#### Note 1. Organization

Columbia Variable Portfolio — Asset Allocation Fund (the Fund), a series of Columbia Funds Variable Insurance Trust (the Trust), is a diversified fund. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company organized as a Massachusetts business trust.

Under normal circumstances, the Fund invests most of its assets in shares of mutual funds managed by Columbia Management Investment Advisers, LLC (the Investment Manager) or its affiliates (Columbia Funds), exchange-traded funds (ETFs) and third party-advised funds (collectively, Underlying Funds), equity and fixed income securities, including Treasury Inflation Protected Securities (TIPS), and other instruments such as derivatives. The financial statements of the Underlying Funds in which the Fund invests should be read in conjunction with the Fund's financial statements.

#### **Fund Shares**

The Trust may issue an unlimited number of shares (without par value). The Fund offers Class 1 and Class 2 shares to separate accounts funding variable annuity contracts and variable life insurance policies issued by affiliated and unaffiliated life insurance companies as well as qualified pension and retirement plans and other qualified institutional investors authorized by Columbia Management Investment Distributors, Inc. (the Distributor). You may not buy (nor will you own) shares of the Fund directly. You invest by participating in a qualified plan or buying a contract and making allocations to the Fund. All share classes have identical voting, dividend and liquidation rights. Each share class has its own expense structure.

# Note 2. Summary of Significant Accounting Policies

#### Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

#### **Security Valuation**

Investments in the Underlying Funds are valued at the net asset value of each class of the respective Underlying Fund determined as of the close of the New York Stock Exchange on the valuation date.

Debt securities generally are valued by pricing services approved by the Board of Trustees (the Board) based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available may also be valued based upon an over-the-counter or exchange bid quotation.

Investments in other open-end investment companies, including money market funds, are valued at net asset value.

Investments for which market quotations are not readily available, or that have quotations which management believes are not reliable, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board. If a security or class of securities (such as foreign securities) is valued at fair value, such value is likely to be different from the last quoted market price for the security.

The determination of fair value often requires significant judgment. To determine fair value, management may use assumptions including but not limited to future cash flows and estimated risk premiums. Multiple inputs from various sources may be used to determine fair value.

#### **Treasury Inflation Protected Securities**

The Fund may invest in treasury inflation protected securities (TIPS). The principal amount of TIPS is adjusted periodically and is increased for inflation or decreased for deflation based on a monthly published index. Interest payments are based on the adjusted principal at the time the interest is paid. These adjustments are recorded as interest income in the Statement of Operations.

#### **Security Transactions**

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

#### **Income Recognition**

Income and capital gain distributions from the Underlying Funds, if any, are recorded on the ex-dividend date.

June 30, 2012 (Unaudited)

#### **Expenses**

General expenses of the Trust are allocated to the Fund and other funds of the Trust based upon relative net assets or other expense allocation methodologies determined by the nature of the expense. Expenses directly attributable to the Fund are charged to the Fund. Expenses directly attributable to a specific class of shares are charged to that share class.

#### **Determination of Class Net Asset Value**

All income, expenses (other than class-specific expenses, which are charged to that share class, as shown in the Statement of Operations) and realized and unrealized gains (losses) are allocated to each class of the Fund on a daily basis, based on the relative net assets of each class, for purposes of determining the net asset value of each class.

#### **Federal Income Tax Status**

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, because the Fund's sole shareholders are Qualified Investors, the Fund expects not to be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

#### **Distributions to Subaccounts**

Distributions from net investment income, if any, are declared and paid annually. Net realized capital gains, if any, are distributed along with the income dividend. Income distributions and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

All dividends and distributions are reinvested in additional shares of the applicable class of the Fund at net asset value as of the ex-dividend date of the distribution.

#### **Guarantees and Indemnifications**

Under the Trust's organizational documents and, in some cases, by contract, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust or its funds. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

#### **Recent Accounting Pronouncement**

#### Disclosures about Offsetting Assets and Liabilities

In December 2011, the Financial Accounting Standards Board (FASB) issued ASU No. 2011-11, *Disclosures about Offsetting Assets and Liabilities.* The objective of the FASB is to enhance current disclosure requirements on offsetting of certain assets and liabilities and to enable financial statement users to compare financial statements prepared under GAAP and International Financial Reporting Standards.

Specifically, ASU No. 2011-11 requires an entity to disclose both gross and net information for derivatives and other financial instruments that are subject to a master netting arrangement or similar agreement. The standard requires disclosure of collateral received in connection with the master netting agreements or similar agreements. The effective date of ASU No. 2011-11 is for interim and annual periods beginning on or after January 1, 2013. At this time, management is evaluating the implications of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

# Note 3. Fees and Compensation Paid to Affiliates

#### **Investment Management Fees**

Under an Investment Management Services Agreement (IMSA), Columbia, a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), determines which securities will be purchased, held or sold. The management fee is an annual fee that is a blend of (i) 0.00% on assets invested in Columbia proprietary funds (excluding any proprietary fund that does not pay an investment management fee to the Investment Manager), (ii) 0.10% on assets invested in non-exchange traded, third party advised mutual funds and (iii) 0.55% on assets invested in all other securities, including ETFs, derivatives and individual securities. The annualized effective management fee rate for the six months ended June 30, 2012 was 0.03% of the Fund's average daily net assets.

#### **Administration Fees**

Under an Administrative Services Agreement, the Investment Manager serves as the Fund Administrator. The Fund pays the Fund Administrator an annual fee for administration and accounting services equal to 0.02% of the Fund's average daily net assets.

#### **Compensation of Board Members**

Board members are compensated for their services to the Fund as disclosed in the Statement of Operations. The Trust's eligible Trustees may participate in a Deferred Compensation

June 30, 2012 (Unaudited)

Plan (the Plan) which may be terminated at any time. Obligations of the Plan will be paid solely out of the Fund's assets.

#### **Compensation of Chief Compliance Officer**

The Board has appointed a Chief Compliance Officer to the Fund in accordance with federal securities regulations. The Fund pays its pro-rata share of the expenses associated with the Chief Compliance Officer. The Fund's expenses for the Chief Compliance Officer will not exceed \$15,000 per year.

#### **Transfer Agent Fees**

The Fund has a Transfer Agency and Dividend Disbursing Agent Agreement with Columbia Management Investment Services Corp. (the Transfer Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial. The annual fee rate under this agreement is 0.06% of the Fund's average daily net assets. The Transfer Agent also receives compensation from fees for various shareholder services and reimbursements for certain out-of-pocket fees.

#### **Distribution Fees**

The Fund has an agreement with the Distributor, an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial, for distribution services. Pursuant to Rule 12b-1 under the 1940 Act, the Board has approved, and the Fund has adopted, a distribution plan (the Plan) which sets the distribution fees for the Fund. These fees are calculated daily and are intended to compensate the Distributor for selling shares of the Fund. The Plan requires the payment of a monthly distribution fee to the Distributor at the maximum annual rate of 0.25% of the average daily net assets attributable to Class 2 shares of the Fund.

## Expenses Waived/Reimbursed by the Investment Manager and its Affiliates

The Investment Manager and certain of its affiliates have contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below), through April 30, 2013, unless sooner terminated at the sole discretion of the Board, so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and any overdraft charges from the Fund's custodian, do not exceed the following annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.13% |
|---------|-------|
| Class 2 | 0.38  |

Under the agreement, the following fees and expenses are excluded from the waiver/reimbursement commitment, and

therefore will be paid by the Fund, if applicable: taxes (including foreign transaction taxes), expenses associated with investments in affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds), transaction costs and brokerage commissions, costs related to any securities lending program, dividend expenses associated with securities sold short, inverse floater program fees and expenses, transaction charges and interest on borrowed money, interest, extraordinary expenses and any other expenses the exclusion of which is specifically approved by the Board. This agreement may be modified or amended only with approval from all parties.

#### Note 4. Federal Tax Information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP because of temporary or permanent book to tax differences.

At June 30, 2012, the cost of investments for federal income tax purposes was approximately \$98,487,000 and the aggregate gross approximate unrealized appreciation and depreciation based on that cost was:

| Unrealized appreciation     | \$3,003,000 |
|-----------------------------|-------------|
| Unrealized depreciation     | (2,414,000) |
| Net unrealized appreciation | \$589,000   |

The following capital loss carryforward, determined as of December 31, 2011 may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

| Year of Expiration | Amount      |
|--------------------|-------------|
| 2017               | \$6,367,638 |

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

#### Note 5. Portfolio Information

The cost of purchases and proceeds from sales of securities, excluding short-term obligations, aggregated to \$33,276,003 and \$41,399,624, respectively, for the six months ended June 30, 2012.

June 30, 2012 (Unaudited)

#### Note 6. Affiliated Money Market Fund

The Fund may invest its daily cash balances in Columbia Short-Term Cash Fund, an affiliated money market fund established for the exclusive use by the Fund and other affiliated funds. The income earned by the Fund from such investments is included as "Dividends from affiliates" in the Statement of Operations. As an investing fund, the Fund indirectly bears its proportionate share of the expenses of Columbia Short-Term Cash Fund.

#### Note 7. Shareholder Concentration

At June 30, 2012, two unaffiliated shareholder accounts owned an aggregate of 76.3% of the outstanding shares of the Fund. The Fund has no knowledge about whether any portion of those shares was owned beneficially by such accounts. Subscription and redemption activity by concentrated accounts may have a significant effect on the operations of the Fund.

#### Note 8. Line of Credit

The Fund has entered into a revolving credit facility with a syndicate of banks led by JPMorgan Chase Bank N.A., whereby the Fund may borrow for the temporary funding of shareholder redemptions or for other temporary or emergency purposes. The credit facility agreement, as amended, which is a collective agreement between the Fund and certain other funds managed by the Investment Manager, severally and not jointly, permits collective borrowings up to \$500 million. Interest is charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the overnight federal funds rate plus 1.00% or (ii) the one-month LIBOR rate plus 1.00%. Each borrowing under the credit facility matures no later than 60 days after the date of borrowing. The Fund also pays a commitment fee equal to its pro rata share of the amount of the credit facility at a rate of 0.08% per annum.

The Fund had no borrowings during the six months ended June 30, 2012.

#### Note 9. Significant Risks

#### **Allocation Risk**

The Fund uses an asset allocation strategy in pursuing its investment objective. There is a risk that the Fund's allocation among asset classes or investments will cause the Fund to under-perform other funds with similar investment objectives, or that the investments themselves will not produce the returns expected.

#### **Investing in Other Funds Risk**

The performance of the Underlying Funds in which the Fund invests could be adversely affected if other entities investing in the same Underlying Funds make relatively large investments or redemptions in the Underlying Funds. Because the expenses and costs of the Underlying Funds are shared by the Fund, redemptions by other investors in the Underlying Funds could result in decreased economies of scale and increased operating expenses for the Fund. In addition, the Investment Manager has the authority to change the Underlying Funds in which the Fund invests or to change the percentage of the Fund's investments allocated to each Underlying Fund. If an Underlying Fund pays fees to the Investment Manager, such fees could result in the Investment Manager having a potential conflict of interest in selecting the Underlying Funds in which the Fund invests or in determining the percentage of the Fund's investments allocated to each Underlying Fund.

#### Note 10. Subsequent Events

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

# Note 11. Information Regarding Pending and Settled Legal Proceedings

In December 2005, without admitting or denying the allegations, American Express Financial Corporation (AEFC, which is now known as Ameriprise Financial, Inc. (Ameriprise Financial)) entered into settlement agreements with the Securities and Exchange Commission (SEC) and Minnesota Department of Commerce (MDOC) related to market timing activities. As a result, AEFC was censured and ordered to cease and desist from committing or causing any violations of certain provisions of the Investment Advisers Act of 1940, the Investment Company Act of 1940, and various Minnesota laws. AEFC agreed to pay disgorgement of \$10 million and civil money penalties of \$7 million. AEFC also agreed to retain an independent distribution consultant to assist in developing a plan for distribution of all disgorgement and civil penalties ordered by the SEC in accordance with various undertakings detailed at www.sec.gov/litigation/admin/ia-2451.pdf. Ameriprise Financial and its affiliates have cooperated with the SEC and the MDOC in these legal proceedings, and have made regular reports to the funds' Boards of Trustees.

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Funds are not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or

June 30, 2012 (Unaudited)

regulatory proceedings that are likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds. Ameriprise Financial is required to make 10-Q, 10-K and, as necessary, 8-K filings with the Securities and Exchange Commission on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares or other adverse consequences to the Funds. Further, although we believe proceedings are not likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial.

### **Board Consideration and Approval of Advisory Agreement**

At meetings held on March 7, 2012 and June 6, 2012, respectively, the Board of Trustees (the "Board") and the Trustees who are not interested persons (as defined in the Investment Company Act of 1940) of the Trust (the "Independent Trustees") unanimously approved the continuation of the Investment Management Services Agreement (the "Advisory Agreement") with Columbia Management Investment Advisers, LLC (the "Investment Manager") with respect to Columbia Variable Portfolio — Asset Allocation Fund (the "Fund"), a series of the Trust. As detailed below, the Advisory Fees and Expenses Committee (the "Committee") and the Board met on multiple occasions to review and discuss, both among themselves and with the management team of the Investment Manager, materials provided by the Investment Manager before determining to approve each continuation of the Advisory Agreement.

In connection with their deliberations regarding each continuation of the Advisory Agreement, the Committee and the Board requested and evaluated materials from the Investment Manager regarding the Fund and the Advisory Agreement, and discussed these materials with representatives of the Investment Manager at Committee meetings held on March 6, 2012, April 25, 2012 and June 5, 2012, and at the Board meetings held on March 7, 2012 and June 6, 2012. In addition, the Board considers matters bearing on the Advisory Agreement at most of its other meetings throughout the year and meets regularly with senior management of the Funds and the Investment Manager. Through the Board's Investment Oversight Committees, Trustees also meet with selected Fund portfolio managers and other investment personnel at various times throughout the year. The Committee and the Board also consulted with Fund counsel and with the Independent Trustees' independent legal counsel, who advised on the legal standard for consideration by the Board and otherwise assisted the Board in its deliberations.

On March 6, 2012, the Committee recommended that the Board approve the continuation of the Advisory Agreement. On March 7, 2012, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement for the Fund. The Committee and the Board met in June 2012 to consider the continuation of the Advisory Agreement for the one-year period ending June 30, 2013, so as to permit the annual consideration of the Advisory Agreement to be conducted each June. On June 5, 2012, the Committee recommended that the Board approve the continuation of the Advisory Agreement. On June 6, 2012, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement.

The Committee and the Board considered all information that they, their legal counsel, or the Investment Manager believed reasonably necessary to evaluate and to determine whether to approve the continuation of the Advisory Agreement. In their deliberations, the Trustees did not identify any particular information that was all-important or controlling, and individual Trustees may have attributed different weights to the various factors. The information and factors considered by the Committee and the Board in recommending for approval or approving the continuation of the Advisory Agreement for the Fund included the following:

- Information on the investment performance of the Fund relative to the performance of the Fund's benchmarks and the performance of a group of comparable mutual funds, as determined by an independent third-party data provider;
- Information on the Fund's advisory fees and total expenses, including information comparing the Fund's expenses to those of a group of comparable mutual funds, as determined by an independent third-party data provider;
- The Investment Manager's agreement to contractually limit or cap total operating expenses for the Fund so that total operating expenses (excluding certain fees and expenses, such as transaction costs and certain other investment related expenses, interest, taxes, acquired fund fees and expenses, and extraordinary expenses) would not exceed the median expenses of a group of comparable funds (as determined from time to time, generally annually, by an independent third-party data provider);
- The terms and conditions of the Advisory Agreement, including that the advisory fee rates payable by the Fund would not change;
- The terms and conditions of other agreements and arrangements with affiliates of the Investment Manager relating to the operations of the Fund, including the Administrative Services Agreement, the Distribution Agreement and the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement certain proposed changes to the fee rates payable thereunder;
- Descriptions of various functions performed by the Investment Manager under the Advisory Agreement, including portfolio management and portfolio trading practices;

### Board Consideration and Approval of Advisory Agreement (continued)

- Information regarding the management fees and investment performance of any comparable portfolios of other clients of the Investment Manager, including institutional separate accounts; and
- The profitability to the Investment Manager and its affiliates from their relationships with the Fund.

### Nature, Extent and Quality of Services to be Provided under the Advisory Agreement

The Committee and the Board considered the nature, extent and quality of services provided to the Fund by the Investment Manager and its affiliates under the Advisory Agreement and under separate agreements for the provision of transfer agency and administrative services, and the resources dedicated to the Fund and the other Columbia Funds by the Investment Manager and its affiliates. The Committee and the Board considered, among other things, the Investment Manager's ability to attract, motivate and retain highly qualified research, advisory and supervisory investment professionals (including personnel and other resources, compensation programs for personnel involved in fund management, reputation and other attributes), the portfolio management services provided by those investment professionals, the quality of the Investment Manager's investment research capabilities and trade execution services, and the other resources that the Investment Manager devotes to the Fund. The Committee and the Board also considered the potential benefits to shareholders of investing in a mutual fund that is part of a fund complex offering exposure to a variety of asset classes and investment disciplines and providing a variety of fund and shareholder services.

The Committee and the Board also considered the professional experience and qualifications of the senior personnel of the Investment Manager. The Committee and the Board noted the compliance programs of and the compliance-related resources provided to the Fund by the Investment Manager and its affiliates, and considered the Investment Manager's ability to provide administrative services to the Fund pursuant to a separate administrative services agreement, including the Investment Manager's ability to coordinate the activities of the Fund's other service providers. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the expected nature, extent and quality of the services to be provided to the Fund under the Advisory Agreement supported the continuation of such agreement.

#### **Investment Performance**

The Committee and the Board reviewed information about the performance of the Fund over various time periods, including performance information relative to benchmarks and information based on reports of an independent third-party data provider that compared the performance of the Fund to the performance of a group of comparable mutual funds. The Committee and the Board also reviewed a description of the third party's methodology for identifying the Fund's peer groups for purposes of performance and expense comparisons. In the case of each Fund whose performance lagged that of a relevant peer group for certain (although not necessarily all) periods, the Committee and the Board concluded that other factors relevant to performance were sufficient, in light of other considerations, to warrant continuation of the Fund's Advisory Agreement. Those factors varied from fund to fund, but included one or more of the following: (i) that the Fund's performance, although lagging in certain recent periods, was stronger over the longer term; (ii) that the underperformance was attributable, to a significant extent, to investment decisions that were reasonable and consistent with the Fund's investment strategy and policies and that the Fund was performing within a reasonable range of expectations, given those investment decisions, market conditions and the Fund's investment strategy; (iii) that the Fund's performance was competitive when compared to other relevant performance benchmarks or peer groups; and (iv) that the Investment Manager had taken or was taking steps designed to help improve the Fund's investment performance, including, but not limited to, replacing portfolio managers, enhancing the resources supporting the portfolio managers, or modifying investment strategies.

The Committee and the Board noted that, through December 31, 2011, the Fund's performance was in the seventy-second, forty-first and fifty-ninth percentiles (where the best performance would be in the first percentile) of its category selected by an independent third-party data provider for the purposes of performance comparisons for the one-, three- and five- year periods, respectively.

The Committee and the Board also considered the Investment Manager's performance and reputation generally, the Investment Manager's historical responsiveness to Board concerns about performance and the Investment Manager's willingness to take steps intended to improve performance. After reviewing these and related factors, the Committee and the

# Board Consideration and Approval of Advisory Agreement (continued)

Board concluded, within the context of their overall conclusions regarding the Advisory Agreement, that the performance of the Fund and the Investment Manager was sufficient, in light of other considerations, to warrant the continuation of the Advisory Agreement.

### **Investment Advisory Fee Rates and Other Expenses**

The Committee and the Board considered the advisory fees to be charged to the Fund under the Advisory Agreement as well as the total expenses to be incurred by the Fund. In assessing the reasonableness of the fees under the Advisory Agreement, the Committee and the Board considered, among other information, the Fund's advisory fee and its expected total expense ratio as a percentage of average daily net assets. The Committee and the Board noted that the Fund's actual management fee and total net expense ratio are ranked in the first and third quintiles, respectively, against the Fund's expense universe as determined by an independent third-party data provider for purposes of expense comparison. The Committee and the Board also took into account the fee waiver and expense limitation arrangements agreed to by the Investment Manager, as noted above.

The Committee and the Board also considered the fact that the advisory fee rates payable by the Fund to the Investment Manager under the Advisory Agreement were the same as those currently paid by the Fund to the Investment Manager.

The Committee and the Board also received and considered information about the advisory fees charged by the Investment Manager to institutional separate accounts. In considering the fees charged to those accounts, the Committee and the Board took into account, among other things, the Investment Manager's representations about the differences between managing mutual funds as compared to other types of accounts, including differences in the services provided, differences in the risk profile of such business for the Investment Manager and the additional resources required to manage mutual funds effectively. In evaluating the Fund's advisory fees, the Committee and the Board also took into account the demands, complexity and quality of the investment management of the Fund.

After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the advisory fee rates and expenses of the Fund supported the continuation of the Advisory Agreement.

### **Costs of Services to be Provided and Profitability**

The Committee and the Board also took note of the costs of the services provided (both on an absolute and relative basis) and the profitability to the Investment Manager and its affiliates in connection with their relationships with the Fund. In evaluating these considerations, the Committee and the Board took note of the advisory fees charged by the Investment Manager to other clients, including fees charged by the Investment Manager to any institutional separate account clients with similar investment strategies to those of the Fund.

The Committee and the Board also considered the compensation directly or indirectly received by the Investment Manager's affiliates in connection with their relationships with the Fund. The Committee and the Board reviewed information provided by management as to the profitability of the Investment Manager and its affiliates of their relationships with the Fund, and information about the allocation of expenses used to calculate profitability. When reviewing profitability, the Committee and the Board also considered court cases in which adviser profitability was an issue in whole or in part, the performance of the fund, the expense ratio of the fund, and the implementation of expense limitations with respect to the fund. The Committee and the Board also considered information provided by the Investment Manager regarding its financial condition and comparing its profitability to that of other asset management firms that are, or are subsidiaries of, publicly traded companies.

After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the profitability to the Investment Manager and its affiliates from their relationships with the Fund supported the continuation of the Advisory Agreement.

#### **Economies of Scale**

The Committee and the Board considered the potential existence of economies of scale in the provision by the Investment Manager of services to the Fund, to groups of related funds, and to the Investment Manager's investment advisory clients as a whole, and whether those economies of scale were shared with the Fund through breakpoints in investment advisory fees or other means, such as expense limitation arrangements and additional investments by the Investment Manager in

### Board Consideration and Approval of Advisory Agreement (continued)

investment, trading and compliance resources. The Committee and the Board noted that the investment advisory fee schedules for the Fund contained breakpoints that would reduce the fee rate on assets above specified threshold levels.

In considering these issues, the Committee and the Board also considered the costs of the services provided (both on an absolute and relative basis) and the profitability to the Investment Manager and its affiliates from their relationships with the Fund, as discussed above. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the extent to which economies of scale were expected to be shared with the Fund supported the continuation of the Advisory Agreement.

### Other Benefits to the Investment Manager

The Committee and the Board received and considered information regarding "fall-out" or ancillary benefits received by the Investment Manager and its affiliates as a result of their relationships with the Fund, such as the engagement of the Investment Manager's affiliates to provide administrative services to the Fund and the engagement of the Investment Manager's affiliates to provide distribution and transfer agency services to the Fund. The Committee and the Board considered that the Fund's distributor retains a portion of the distribution fees from the Fund and receives a portion of the sales charges on sales or redemptions of certain classes of shares of the Fund. The Committee and the Board also considered the benefits of research made available to the Investment Manager by reason of brokerage commissions generated by the Fund's securities transactions, and reviewed information about the Investment Manager's practices with respect to allocating portfolio brokerage for brokerage and research services. The Committee and the Board considered the possible conflicts of interest associated with certain fall-out or other ancillary benefits and the reporting, disclosure and other processes that would be in place to address such possible conflicts of interest. The Committee and the Board recognized that the Investment Manager's profitability would be somewhat lower without these benefits.

### Conclusion

The Committee and the Board reviewed all of the above considerations in reaching their decisions to recommend or approve the continuation of the Advisory Agreement. No single item was identified as paramount or controlling, and individual Trustees may have attributed different weights to various factors. Based on their evaluation of all factors that they deemed to be material, including those factors described above, and assisted by the advice of independent legal counsel, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement. This page intentionally left blank.

### **Important Information About This Report**

The policy of the Board is to vote the proxies of the companies in which each fund holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary; or searching the website of the Securities and Exchange Commission (SEC) at http://www.sec.gov. Information regarding how each fund voted proxies relating to portfolio securities is filed with the SEC by August 31 for the most recent 12-month period ending June 30 of that year, and is available without charge by visiting columbiamanagement.com; or searching the website of the SEC at sec.gov.

Each fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each fund's Form N-Q is available on the SEC's website at sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330. Each fund's complete schedule of portfolio holdings, as filed on Form N-Q, can also be obtained without charge, upon request, by calling 800.345.6611.

The views expressed in this report reflect the current views of the respective parties. These views are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict, so actual outcomes and results may differ significantly from the views expressed. These views are subject to change at any time based upon economic, market or other conditions and the respective parties disclaim any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a Columbia Fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any particular Columbia Fund. References to specific securities should not be construed as a recommendation or investment advice.

### **Performance Overview**

### **Performance Summary**

- > Columbia Variable Portfolio Large Cap Growth Fund (the fund) Class 3 shares returned 12.73% for the six-months ended June 30, 2012.
- > The fund outperformed its benchmark, the Russell 1000 Growth Index, which increased 10.08% for the same six-month period.

#### Average Annual Total Returns (%) (for period ended June 30, 2012)

|                           |          | 6 Months<br>Cumulative | 1 Year | 5 Years | 10 Years |
|---------------------------|----------|------------------------|--------|---------|----------|
| Class 1*                  | 05/03/10 | 12.71                  | 2.19   | -1.00   | 3.73     |
| Class 2*                  | 05/03/10 | 12.61                  | 1.93   | -1.19   | 3.54     |
| Class 3                   | 09/15/99 | 12.73                  | 2.06   | -1.02   | 3.71     |
| Russell 1000 Growth Index |          | 10.08                  | 5.76   | 2.87    | 6.03     |

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results. The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than the original cost. For current month-end performance information, please contact your insurance company.

Performance results reflect any fee waivers or reimbursements of fund expenses by Columbia Management Investment Advisers, LLC and/or any of its affiliates. Absent these fee waivers or expense reimbursement arrangements, performance results would have been lower.

Investment earnings, if any, are tax-deferred until distributed to shareholders, at which time taxes may become due. Total return performance includes changes in share price and assumes reinvestment of dividends and capital gains, if any. Performance results reflect the effect of all fund expenses, but do not include any fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan. If performance results included the effect of these additional charges, they would be lower.

\* The returns shown for periods prior to the share class inception date (including returns since inception if shown, which are since fund inception) include the returns of the fund's oldest share class. These returns are adjusted to reflect any higher class-related operating expenses of the newer share classes, as applicable. Please visit columbiamanagement.com/variable-products/appended-performance for more information.

The Russell 1000 Growth Index, an unmanaged index, measures the performance of those stocks in the Russell 1000 Index with higher price-to-book ratios and higher forecasted growth values. The index reflects reinvestment of all distributions and changes in market prices.

Indices are not available for investment, are not professionally managed and do not reflect sales charges, fees, brokerage commissions, taxes or other expenses of investing. Securities in the fund may not match those in an index.

### **Portfolio Overview**

### **Understanding Your Fund's Expenses**

(Unaudited)

As an investor, you incur ongoing costs, which generally include management fees, distribution and/or service (Rule 12b-1) fees, and other fund expenses. The following information is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to help you compare these costs with the ongoing costs of investing in other mutual funds.

The information below does not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy (collectively, Contracts) or qualified pension and retirement plan (Qualified Plan), if any. The total fees and expenses you bear may therefore be higher than those shown below.

### **Analyzing Your Fund's Expenses**

To illustrate these ongoing costs, we have provided examples and calculated the expenses paid by investors in each share class of the Fund during the period. The actual and hypothetical information in the table is based on an initial investment of \$1,000 at the beginning of the period indicated and held for the entire period. Expense information is calculated two ways and each method provides you with different information. The amount listed in the "Actual" column is calculated using the Fund's actual operating expenses and total return for the period. You may use the Actual information, together with the amount invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the results by the expenses paid during the period under the Actual column. The amount listed in the "Hypothetical" column assumes a 5% annual rate of return before expenses (which is not the Fund's actual return) and then applies the Fund's actual expense ratio for the period to the hypothetical return. You should not use the hypothetical account values and expenses to estimate either your actual account balance at the end of the period or the expenses you paid during the period. See "Compare With Other Funds" below for details on how to use the hypothetical data.

### **Compare With Other Funds**

Since all mutual funds are required to include the same hypothetical calculations about expenses in shareholder reports, you can use this information to compare the ongoing cost of investing in the Fund with other funds. To do so, compare the hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds. As you compare hypothetical examples of other funds, it is important to note that hypothetical examples are meant to highlight the ongoing costs of investing in a fund only and do not reflect any transaction costs, such as redemption or exchange fees, or expenses that apply to the subaccount or the contract. Therefore, the hypothetical calculations are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If the fees and expenses imposed under your Contract or Qualified Plan, if any, were included, your costs would be higher.

#### Account Value at the Account Value at the Beginning of the End of the **Expenses Paid During Fund's Annualized** Expense Ratio (%) Period (\$) Period (\$) the Period (\$) Actual Hypothetical Actual Hypothetical Actual Hypothetical Actual Class 1 1,000.00 1,000.00 1,127.10 1,021.03 4.07 3.87 0.77 Class 2 1,000.00 1,126.10 1,019.79 5.39 5.12 1.02 1,000.00 Class 3 1,000.00 1,000.00 1,127.30 1,020.39 4.76 4.52 0.90

### January 1, 2012 - June 30, 2012

Expenses paid during the period are equal to the annualized expense ratio for each class as indicated above, multiplied by the average account value over the period and then multiplied by the number of days in the Fund's most recent fiscal half year and divided by 366.

Expenses do not include fees and expenses incurred indirectly by the Fund from the underlying funds in which the Fund may invest (also referred to as "acquired funds"), including affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange-traded funds).

Had Columbia Management Investment Advisers, LLC and/or certain of its affiliates not waived/reimbursed certain fees and expenses, account value at the end of the period would have been reduced.

#### **Notes to Portfolio of Investments**

- (a) Non-income producing.
- (b) Identifies issues considered to be illiquid as to their marketability. The aggregate value of such securities at June 30, 2012 was \$1, representing less than 0.01% of net assets. Information concerning such security holdings at June 30, 2012 was as follows:

| Security Description         | Acquisition Dates   | Cost (\$) |
|------------------------------|---------------------|-----------|
| Kinder Morgan Management LLC | 12/19/03 - 01/18/05 | _         |

(c) At June 30, 2012, security was partially or fully on loan.

(d) The rate shown is the seven-day current annualized yield at June 30, 2012.

(e) As defined in the Investment Company Act of 1940, an affiliated company is one in which the Fund owns 5% or more of its outstanding voting securities, or a company which is under common ownership or control with the Fund. Holdings and transactions in these affiliated companies during the period ended June 30, 2012, are as follows:

|                               | Beginning | Purchase   | Sales Cost/<br>Proceeds | Realized       | Ending    | Dividends<br>or Interest |            |

| Issuer                        | Cost (\$) | Cost (\$)  |                         | Gain/Loss (\$) | Cost (\$) | Income (\$)              | Value (\$) |
| Columbia Short-Term Cash Fund | 3,085,176 | 49,236,384 | (44,902,713)            |                | 7,418,847 | 5,081                    | 7,418,847  |

(f) The table below represents securities received as collateral for repurchase agreements. This collateral is deposited with the Fund's custodian and, pursuant to the terms of the repurchase agreement, must have an aggregate value greater than or equal to the repurchase price plus accrued interest at all times. The value of securities and/or cash held as collateral for repurchase agreements is monitored on a daily basis to ensure the proper level of collateral.

| Security Description                        | Value (\$) |

#### **Fair Value Measurements**

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment's level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset or liability's fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- > Level 1 Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (including NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.
- > Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- > Level 3 Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for carrying out the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are readily available, including recommendation of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third- party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of monitoring this information (which may occur as often as daily). However, the Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

| Industrials   | 2,489,076  | _  | _  | 2,489,076   |
| Total Equity Securities   | 241,480,157  | 1  | _  | 241,480,158 |
| Other   |  |  |  |             |
| Money Market Funds  | 7,418,847  | _  | _  | 7,418,847   |
| Investments of Cash Collateral<br>Received for Securities on Loan | _  | 2,536,696  | _  | 2,536,696   |
| Total Other   | 7,418,847  | 2,536,696  | _  | 9,955,543   |
| Total   | 248,899,004  | 2,536,697  | _  | 251,435,701 |

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category are generally valued using the market approach, in which a security's value is determined through reference to prices and information from market transactions for similar or identical assets.

There were no transfers of financial assets between Levels 1 and 2 during the period.

### **Financial Highlights**

The following tables are intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single share of a class held for the periods shown. For periods ended 2009 and after, per share net investment income (loss) amounts are calculated based on average shares outstanding during the period. Total returns assume reinvestment of all dividends and distributions. Total returns do not reflect payment of the expenses that apply to the variable accounts or contract charges, if any, and are not annualized for periods of less than one year.

### **Notes to Financial Statements**

June 30, 2012 (Unaudited)

### Note 1. Organization

Columbia Variable Portfolio – Large Cap Growth Fund (the Fund), a series of Columbia Funds Variable Series Trust II (the Trust), is a diversified fund. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company organized as a Massachusetts business trust.

### **Fund Shares**

The Trust may issue an unlimited number of shares (without par value). The Fund offers Class 1, Class 2 and Class 3 shares to separate accounts funding variable annuity contracts and variable life insurance policies issued by affiliated and unaffiliated life insurance companies as well as qualified pension and retirement plans and other qualified institutional investors authorized by Columbia Management Investment Distributors, Inc. (the Distributor). You may not buy (nor will you own) shares of the Fund directly. You invest by participating in a qualified plan or buying a contract and making allocations to the Fund. All share classes have identical voting, dividend and liquidation rights. Each share class has its own expense structure.

# Note 2. Summary of Significant Accounting Policies

### **Use of Estimates**

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

### **Security Valuation**

All equity securities are valued at the close of business of the New York Stock Exchange (NYSE). Equity securities are valued at the last quoted sales price on the principal exchange or market on which they trade, except for securities traded on the NASDAQ Stock Market, which are valued at the NASDAQ official close price. Unlisted securities or listed securities for which there were no sales during the day are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets.

Debt securities generally are valued by pricing services approved by the Board of Trustees (the Board) based upon

market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available may also be valued based upon an over-the-counter or exchange bid quotation.

Foreign securities are valued based on quotations from the principal market in which such securities are normally traded. If any foreign share prices are not readily available as a result of limited share activity the securities are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Foreign currency exchange rates are generally determined at 4:00 p.m. Eastern (U.S.) time. However, many securities markets and exchanges outside the U.S. close prior to the close of the NYSE; therefore, the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the close of the NYSE. In those situations, foreign securities will be fair valued pursuant to the policy adopted by the Board, including utilizing a third party pricing service to determine these fair values. The third party pricing service takes into account multiple factors, including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign exchange rates that have occurred subsequent to the close of the foreign exchange or market, to determine a good faith estimate that reasonably reflects the current market conditions as of the close of the NYSE. The fair value of a security is likely to be different from the quoted or published price, if available.

Investments in other open-end investment companies, including money market funds, are valued at net asset value.

Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates market value. The value of short-term securities originally purchased with maturities greater than 60 days is determined based on an amortized value to par upon reaching 60 days to maturity. Short-term securities maturing in more than 60 days from the valuation date are valued at the market price or approximate market value based on current interest rates.

Option contracts are valued at the mean of the latest quoted bid and asked prices on their primary exchanges. Option contracts, including over-the-counter (OTC) option contracts, with no readily available market value are valued using quotations obtained from independent brokers as of the close of the NYSE.

Investments for which market quotations are not readily available, or that have quotations which management believes are not reliable, are valued at fair value as determined in good faith under consistently applied procedures established by and

June 30, 2012 (Unaudited)

under the general supervision of the Board. If a security or class of securities (such as foreign securities) is valued at fair value, such value is likely to be different from the last quoted market price for the security.

The determination of fair value often requires significant judgment. To determine fair value, management may use assumptions including but not limited to future cash flows and estimated risk premiums. Multiple inputs from various sources may be used to determine fair value.

### **Foreign Currency Transactions and Translation**

The values of all assets and liabilities denominated in foreign currencies are translated into U.S. dollars at that day's exchange rates. Net realized and unrealized gains (losses) on foreign currency transactions and translations include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments in the Statement of Operations.

### **Derivative Instruments**

The Fund invests in certain derivative instruments, as detailed below, to meet its investment objectives. Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more other assets, such as securities, currencies, commodities or indices. Derivative instruments may be used to maintain cash reserves while maintaining exposure to certain other assets, to offset anticipated declines in values of investments, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. The Fund may also use derivative instruments to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. Derivatives may involve various risks, including the potential inability of the counterparty to fulfill its obligation under the terms of the contract, the potential for an illiquid secondary market and the potential for market movements which may expose the Fund to gains or losses in excess of the amount shown in the Statement of Assets and Liabilities.

The Fund and any counterparty are required to maintain an agreement that requires the Fund and that counterparty to monitor (on a daily basis) the net fair value of all derivatives entered into pursuant to the agreement between the Fund and such counterparty. If the net fair value of such derivatives between the Fund and that counterparty exceeds a certain threshold (as defined in the agreement), the Fund or the counterparty (as the case may be) is required to post cash and/ or securities as collateral. Fair values of derivatives presented in the financial statements are not netted with the fair value of other derivatives or with any collateral amounts posted by the Fund or any counterparty.

### Options

Options are contracts which entitle the holder to purchase or sell securities or other identified assets at a specified price, or in the case of index option contracts, to receive or pay the difference between the index value and the strike price of the index option contract. The Fund purchased and wrote option contracts to decrease the Fund's exposure to equity risk and to increase return on investments. Completion of transactions for option contracts traded in the OTC market depends upon the performance of the other party. Cash collateral may be collected or posted by the Fund to secure certain OTC option contract trades. Cash collateral held or posted by the Fund for such option contract trades must be returned to the counterparty or the Fund upon closure, exercise or expiration of the contract.

Option contracts purchased are recorded as investments and options contracts written are recorded as liabilities of the Fund. The Fund will realize a gain or loss when the option contract expires. When option contracts are exercised, the proceeds on sales for a written call or purchased put option contract, or the purchase cost for a written put or purchased call option contract, is adjusted by the amount of premium received or paid.

The risk in buying an option contract is that the Fund pays a premium whether or not the option contract is exercised. The Fund also has the additional risk of being unable to enter into a closing transaction if a liquid secondary market does not exist. The risk in writing a call option contract is that the Fund gives up the opportunity for profit if the market price of the security increases. The risk in writing a put option contract is that the Fund may incur a loss if the market price of the security decreases and the option contract is exercised. The Fund's maximum payout in the case of written put option contracts represents the maximum potential amount of future payments (undiscounted) that the Fund could be required to make under the contract. For OTC options contracts, the transaction is also subject to counterparty credit risk. The maximum payout amount may be offset by the subsequent sale, if any, of assets obtained upon the exercise of the put option contracts by holders of the option contracts or proceeds received upon entering into the contracts.

June 30, 2012 (Unaudited)

Contracts and premiums associated with options contracts written for the six months ended June 30, 2012 are as follows:

|                              | Calls     |               |
|------------------------------|-----------|---------------|
|                              | Contracts | Premiums (\$) |
| Balance at December 31, 2011 | —         |               |
| Opened                       | 30        | 3,509         |
| Expired                      | (30)      | (3,509)       |
| Balance at June 30, 2012     | —         |               |

# Effects of Derivative Transactions in the Financial Statements

The following tables are intended to provide additional information about the effect of derivatives on the financial statements of the Fund, including: the fair value of derivatives by risk category and the location of those fair values in the Statement of Assets and Liabilities; the impact of derivative transactions on the Fund's operations over the period including realized gains or losses and unrealized gains or losses. The derivative schedules following the Portfolio of Investments present additional information regarding derivative instruments outstanding at the end of the period, if any.

At June 30, 2012, the fund had no outstanding derivatives.

The effect of derivative instruments in the Statement of Operations for the six months ended June 30, 2012:

Amount of Realized Gain (Loss) on Derivatives Recognized in Income

| Risk Exposure Category | Options Contracts<br>Written and<br>Purchased (\$) |
|------------------------|--|
| Equity contracts       | 3,509  |

The following table is a summary of the volume of derivative instruments for the six months ended June 30, 2012:

| Derivative Instrument | Contracts Opened |  |
|-----------------------|------------------|--|
| Options Contracts     | 30               |  |

### **Repurchase Agreements**

The Fund may engage in repurchase agreement transactions with institutions that management has determined are creditworthy. The Fund, through the custodian, receives delivery of the underlying securities collateralizing a repurchase agreement. Management is responsible for determining that the collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays in or restrictions on a Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

### **Security Transactions**

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

### **Income Recognition**

Corporate actions and dividend income are recorded net of any non-reclaimable tax withholdings, on the ex-dividend date or upon receipt of ex-dividend notification in the case of certain foreign securities.

Interest income is recorded on an accrual basis.

#### **Expenses**

General expenses of the Trust are allocated to the Fund and other funds of the Trust based upon relative net assets or other expense allocation methodologies determined by the nature of the expense. Expenses directly attributable to the Fund are charged to the Fund. Expenses directly attributable to a specific class of shares are charged to that share class.

### **Determination of Class Net Asset Value**

All income, expenses (other than class-specific expenses, which are charged to that share class, as shown in the Statement of Operations) and realized and unrealized gains (losses) are allocated to each class of the Fund on a daily basis, based on the relative net assets of each class, for purposes of determining the net asset value of each class.

### **Federal Income Tax Status**

The Fund is treated as a partnership for federal income tax purposes, and the Fund does not expect to make regular distributions. The Fund will not be subject to federal income tax, and therefore, there is no provision for federal income taxes. The partners of the Fund are subject to tax on their distributive share of the Fund's income and loss. The components of the Fund's net assets are reported at the partner-level for federal income tax purposes, and therefore, are not presented in the Statement of Assets and Liabilities.

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

June 30, 2012 (Unaudited)

### **Foreign Taxes**

The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries, as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Realized gains in certain countries may be subject to foreign taxes at the Fund level, based on statutory rates. The Fund accrues for such foreign taxes on net realized and unrealized gains at the appropriate rate for each jurisdiction, as applicable.

### **Guarantees and Indemnifications**

Under the Trust's organizational documents and, in some cases, by contract, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust or its funds. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

### **Recent Accounting Pronouncement**

### Disclosures about Offsetting Assets and Liabilities

In December 2011, the Financial Accounting Standards Board (FASB) issued ASU No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*. The objective of the FASB is to enhance current disclosure requirements on offsetting of certain assets and liabilities and to enable financial statement users to compare financial statements prepared under GAAP and International Financial Reporting Standards.

Specifically, ASU No. 2011-11 requires an entity to disclose both gross and net information for derivatives and other financial instruments that are subject to a master netting arrangement or similar agreement. The standard requires disclosure of collateral received in connection with the master netting agreements or similar agreements. The effective date of ASU No. 2011-11 is for interim and annual periods beginning on or after January 1, 2013. At this time, management is evaluating the implications of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

# Note 3. Fees and Compensation Paid to Affiliates

### **Investment Management Fees**

Under an Investment Management Services Agreement, Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), determines which securities will be purchased, held or sold. The management fee is an annual fee that is equal to a percentage of the Fund's average daily net assets that declines from 0.71% to 0.54% as the Fund's net assets increase. The annualized effective management fee rate for the six months ended June 30, 2012 was 0.71% of the Fund's average daily net assets.

### **Administration Fees**

Under an Administrative Services Agreement, the Investment Manager serves as the Fund Administrator. The Fund pays the Fund Administrator an annual fee for administration and accounting services equal to a percentage of the Fund's average daily net assets that declines from 0.06% to 0.03% as the Fund's net assets increase. The annualized effective administration fee rate for the six months ended June 30, 2012 was 0.06% of the Fund's average daily net assets.

### **Other Expenses**

Other expenses are for, among other things, certain expenses of the Fund or the Board, including: Fund boardroom and office expense, employee compensation, employee health and retirement benefits, and certain other expenses. Payment of these Fund and Board expenses is facilitated by a company providing limited administrative services to the Fund and the Board. For the six months ended June 30, 2012, other expenses paid to this company were \$1,334.

### **Compensation of Board Members**

Board members are compensated for their services to the Fund as disclosed in the Statement of Operations. Under a Deferred Compensation Plan (the Plan), the Board members who are not "interested persons" of the Fund, as defined under the 1940 Act, may elect to defer payment of up to 100% of their compensation. Deferred amounts are treated as though equivalent dollar amounts had been invested in shares of certain funds managed by the Investment Manager. The Fund's liability for these amounts is adjusted for market value changes and remains in the Fund until distributed in accordance with the Plan.

June 30, 2012 (Unaudited)

### **Transfer Agency Fees**

The Fund has a Transfer Agency and Dividend Disbursing Agent Agreement with Columbia Management Investment Services Corp. (the Transfer Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial. The annual fee rate under this agreement is 0.06% of the Fund's average daily net assets. The Transfer Agent also receives compensation from fees for various shareholder services and reimbursements for certain out-of-pocket fees.

### **Distribution Fees**

The Fund has an agreement with the Distributor, an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial, for distribution services. Under a Plan and Agreement of Distribution pursuant to Rule 12b-1, the Fund pays a fee at an annual rate of up to 0.25% of the Fund's average daily net assets attributable to Class 2 shares and an annual rate of up to 0.125% of each Fund's average daily net assets attributable to Class 3 shares. The Fund pays no distribution and service fees for Class 1 shares.

## Expenses Waived/Reimbursed by the Investment Manager and its Affiliates

Effective May 1, 2012, the Investment Manager and certain of its affiliates have contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below, through April 30, 2013, unless sooner terminated at the sole discretion of the Board, so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and any balance credits and/or overdraft charges from the Fund's custodian, do not exceed the following annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.790% |
|---------|--------|
| Class 2 | 1.040  |
| Class 3 | 0.915  |

Prior to May 1, 2012, the Investment Manager and certain of its affiliates contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below), so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and any balance credits and/or overdraft charges from the Fund's custodian, did not exceed the following annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.765% |
|---------|--------|
| Class 2 | 1.015  |
| Class 3 | 0.890  |

Under the agreement, the following fees and expenses are excluded from the waiver/reimbursement commitment, and therefore will be paid by the Fund, if applicable: taxes (including foreign transaction taxes), expenses associated with investments in affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds), transaction costs and brokerage commissions, costs related to any securities lending program, dividend expenses associated with securities sold short, inverse floater program fees and expenses, transaction charges and interest on borrowed money, interest, extraordinary expenses and any other expenses the exclusion of which is specifically approved by the Board. This agreement may be modified or amended only with approval from all parties.

### Note 4. Portfolio Information

The cost of purchases and proceeds from sales of securities, excluding short-term obligations, aggregated to \$124,415,665 and \$150,893,623, respectively, for the six months ended June 30, 2012.

### Note 5. Lending of Portfolio Securities

The Fund has entered into a Master Securities Lending Agreement (the Agreement) with JPMorgan Chase Bank, N.A. (JPMorgan). The Agreement authorizes JPMorgan as lending agent to lend securities to authorized borrowers in order to generate additional income on behalf of the Fund. Pursuant to the Agreement, the securities loaned are secured by cash or securities that either are issued or guaranteed as to principal and interest by the U.S. government, its agencies, authorities or instrumentalities with value equal to at least 100% of the market value of the loaned securities. Any additional collateral required to maintain those levels due to market fluctuations of the loaned securities is requested to be delivered the following business day. Cash collateral received is invested by the lending agent on behalf of the Fund into authorized investments pursuant to the Agreement. The investments made with the cash collateral are listed in the Portfolio of Investments. The values of such investments and any uninvested cash collateral are disclosed in the Statement of Assets and Liabilities along with the related obligation to return the collateral upon the return of the securities loaned.

Risks of delay in recovery of securities or even loss of rights in the securities may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the securities loaned increases above the value of the collateral received. JPMorgan will indemnify the Fund from losses resulting from a borrower's failure to return a loaned security when due. Such indemnification does not extend to losses associated with declines in the value of cash collateral investments. The Investment Manager is not

June 30, 2012 (Unaudited)

responsible for any losses incurred by the Fund in connection with the securities lending program. Loans are subject to termination by the Fund or the borrower at any time, and are, therefore, not considered to be illiquid investments.

Pursuant to the Agreement, the Fund receives income for lending its securities either in the form of fees or by earning interest on invested cash collateral, net of negotiated rebates paid to borrowers and fees paid to the lending agent for services provided and any other securities lending expenses. Net income earned from securities lending for the six months ended June 30, 2012 is disclosed in the Statement of Operations. The Fund continues to earn and accrue interest and dividends on the securities loaned.

### Note 6. Affiliated Money Market Fund

The Fund may invest its daily cash balances in Columbia Short-Term Cash Fund, an affiliated money market fund established for the exclusive use by the Fund and other affiliated funds. The income earned by the Fund from such investments is included as "Dividends from affiliates" in the Statement of Operations. As an investing fund, the Fund indirectly bears its proportionate share of the expenses of Columbia Short-Term Cash Fund.

### Note 7. Shareholder Concentration

At June 30, 2012, one unaffiliated shareholder account owned 10.9% of the outstanding shares of the Fund. The Fund has no knowledge about whether any portion of those shares was owned beneficially by such account. Affiliated shareholder accounts owned 75.3% of the outstanding shares of the Fund. Subscription and redemption activity by concentrated accounts may have a significant effect on the operations of the Fund.

### Note 8. Line of Credit

The Fund has entered into a revolving credit facility with a syndicate of banks led by JPMorgan whereby the Fund may borrow for the temporary funding of shareholder redemptions or for other temporary or emergency purposes. The credit facility agreement, as amended, which is a collective agreement between the Fund and certain other funds managed by the Investment Manager, severally and not jointly, permits collective borrowings up to \$500 million. Interest is charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the overnight federal funds rate plus 1.00% or (ii) the one-month LIBOR rate plus 1.00%. Each borrowing under the credit facility matures no later than 60 days after the date of borrowing. The Fund also pays a commitment fee equal to its pro rata share of the amount of the credit facility at a rate of 0.08% per annum.

The Fund had no borrowings during the six months ended June 30, 2012.

### Note 9. Fund Merger

At the close of business on April 29, 2011, the Fund acquired the assets and assumed the identified liabilities of Columbia Large Cap Growth Fund, Variable Series (the acquired fund), a series of Columbia Funds Variable Insurance Trust. The reorganization was completed after shareholders of the acquired fund approved a plan of reorganization on February 15, 2011. The purpose of the transaction was to combine two funds managed by the Investment Manager with comparable investment objectives and strategies.

The aggregate net assets of the Fund immediately before the acquisition were \$244,494,303 and the combined net assets immediately after the acquisition were \$307,801,516.

The merger was accomplished by a tax-free exchange of 1,979,922 shares of the acquired fund valued at \$63,307,213 (including \$13,585,216 of unrealized appreciation).

In exchange for the acquired fund's shares, the Fund issued the following number of shares:

|         | Shares    |
|---------|-----------|
| Class 1 | 7,273,180 |
| Class 2 | 1,137,310 |

For financial reporting purposes, net assets received and shares issued by the Fund were recorded at fair value; however, the acquired fund's cost of investments was carried forward. The financial statements reflect the operations of the Fund for the period prior to the merger and the combined Fund for the period subsequent to the merger. Because the combined investment portfolios have been managed as a single integrated portfolio since the merger was completed, it is not practicable to separate the amounts of revenue and earnings of the acquired fund that have been included in the combined Fund's Statement of Operations since the merger was completed.

Assuming the merger had been completed on January 1, 2011, the Fund 's pro-forma net investment income, net gain on investments, net change in unrealized depreciation and net decrease in net assets from operations for the year ended December 31, 2011, would have been approximately \$0.7 million, \$26.4 million, \$(34.5) million and \$(7.4) million, respectively.

### Note 10. Subsequent Events

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

June 30, 2012

# Note 11. Information Regarding Pending and Settled Legal Proceedings

In December 2005, without admitting or denying the allegations, American Express Financial Corporation (AEFC, which is now known as Ameriprise Financial, Inc. (Ameriprise Financial)) entered into settlement agreements with the Securities and Exchange Commission (SEC) and Minnesota Department of Commerce (MDOC) related to market timing activities. As a result, AEFC was censured and ordered to cease and desist from committing or causing any violations of certain provisions of the Investment Advisers Act of 1940, the Investment Company Act of 1940, and various Minnesota laws. AEFC agreed to pay disgorgement of \$10 million and civil money penalties of \$7 million. AEFC also agreed to retain an independent distribution consultant to assist in developing a plan for distribution of all disgorgement and civil penalties ordered by the SEC in accordance with various undertakings detailed at www.sec.gov/litigation/ admin/ia-2451.pdf. Ameriprise Financial and its affiliates have cooperated with the SEC and the MDOC in these legal proceedings, and have made regular reports to the funds' Boards of Trustees.

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Funds are not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or regulatory proceedings that are likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds. Ameriprise Financial is required to make 10-Q, 10-K and, as necessary, 8-K filings with the Securities and Exchange Commission on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares or other adverse consequences to the Funds. Further, although we believe proceedings are not likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial.

### **Supplemental Information**

(Unaudited)

### **Change in Independent Registered Public Accounting Firm**

At a meeting held on June 14, 2012, the Board, upon recommendation of the Audit Committee, approved the replacement of Ernst & Young LLP (Ernst & Young) as the independent registered public accounting firm for the Fund and certain other funds in the Columbia Family of Funds (collectively, the Funds) and appointed PricewaterhouseCoopers LLP (PwC). PwC's engagement is effective at the completion of Ernst & Young's audits of the financial statements of the Funds with fiscal years ending July 31, 2012, which are expected to be completed in September 2012. The Fund did not consult with PwC during the fiscal years ended December 31, 2011 and 2010 and through the June meeting.

Ernst & Young's reports on the financial statements of the Fund as of and for the fiscal years ended December 31, 2011 and 2010 contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During such fiscal periods and through the June meeting, there were no: (1) disagreements between the Fund and Ernst & Young on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to Ernst & Young's satisfaction, would have caused them to make reference to the subject matter of the disagreement in connection with their reports, or (2) reportable events.

### **Approval of Investment Management Services Agreement**

Columbia Management Investment Advisers, LLC (Columbia Management or the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), serves as the investment manager to Columbia Variable Portfolio — Large Cap Growth Fund (the Fund). Under an investment management services agreement (the IMS Agreement), Columbia Management provides investment advice and other services to the Fund and all funds distributed by Columbia Management Investment Distributors, Inc. (collectively, the Funds).

On an annual basis, the Fund's Board of Trustees (the Board), including the independent Board members (the Independent Trustees), considers renewal of the IMS Agreement. Columbia Management prepared detailed reports for the Board and its Contracts Committee in March and April 2012, including reports based on analyses of data provided by an independent organization and a comprehensive response to each item of information requested by independent legal counsel to the Independent Trustees (Independent Legal Counsel) in a letter to the Investment Manager, to assist the Board in making this determination. All of the materials presented in March and April were first supplied in draft form to designated representatives of the Independent Trustees, *i.e.*, Independent Legal Counsel, the Chair of the Board and the Chair of the Contracts Committee (including materials relating to the Fund's expense cap), and the final materials were revised to reflect comments provided by these Board representatives. In addition, throughout the year, the Board (or its committees) regularly meets with portfolio management teams and senior management personnel, and reviews information prepared by Columbia Management addressing the services Columbia Management provides and Fund performance. The Board accords particular weight to the work, deliberations and conclusions of the Contracts Committee, the Investment Review Committee and the Compliance Committee in determining whether to continue the IMS Agreement.

The Board, at its April 10-12, 2012 in-person Board meeting (the April Meeting), considered the renewal of the IMS Agreement for an additional one-year term. At the April Meeting, Independent Legal Counsel reviewed with the Independent Trustees various factors relevant to the Board's consideration of advisory agreements and the Board's legal responsibilities related to such consideration. Following an analysis and discussion of the factors identified below, the Board, including all of the Independent Trustees, approved the renewal of the IMS Agreement.

### Nature, Extent and Quality of Services Provided by Columbia Management

The Independent Trustees analyzed various reports and presentations they had received detailing the services performed by Columbia Management, as well as its expertise, resources and capabilities. The Independent Trustees specifically considered many developments during the past year concerning the services provided by Columbia Management, including, in particular, the continued investment in, and resources dedicated to, the Funds' operations and the successful completion of various integration initiatives and the consolidation of dozens of Funds. The Independent Trustees noted the information they received concerning Columbia Management's ability to retain key portfolio management personnel. In that connection, the Independent Trustees took into account their meetings with Columbia Management's Chief Investment Officer (the CIO) and considered the CIO's successful execution of additional risk and portfolio management oversight applied to the Funds. The Independent Trustees also assessed Columbia Management's significant investment in upgrading technology (such as an equity trading system) and considered management's commitments to enhance existing resources in this area.

In connection with the Board's evaluation of the overall package of services provided by Columbia Management, the Board also considered the quality of administrative services provided to the Fund by Columbia Management. In addition, the Board also reviewed the financial condition of Columbia Management (and its affiliates) and each entity's ability to carry out its responsibilities under the IMS Agreement and the Fund's other services agreements with affiliates of Ameriprise Financial. The Board also discussed the acceptability of the terms of the IMS Agreement (including the relatively broad scope of services required to be performed by Columbia Management). The Board concluded that the services being performed under the IMS Agreement were of a reasonably high quality.

Based on the foregoing, and based on other information received (both oral and written, including the information on investment performance referenced below) and other considerations, the Board concluded that Columbia Management and its affiliates were in a position to continue to provide a high quality and level of services to the Fund.

### **Investment Performance**

For purposes of evaluating the nature, extent and quality of services provided under the IMS Agreement, the Board carefully reviewed the investment performance of the Fund. In this regard, the Board considered detailed reports providing the results of analyses performed by an independent organization showing, for various periods, the performance of the Fund, the performance

# Approval of Investment Management Services Agreement (continued)

of a benchmark index, the percentage ranking of the Fund among its comparison group and the net assets of the Fund. The Board observed that the Fund's investment performance was appropriate in light of the particular management style employed.

# Comparative Fees, Costs of Services Provided and the Profits Realized by Columbia Management and its Affiliates from their Relationships with the Fund

The Board reviewed comparative fees and the costs of services to be provided under the IMS Agreement. The Board members considered detailed comparative information set forth in an annual report on fees and expenses, including, among other things, data (based on analyses conducted by an independent organization) showing a comparison of the Fund's expenses with median expenses paid by funds in its comparative peer universe, as well as data showing the Fund's contribution to Columbia Management's profitability. The Board reviewed the fees charged to comparable institutional or other accounts/vehicles managed by Columbia Management and discussed differences in how the products are managed and operated, noting no unreasonable differences in the levels of contractual fees.

The Board accorded particular weight to the notion that the level of fees should reflect a rational pricing model applied consistently across the various product lines in the Fund family, while assuring that the overall fees for each Fund (with few defined exceptions) are generally in line with the "pricing philosophy" (*i.e.*, that the total expense ratio of the Fund is at, or below, the median expense ratio of funds in the same comparison universe of the Fund). The Board took into account that the Fund's total expense ratio (after considering proposed expense caps/waivers) approximated the peer universe's median expense ratio. Based on its review, the Board concluded that the Fund's management fee was fair and reasonable in light of the extent and quality of services that the Fund receives.

The Board also considered the expected profitability of Columbia Management and its affiliates in connection with Columbia Management providing investment management services to the Fund. In this regard, the Board referred to a detailed profitability report, discussing the profitability to Columbia Management and Ameriprise Financial from managing, operating and distributing the Funds. In this regard, the Board observed that 2011 profitability, while slightly lower than 2010, was generally in line with the reported profitability of other asset management firms. The Board also considered the indirect economic benefits flowing to Columbia Management or its affiliates in connection with managing or distributing the Funds, such as the enhanced ability to offer various other financial products to Ameriprise Financial customers, soft dollar benefits and overall reputational advantages. The Board noted that the fees paid by the Funds should permit the Investment Manager to offer competitive compensation to its personnel, make necessary investments in its business and earn an appropriate profit. The Board concluded that profitability levels were reasonable.

#### **Economies of Scale to be Realized**

The Board also considered the economies of scale that might be realized by Columbia Management as the Fund grows and took note of the extent to which Fund shareholders might also benefit from such growth.

Based on the foregoing, the Board, including all of the Independent Trustees, concluded that the investment management service fees were fair and reasonable in light of the extent and quality of services provided. In reaching this conclusion, no single factor was determinative. On April 12, 2012, the Board, including all of the Independent Trustees, approved the renewal of the IMS Agreement.

# **Important Information About This Report**

The policy of the Board is to vote the proxies of the companies in which each fund holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary; or searching the website of the Securities and Exchange Commission (SEC) at http://www.sec.gov. Information regarding how each fund voted proxies relating to portfolio securities is filed with the SEC by August 31 for the most recent 12-month period ending June 30 of that year, and is available without charge by visiting columbiamanagement.com; or searching the website of the SEC at sec.gov.

Each fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each fund's Form N-Q is available on the SEC's website at sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330. Each fund's complete schedule of portfolio holdings, as filed on Form N-Q, can also be obtained without charge, upon request, by calling 800.345.6611.

Columbia Variable Portfolio – Large Cap Growth Fund P.O. Box 8081 Boston, MA 02266-8081

This information is for use with concurrent or prior delivery of a fund prospectus. Please carefully consider the investment objectives, risks, charges and expenses of any variable fund and its related variable contract before investing. For variable fund and variable contract prospectuses, which contain this and other important information, contact your financial advisor or insurance representative. Please read the prospectus carefully before you invest. The fund is distributed by Columbia Management Investment Distributors, Inc., member FINRA, and managed by Columbia Management Investment Advisers, LLC.

# Columbia Variable Portfolio — Money Market Fund

Please remember that you may not buy (nor will you own) shares of the fund directly. You invest by buying a variable annuity contract or life insurance policy and allocating your purchase payments to the variable subaccount or variable account (the subaccounts) that invests in the fund. Please contact your financial advisor or insurance representative for more information.

# **Performance Overview**

(Unaudited)

#### **Performance Summary**

> Columbia Variable Portfolio — Money Market Fund (the fund) Class 1 shares returned 0.00% for the six-month period ended June 30, 2012.

| Average Annual Total Returns (%) (for period ended June 30, 2012) |           |                     |        |         |          |
|---|-----------|---------------------|--------|---------|----------|
|   | Inception | 6 Months cumulative | 1 Year | 5 Years | 10 Years |
| Class 1   | 01/01/89  | 0.00                | 0.00   | 1.06    | 1.73     |

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results. The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than the original cost. For current month-end performance information, please contact your insurance company.

Performance results reflect the effect of any fee waivers or reimbursements of fund expenses by Columbia Management Investment Advisers, LLC and/or any of its affiliates. Absent these fee waivers or expense reimbursement arrangements, performance results would have been lower.

Investment earnings, if any, are tax-deferred until distributed to shareholders, at which time taxes may become due. Total return performance includes changes in share price and assumes reinvestment of dividends and capital gains, if any. Performance results reflect the effect of all fund expenses, but do not include any fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan. If performance results included the effect of these additional charges, they would be lower.

An investment in the fund is not bank deposit and is not insured or guaranteed by Federal Deposit Insurance Corporation or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.

# **Understanding Your Fund's Expenses**

(Unaudited)

As an investor, you incur ongoing costs, which generally include management fees, distribution and/or service (Rule 12b-1) fees, and other fund expenses. The following information is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to help you compare these costs with the ongoing costs of investing in other mutual funds.

The information below does not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy (collectively, Contracts) or qualified pension and retirement plan (Qualified Plan), if any. The total fees and expenses you bear may therefore be higher than those shown below.

#### **Analyzing Your Fund's Expenses**

To illustrate these ongoing costs, we have provided examples and calculated the expenses paid by investors in each share class of the Fund during the period. The actual and hypothetical information in the table is based on an initial investment of \$1,000 at the beginning of the period indicated and held for the entire period. Expense information is calculated two ways and each method provides you with different information. The amount listed in the "Actual" column is calculated using the Fund's actual operating expenses and total return for the period. You may use the Actual information, together with the amount invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$6,000 account value divided by \$1,000 = 8.6), then multiply the results by the expenses paid during the period under the Actual column. The amount listed in the "Hypothetical" column assumes a 5% annual rate of return before expenses (which is not the Fund's actual return) and then applies the Fund's actual expenses ratio for the period to the hypothetical return. You should not use the hypothetical account values and expenses to estimate either your actual account balance at the end of the period or the expenses you paid during the period. See "Compare With Other Funds" below for details on how to use the hypothetical data.

#### **Compare With Other Funds**

Since all mutual funds are required to include the same hypothetical calculations about expenses in shareholder reports, you can use this information to compare the ongoing cost of investing in the Fund with other funds. To do so, compare the hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds. As you compare hypothetical examples of other funds, it is important to note that hypothetical examples are meant to highlight the ongoing costs of investing in a fund only and do not reflect any transaction costs, such as redemption or exchange fees, or expenses that apply to the subaccount or the contract. Therefore, the hypothetical calculations are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If the fees and expenses imposed under your Contract or Qualified Plan, if any, were included, your costs would be higher.

#### January 1, 2012 – June 30, 2012

|         |          | at the Beginning<br>Period (\$) |          | at the End of the<br>iod (\$) |        | Paid During the<br>eriod (\$) | Fund's Annualized<br>Expense Ratio (%) |
|---------|----------|---------------------------------|----------|-------------------------------|--------|-------------------------------|--|
|         | Actual   | Hypothetical                    | Actual   | Hypothetical                  | Actual | Hypothetical                  | Actual                                 |
| Class 1 | 1,000.00 | 1,000.00                        | 1,000.00 | 1,024.17                      | 0.70   | 0.70                          | 0.14                                   |

Expenses paid during the period are equal to the annualized expense ratio for each class as indicated above, multiplied by the average account value over the period and then multiplied by the number of days in the Fund's most recent fiscal half year and divided by 366.

Expenses do not include fees and expenses incurred indirectly by the Fund from the underlying funds in which the Fund may invest (also referred to as "acquired funds"), including affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds).

Had Columbia Management Investment Advisers, LLC and/or certain of its affiliates not waived/reimbursed certain fees and expenses, account value at the end of the period would have been reduced.

#### **Notes to Portfolio of Investments**

- (a) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. This security may be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2012, the value of these securities amounted to \$22,248,726 or 28.44% of net assets.
- (b) Variable rate security. The interest rate shown reflects the rate as of June 30, 2012.
- (c) Funding for this debt is provided by the Federal Financing Bank, which is funded by the U.S. Department of the Treasury.

#### **Fair Value Measurements**

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment's level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset or liability's fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- > Level 1 Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (including NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.
- > Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- > Level 3 Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for carrying out the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are readily available, including recommendation of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third-party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

June 30, 2012 (Unaudited)

#### Fair Value Measurements (continued)

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of monitoring this information (which may occur as often as daily). However, the Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

The following table is a summary of the inputs used to value the Fund's investments at June 30, 2012:

| Description                          | Level 1<br>Quoted Prices in Active<br>Markets for Identical<br>Assets (\$) | Level 2<br>Other Significant<br>Observable Inputs (\$) | Level 3<br>Significant<br>Unobservable Inputs (\$) | Total (\$) |
|--------------------------------------|--|--|--|------------|

| U.S. Government-Insured Debt         | —  | 2,999,679  | _  | 2,999,679  |
| Repurchase Agreements                | _  | 5,000,000  | _  | 5,000,000  |
| Treasury Bills                       | —  | 7,998,248  | _  | 7,998,248  |
| Total Short-Term Securities          | _  | 63,493,815   | _  | 63,493,815 |
| Total                                | _  | 76,715,197   | _  | 76,715,197 |

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category represent certain short-term obligations which are valued using amortized cost, an income approach which converts future cash flows to a present value based upon the discount or premium at purchase.

There were no transfers of financial assets between Levels 1 and 2 during the period.

# **Financial Highlights**

The following table is intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single share of a class held for the periods shown. Per share net investment income (loss) amounts of the Fund are calculated based on average shares outstanding during the period. Total returns assume reinvestment of all dividends and distributions, if any. Total returns do not reflect payment of the expenses that apply to the variable accounts or contract charges, if any, and are not annualized for periods of less than one year.

#### Notes to Financial Highlights

(a) Rounds to less than \$0.01.

(b) Had affiliates of the Investment Manager not reimbursed the Fund for realized losses on securities and not provided capital support, total return would have been 1.87%.

(c) Annualized.

(d) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.

(e) The benefits derived from expense reductions had an impact of less than 0.01%.

# **Notes to Financial Statements**

June 30, 2012 (Unaudited)

#### Note 1. Organization

Columbia Variable Portfolio — Money Market Fund (the Fund), a series of Columbia Funds Variable Insurance Trust (the Trust), is a diversified fund. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company organized as a Massachusetts business trust.

#### **Fund Shares**

The Trust may issue an unlimited number of shares (without par value). The Fund offers Class 1 shares to separate accounts funding variable annuity contracts and variable life insurance policies issued by affiliated and unaffiliated life insurance companies as well as qualified pension and retirement plans and other qualified institutional investors authorized by Columbia Management Investment Distributors, Inc. (the Distributor). You may not buy (nor will you own) shares of the Fund directly. You invest by participating in a qualified plan or buying a contract and making allocations to the Fund.

# Note 2. Summary of Significant Accounting Policies

#### **Use of Estimates**

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

#### **Security Valuation**

Securities in the Fund are valued utilizing the amortized cost valuation method permitted in accordance with Rule 2a-7 under the 1940 Act provided certain conditions are met, including that the Board of Trustees (the Board) continues to believe that the amortized cost valuation method fairly reflects the market-based net asset value per share of the Fund. This method involves valuing a portfolio security initially at its cost and thereafter assuming a constant accretion or amortization to maturity of any discount or premium, respectively. The Board has established procedures intended to stabilize the Fund's net asset value for purposes of sales and redemptions at \$1.00 per share. These procedures include determinations, at such intervals as the Board deems appropriate and reasonable in light of current market conditions, of the extent, if any, to which the Fund's market-based net asset value deviates from 1.00 per share. In the event such deviation exceeds 1/2 of 1%, the Board will promptly consider what action, if any, should be initiated.

#### **Repurchase Agreements**

The Fund may engage in repurchase agreement transactions with institutions that management has determined are creditworthy. The Fund, through the custodian, receives delivery of the underlying securities collateralizing a repurchase agreement. Management is responsible for determining that the collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays in or restrictions on a Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

#### **Security Transactions**

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

#### **Income Recognition**

Interest income is recorded on an accrual basis. Market premium and discount are amortized and accreted, respectively, on all debt securities, unless otherwise noted. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis, if any.

#### Expenses

General expenses of the Trust are allocated to the Fund and other funds of the Trust based upon relative net assets or other expense allocation methodologies determined by the nature of the expense. Expenses directly attributable to the Fund are charged to the Fund.

#### **Federal Income Tax Status**

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, because the Fund's sole shareholders are Qualified Investors, the Fund expects not to be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

# Notes to Financial Statements (continued)

June 30, 2012 (Unaudited)

#### **Distributions to Subaccounts**

Distributions from net investment income, if any, are declared daily and paid monthly. Net realized capital gains, if any, are distributed at least annually after the fiscal year in which the capital gains were earned or more frequently to seek to maintain a net asset value of \$1.00 per share, unless offset by any available capital loss carryforward. Income distributions and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

#### **Guarantees and Indemnifications**

Under the Trust's organizational documents and, in some cases, by contract, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust or its funds. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

# Note 3. Fees and Compensation Paid to Affiliates

#### **Investment Management Fees**

Under an Investment Management Services Agreement, Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), determines which securities will be purchased, held or sold. The management fee is an annual fee that is equal to a percentage of the Fund's average daily net assets that declines from 0.35% to 0.25% as the Fund's net assets increase. The annualized effective management fee rate for the six months ended June 30, 2012 was 0.35% of the Fund's average daily net assets.

#### **Administration Fees**

Under an Administrative Services Agreement, the Investment Manager serves as the Fund Administrator. The Fund pays the Fund Administrator an annual fee for administration and accounting services equal to 0.15% of the Fund's average daily net assets.

#### **Compensation of Board Members**

Board members are compensated for their services to the Fund as disclosed in the Statement of Operations. The Trust's eligible Trustees may participate in a Deferred Compensation Plan (the Plan) which may be terminated at any time. Obligations of the Plan will be paid solely out of the Fund's assets.

#### **Compensation of Chief Compliance Officer**

The Board has appointed a Chief Compliance Officer to the Fund in accordance with federal securities regulations. The Fund pays its pro-rata share of the expenses associated with the Chief Compliance Officer. The Fund's expenses for the Chief Compliance Officer will not exceed \$15,000 per year.

#### **Transfer Agent Fees**

The Fund has a Transfer Agency and Dividend Disbursing Agent Agreement with Columbia Management Investment Services Corp. (the Transfer Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial. The annual fee rate under this agreement is 0.06% of the Fund's average daily net assets. The Transfer Agent also receives compensation from fees for various shareholder services and reimbursements for certain out-of-pocket fees.

# Expenses Waived/Reimbursed by the Investment Manager and its Affiliates

The Investment Manager and certain of its affiliates have contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below, through April 30, 2013, unless sooner terminated at the sole discretion of the Board, so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and any overdraft charges from the Fund's custodian, do not exceed the annual rate of 0.45% of the Fund's average daily net assets attributable to Class 1 shares.

Under the agreement, the following fees and expenses are excluded from the waiver/reimbursement commitment, and therefore will be paid by the Fund, if applicable: taxes (including foreign transaction taxes), expenses associated with investments in affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds), transaction costs and brokerage commissions, costs related to any securities lending program, dividend expenses associated with securities sold short, inverse floater program fees and expenses, transaction charges and interest on borrowed money, interest, extraordinary expenses and any other expenses the exclusion of which is specifically approved by the Board. This agreement may be modified or amended only with approval from all parties.

In addition, the Investment Manager has voluntarily undertaken to waive its receipt of certain Fund expenses (consisting of investment management and administration fees) to the extent necessary in order to maintain a minimum annualized net yield of 0.00% for the Fund. This arrangement may be modified or terminated by the Investment Manager at any time.

## Notes to Financial Statements (continued)

June 30, 2012 (Unaudited)

#### Note 4. Federal Tax Information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP because of temporary or permanent book to tax differences.

At June 30, 2012, the cost of investments for federal income tax purposes was approximately \$76,715,000.

The following capital loss carryforward, determined as of December 31, 2011 may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

| Year of Expiration | Amount (\$) |
|--------------------|-------------|
| 2013               | 415         |
| 2014               | 1,707       |
| 2015               | 2,520       |
| 2018               | 6           |
| Total              | 4,648       |

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

#### **Note 5. Shareholder Concentration**

At June 30, 2012, one unaffiliated shareholder account owned 77.5% of the outstanding shares of the Fund. The Fund has no knowledge about whether any portion of those shares was owned beneficially by such account. Subscription and redemption activity by concentrated accounts may have a significant effect on the operations of the Fund.

#### Note 6. Line of Credit

The Fund has entered into a revolving credit facility with a syndicate of banks led by JPMorgan whereby the Fund may borrow for the temporary funding of shareholder redemptions or for other temporary or emergency purposes. The credit facility agreement, as amended, which is a collective agreement between the Fund and certain other funds managed by the Investment Manager, severally and not jointly, permits collective borrowings up to \$500 million. Interest is charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the overnight federal funds rate plus 1.00% or (ii) the one-month LIBOR rate plus 1.00%. Each borrowing under the credit facility matures no later than 60 days after the

date of borrowing. The Fund also pays a commitment fee equal to its pro rata share of the amount of the credit facility at a rate of 0.08% per annum.

The Fund had no borrowings during the six months ended June 30, 2012.

#### Note 7. Subsequent Events

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

# Note 8. Information Regarding Pending and Settled Legal Proceedings

In December 2005, without admitting or denying the allegations, American Express Financial Corporation (AEFC, which is now known as Ameriprise Financial, Inc. (Ameriprise Financial)) entered into settlement agreements with the Securities and Exchange Commission (SEC) and Minnesota Department of Commerce (MDOC) related to market timing activities. As a result, AEFC was censured and ordered to cease and desist from committing or causing any violations of certain provisions of the Investment Advisers Act of 1940, the Investment Company Act of 1940, and various Minnesota laws. AEFC agreed to pay disgorgement of \$10 million and civil money penalties of \$7 million. AEFC also agreed to retain an independent distribution consultant to assist in developing a plan for distribution of all disgorgement and civil penalties ordered by the SEC in accordance with various undertakings detailed at www.sec.gov/litigation/admin/ia-2451.pdf. Ameriprise Financial and its affiliates have cooperated with the SEC and the MDOC in these legal proceedings, and have made regular reports to the funds' Boards of Trustees.

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Funds are not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or regulatory proceedings that are likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds. Ameriprise Financial is required to make 10-Q, 10-K and, as necessary, 8-K filings with the Securities and Exchange Commission on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

# Notes to Financial Statements (continued)

June 30, 2012 (Unaudited)

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares or other adverse consequences to the Funds. Further, although we believe proceedings are not likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial.

# **Board Consideration and Approval of Advisory Agreement**

At meetings held on March 7, 2012 and June 6, 2012, respectively, the Board of Trustees (the "Board") and the Trustees who are not interested persons (as defined in the Investment Company Act of 1940) of the Trust (the "Independent Trustees") unanimously approved the continuation of the Investment Management Services Agreement (the "Advisory Agreement") with Columbia Management Investment Advisers, LLC (the "Investment Manager") with respect to Columbia Variable Portfolio — Money Market Fund (the "Fund"), a series of the Trust. As detailed below, the Advisory Fees and Expenses Committee (the "Committee") and the Board met on multiple occasions to review and discuss, both among themselves and with the management team of the Investment Manager, materials provided by the Investment Manager before determining to approve each continuation of the Advisory Agreement.

In connection with their deliberations regarding each continuation of the Advisory Agreement, the Committee and the Board requested and evaluated materials from the Investment Manager regarding the Fund and the Advisory Agreement, and discussed these materials with representatives of the Investment Manager at Committee meetings held on March 6, 2012, April 25, 2012 and June 5, 2012, and at the Board meetings held on March 7, 2012 and June 6, 2012. In addition, the Board considers matters bearing on the Advisory Agreement at most of its other meetings throughout the year and meets regularly with senior management of the Funds and the Investment Manager. Through the Board's Investment Oversight Committees, Trustees also meet with selected Fund portfolio managers and other investment personnel at various times throughout the year. The Committee and the Board also consulted with Fund counsel and with the Independent Trustees' independent legal counsel, who advised on the legal standard for consideration by the Board and otherwise assisted the Board in its deliberations.

On March 6, 2012, the Committee recommended that the Board approve the continuation of the Advisory Agreement. On March 7, 2012, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement for the Fund. The Committee and the Board met in June 2012 to consider the continuation of the Advisory Agreement for the one-year period ending June 30, 2013, so as to permit the annual consideration of the Advisory Agreement to be conducted each June. On June 5, 2012, the Committee recommended that the Board approve the continuation of the Advisory Agreement. On June 6, 2012, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement.

The Committee and the Board considered all information that they, their legal counsel, or the Investment Manager believed reasonably necessary to evaluate and to determine whether to approve the continuation of the Advisory Agreement. In their deliberations, the Trustees did not identify any particular information that was all-important or controlling, and individual Trustees may have attributed different weights to the various factors. The information and factors considered by the Committee and the Board in recommending for approval or approving the continuation of the Advisory Agreement for the Fund included the following:

- Information on the investment performance of the Fund relative to the performance of the Fund's benchmarks and the performance of a group of comparable mutual funds, as determined by an independent third-party data provider;
- Information on the Fund's advisory fees and total expenses, including information comparing the Fund's expenses to those of a group of comparable mutual funds, as determined by an independent third-party data provider;
- The Investment Manager's agreement to contractually limit or cap total operating expenses for the Fund so that total operating expenses (excluding certain fees and expenses, such as transaction costs and certain other investment related expenses, interest, taxes, acquired fund fees and expenses, and extraordinary expenses) would not exceed the median expenses of a group of comparable funds (as determined from time to time, generally annually, by an independent third-party data provider);
- The terms and conditions of the Advisory Agreement, including that the advisory fee rates payable by the Fund would not change;
- The terms and conditions of other agreements and arrangements with affiliates of the Investment Manager relating to the operations of the Fund, including the Administrative Services Agreement, the Distribution Agreement and the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement, noting in the case of the Transfer and Dividend Disbursing Agent Agreement certain proposed changes to the fee rates payable thereunder;
- Descriptions of various functions performed by the Investment Manager under the Advisory Agreement, including portfolio management and portfolio trading practices;

# Board Consideration and Approval of Advisory Agreement (continued)

- Information regarding the management fees and investment performance of any comparable portfolios of other clients of the Investment Manager, including institutional separate accounts; and
- The profitability to the Investment Manager and its affiliates from their relationships with the Fund.

#### Nature, Extent and Quality of Services to be Provided under the Advisory Agreement

The Committee and the Board considered the nature, extent and quality of services provided to the Fund by the Investment Manager and its affiliates under the Advisory Agreement and under separate agreements for the provision of transfer agency and administrative services, and the resources dedicated to the Fund and the other Columbia Funds by the Investment Manager and its affiliates. The Committee and the Board considered, among other things, the Investment Manager's ability to attract, motivate and retain highly qualified research, advisory and supervisory investment professionals (including personnel and other resources, compensation programs for personnel involved in fund management, reputation and other attributes), the portfolio management services provided by those investment professionals, the quality of the Investment Manager's investment research capabilities and trade execution services, and the other resources that the Investment Manager devotes to the Fund. The Committee and the Board also considered the potential benefits to shareholders of investing in a mutual fund that is part of a fund complex offering exposure to a variety of asset classes and investment disciplines and providing a variety of fund and shareholder services.

The Committee and the Board also considered the professional experience and qualifications of the senior personnel of the Investment Manager. The Committee and the Board noted the compliance programs of and the compliance-related resources provided to the Fund by the Investment Manager and its affiliates, and considered the Investment Manager's ability to provide administrative services to the Fund pursuant to a separate administrative services agreement, including the Investment Manager's ability to coordinate the activities of the Fund's other service providers. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the expected nature, extent and quality of the services to be provided to the Fund under the Advisory Agreement supported the continuation of such agreement.

#### **Investment Performance**

The Committee and the Board reviewed information about the performance of the Fund over various time periods, including performance information relative to benchmarks and information based on reports of an independent third-party data provider that compared the performance of the Fund to the performance of a group of comparable mutual funds. The Committee and the Board also reviewed a description of the third party's methodology for identifying the Fund's peer groups for purposes of performance and expense comparisons. In the case of each Fund whose performance lagged that of a relevant peer group for certain (although not necessarily all) periods, the Committee and the Board concluded that other factors relevant to performance were sufficient, in light of other considerations, to warrant continuation of the Fund's Advisory Agreement. Those factors varied from fund to fund, but included one or more of the following: (i) that the Fund's performance, although lagging in certain recent periods, was stronger over the longer term; (ii) that the underperformance was attributable, to a significant extent, to investment decisions that were reasonable and consistent with the Fund's investment strategy and policies and that the Fund was performing within a reasonable range of expectations, given those investment decisions, market conditions and the Fund's investment strategy; (iii) that the Fund's performance was competitive when compared to other relevant performance benchmarks or peer groups; and (iv) that the Investment Manager had taken or was taking steps designed to help improve the Fund's investment performance, including, but not limited to, replacing portfolio managers, enhancing the resources supporting the portfolio managers, or modifying investment strategies.

The Committee and the Board noted that, through December 31, 2011, the Fund's performance was in the fifty-fourth, fortyforth and thirtieth percentiles (where the best performance would be in the first percentile) of its category selected by an independent third-party data provider for the purposes of performance comparisons for the one-, three- and five- year periods, respectively.

The Committee and the Board also considered the Investment Manager's performance and reputation generally, the Investment Manager's historical responsiveness to Board concerns about performance and the Investment Manager's

# **Board Consideration and Approval of Advisory Agreement** (continued)

willingness to take steps intended to improve performance. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions regarding the Advisory Agreement, that the performance of the Fund and the Investment Manager was sufficient, in light of other considerations, to warrant the continuation of the Advisory Agreement.

#### **Investment Advisory Fee Rates and Other Expenses**

The Committee and the Board considered the advisory fees to be charged to the Fund under the Advisory Agreement as well as the total expenses to be incurred by the Fund. In assessing the reasonableness of the fees under the Advisory Agreement, the Committee and the Board considered, among other information, the Fund's advisory fee and its expected total expense ratio as a percentage of average daily net assets. The Committee and the Board noted that the Fund's actual management fee and total net expense ratio are ranked in the first and second quintiles, respectively, against the Fund's expense universe as determined by an independent third-party data provider for purposes of expense comparison. The Committee and the Board also took into account the fee waiver and expense limitation arrangements agreed to by the Investment Manager, as noted above.

The Committee and the Board also considered the fact that the advisory fee rates payable by the Fund to the Investment Manager under the Advisory Agreement were the same as those currently paid by the Fund to the Investment Manager.

The Committee and the Board also received and considered information about the advisory fees charged by the Investment Manager to institutional separate accounts. In considering the fees charged to those accounts, the Committee and the Board took into account, among other things, the Investment Manager's representations about the differences between managing mutual funds as compared to other types of accounts, including differences in the services provided, differences in the risk profile of such business for the Investment Manager and the additional resources required to manage mutual funds effectively. In evaluating the Fund's advisory fees, the Committee and the Board also took into account the demands, complexity and quality of the investment management of the Fund.

After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the advisory fee rates and expenses of the Fund supported the continuation of the Advisory Agreement.

#### **Costs of Services to be Provided and Profitability**

The Committee and the Board also took note of the costs of the services provided (both on an absolute and relative basis) and the profitability to the Investment Manager and its affiliates in connection with their relationships with the Fund. In evaluating these considerations, the Committee and the Board took note of the advisory fees charged by the Investment Manager to other clients, including fees charged by the Investment Manager to any institutional separate account clients with similar investment strategies to those of the Fund.

The Committee and the Board also considered the compensation directly or indirectly received by the Investment Manager's affiliates in connection with their relationships with the Fund. The Committee and the Board reviewed information provided by management as to the profitability of the Investment Manager and its affiliates of their relationships with the Fund, and information about the allocation of expenses used to calculate profitability. When reviewing profitability, the Committee and the Board also considered court cases in which adviser profitability was an issue in whole or in part, the performance of the fund, the expense ratio of the fund, and the implementation of expense limitations with respect to the fund. The Committee and the Board also considered information provided by the Investment Manager regarding its financial condition and comparing its profitability to that of other asset management firms that are, or are subsidiaries of, publicly traded companies.

After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the profitability to the Investment Manager and its affiliates from their relationships with the Fund supported the continuation of the Advisory Agreement.

# Board Consideration and Approval of Advisory Agreement (continued)

#### **Economies of Scale**

The Committee and the Board considered the potential existence of economies of scale in the provision by the Investment Manager of services to the Fund, to groups of related funds, and to the Investment Manager's investment advisory clients as a whole, and whether those economies of scale were shared with the Fund through breakpoints in investment advisory fees or other means, such as expense limitation arrangements and additional investments by the Investment Manager in investment, trading and compliance resources. The Committee and the Board noted that the investment advisory fee schedules for the Fund contained breakpoints that would reduce the fee rate on assets above specified threshold levels.

In considering these issues, the Committee and the Board also considered the costs of the services provided (both on an absolute and relative basis) and the profitability to the Investment Manager and its affiliates from their relationships with the Fund, as discussed above. After reviewing these and related factors, the Committee and the Board concluded, within the context of their overall conclusions, that the extent to which economies of scale were expected to be shared with the Fund supported the continuation of the Advisory Agreement.

#### **Other Benefits to the Investment Manager**

The Committee and the Board received and considered information regarding "fall-out" or ancillary benefits received by the Investment Manager and its affiliates as a result of their relationships with the Fund, such as the engagement of the Investment Manager's affiliates to provide administrative services to the Fund and the engagement of the Investment Manager's affiliates to provide distribution and transfer agency services to the Fund. The Committee and the Board considered that the Fund's distributor retains a portion of the distribution fees from the Fund and receives a portion of the sales charges on sales or redemptions of certain classes of shares of the Fund. The Committee and the Board also considered the benefits of research made available to the Investment Manager by reason of brokerage commissions generated by the Fund's securities transactions, and reviewed information about the Investment Manager's practices with respect to allocating portfolio brokerage for brokerage and research services. The Committee and the Board considered the possible conflicts of interest associated with certain fall-out or other ancillary benefits and the reporting, disclosure and other processes that would be in place to address such possible conflicts of interest. The Committee and the Board recognized that the Investment Manager's profitability would be somewhat lower without these benefits.

#### Conclusion

The Committee and the Board reviewed all of the above considerations in reaching their decisions to recommend or approve the continuation of the Advisory Agreement. No single item was identified as paramount or controlling, and individual Trustees may have attributed different weights to various factors. Based on their evaluation of all factors that they deemed to be material, including those factors described above, and assisted by the advice of independent legal counsel, the Board, including the Independent Trustees, voting separately, unanimously approved the continuation of the Advisory Agreement.

# **Important Information About This Report**

The policy of the Board is to vote the proxies of the companies in which each fund holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary; or searching the website of the Securities and Exchange Commission (SEC) at http://www.sec.gov. Information regarding how each fund voted proxies relating to portfolio securities is filed with the SEC by August 31 for the most recent 12-month period ending June 30 of that year, and is available without charge by visiting columbiamanagement.com; or searching the website of the SEC at sec.gov.

Each fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each fund's Form N-Q is available on the SEC's website at sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330. Each fund's complete schedule of portfolio holdings, as filed on Form N-Q, can also be obtained without charge, upon request, by calling 800.345.6611.

### **Performance Overview**

(Unaudited)

#### **Performance Summary**

- > Columbia Variable Portfolio High Income Fund (the fund) Class 1 shares returned 6.63% for the six-month period ended June 30, 2012.
- > The fund's benchmark, the Credit Suisse First Boston High Yield Index returned 6.66% for the same period.

| Average Annual Total Returns (%) (for period ended June 30, 2012) |                  |                     |        |         |          |  |
|---|------------------|---------------------|--------|---------|----------|--|
|   |                  | 6 Months cumulative | 1 Year | 5 Years | 10 Years |  |

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results. The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than the original cost. For current month-end performance information, please contact your insurance company.

Performance results reflect the effect of any fee waivers or reimbursements of fund expenses by Columbia Management Investment Advisers, LLC and/or any of its affiliates. Absent these fee waivers or expense reimbursement arrangements, performance results would have been lower.

Investment earnings, if any, are tax-deferred until distributed to shareholders, at which time taxes may become due. Total return performance includes changes in share price and assumes reinvestment of dividends and capital gains, if any. Performance results reflect the effect of all fund expenses, but do not include any fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan. If performance results included the effect of these additional charges, they would be lower.

\*The returns shown for periods prior to the share class inception date (including returns since inception if shown, which are since fund inception) include the returns of the fund's oldest share class. These returns are adjusted to reflect any higher class-related operating expenses of the newer share classes, as applicable. Please visit columbiamanagement.com/variable-products/appended-performance for more information.

The Credit Suisse First Boston High Yield Index is a broad-based index that tracks the performance of high-yield bonds.

Indices are not available for investment, are not professionally managed and do not reflect sales charges, fees, brokerage commissions, taxes or other expenses of investing. Securities in the fund may not match those in an index.

|------|
| 47.3 |
| 44.3 |
| 3.6  |
| 0.3  |
|      |

Percentages indicated are based upon total fixed income securities (excluding Money Market Funds).

Bond ratings apply to the underlying holdings of the Fund and not the Fund itself and are divided into categories ranging from AAA (highest) to D (lowest), and are subject to change. The ratings shown are determined by using the average of the ratings from Moody's, S&P, and Fitch. When a rating from only two agencies is available, the average of the two is used. When a rating from only one agency is available, that rating is used. When a bond is not rated by any of these agencies, it is designated as Not rated. Credit ratings are subjective opinions and not statements of fact.

#### Portfolio Management

Brian Lavin

# **Understanding Your Fund's Expenses**

(Unaudited)

As an investor, you incur ongoing costs, which generally include management fees, distribution and/or service (Rule 12b-1) fees, and other fund expenses. The following information is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to help you compare these costs with the ongoing costs of investing in other mutual funds.

The information below does not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy (collectively, Contracts) or qualified pension and retirement plan (Qualified Plan), if any. The total fees and expenses you bear may therefore be higher than those shown below.

#### **Analyzing Your Fund's Expenses**

To illustrate these ongoing costs, we have provided examples and calculated the expenses paid by investors in each share class of the Fund during the period. The actual and hypothetical information in the table is based on an initial investment of \$1,000 at the beginning of the period indicated and held for the entire period. Expense information is calculated two ways and each method provides you with different information. The amount listed in the "Actual" column is calculated using the Fund's actual operating expenses and total return for the period. You may use the Actual information, together with the amount invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$6,000 account value divided by \$1,000 = 8.6), then multiply the results by the expenses paid during the period under the Actual column. The amount listed in the "Hypothetical" column assumes a 5% annual rate of return before expenses (which is not the Fund's actual return) and then applies the Fund's actual expenses ratio for the period to the hypothetical return. You should not use the hypothetical account values and expenses to estimate either your actual account balance at the end of the period or the expenses you paid during the period. See "Compare With Other Funds" below for details on how to use the hypothetical data.

#### **Compare With Other Funds**

Since all mutual funds are required to include the same hypothetical calculations about expenses in shareholder reports, you can use this information to compare the ongoing cost of investing in the Fund with other funds. To do so, compare the hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds. As you compare hypothetical examples of other funds, it is important to note that hypothetical examples are meant to highlight the ongoing costs of investing in a fund only and do not reflect any transaction costs, such as redemption or exchange fees, or expenses that apply to the subaccount or the contract. Therefore, the hypothetical calculations are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If the fees and expenses imposed under your Contract or Qualified Plan, if any, were included, your costs would be higher.

#### Account Value at the Beginning Account Value at the End of the Expenses Paid During the **Fund's Annualized** of the Period (\$) Period (\$) Period (\$) Expense Ratio (%) Actual Hypothetical Actual Hypothetical Actual Hypothetical Actual Class 1 1,000.00 1,000.00 1,066.30 1,021.68 3.29 0.64 3.22 Class 2 1.000.00 1,000.00 1.066.40 1.021.38 3.60 3.52 0.70

#### January 1, 2012 – June 30, 2012

Expenses paid during the period are equal to the annualized expense ratio for each class as indicated above, multiplied by the average account value over the period and then multiplied by the number of days in the Fund's most recent fiscal half year and divided by 366.

Expenses do not include fees and expenses incurred indirectly by the Fund from the underlying funds in which the Fund may invest (also referred to as "acquired funds"), including affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds).

Had Columbia Management Investment Advisers, LLC and/or certain of its affiliates not waived/reimbursed certain fees and expenses, account value at the end of the period would have been reduced.

# **Portfolio of Investments**

#### **Notes to Portfolio of Investments**

(a) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. This security may be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2012, the value of these securities amounted to \$59,549,699 or 32.92% of net assets.

(b) Variable rate security. The interest rate shown reflects the rate as of June 30, 2012.

June 30, 2012 (Unaudited)

#### Notes to Portfolio of Investments (continued)

(c) Identifies issues considered to be illiquid as to their marketability. The aggregate value of such securities at June 30, 2012 was \$459,603, representing 0.25% of net assets. Information concerning such security holdings at June 30, 2012 was as follows:

| Security Description  | Acquisition Dates   | Cost (\$) |

(d) Represents fair value as determined in good faith under procedures approved by the Board of Trustees. At June 30, 2012, the value of these securities amounted to \$459,603, which represents 0.25% of net assets.

(e) Represents securities that have defaulted on payment of interest. The Fund has stopped accruing interest on these securities. At June 30, 2012, the value of these securities amounted to \$4,616, which represents 0.00% of net assets.

(f) Represents a security purchased on a when-issued or delayed delivery basis.

(g) Senior loans have rates of interest that float periodically based primarily on the London Interbank Offered Rate ("LIBOR") and other short-term rates. The interest rate shown reflects the weighted average coupon as of June 30, 2012. The interest rate shown for senior loans purchased on a when-issued or delayed delivery basis, if any, reflects an estimated average coupon. Remaining maturities of senior loans may be less than the stated maturities shown as a result of contractual or optional prepayments by the borrower. Such prepayments cannot be predicted with certainty.

(h) Negligible market value.

(i) Non-income producing.

June 30, 2012 (Unaudited)

#### Notes to Portfolio of Investments (continued)

(j) As defined in the Investment Company Act of 1940, an affiliated company is one in which the Fund owns 5% or more of its outstanding voting securities, or a company which is under common ownership or control with the Fund. Holdings and transactions in these affiliated companies during the period ended June 30, 2012, are as follows:

| Issuer                              | Beginning<br>Cost (\$) | Purchase<br>Cost (\$) | Sales Cost/<br>Proceeds<br>From Sales (\$) | Realized<br>Gain/Loss (\$) | Ending<br>Cost (\$) | Dividends<br>or Interest<br>Income (\$) | Value (\$) |
|-------------------------------------|------------------------|-----------------------|--|----------------------------|---------------------|---|------------|
| Columbia<br>Short-Term<br>Cash Fund | 4,728,321              | 30,783,088            | (29,796,693)                               | _                          | 5,714,716           | 4,050                                   | 5,714,716  |

(k) The rate shown is the seven-day current annualized yield at June 30, 2012.

#### **Fair Value Measurements**

Generally accepted accounting principles (GAAP) require disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category.

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment's level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset or liability's fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- > Level 1 Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date (including NAV for open-end mutual funds). Valuation adjustments are not applied to Level 1 investments.
- > Level 2 Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- > Level 3 Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for carrying out the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are readily available, including recommendation of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third-party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of monitoring this information (which may occur as often as daily). However, the Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

June 30, 2012 (Unaudited)

#### Fair Value Measurements (continued)

The following table is a summary of the inputs used to value the Fund's investments at June 30, 2012:

| Description                | Level 1<br>Quoted Prices in Active<br>Markets for Identical<br>Assets (\$) | Level 2<br>Other Significant<br>Observable Inputs (\$) | Level 3<br>Significant<br>Unobservable Inputs (\$) | Total (\$) |

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category are generally valued using the market approach, in which a security's value is determined through reference to prices and information from market transactions for similar or identical assets.

There were no transfers of financial assets between Levels 1 and 2 during the period.

| Balance as of June 30, 2012                                     | 123,869                            | 30                        | 1,042                | 4                        | 334,658               | 1             | 459,604    |

(a) Change in unrealized appreciation (depreciation) relating to securities held at June 30, 2012 was \$129,926.

The Fund does not hold any significant investments with unobservable inputs which are categorized as Level 3.

The Fund's assets assigned to the Level 3 category are valued utilizing the valuation technique deemed the most appropriate in the circumstances. Certain corporate bonds, convertible bonds, senior loans, warrants, common and preferred stock classified as Level 3 are valued using an income approach. To determine fair value for these securities, management considered estimates of future distributions from the liquidation of company assets or potential actions related to the respective company's bankruptcy filing. Significant increases (decreases) to any of these inputs would result in a significantly lower (higher) fair value measurement. Generally, a change in the bankruptcy filings would result in a directionally similar change to estimates of future distributions

Certain common stocks classified as Level 3 are valued using a market approach. To determine fair value for these securities, management considered various factors which may have included, but were not limited to, trades of similar securities, estimated earnings of the respective company, market multiples derived from a set of comparable companies, and the position of the security within the respective company's capital structure. Significant increases (decreases) to any of these inputs would result in a significantly lower (higher) fair value measurement. Generally, a change in estimated earnings of the respective company may result in a change to the comparable companies and market multiples utilized.

## **Financial Highlights**

The following tables are intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single share of a class held for the periods shown. Per share net investment income (loss) amounts of the Fund are calculated based on average shares outstanding during the period. Total returns assume reinvestment of all dividends and distributions, if any. Total returns do not reflect payment of the expenses that apply to the variable accounts or contract charges, if any, and are not annualized for periods of less than one year.

#### **Notes to Financial Highlights**

(a) Rounds to less than \$0.01.

(b) Includes a reimbursement by the investment sub-adviser for a realized investment loss on disposal of an investment not meeting the Fund's investment restrictions. This reimbursement increased total return and net asset value per share by less than 0.01% and \$0.01, respectively.

(c) In addition to the fees and expenses which the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of the acquired funds in which it invests. Such indirect expenses are not included in the reported expense ratios.

(d) Annualized.

- (e) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.
- (f) The benefits derived from expense reductions had an impact of less than 0.01%.

#### **Notes to Financial Highlights**

(a) Rounds to less than \$0.01.

(b) Includes a reimbursement by the investment sub-adviser for a realized investment loss on disposal of an investment not meeting the Fund's investment restrictions. This reimbursement increased total return and net asset value per share by less than 0.01% and \$0.01, respectively.

(c) In addition to the fees and expenses which the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of the acquired funds in which it invests. Such indirect expenses are not included in the reported expense ratios.

(d) Annualized.

(e) The Investment Manager and certain of its affiliates agreed to waive/reimburse certain fees and expenses, if applicable.

(f) The benefits derived from expense reductions had an impact of less than 0.01%.

### **Notes to Financial Statements**

June 30, 2012 (Unaudited)

#### Note 1. Organization

Columbia Variable Portfolio — High Income Fund (the Fund), a series of Columbia Funds Variable Insurance Trust I (the Trust), is a diversified fund. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company organized as a Delaware statutory trust.

#### **Fund Shares**

The Trust may issue an unlimited number of shares (without par value). The Fund offers Class 1 and Class 2 shares to separate accounts funding variable annuity contracts and variable life insurance policies issued by affiliated and unaffiliated life insurance companies as well as qualified pension and retirement plans and other qualified institutional investors authorized by Columbia Management Investment Distributors, Inc. (the Distributor). You may not buy (nor will you own) shares of the Fund directly. You invest by participating in a qualified plan or buying a contract and making allocations to the Fund. All share classes have identical voting, dividend and liquidation rights. Each share class has its own expense structure.

# Note 2. Summary of Significant Accounting Policies

#### **Use of Estimates**

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

#### **Security Valuation**

Debt securities generally are valued by pricing services approved by the Board of Trustees (the Board) based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Debt securities for which quotations are readily available may also be valued based upon an over-the-counter or exchange bid quotation. All equity securities are valued at the close of business of the New York Stock Exchange (NYSE). Equity securities are valued at the last quoted sales price on the principal exchange or market on which they trade, except for securities traded on the NASDAQ Stock Market, which are valued at the NASDAQ official close price. Unlisted securities or listed securities for which there were no sales during the day are valued at the mean of the latest quoted bid and asked prices on such exchanges or markets.

Foreign securities are valued based on quotations from the principal market in which such securities are normally traded. If any foreign share prices are not readily available as a result of limited share activity the securities are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Foreign currency exchange rates are generally determined at 4:00 p.m. Eastern (U.S.) time. However, many securities markets and exchanges outside the U.S. close prior to the close of the NYSE; therefore, the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the close of the NYSE. In those situations, foreign securities will be fair valued pursuant to the policy adopted by the Board, including utilizing a third party pricing service to determine these fair values. The third party pricing service takes into account multiple factors, including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign exchange rates that have occurred subsequent to the close of the foreign exchange or market, to determine a good faith estimate that reasonably reflects the current market conditions as of the close of the NYSE. The fair value of a security is likely to be different from the quoted or published price, if available.

Investments in other open-end investment companies, including money market funds, are valued at net asset value.

Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates market value. The value of short-term securities originally purchased with maturities greater than 60 days is determined based on an amortized value to par upon reaching 60 days to maturity. Short-term securities maturing in more than 60 days from the valuation date are valued at the market price or approximate market value based on current interest rates.

Investments for which market quotations are not readily available, or that have quotations which management believes are not reliable, are valued at fair value as determined in good faith under consistently applied procedures established by and under the general supervision of the Board. If a security or class of securities (such as foreign securities) is valued at fair

June 30, 2012 (Unaudited)

value, such value is likely to be different from the last quoted market price for the security.

The determination of fair value often requires significant judgment. To determine fair value, management may use assumptions including but not limited to future cash flows and estimated risk premiums. Multiple inputs from various sources may be used to determine fair value.

#### **Foreign Currency Transactions and Translation**

The values of all assets and liabilities denominated in foreign currencies are translated into U.S. dollars at that day's exchange rates. Net realized and unrealized gains (losses) on foreign currency transactions and translations include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments in the Statement of Operations.

#### **Repurchase Agreements**

The Fund may engage in repurchase agreement transactions with institutions that management has determined are creditworthy. The Fund, through the custodian, receives delivery of the underlying securities collateralizing a repurchase agreement. Management is responsible for determining that the collateral is at least equal, at all times, to the value of the repurchase obligation including interest. A repurchase agreement transaction involves certain risks in the event of default or insolvency of the counterparty. These risks include possible delays in or restrictions on a Fund's ability to dispose of the underlying securities and a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights.

#### **Loan Participations and Commitments**

The Fund may invest in loan participations. When the Fund purchases a loan participation, the Fund typically enters into a contractual relationship with the lender or third party selling such participation (Selling Participant), but not the borrower. However, the Fund assumes the credit risk of the borrower, Selling Participant and any other persons interpositioned between the Fund and the borrower. The Fund may not directly benefit from the collateral supporting the senior loan which it has purchased from the Selling Participant.

#### **Security Transactions**

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

#### **Income Recognition**

Interest income is recorded on an accrual basis. Market premium and discount are amortized and accreted, respectively, on all debt securities, unless otherwise noted. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis, if any.

Corporate actions and dividend income are recorded net of any non-reclaimable tax withholdings, on the ex-dividend date or upon receipt of ex-dividend notification in the case of certain foreign securities.

#### **Expenses**

General expenses of the Trust are allocated to the Fund and other funds of the Trust based upon relative net assets or other expense allocation methodologies determined by the nature of the expense. Expenses directly attributable to the Fund are charged to the Fund. Expenses directly attributable to a specific class of shares are charged to that share class.

#### **Determination of Class Net Asset Value**

All income, expenses (other than class-specific expenses, which are charged to that share class, as shown in the Statement of Operations) and realized and unrealized gains (losses) are allocated to each class of the Fund on a daily basis, based on the relative net assets of each class, for purposes of determining the net asset value of each class.

#### **Federal Income Tax Status**

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its taxable income, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, because the Fund's sole shareholders are Qualified Investors, the Fund expects not to be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

#### **Distributions to Subaccounts**

Distributions from net investment income, if any, are declared and paid annually. Net realized capital gains, if any, are distributed along with the income dividend. Income distributions and capital gain distributions are determined in

June 30, 2012 (Unaudited)

accordance with federal income tax regulations, which may differ from GAAP.

All dividends and distributions are reinvested in additional shares of the applicable class of the Fund at net asset value as of the ex-dividend date of the distribution.

#### **Guarantees and Indemnifications**

Under the Trust's organizational documents and, in some cases, by contract, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust or its funds. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

#### **Recent Accounting Pronouncement**

#### Disclosures about Offsetting Assets and Liabilities

In December 2011, the Financial Accounting Standards Board (FASB) issued ASU No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*. The objective of the FASB is to enhance current disclosure requirements on offsetting of certain assets and liabilities and to enable financial statement users to compare financial statements prepared under GAAP and International Financial Reporting Standards.

Specifically, ASU No. 2011-11 requires an entity to disclose both gross and net information for derivatives and other financial instruments that are subject to a master netting arrangement or similar agreement. The standard requires disclosure of collateral received in connection with the master netting agreements or similar agreements. The effective date of ASU No. 2011-11 is for interim and annual periods beginning on or after January 1, 2013. At this time, management is evaluating the implications of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

# Note 3. Fees and Compensation Paid to Affiliates

#### **Investment Management Fees**

Under an Investment Management Services Agreement, Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), determines which securities will be purchased, held or sold. The management fee is an annual fee that is equal to 0.55% of the Fund's average daily net assets.

#### **Administration Fees**

Under an Administrative Services Agreement, the Investment Manager serves as the Fund Administrator. The Fund pays the Fund Administrator an annual fee for administration and accounting services equal to 0.08% of the Fund's average daily net assets.

#### **Other Expenses**

Other expenses are for, among other things, certain expenses of the Fund or the Board, including: Fund boardroom and office expense, employee compensation, employee health and retirement benefits, and certain other expenses. Payment of these Fund and Board expenses is facilitated by a company providing limited administrative services to the Fund and the Board. For the six months ended June 30, 2012, other expenses paid to this company were \$1,194.

#### **Compensation of Board Members**

Board members are compensated for their services to the Fund as disclosed in the Statement of Operations. Under a Deferred Compensation Plan (the Plan), the Board members who are not "interested persons" of the Fund, as defined under the 1940 Act, may elect to defer payment of up to 100% of their compensation. Deferred amounts are treated as though equivalent dollar amounts had been invested in shares of certain funds managed by the Investment Manager. The Fund's liability for these amounts is adjusted for market value changes and remains in the Fund until distributed in accordance with the Plan.

#### **Transfer Agent Fees**

The Fund has a Transfer Agency and Dividend Disbursing Agent Agreement with Columbia Management Investment Services Corp. (the Transfer Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial. The annual fee rate under this agreement is 0.06% of the Fund's average daily net assets. The Transfer Agent also receives compensation from fees for various shareholder services and reimbursements for certain out-of-pocket fees.

#### **Distribution Fees**

The Fund has an agreement with the Distributor, an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial, for distribution services. Pursuant to Rule 12b-1 under the 1940 Act, the Board has approved, and the Fund has adopted, a distribution plan (the Plan) which sets the distribution fees for the Fund. These fees are calculated daily and are intended to compensate the Distributor for selling shares of the Fund. The Plan requires the payment of a monthly distribution fee to the Distributor at the maximum

June 30, 2012 (Unaudited)

annual rate of 0.25% of the average daily net assets attributable to Class 2 shares of the Fund.

The Distributor has voluntarily agreed to waive 0.19% of the distribution fee for Class 2 shares. This arrangement may be modified or terminated by the Distributor at any time.

## Expenses Waived/Reimbursed by the Investment Manager and its Affiliates

Effective May 1, 2012, the Investment Manager and certain of its affiliates have contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below), through April 30, 2013, unless sooner terminated at the sole discretion of the Board, so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and any overdraft charges from the Fund's custodian, do not exceed the following annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.72% |
|---------|-------|
| Class 2 | 0.97  |

Under the agreement, the following fees and expenses are excluded from the waiver/reimbursement commitment, and therefore will be paid by the Fund, if applicable: taxes (including foreign transaction taxes), expenses associated with investments in affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange traded funds), transaction costs and brokerage commissions, costs related to any securities lending program, dividend expenses associated with securities sold short, inverse floater program fees and expenses, transaction charges and interest on borrowed money, interest, extraordinary expenses and any other expenses the exclusion of which is specifically approved by the Board. This agreement may be modified or amended only with approval from all parties.

Prior to May 1, 2012, the Investment Manager voluntarily agreed to reimburse a portion of the Fund's expenses (excluding certain expenses, such as brokerage commissions, interest, taxes and extraordinary expenses, but including custodian charges relating to overdrafts, if any) so that the Fund's ordinary net operating expenses, after giving effect to fees waived/expenses reimbursed, did not exceed the annual rates as a percentage of the class' average daily net assets:

| Class 1 | 0.60% |
|---------|-------|
| Class 2 | 0.85  |

#### Note 4. Federal Tax Information

The timing and character of income and capital gain distributions are determined in accordance with income tax

regulations, which may differ from GAAP because of temporary or permanent book to tax differences.

At June 30, 2012, the cost of investments for federal income tax purposes was approximately \$175,250,000 and the aggregate gross approximate unrealized appreciation and depreciation based on that cost was:

| Unrealized appreciation     | \$7,001,000 |
|-----------------------------|-------------|
| Unrealized depreciation     | (3,264,000) |
| Net unrealized appreciation | \$3,737,000 |

The following capital loss carryforward, determined as of December 31, 2011 may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

| Year of Expiration | Amount (\$) |
|--------------------|-------------|
| 2014               | 634,653     |
| 2016               | 8,867,907   |
| 2017               | 20,498,742  |
| Total              | 30,001,302  |

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

#### Note 5. Portfolio Information

The cost of purchases and proceeds from sales of securities, excluding short-term obligations, aggregated to \$51,865,407 and \$55,423,454, respectively, for the six months ended June 30, 2012.

#### Note 6. Lending of Portfolio Securities

The Fund has entered into a Master Securities Lending Agreement (the Agreement) with JPMorgan Chase Bank, N.A. (JPMorgan). The Agreement authorizes JPMorgan as lending agent to lend securities to authorized borrowers in order to generate additional income on behalf of the Fund. Pursuant to the Agreement, the securities loaned are secured by cash or securities that either are issued or guaranteed as to principal and interest by the U.S. government, its agencies, authorities or instrumentalities with value equal to at least 100% of the market value of the loaned securities. Any additional collateral required to maintain those levels due to market fluctuations of the loaned securities is requested to be

June 30, 2012 (Unaudited)

delivered the following business day. Cash collateral received is invested by the lending agent on behalf of the Fund into authorized investments pursuant to the Agreement. The investments made with the cash collateral are listed in the Portfolio of Investments. The values of such investments and any uninvested cash collateral are disclosed in the Statement of Assets and Liabilities along with the related obligation to return the collateral upon the return of the securities loaned.

Risks of delay in recovery of securities or even loss of rights in the securities may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the securities loaned increases above the value of the collateral received. JPMorgan will indemnify the Fund from losses resulting from a borrower's failure to return a loaned security when due. Such indemnification does not extend to losses associated with declines in the value of cash collateral investments. The Investment Manager is not responsible for any losses incurred by the Fund in connection with the securities lending program. Loans are subject to termination by the Fund or the borrower at any time, and are, therefore, not considered to be illiquid investments.

Pursuant to the Agreement, the Fund receives income for lending its securities either in the form of fees or by earning interest on invested cash collateral, net of negotiated rebates paid to borrowers and fees paid to the lending agent for services provided and any other securities lending expenses. The Fund continues to earn and accrue interest and dividends on the securities loaned.

During the six months ended June 30, 2012, the Fund did not participate in securities lending activity.

#### Note 7. Affiliated Money Market Fund

The Fund may invest its daily cash balances in Columbia Short-Term Cash Fund, an affiliated money market fund established for the exclusive use by the Fund and other affiliated funds. The income earned by the Fund from such investments is included as "Dividends from affiliates" in the Statement of Operations. As an investing fund, the Fund indirectly bears its proportionate share of the expenses of Columbia Short-Term Cash Fund.

#### Note 8. Shareholder Concentration

At June 30, 2012, two unaffiliated shareholder accounts owned an aggregate of 22.1% of the outstanding shares of the Fund. The Fund has no knowledge about whether any portion of those shares was owned beneficially by such accounts. Affiliated shareholder accounts owned 68.5% of the outstanding shares of the Fund. Subscription and redemption activity by concentrated accounts may have a significant effect on the operations of the Fund.

#### Note 9. Line of Credit

The Fund has entered into a revolving credit facility with a syndicate of banks led by JPMorgan whereby the Fund may borrow for the temporary funding of shareholder redemptions or for other temporary or emergency purposes. The credit facility agreement, as amended, which is a collective agreement between the Fund and certain other funds managed by the Investment Manager, severally and not jointly, permits collective borrowings up to \$500 million. Interest is charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the overnight federal funds rate plus 1.00% or (ii) the one-month LIBOR rate plus 1.00%. Each borrowing under the credit facility matures no later than 60 days after the date of borrowing. The Fund also pays a commitment fee equal to its pro rata share of the amount of the credit facility at a rate of 0.08% per annum.

The Fund had no borrowings during the six months ended June 30, 2012.

#### Note 10. Significant Risks

#### **High Yield Securities Risk**

Investing in high-yield fixed income securities may involve greater credit risk and considerations not typically associated with investing in U.S. Government bonds and other higher quality fixed income securities. These securities are noninvestment grade securities, often referred to as "junk" bonds. Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high-yield securities may be less liquid to the extent that there is no established secondary market.

#### Note 11. Subsequent Events

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

# Note 12. Information Regarding Pending and Settled Legal Proceedings

In December 2005, without admitting or denying the allegations, American Express Financial Corporation (AEFC, which is now known as Ameriprise Financial, Inc. (Ameriprise Financial)) entered into settlement agreements with the Securities and Exchange Commission (SEC) and Minnesota Department of Commerce (MDOC) related to market timing activities. As a result, AEFC was censured and ordered to cease and desist from committing or causing any violations of certain

June 30, 2012 (Unaudited)

provisions of the Investment Advisers Act of 1940, the Investment Company Act of 1940, and various Minnesota laws. AEFC agreed to pay disgorgement of \$10 million and civil money penalties of \$7 million. AEFC also agreed to retain an independent distribution consultant to assist in developing a plan for distribution of all disgorgement and civil penalties ordered by the SEC in accordance with various undertakings detailed at www.sec.gov/litigation/admin/ia-2451.pdf. Ameriprise Financial and its affiliates have cooperated with the SEC and the MDOC in these legal proceedings, and have made regular reports to the funds' Boards of Trustees.

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Funds are not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or regulatory proceedings that are likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds. Ameriprise Financial is required to make 10-Q, 10-K and, as necessary, 8-K filings with the Securities and Exchange Commission on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares or other adverse consequences to the Funds. Further, although we believe proceedings are not likely to have a material adverse effect on the Funds or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Funds, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial.

## **Approval of Investment Management Services Agreement**

Columbia Management Investment Advisers, LLC (Columbia Management or the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), serves as the investment manager to Columbia Variable Portfolio — High Income Fund (the Fund). Under an investment management services agreement (the IMS Agreement), Columbia Management provides investment advice and other services to the Fund and other funds distributed by Columbia Management Investment Distributors, Inc. (collectively, the Funds).

On an annual basis, the Fund's Board of Trustees (the Board), including the independent Board members (the Independent Trustees), considers renewal of the IMS Agreement. Columbia Management prepared detailed reports for the Board and its Contracts Committee in March and April 2012, including reports based on analyses of data provided by an independent organization and a comprehensive response to each item of information requested by independent legal counsel to the Independent Trustees (Independent Legal Counsel) in a letter to the Investment Manager, to assist the Board in making this determination. All of the materials presented in March and April were first supplied in draft form to designated representatives of the Independent Trustees, *i.e.*, Independent Legal Counsel, the Chair of the Board and the Chair of the Contracts Committee (including materials relating to the Fund's expense cap), and the final materials were revised to reflect comments provided by these Board representatives. In addition, throughout the year, the Board (or its committees) regularly meets with portfolio management teams and senior management personnel, and reviews information prepared by Columbia Management addressing the services Columbia Management provides and Fund performance. The Board accords particular weight to the work, deliberations and conclusions of the Contracts Committee, the Investment Review Committee and the Compliance Committee in determining whether to continue the IMS Agreement.

The Board, at its April 10-12, 2012 in-person Board meeting (the April Meeting), considered the renewal of the IMS Agreement for an additional one-year term. At the April Meeting, Independent Legal Counsel reviewed with the Independent Trustees various factors relevant to the Board's consideration of advisory agreements and the Board's legal responsibilities related to such consideration. Following an analysis and discussion of the factors identified below, the Board, including all of the Independent Trustees, approved the renewal of the IMS Agreement.

#### Nature, Extent and Quality of Services Provided by Columbia Management

The Independent Trustees analyzed various reports and presentations they had received detailing the services performed by Columbia Management, as well as its expertise, resources and capabilities. The Independent Trustees specifically considered many developments during the past year concerning the services provided by Columbia Management, including, in particular, the continued investment in, and resources dedicated to, the Funds' operations and the successful completion of various integration initiatives and the consolidation of dozens of Funds. The Independent Trustees noted the information they received concerning Columbia Management's ability to retain key portfolio management personnel. In that connection, the Independent Trustees took into account their meetings with Columbia Management's Chief Investment Officer (the CIO) and considered the CIO's successful execution of additional risk and portfolio management oversight applied to the Funds. The Independent Trustees also assessed Columbia Management's significant investment in upgrading technology (such as an equity trading system) and considered management's commitments to enhance existing resources in this area.

In connection with the Board's evaluation of the overall package of services provided by Columbia Management, the Board also considered the quality of administrative services provided to the Fund by Columbia Management. In addition, the Board also reviewed the financial condition of Columbia Management (and its affiliates) and each entity's ability to carry out its responsibilities under the IMS Agreement and the Fund's other services agreements with affiliates of Ameriprise Financial. The Board also discussed the acceptability of the terms of the IMS Agreement (including the relatively broad scope of services required to be performed by Columbia Management). The Board concluded that the services being performed under the IMS Agreement were of a reasonably high quality.

Based on the foregoing, and based on other information received (both oral and written, including the information on investment performance referenced below) and other considerations, the Board concluded that Columbia Management and its affiliates were in a position to continue to provide a high quality and level of services to the Fund.

#### **Investment Performance**

For purposes of evaluating the nature, extent and quality of services provided under the IMS Agreement, the Board carefully reviewed the investment performance of the Fund. In this regard, the Board considered detailed reports providing the results of analyses performed by an independent organization showing, for various periods, the performance of the Fund, the

## **Approval of Investment Management Services Agreement**

(continued)

performance of a benchmark index, the percentage ranking of the Fund among its comparison group and the net assets of the Fund. The Board observed that the Fund's investment performance met expectations.

#### Comparative Fees, Costs of Services Provided and the Profits Realized By Columbia Management and its Affiliates from their Relationships with the Fund

The Board reviewed comparative fees and the costs of services to be provided under the IMS Agreement. The Board members considered detailed comparative information set forth in an annual report on fees and expenses, including, among other things, data (based on analyses conducted by an independent organization) showing a comparison of the Fund's expenses with median expenses paid by funds in its comparative peer universe, as well as data showing the Fund's contribution to Columbia Management's profitability. The Board reviewed the fees charged to comparable institutional or other accounts/vehicles managed by Columbia Management and discussed differences in how the products are managed and operated, noting no unreasonable differences in the levels of contractual fees.

The Board accorded particular weight to the notion that the level of fees should reflect a rational pricing model applied consistently across the various product lines in the Fund family, while assuring that the overall fees for each Fund (with few defined exceptions) are generally in line with the "pricing philosophy" (*i.e.*, that the total expense ratio of the Fund is at, or below, the median expense ratio of funds in the same comparison universe of the Fund). The Board took into account that the Fund's total expense ratio (after considering proposed expense caps/waivers) approximated the peer universe's median expense ratio. Based on its review, the Board concluded that the Fund's management fee was fair and reasonable in light of the extent and quality of services that the Fund receives.

The Board also considered the expected profitability of Columbia Management and its affiliates in connection with Columbia Management providing investment management services to the Fund. In this regard, the Board referred to a detailed profitability report, discussing the profitability to Columbia Management and Ameriprise Financial from managing, operating and distributing the Funds. In this regard, the Board observed that 2011 profitability, while slightly lower than 2010, was generally in line with the reported profitability of other asset management firms. The Board also considered the indirect economic benefits flowing to Columbia Management or its affiliates in connection with managing or distributing the Funds, such as the enhanced ability to offer various other financial products to Ameriprise Financial customers, soft dollar benefits and overall reputational advantages. The Board noted that the fees paid by the Funds should permit the Investment Manager to offer competitive compensation to its personnel, make necessary investments in its business and earn an appropriate profit. The Board concluded that profitability levels were reasonable.

#### **Economies of Scale to be Realized**

The Board also considered the economies of scale that might be realized by Columbia Management as the Fund grows and took note of the extent to which Fund shareholders might also benefit from such growth.

Based on the foregoing, the Board, including all of the Independent Trustees, concluded that the investment management service fees were fair and reasonable in light of the extent and quality of services provided. In reaching this conclusion, no single factor was determinative. On April 12, 2012, the Board, including all of the Independent Trustees, approved the renewal of the IMS Agreement.

## **Important Information About This Report**

The policy of the Board is to vote the proxies of the companies in which each fund holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary; or searching the website of the Securities and Exchange Commission (SEC) at http://www.sec.gov. Information regarding how each fund voted proxies relating to portfolio securities is filed with the SEC by August 31 for the most recent 12-month period ending June 30 of that year, and is available without charge by visiting columbiamanagement.com; or searching the website of the SEC at sec.gov.

Each fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each fund's Form N-Q is available on the SEC's website at sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330. Each fund's complete schedule of portfolio holdings, as filed on Form N-Q, can also be obtained without charge, upon request, by calling 800.345.6611.

Back Cover

# Dreyfus The Fund

#### A LETTER FROM THE CHAIRMAN AND CEO

Dear Shareholder:

We are pleased to present this semiannual report for Dreyfus Stock Index Fund, Inc., covering the six-month period from January 1, 2012, through June 30, 2012. For information about how the fund performed during the reporting period, as well as general market perspectives, we provide a Discussion of Fund Performance on the pages that follow.

Economic optimism helped drive stock prices higher in early 2012 when investors responded positively to improving U.S. employment trends and measures by European policymakers to address the region's sovereign debt crisis. However, political developments later raised doubts about some of Europe's proposed solutions, and U.S. economic data weakened in the spring. Consequently, U.S. stocks gave back their previous gains, and most major market indices ended the first half of the year close to where they began.

Despite the recent downturn in market sentiment, we believe the U.S. and global economies are likely to remain on mildly upward trajectories. In our judgment, current sluggishness is at least partly due to the lagging effects of tighter monetary policies in some areas of the world, and we expect stronger growth when a shift to more accommodative policies begins to have an impact on global economic activity. In addition, the adjustment among U.S. exporters to weaker European demand and slower economic growth in certain emerging markets should be largely completed later this year, setting the stage for better business conditions in 2013.

As always, we encourage you to discuss our observations with your financial advisor.

Thank you for your continued confidence and support.

Sincerely,

Jonathan R. Baum Chairman and Chief Executive Officer The Dreyfus Corporation July 16, 2012

#### DISCUSSION OF FUND PERFORMANCE

For the period of January 1, 2012, through June 30, 2012, as provided by Thomas J. Durante, CFA, Karen Q. Wong, CFA, and Richard A. Brown, CFA, Portfolio Managers

#### Fund and Market Performance Overview

For the six-month period ended June 30, 2012, Dreyfus Stock Index Fund's Initial shares produced a total return of 9.36%, and its Service shares produced a total return of 9.25%.<sup>1</sup> In comparison, the fund's benchmark, the Standard & Poor's 500 Composite Stock Price Index ("S&P 500 Index"), produced a total return of 9.48% for the same period.<sup>2,3</sup>

Mixed economic data fueled heightened market volatility as gains over the first quarter of 2012 were partly offset by declines during the second quarter of the year. The difference in returns between the fund and the S&P 500 Index was primarily the result of transaction costs and operating expenses that are not reflected in the S&P 500 Index's results.

#### The Fund's Investment Approach

The fund seeks to match the total return of the S&P 500 Index by generally investing in all 500 stocks in the S&P 500 Index in proportion to their respective weighting. Often considered a proxy for the stock market in general, the S&P 500 Index is made up of 500 common stocks chosen to reflect the industries of the U.S. economy. Each stock is weighted by its market capitalization; that is, larger companies have greater representation in the S&P 500 Index than smaller ones. The fund also may use stock index futures as a substitute for the sale or purchase of securities.

#### Macroeconomic Developments Fueled Market Volatility

The first quarter of 2012 began with a strong rally among U.S. stocks amid employment gains and other encouraging domestic economic news. In addition, a quantitative easing program in Europe appeared to forestall a more severe banking crisis in the region, and monetary policymakers in China seemed to have engineered a "soft landing" and lower inflation in a major engine of global growth. Consequently, investors grew more tolerant of risks, and they focused more intently on companies in economically sensitive industry groups expected to benefit from better business conditions.

However, these positive influences were called into question in the second quarter, when the U.S. labor market's rebound slowed as the public sector shed jobs and employment gains in the private sector proved more anemic than expected. At the same time, measures designed to relieve fiscal pressures in Europe encountered political resistance in several countries, including Greece, threatening proposed bailout programs. These headwinds caused most stock market averages, including the S&P 500 Index, to fall over the second quarter of the year, partly offsetting previous gains. Nonetheless, it is worth noting that U.S. stocks provided higher returns, on average, than their counterparts in most other nations over the first half of 2012.

#### Most Market Sectors Advanced over the First Half of 2012

In this environment, nine of the 10 economic sectors represented in the S&P 500 Index posted positive absolute returns for the reporting period. The consumer discretionary sector led the market's advance, with robust gains posted by cable television operators and programmers, including Comcast and The Walt Disney Company. These companies benefited from higher revenues from their cable operations as well as strong results from their theme parks.

In the information technology sector, several companies benefited from strong demand for new products. Electronics innovator Apple continued to score success with its smartphone and tablet computer products, and online retailer Amazon.com saw strong results from its e-readers. In addition, companies in the enterprise storage, cloud computing and network security industries fared well as corporate demand intensified for productivity enhancing technologies. Lenders in the financials sector benefited from low interest rates, which boosted refinancing activity among mortgage holders over the reporting period. In addition, large, diversified financial institutions showed signs of recovery, as prior mergers-and-acquisitions activity and greater geographical diversification helped them withstand the protracted downturn in the wake of the 2008 financial crisis. The energy sector produced mildly negative returns over the first half of 2012, largely due to falling oil and natural gas prices as global demand faltered in a sluggish economic environment. In addition, geopolitical instability in the Middle East and Africa prompted companies to intensify exploration and production activity in North America, where the drilling costs are higher. Although the utilities sector eked out a positive total return, plunging natural gas prices undermined their financial results. Similarly, the materials sector produced positive results overall, masking weakness among steel, gold and coal mining companies as commodity prices fell.

#### Index Funds Offer Diversification Benefits

As an index fund, we attempt to replicate the returns of the S&P 500 Index by closely approximating its composition. In our view, one of the greatest benefits of an index fund is that it offers a broadly diversified investment vehicle that can help investors manage risks by limiting the impact on the overall portfolio of unexpected losses in any single industry group or holding.

July 16, 2012

Equity funds are subject generally to market, market sector, market liquidity, issuer and investment style risks, among other factors, to varying degrees, all of which are more fully described in the fund's prospectus.

The fund is only available as a funding vehicle under variable life insurance policies or variable annuity contracts issued by insurance companies. Individuals may not purchase shares of the fund directly. A variable annuity is an insurance contract issued by an insurance company that enables investors to accumulate assets on a tax-deferred basis for retirement or other long-term goals.

- <sup>1</sup> Total return includes reinvestment of dividends and any capital gains paid. Past performance is no guarantee of future results. Share price and investment return fluctuate such that upon redemption fund shares may be worth more or less than their original cost. The fund's performance does not reflect the deduction of additional charges and expenses imposed in connection with investing in variable insurance contracts, which will reduce returns.
- <sup>2</sup> SOURCE: LIPPER INC. Reflects reinvestment of dividends daily and, where applicable, capital gain distributions. The Standard & Poor's 500 Composite Stock Price Index is a widely accepted, unmanaged index of U.S. stock market performance. Investors cannot invest directly in any index.
- <sup>3</sup> "Standard & Poor's®," "S&P®," "Standard & Poor's 500™" and "S&P 500®" are trademarks of Standard & Poor's Financial Services LLC ("Standard & Poor's") and have been licensed for use by the fund. The fund is not sponsored, endorsed, sold or promoted by Standard & Poor's and Standard & Poor's does not make any representation regarding the advisability of investing in the fund.

#### UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads), redemption fees and expenses associated with variable annuity or insurance contracts, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.

#### Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in Dreyfus Stock Index Fund, Inc. from January 1, 2012 to June 30, 2012. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

| Expenses and Value of a \$1,000 Investment<br>assuming actual returns for the six months ended June 30, 2012 |                |                |  |  |  |  |
|--|----------------|----------------|--|--|--|--|
|  | Initial Shares | Service Shares |  |  |  |  |
| Expenses paid per \$1,000+   | \$ 1.46        | \$ 2.76        |  |  |  |  |
| Ending value (after expenses)  | \$1,093.60     | \$1,092.50     |  |  |  |  |

#### COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

#### Using the SEC's method to compare expenses

The Securities and Exchange Commission (SEC) has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to help you make this comparison. Please note that you cannot use this information to estimate your actual ending account balance and expenses paid during the period.

#### Expenses and Value of a \$1,000 Investment

assuming a hypothetical 5% annualized return for the six months ended June 30, 2012

|                               | Initial Shares | Service Shares |  |
|-------------------------------|----------------|----------------|--|
| Expenses paid per \$1,000+    | \$ 1.41        | \$ 2.66        |  |
| Ending value (after expenses) | \$1,023.47     | \$1,022.23     |  |

† Expenses are equal to the fund's annualized expense ratio of .28% for Initial Shares and .53% for Service Shares, multiplied by the average account value over the period, multiplied by 182/366 (to reflect the one-half year period).

### STATEMENT OF INVESTMENTS

### FINANCIAL HIGHLIGHTS

The following tables describe the performance for each share class for the fiscal periods indicated. All information (except portfolio turnover rate) reflects financial results for a single fund share. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. The fund's total returns do not reflect expenses associated with variable annuity or insurance contracts. These figures have been derived from the fund's financial statements.

#### NOTES TO FINANCIAL STATEMENTS (Unaudited)

#### NOTE 1-Significant Accounting Policies:

Dreyfus Stock Index Fund, Inc. (the "fund") is registered under the Investment Company Act of 1940, as amended (the "Act"), as a nondiversified open-end management investment company, that is intended to be a funding vehicle for variable annuity contracts and variable life insurance policies to be offered by the separate accounts of life insurance companies. The fund's investment objective is to match the total return of the Standard and Poor's® 500 Composite Stock Price Index. The Dreyfus Corporation (the "Manager" or "Dreyfus"), a wholly-owned subsidiary of The Bank of New York Mellon Corporation ("BNY Mellon"), serves as the fund's investment adviser. Mellon Capital Management Corporation ("Mellon Capital"), an indirect whollyowned subsidiary of BNY Mellon, serves as the fund's index manager.

MBSC Securities Corporation (the "Distributor"), a wholly-owned subsidiary of Dreyfus, is the distributor of the fund's shares, which are sold without a sales charge. The fund is authorized to issue 400 million shares of \$.001 par value Common Stock in each of the following classes of shares: Initial shares (250 million shares authorized) and Service shares (150 million shares authorized). Initial shares are subject to a shareholder services fee and Service shares are subject to a distribution fee. Each class of shares has identical rights and privileges, except with respect to the distribution plan, shareholder services plan, the expenses borne by each class, the allocation of certain transfer agency costs and certain voting rights. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets. The Financial Accounting Standards Board ("FASB") Accounting Standards Codification is the exclusive reference of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund's financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The fund enters into contracts that contain a variety of indemnifications. The fund's maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund's investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund's investments are as follows:

Investments in securities are valued at the last sales price on the securities exchange or national securities market on which such securities are primarily traded. Securities listed on the National Market System for which market quotations are available are valued at the official closing price or, if there is no official closing price that day, at the last sales price. Securities not listed on an exchange or the national securities market, or securities for which there were no transactions, are valued at the average of the most recent bid and asked prices, except for open short positions, where the asked price is used for valuation purposes. Bid price is used when no asked price is available. Registered investment companies that are not traded on an exchange are valued at their net asset value. All of the preceding securities are categorized within Level 1 of the fair value hierarchy.

U.S. Treasury Bills are valued at the mean price between quoted bid prices and asked prices by an independent pricing service (the "Service") approved by the Board of Directors. These securities are generally categorized within Level 2 of the fair value hierarchy.

The Service's procedures are reviewed by Dreyfus under the general supervision of the Board of Directors.

Fair valuing of securities may be determined with the assistance of a pricing service using calculations based on indices of domestic securities and other appropriate indicators, such as prices of relevant American Depository Receipts and financial futures. Utilizing these techniques may result in transfers between Level 1 and Level 2 of the fair value hierarchy.

When market quotations or official closing prices are not readily available, or are determined not to reflect accurately fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded (for example, a foreign exchange or market), but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the Board of Directors. Certain factors may be considered when fair valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized as Level 2 or 3 depending on the relevant inputs used.

For restricted securities where observable inputs are limited, assumptions about market activity and risk are used and are categorized within Level 3 of the fair value hierarchy.

Financial futures, which are traded on an exchange, are valued at the last sales price on the securities exchange on which such securities are primarily traded or at the last sales price on the national securities market on each business day. These securities are generally categorized within Level 1 of the fair value hierarchy.

The following is a summary of the inputs used as of June 30, 2012 in valuing the fund's investments:

|  | Level 1–<br>Unadjusted | Level 2–Other<br>Significant<br>Observable | Level 3–<br>Significant<br>Unobservable |               |

*†* See Statement of Investments for additional detailed categorizations.

# Amount shown represents unrealized appreciation at period end.

For the period ended June 30, 2012, there were no transfers of exchange traded securities, U.S. Treasuries or financial futures between Level 1 and Level 2 of the fair value hierarchy.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recognized on the ex-dividend date and interest income, including, where applicable, accretion of discount and amortization of premium on investments, is recognized on the accrual basis. Pursuant to a securities lending agreement with The Bank of New York Mellon, a subsidiary of BNY Mellon and an affiliate of Dreyfus, the fund may lend securities to qualified institutions. It is the fund's policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral equivalent to at least 100% of the market value of securities on loan is maintained at all times. Collateral is either in the form of cash, which can be invested in certain money market mutual funds managed by Dreyfus, U.S. Government and Agency securities or letters of credit. The fund is entitled to receive all income on securities loaned, in addition to income earned as a result of the lending transaction. Although each security loaned is fully collateralized, the fund bears the risk of delay in recovery of, or loss of rights in, the securities loaned should a borrower fail to return the securities in a timely manner. During the period ended June 30, 2012, The Bank of New York Mellon earned \$26,175 from lending portfolio securities, pursuant to the securities lending agreement.

(c) Affiliated issuers: Other investment companies advised by Dreyfus are considered to be "affiliated" with the fund.

The fund may invest in shares of certain affiliated investment companies also advised or managed by Dreyfus. Investments in affiliated investment companies for the period ended June 30, 2012 were as follows:

| Affiliated<br>Investment<br>Company                                   | Value<br>12/31/2011 (\$) | Purchases (\$) | Sales (\$)  | Value<br>6/30/2012 (\$) | Net<br>Assets (%) |
|---|--------------------------|----------------|-------------|-------------------------|-------------------|
| Dreyfus<br>Institutional<br>Preferred<br>Plus Money<br>Market<br>Fund | 43,932,285               | 88,837,504     | 100,145,742 | 32,624,047              | 1.9               |
| Dreyfus<br>Institutional<br>Cash<br>Advantage<br>Fund                 | 17.596.811               | 61,747,871     | 43.362.637  | 35.982.045              | 2.1               |
|   |                          |                |             |                         |                   |
| Total   | 61,529,096               | 150,585,375    | 143,508,379 | 68,606,092              | 4.0               |

(d) Dividends to shareholders: Dividends are recorded on the exdividend date. Dividends from investment income-net are declared and paid on a quarterly basis. Dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

(e) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interests of its shareholders, by complying with the applicable provisions of the Code, and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended June 30, 2012, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period, the fund did not incur any interest or penalties.

Each of the tax years in the three-year period ended December 31, 2011 remains subject to examination by the Internal Revenue Service and state taxing authorities.

The tax character of distributions paid to shareholders during the fiscal year ended December 31, 2011 was as follows: ordinary income \$31,032,668 and long-term capital gains \$11,621,531. The tax character of current year distributions will be determined at the end of the current fiscal year.

#### NOTE 2–Bank Lines of Credit:

The fund participates with other Dreyfus-managed funds in a \$225 million unsecured credit facility led by Citibank, N.A. and a \$300 mil-

lion unsecured credit facility provided by The Bank of New York Mellon (each, a "Facility"), each to be utilized primarily for temporary or emergency purposes, including the financing of redemptions. In connection therewith, the fund has agreed to pay its pro rata portion of commitment fees for each Facility. Interest is charged to the fund based on rates determined pursuant to the terms of the respective Facility at the time of borrowing. During the period ended June 30, 2012, the fund did not borrow under the Facilities.

#### NOTE 3-Management Fee, Index Management Fee and Other Transactions With Affiliates:

(a) Pursuant to a management agreement with Dreyfus, the management fee is computed at the annual rate of .245% of the value of the fund's average daily net assets and is payable monthly.

Dreyfus has agreed to pay Mellon Capital a monthly index-management fee at the annual rate of .07% of the value of the fund's average daily net assets.

(b) Under the Distribution Plan (the "Plan") adopted pursuant to Rule 12b-1 under the Act, Service shares pay the Distributor for distributing its shares, for servicing and/or maintaining Service shares' shareholder accounts and for advertising and marketing for Service shares. The Plan provides for payments to be made at an annual rate of .25% of the value of the Service shares' average daily net assets. The Distributor may make payments to Participating Insurance Companies and to brokers and dealers acting as principal underwriter for their variable insurance products. The fees payable under the Plan are payable without regard to actual expenses incurred. During the period ended June 30, 2012, Service shares were charged \$217,880 pursuant to the Plan.

(c) Under the Shareholder Services Plan, Initial shares reimburse the Distributor an amount not to exceed an annual rate of .25% of the value of the Initial shares' average daily net assets for certain allocated expenses with respect to servicing and/or maintaining Initial shares' shareholder

accounts. During the period ended June 30, 2012, Initial shares were charged \$15,203 pursuant to the Shareholders Services Plan.

The fund compensates Dreyfus Transfer, Inc., a wholly-owned subsidiary of Dreyfus, under a transfer agency agreement for providing personnel and facilities to perform transfer agency and cash management services for the fund. During the period ended June 30, 2012, the fund was charged \$563 pursuant to the transfer agency agreement, which is included in Shareholder servicing costs in the Statement of Operations.

Dreyfus has agreed to bear the cost of custody fees.

The fund has arrangements with the transfer agent and the custodian whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset transfer agency and custody fees. For financial reporting purposes, the fund includes net earnings credits as an expense offset in the Statement of Operations.

Prior to May 29, 2012, the fund compensated The Bank of New York Mellon under a cash management agreement for performing cash management services related to fund subscriptions and redemptions. During the period ended June 30, 2012, the fund was charged \$84 pursuant to the cash management agreement, which is included in Shareholder servicing costs in the Statement of Operations. These fees were partially offset by earnings credits of \$4.

During the period ended ended June 30, 2012, the fund was charged \$3,183 for services performed by the Chief Compliance Officer and his staff.

The components of "Due to The Dreyfus Corporation and affiliates" in the Statement of Assets and Liabilities consist of: management fees \$332,897, Plan fees \$35,401, Shareholder Services Plan fees \$1,000, Chief Compliance Officer fees \$3,183 and transfer agency per account fees \$400.

(d) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

#### NOTE 4-Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities and financial futures, during the period ended June 30, 2012, amounted to \$24,421,381 and \$101,558,875, respectively.

Financial Futures: In the normal course of pursuing its investment objective, the fund is exposed to market risk, including equity price risk, as a result of changes in value of underlying financial instruments. The fund invests in financial futures in order to manage its exposure to or protect against changes in the market. A financial futures contract represents a commitment for the future purchase or a sale of an asset at a specified date. Upon entering into such contracts, these investments require initial margin deposits with a counterparty, which consist of cash or cash equivalents. The amount of these deposits is determined by the exchange or Board of Trade on which the contract is traded and is subject to change. Accordingly, variation margin payments are received or made to reflect daily unrealized gains or losses which are recorded in the Statement of Operations. When the contracts are closed, the fund recognizes a realized gain or loss. There is minimal counterparty credit risk to the fund with financial futures since they are exchange traded, and the exchange's clearinghouse guarantees the financial futures against default. Financial futures open at June 30, 2012 are set forth in the Statement of Financial Futures.

The following summarizes the average market value of derivatives outstanding during the period ended June 30, 2012:

|                                    | Average Market Value (\$) |
|------------------------------------|---------------------------|
| Equity financial futures contracts | 35,483,693                |

At June 30, 2012, accumulated net unrealized appreciation on investments was \$531,519,526, consisting of \$714,418,854 gross unrealized appreciation and \$182,899,328 gross unrealized depreciation.

At June 30, 2012, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments).

#### NOTE 5-Pending Legal Matters:

The fund and more than two hundred other entities have been named as defendants in two pending litigations (Deutsche Bank Trust Co., Americas et al. v. Adaly Opportunity Fund TD Secs. Inc. et al., No. 11cv-04784, filed July 12, 2011 in the United States District Court for the Southern District of New York, and Niese et al. v. AllianceBernstein L.P. et al., No. 11-cv-04538, filed July 1, 2011 in the United States District Court for the Southern District of New York) against shareholders of the Tribune Company who received payment for their shares in June or December 2007, as part of a leveraged buyout of the company (the "LBO"). Approximately one year after the LBO was concluded, the Tribune Company filed for bankruptcy. Thereafter, in approximately June 2011, certain Tribune Company creditors filed dozens of complaints in various courts throughout the country, including complaints in the two actions referred to above, alleging that the payments made to shareholders in the LBO were "fraudulent conveyances," and that the shareholders must return the payments they received for their shares to satisfy the plaintiffs' unpaid claims. These cases have been consolidated for pre-trial proceedings in a multi-district litigation in the United States District Court for the Southern District of New York (S.D.N.Y. No. 11-md-2296 (WHP)).

In addition, there was a case pending in United States Bankruptcy Court for the District of Delaware brought by the Unsecured Creditors Committee of the Tribune Company that has since been transferred to a multi-district litigation in the United States District Court for the Southern District of New York (The Official Committee of Unsecured Creditors of Tribune Co. v. Fitzsimons et al., formerly Bankr. D. Del. Adv. Pro. No. 10-54010 (KJC) and now S.D.N.Y. No. 12-cv-2652 (WHP)). The case was originally filed on November 1, 2010. In this case, the Creditors Committee seeks recovery for alleged "fraudulent conveyances" from more than 32,000 Tribune shareholders, including the fund, in a Third Amended Complaint filed in January 2012.

At this stage in the proceedings, it is not possible to assess with any reasonable certainty the probable outcomes of the pending litigations. Consequently, at this time, management is unable to estimate the possible loss that may result.

# INFORMATION ABOUT THE RENEWAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited)

At a meeting of the fund's Board of Directors held on March 6, 2012, the Board considered the renewal of the fund's Management Agreement pursuant to which Dreyfus provides the fund with investment advisory and administrative services (the "Agreement"), and the Index Management Agreement (together, the "Agreements"), pursuant to which Mellon Capital Management Corporation (the "Index Manager") provides day to day management of the fund's investments. The Board members, none of whom are "interested persons" (as defined in the Investment Company Act of 1940, as amended) of the fund, were assisted in their review by independent legal counsel and met with counsel in executive session separate from representatives of Dreyfus and the Index Manager. In considering the renewal of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Board member may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services Provided to the Fund. The Board considered information previously provided to them in presentations from Dreyfus representatives regarding the nature, extent, and quality of the services provided to funds in the Dreyfus fund complex, and Dreyfus representatives confirmed that there had been no material changes in this information. Dreyfus provided the number of open accounts in the fund, the fund's asset size and the allocation of fund assets among distribution channels. Dreyfus also had previously provided information regarding the diverse intermediary relationships and distribution channels of funds in the Dreyfus fund complex and Dreyfus' corresponding need for broad, deep, and diverse resources to be able to provide ongoing shareholder services to each distribution channel, including the distribution channel(s) for the fund.

#### INFORMATION ABOUT THE RENEWAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited) (continued)

The Board also considered research support available to, and portfolio management capabilities of, the fund's portfolio management personnel and that Dreyfus also provides oversight of day-to-day fund operations, including fund accounting and administration and assistance in meeting legal and regulatory requirements. The Board also considered Dreyfus' extensive administrative, accounting, and compliance infrastructures, as well as Dreyfus' supervisory activities over the Index Manager. The Board also considered portfolio management's brokerage policies and practices (including policies and practices regarding soft dollars) and the standards applied in seeking best execution.

Comparative Analysis of the Fund's Performance and Management Fee and Expense Ratio. The Board reviewed reports prepared by Lipper, Inc. ("Lipper"), an independent provider of investment company data, which included information comparing (1) the fund's performance with the performance of a group of comparable funds (the "Performance Group") and with a broader group of funds (the "Performance Universe"), all for various periods ended December 31, 2011, and (2) the fund's actual and contractual management fees and total expenses with those of a group of funds (the "Expense Group") and with a broader group of funds (the "Expense Group") and with a broader group of funds (the "Expense Universe"), the information for which was derived in part from fund financial statements available to Lipper as of the date of its analysis. Dreyfus previously had furnished the Board with a description of the methodology Lipper used to select the Performance Group and Performance Universe and the Expense Group and Expense Universe.

Dreyfus representatives stated that the usefulness of performance comparisons may be affected by a number of factors, including different investment limitations that may be applicable to the fund and comparison funds. The Board discussed the results of the comparisons and noted that the fund's total return performance was above the Performance Group and Performance Universe medians for the various periods and ranked in the first quartile of the Performance Group for four of the six periods shown. Dreyfus also provided a comparison of the fund's calendar year total returns to the returns of the fund's benchmark index.

The Board also reviewed the range of actual and contractual management fees and total expenses of the Expense Group and Expense Universe funds and discussed the results of the comparisons. The Board noted that the fund's contractual management fee was below the Expense Group median and the fund's actual management fee and total expenses were below the Expense Group and the Expense Universe medians.

Dreyfus representatives reviewed with the Board the management or investment advisory fees (1) paid by funds advised or administered by Dreyfus that are in the same Lipper category as the fund and (2) paid to Dreyfus or the Index Manager or its affiliates for advising any separate accounts and/or other types of client portfolios that are considered to have similar investment strategies and policies as the fund (the "Similar Clients"), and explained the nature of the Similar Clients. They discussed differences in fees paid and the relationship of the fees paid in light of any differences in the services provided and other relevant factors. The Board considered the relevance of the fee information provided for the Similar Clients to evaluate the appropriateness and reasonableness of the fund's management fee.

The Board considered the fee to the Index Manager in relation to the fee paid to Dreyfus by the fund and the respective services provided by the Index Manager and Dreyfus. The Board also noted the Index Manager's fee is paid by Dreyfus (out of its fee from the fund) and not the fund.

<u>Analysis of Profitability and Economies of Scale</u>. Dreyfus representatives reviewed the expenses allocated and profit received by Dreyfus and the resulting profitability percentage for managing the fund, and the method used to determine the expenses and profit. The Board concluded that the profitability results were not unreasonable, given the services rendered and service levels provided by Dreyfus. The

#### INFORMATION ABOUT THE RENEWAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited) (continued)

Board previously had been provided with information prepared by an independent consulting firm regarding Dreyfus' approach to allocating costs to, and determining the profitability of, individual funds and the entire Dreyfus fund complex. The consulting firm also had analyzed where any economies of scale might emerge in connection with the management of a fund.

The Board's counsel stated that the Board should consider the profitability analysis (1) as part of their evaluation of whether the fees under the Agreements bear a reasonable relationship to the mix of services provided by Dreyfus and the Index Manager, including the nature, extent and quality of such services, and (2) in light of the relevant circumstances for the fund and the extent to which economies of scale would be realized if the fund grows and whether fee levels reflect these economies of scale for the benefit of fund shareholders. Since Dreyfus, and not the fund, pays the Index Manager pursuant to the Index Management Agreement, the Board did not consider the Index Manager's profitability to be relevant to its deliberations. Dreyfus representatives noted that a discussion of economies of scale is predicated on a fund having achieved a substantial size with increasing assets and that, if a fund's assets had been stable or decreasing, the possibility that Dreyfus may have realized any economies of scale would be less. Dreyfus representatives also noted that, as a result of shared and allocated costs among funds in the Drevfus fund complex, the extent of economies of scale could depend substantially on the level of assets in the complex as a whole, so that increases and decreases in complexwide assets can affect potential economies of scale in a manner that is disproportionate to, or even in the opposite direction from, changes in the fund's asset level. The Board also considered potential benefits to Dreyfus and the Index Manager from acting as investment adviser and index manager, respectively, and noted that there were no soft dollar arrangements in effect for trading the fund's investments.

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to the renewal of the Agreements. Based on the discussions and considerations as described above, the Board concluded and determined as follows.

- The Board concluded that the nature, extent and quality of the services provided by Dreyfus and the Index Manager are adequate and appropriate.
- The Board was satisfied with the fund's performance.
- The Board concluded that the fees paid to Dreyfus and the Index Manager were reasonable in light of the considerations described above.
- The Board determined that the economies of scale which may accrue to Dreyfus and its affiliates in connection with the management of the fund had been adequately considered by Dreyfus in connection with the fee rate charged to the fund pursuant to the Agreement and that, to the extent in the future it were determined that material economies of scale had not been shared with the fund, the Board would seek to have those economies of scale shared with the fund.

The Board considered these conclusions and determinations, along with information received on a routine and regular basis throughout the year. In addition, it should be noted that the Board's consideration of the contractual fee arrangements for this fund had the benefit of a number of years of reviews of prior or similar agreements during which lengthy discussions took place between the Board and Dreyfus representatives. Certain aspects of the arrangements may receive greater scrutiny in some years than in others, and the Board's conclusions may be based, in part, on their consideration of the same or similar arrangements in prior years. The Board determined that renewal of the Agreements was in the best interests of the fund and its shareholders.

# Dreyfus Variable Investment Fund, Appreciation Portfolio The Fund

## A LETTER FROM THE CHAIRMAN AND CEO

Dear Shareholder:

We are pleased to present this semiannual report for Dreyfus Variable Investment Fund, Appreciation Portfolio, covering the six-month period from January 1, 2012, through June 30, 2012. For information about how the fund performed during the reporting period, as well as general market perspectives, we provide a Discussion of Fund Performance on the pages that follow.

Economic optimism helped drive stock prices higher in early 2012 when investors responded positively to improving U.S. employment trends and measures by European policymakers to address the region's sovereign debt crisis. However, political developments later raised doubts about some of Europe's proposed solutions, and U.S. economic data weakened in the spring. Consequently, U.S. stocks gave back their previous gains, and most major market indices ended the first half of the year close to where they began.

Despite the recent downturn in market sentiment, we believe the U.S. and global economies are likely to remain on mildly upward trajectories. In our judgment, current sluggishness is at least partly due to the lagging effects of tighter monetary policies in some areas of the world, and we expect stronger growth when a shift to more accommodative policies begins to have an impact on global economic activity. In addition, the adjustment among U.S. exporters to weaker European demand and slower economic growth in certain emerging markets should be largely completed later this year, setting the stage for better business conditions in 2013.

As always, we encourage you to discuss our observations with your financial advisor.

Thank you for your continued confidence and support.

Sincerely,

Jonathan R. Baum Chairman and Chief Executive Officer The Dreyfus Corporation July 16, 2012

# DISCUSSION OF FUND PERFORMANCE

For the period of January 1, 2012, through June 30, 2012, as provided by Fayez Sarofim, Portfolio Manager of Fayez Sarofim & Co., Sub-Investment Adviser

## Fund and Market Performance Overview

For the six-month period ended June 30, 2012, Dreyfus Variable Investment Fund, Appreciation Portfolio's Initial shares produced a total return of 7.22%, and its Service shares produced a total return of 7.10%.<sup>1</sup> In comparison, the total return of the fund's benchmark, the Standard & Poor's 500 Composite Stock Price Index ("S&P 500 Index"), was 9.48% for the same period.<sup>2</sup>

Mixed economic data fueled heightened market volatility as gains over the first quarter of 2012 were partly offset by declines during the second quarter. The fund produced lower returns than its benchmark, mainly due to investors' preference for domestically oriented businesses rather than the multinational companies on which the fund focuses.

## The Fund's Investment Approach

The fund seeks long-term capital growth consistent with the preservation of capital. Its secondary goal is current income. To pursue these goals, the fund normally invests at least 80% of its assets in common stocks. The fund focuses on blue-chip companies with total market capitalizations of more than \$5 billion at the time of purchase, including multinational companies. These are established companies that have demonstrated sustained patterns of profitability, strong balance sheets, an expanding global presence and the potential to achieve predictable, above-average earnings growth.

In choosing stocks, the fund first identifies economic sectors it believes will expand over the next three to five years or longer. Using fundamental analysis, the fund then seeks companies within these sectors that have proven track records and dominant positions in their industries. The fund employs a "buy-and-hold" investment strategy, which generally has resulted in an annual portfolio turnover of below 15%. A low portfolio turnover rate helps reduce the fund's trading costs and minimizes tax liability by limiting the distribution of capital gains.<sup>3</sup>

#### Macroeconomic Developments Fueled Market Volatility

The reporting period began with a strong rally among U.S. stocks amid employment gains and other encouraging domestic economic news. In addition, a quantitative easing program in Europe appeared to forestall a more severe banking crisis in the region, and monetary policymakers in China seemed to have engineered a "soft landing" and lower inflation in a major engine of global growth. Consequently, investors grew more tolerant of risks during the first quarter of 2012, and they focused on global companies expected to benefit from better business conditions.

However, these positive influences were called into question in the second quarter, when the U.S. labor market's rebound slowed. Meanwhile, proposed programs to relieve fiscal pressures in Europe encountered political resistance. These headwinds caused the S&P 500 Index to fall over the second quarter of the year, partly offsetting earlier gains.

#### Stock Selections Produced Mixed Results

The fund's relative performance was undermined by its overweighted position in the energy sector, where falling oil and natural gas prices pressured earnings of energy producers such as Occidental Petroleum and Royal Dutch Shell, Cl. A, ADR, while France's Total, ADR also was hurt by the European debt crisis.

The fund also encountered shortfalls stemming from underweighted exposure to the financials sector, which rebounded from depressed levels despite ongoing debt and corporate governance issues. In the consumer discretionary sector, the global economic slowdown constrained results from casual dining giant McDonald's, and a deteriorating economic outlook and pricing pressures in Brazil hurt the earnings of McDonald's franchisee Arcos Dorados Holdings, Cl. A. Other laggards included global metals producer Freeport-McMoRan Copper & Gold, which suffered as growth slowed in the emerging markets, and U.S. pharmacy chain Walgreen, which encountered negative investor reaction to an acquisition in Europe.

The fund produced better relative results in the information technology sector, where electronics innovator Apple continued to score successes with its smartphone and tablet computer products. In other areas, tobacco companies Philip Morris International and Altria Group advanced as investors favored traditionally defensive stocks, which have exhibited consistent earnings and strong cash flows, as did beverages leader The Coca-Cola Companies and retail giant Wal-Mart Stores.

We added two companies to the fund during the reporting period. We expect global brewer SABMiller to grow along with alcohol consumption in the emerging markets, and several new and very large discoveries have created a turnaround story at Statoil. Entering 2012, Statoil now finds itself with an enviable slate of major Norwegian oil discoveries and participation in world class discoveries in Brazil, Tanzania and the Guf of Mexico.

#### Positioned for Continued Volatility

While the U.S. economy currently shows signs of moderate strength and equity valuations generally are attractive, we believe that the European sovereign debt crisis and global deleveraging will continue to stress equity markets. In such an environment, well-established companies with solid business fundamentals and generous dividend yields are likely to remain attractive to investors. As of midyear, we have continued to find a relatively large number of investments meeting our criteria in the consumer staples and energy sectors.

July 16, 2012

Equity funds are subject generally to market, market sector, market liquidity, issuer, and investment style risks, among other factors, to varying degrees, all of which are more fully described in the fund's prospectus.

Fund shares are only available as a funding vehicle under variable life insurance policies or variable annuity contracts issued by insurance companies. Individuals may not purchase shares of the fund directly. A variable annuity is an insurance contract issued by an insurance company that enables investors to accumulate assets on a tax-deferred basis for retirement or other long-term goals.

- <sup>1</sup> Total return includes reinvestment of dividends and any capital gains paid. Past performance is no guarantee of future results. Share price and investment return fluctuate such that upon redemption fund shares may be worth more or less than their original cost. The fund's performance does not reflect the deduction of additional charges and expenses imposed in connection with investing in variable insurance contracts, which will reduce returns.
- <sup>2</sup> SOURCE: LIPPER INC. Reflects monthly reinvestment of dividends and, where applicable, capital gain distributions. The Standard & Poor's 500 Composite Stock Price Index is a widely accepted, unmanaged index of U.S. stock market performance. Investors cannot invest directly in an index.
- <sup>3</sup> Achieving tax efficiency is not a part of the fund's investment objective, and there can be no guarantee that the fund will achieve any particular level of taxable distributions in future years. In periods when the manager has to sell significant amounts of securities (e.g., during periods of significant net redemptions or changes in index components) funds can be expected to be less tax efficient than during periods of more stable market conditions and asset flows.

## UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads), redemption fees and expenses associated with variable annuity or insurance contracts, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.

#### Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in Dreyfus Variable Investment Fund, Appreciation Portfolio from January 1, 2012 to June 30, 2012. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

| Expenses and Value of a \$1,000 Investment<br>assuming actual returns for the six months ended June 30, 2012 |                |                |  |  |
|--|----------------|----------------|--|--|
|  | Initial Shares | Service Shares |  |  |
| Expenses paid per \$1,000+   | \$ 4.17        | \$ 5.46        |  |  |
| Ending value (after expenses)  | \$1,072.20     | \$1,071.00     |  |  |

# COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

#### Using the SEC's method to compare expenses

The Securities and Exchange Commission (SEC) has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to estimate your actual ending account balance and expenses paid during the period.

#### Expenses and Value of a \$1,000 Investment

assuming a hypothetical 5% annualized return for the six months ended June 30, 2012

|  | Initial Shares | Service Shares |  |
|--|----------------|----------------|--|
| Expenses paid per \$1,000 <sup>+</sup> | \$ 4.07        | \$ 5.32        |  |
| Ending value (after expenses)          | \$1,020.84     | \$1,019.59     |  |

† Expenses are equal to the fund's annualized expense ratio of .81% for Initial Shares and 1.06% for Service Shares, multiplied by the average account value over the period, multiplied by 182/366 (to reflect the one-half year period).

# FINANCIAL HIGHLIGHTS

The following tables describe the performance for each share class for the fiscal periods indicated. All information (except portfolio turnover rate) reflects financial results for a single fund share. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. The fund's total returns do not reflect expenses associated with variable annuity or insurance contracts. These figures have been derived from the fund's financial statements.

# NOTES TO FINANCIAL STATEMENTS (Unaudited)

#### NOTE 1-Significant Accounting Policies:

Dreyfus Variable Investment Fund (the "Company") is registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company, operating as a series company currently offering seven series, including the Appreciation Portfolio (the "fund"). The fund is only offered to separate accounts established by insurance companies to fund variable annuity contracts and variable life insurance policies. The fund is a diversified series. The fund's investment objective is to seek long-term capital growth consistent with the preservation of capital. The Dreyfus Corporation (the "Manager" or "Dreyfus"), a wholly-owned subsidiary of The Bank of New York Mellon Corporation ("BNY Mellon"), serves as the fund's investment adviser. Fayez Sarofim & Co. ("Sarofim & Co.") serves as the fund's sub-investment adviser.

MBSC Securities Corporation (the "Distributor"), a wholly-owned subsidiary of Dreyfus, is the distributor of the fund's shares, which are sold without a sales charge. The fund is authorized to issue an unlimited number of \$.001 par value shares of Beneficial Interest in each of the following classes of shares: Initial and Service. Each class of shares has identical rights and privileges, except with respect to the distribution plan and the expenses borne by each class, the allocation of certain transfer agency costs and certain voting rights. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets. The Company accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification is the exclusive reference of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund's financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Company enters into contracts that contain a variety of indemnifications. The fund's maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund's investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund's investments are as follows:

Investments in securities are valued at the last sales price on the securities exchange or national securities market on which such securities are primarily traded. Securities listed on the National Market System for which market quotations are available are valued at the official closing price or, if there is no official closing price that day, at the last sales price. Securities not listed on an exchange or the national securities market, or securities for which there were no transactions, are valued at the average of the most recent bid and asked prices, except for open short positions, where the asked price is used for valuation purposes. Bid price is used when no asked price is available. Registered investment companies that are not traded on an exchange are valued at their net asset value. All of the preceding securities are categorized within Level 1 of the fair value hierarchy.

Fair valuing of securities may be determined with the assistance of a pricing service using calculations based on indices of domestic securi-

ties and other appropriate indicators, such as prices of relevant ADRs and financial futures. Utilizing these techniques may result in transfers between Level 1 and Level 2 of the fair value hierarchy.

When market quotations or official closing prices are not readily available, or are determined not to reflect accurately fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded (for example, a foreign exchange or market), but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the Company's Board of Trustees. Certain factors may be considered when fair valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized as Level 2 or 3 depending on the relevant inputs used.

For restricted securities where observable inputs are limited, assumptions about market activity and risk are used and are categorized within Level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of June 30, 2012 in valuing the fund's investments:

|                                 | Level 1–<br>Unadjusted | Level 2–Other<br>Significant<br>Observable | Level 3–<br>Significant<br>Unobservable |             |

| Mutual Funds                    | 33,437,988             | -  | -                                       | 33,437,988  |

*†* See Statement of Investments for additional detailed categorizations.

For the period ended June 30, 2012, there were no transfers of exchange traded securities between Level 1 and Level 2 of the fair value hierarchy.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recognized on the ex-dividend date and interest income, including, where applicable, accretion of discount and amortization of premium on investments, is recognized on the accrual basis.

Pursuant to a securities lending agreement with The Bank of New York Mellon, a subsidiary of BNY Mellon and an affiliate of Dreyfus, the fund may lend securities to qualified institutions. It is the fund's policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral equivalent to at least 100% of the market value of securities on loan is maintained at all times. At June 30, 2012, the value of the collateral was 99.4% of the market value of the securities on loan. The fund received additional collateral subsequent to period end which resulted in the market value of the collateral to be at least 100% of the market value of the securities on loan. Collateral is either in the form of cash, which can be invested in certain money market mutual funds managed by Dreyfus, U.S. Government and Agency securities or letters of credit. The fund is entitled to receive all income on securities loaned, in addition to income earned as a result of the lending transaction. Although each security loaned is fully collateralized, the fund bears the risk of delay in recovery of, or loss of rights in, the securities loaned should a borrower fail to return the securities in a timely manner. During the period ended June 30, 2012, The Bank of New York Mellon earned \$28,078 from lending portfolio securities, pursuant to the securities lending agreement.

(c) Affiliated issuers: Other investment companies advised by Dreyfus are considered to be "affiliated" with the fund.

The fund may invest in shares of certain affiliated investment companies also advised or managed by Dreyfus. Investments in affiliated investment companies for the period ended June 30, 2012 were as follows:

| Affiliated<br>Investment<br>Company                                   | Value<br>12/31/2011 (\$) | Purchases (\$) | Sales (\$)  | Value<br>6/30/2012 (\$) | Net<br>Assets (%) |

| Fund  | 2,642,191                |                | 120,949,468 |                         | 5.3               |
| Total   | 10,235,733               | 181,796,245    | 158,593,990 | 33,437,988              | 6.2               |

(d) Dividends to shareholders: Dividends are recorded on the ex-dividend date. Effective March 31, 2012, dividends from investment income-net are declared and paid quarterly. Prior to the effective date, dividends from investment income-net were declared and paid annually. Dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

(e) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interests of its shareholders, by complying with the applicable provisions of the Code, and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended June 30, 2012, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes

interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period, the fund did not incur any interest or penalties.

Each of the tax years in the three-year period ended December 31, 2011 remains subject to examination by the Internal Revenue Service and state taxing authorities.

Under the Regulated Investment Company Modernization Act of 2010 (the "2010 Act"), the fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 ("post-enactment losses") for an unlimited period. Furthermore, post-enactment capital loss carryovers retain their character as either short-term or long-term capital losses rather than short-term as they were under previous statute. The 2010 Act requires post-enactment losses to be utilized before the utilization of losses incurred in taxable years prior to the effective date of the 2010 Act ("pre-enactment losses"). As a result of this ordering rule, pre-enactment losses may be more likely to expire unused.

The fund has an unused capital loss carryover of \$1,621,087 available for federal income tax purposes to be applied against future net realized capital gains, if any, realized subsequent to December 31, 2011. If not applied, \$658,768 of the carryover expires in fiscal year 2017, \$732,796 expires in fiscal year 2018 and \$229,523 of post-enactment long-term capital losses can be carried forward for an unlimited period.

The tax character of distributions paid to shareholders during the fiscal year ended December 31, 2011 was as follows: ordinary income \$7,354,178. The tax character of current year distributions will be determined at the end of the current fiscal year.

### NOTE 2-Bank Lines of Credit:

The fund participates with other Dreyfus-managed funds in a \$225 million unsecured credit facility led by Citibank, N.A. and a \$300 million unsecured credit facility provided by The Bank of New York

Mellon (each, a "Facility"), each to be utilized primarily for temporary or emergency purposes, including the financing of redemptions. In connection therewith, the fund has agreed to pay its pro rata portion of commitment fees for each Facility. Interest is charged to the fund based on rates determined pursuant to the terms of the respective Facility at the time of borrowing.

The average amount of borrowings outstanding under the Facilities during the period ended June 30, 2012 was approximately \$356,600, with a related weighted average annualized interest rate of 1.18%.

## NOTE 3–Investment Advisory Fee, Sub-Investment Advisory Fee and Other Transactions With Affiliates:

(a) Pursuant to an investment advisory agreement with Dreyfus, the investment advisory fee is computed at the annual rate of .5325% of the value of the fund's average daily net assets. Pursuant to a sub-investment advisory agreement with Sarofim & Co., the fund pays Sarofim & Co. a monthly sub-investment advisory fee at the annual rate of .2175% of the value of the fund's average daily net assets. Both fees are payable monthly.

(b) Under the Distribution Plan (the "Plan") adopted pursuant to Rule 12b-1 under the Act, Service shares pay the Distributor for distributing its shares, for servicing and/or maintaining Service shares' shareholder accounts and for advertising and marketing for Service shares. The Plan provides for payments to be made at an annual rate of .25% of the value of the Service shares' average daily net assets. The Distributor may make payments to Participating Insurance Companies and to brokers and dealers acting as principal underwriter for their variable insurance products. The fees payable under the Plan are payable without regard to actual expenses incurred. During the period ended June 30, 2012, Service shares were charged \$231,853 pursuant to the Plan.

The fund compensates Dreyfus Transfer, Inc., a wholly-owned subsidiary of Dreyfus, under a transfer agency agreement for providing personnel and facilities to perform transfer agency and cash management services for the fund. During the period ended June 30, 2012, the fund was charged \$712 pursuant to the transfer agency agreement, which is included in Shareholder servicing costs in the Statement of Operations.

The fund compensates The Bank of New York Mellon under a custody agreement for providing custodial services for the fund. During the period ended June 30, 2012, the fund was charged \$20,938 pursuant to the custody agreement.

The fund has arrangements with the transfer agent and the custodian whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset transfer agency and custody fees. For financial reporting purposes, the fund includes net earnings credits as an expense offset in the Statement of Operations.

Prior to May 29, 2012, the fund compensated The Bank of New York Mellon under a cash management agreement for performing cash management services related to fund subscriptions and redemptions. During the period ended June 30, 2012, the fund was charged \$97 pursuant to the cash management agreement, which is included in Shareholder servicing costs in the Statement of Operations. These fees were partially offset by earnings credits of \$5.

During the period ended June 30, 2012, the fund was charged \$3,183 for services performed by the Chief Compliance Officer and his staff.

The components of "Due to The Dreyfus Corporation and affiliates" in the Statement of Assets and Liabilities consist of: investment advisory fees \$228,793, Plan fees \$37,503, custodian fees \$10,567, Chief Compliance Officer fees \$3,183 and transfer agency per account fees \$455. (c) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

## NOTE 4-Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities, during the period ended June 30, 2012, amounted to \$28,428,848 and \$16,623,860, respectively.

At June 30, 2012, accumulated net unrealized appreciation on investments was \$215,564,666, consisting of \$226,951,311 gross unrealized appreciation and \$11,386,645 gross unrealized depreciation.

At June 30, 2012, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments).

# INFORMATION ABOUT THE RENEWAL OF THE FUND'S INVESTMENT ADVISORY AND SUB-INVESTMENT ADVISORY AGREEMENTS (Unaudited)

At a meeting of the fund's Board of Trustees held on March 6, 2012, the Board considered the renewal of the fund's Investment Advisory Agreement, pursuant to which Dreyfus provides the fund with investment advisory and administrative services (the "Agreement"), and the Sub-Investment Advisory Agreement (together, the "Agreements"), pursuant to which Fayez Sarofim & Co. (the "Sub-Adviser") provides day-to-day management of the fund's investments. The Board members, none of whom are "interested persons" (as defined in the Investment Company Act of 1940, as amended) of the fund, were assisted in their review by independent legal counsel and met with counsel in executive session separate from representatives of Dreyfus and the Sub-Adviser. In considering the renewal of the Agreements, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Board member may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services Provided to the Fund. The Board considered information previously provided to them in presentations from Dreyfus representatives regarding the nature, extent, and quality of the services provided to funds in the Dreyfus fund complex, and Dreyfus representatives confirmed that there had been no material changes in this information. Dreyfus provided the number of open accounts in the fund, the fund's asset size and the allocation of fund assets among distribution channels. Dreyfus also had previously provided information regarding the diverse intermediary relationships and distribution channels of funds in the Dreyfus fund complex and Dreyfus' corresponding need for broad, deep, and diverse resources to be able to provide ongoing shareholder services to each distribution channel, including the distribution channel(s) for the fund.

The Board also considered research support available to, and portfolio management capabilities of, the fund's portfolio management personnel and that Dreyfus also provides oversight of day-to-day fund operations, including fund accounting and administration and assistance in meeting

#### INFORMATION ABOUT THE RENEWAL OF THE FUND'S INVESTMENT ADVISORY AND SUB-INVESTMENT ADVISORY AGREEMENTS (Unaudited) *(continued)*

legal and regulatory requirements. The Board also considered Dreyfus' extensive administrative, accounting, and compliance infrastructures, as well as Dreyfus' supervisory activities over the Sub-Adviser. The Board also considered portfolio management's brokerage policies and practices (including policies and practices regarding soft dollars) and the standards applied in seeking best execution.

Comparative Analysis of the Fund's Performance and Management Fee and Expense Ratio. The Board reviewed reports prepared by Lipper, Inc. ("Lipper"), an independent provider of investment company data, which included information comparing (1) the fund's performance with the performance of a group of comparable funds (the "Performance Group") and with a broader group of funds (the "Performance Universe"), all for various periods ended December 31, 2011, and (2) the fund's actual and contractual management fees and total expenses with those of a group of funds (the "Expense Group") and with a broader group of funds (the "Expense Group") and with a broader group of funds (the "Expense Universe"), the information for which was derived in part from fund financial statements available to Lipper as of the date of its analysis. Dreyfus previously had furnished the Board with a description of the methodology Lipper used to select the Performance Group and Performance Universe and the Expense Group and Expense Universe.

Dreyfus representatives stated that the usefulness of performance comparisons may be affected by a number of factors, including different investment limitations that may be applicable to the fund and comparison funds. The Board discussed the results of the comparisons and noted that the fund's total return performance was above the Performance Group and Performance Universe medians, and the fund ranked first in Performance Group and ranked in the first quartile of the Performance Universe for all periods. Dreyfus also provided a comparison of the fund's calendar year total returns to the returns of the fund's benchmark index. The Board also reviewed the range of actual and contractual management fees and total expenses of the Expense Group and Expense Universe funds and discussed the results of the comparisons. The Board noted that the fund's contractual management fee was at the Expense Group median, the fund's actual management fee was at the Expense Group median and above the Expense Universe median and the fund's total expenses were slightly above the Expense Group median and below the Expense Universe median.

Dreyfus representatives reviewed with the Board the management or investment advisory fees (1) paid by funds advised or administered by Dreyfus that are in the same Lipper category as the fund and (2) paid to Dreyfus or the Sub-Adviser or its affiliates for advising any separate accounts and/or other types of client portfolios that are considered to have similar investment strategies and policies as the fund (the "Similar Clients"), and explained the nature of the Similar Clients. They discussed differences in fees paid and the relationship of the fees paid in light of any differences in the services provided and other relevant factors. The Board considered the relevance of the fee information provided for the Similar Clients to evaluate the appropriateness and reasonableness of the fund's management fee.

The Board considered the fee to the Sub-Adviser in relation to the fee paid to Dreyfus by the fund and the respective services provided by the Sub-Adviser and Dreyfus.

<u>Analysis of Profitability and Economies of Scale</u>. Dreyfus representatives reviewed the expenses allocated and profit received by Dreyfus and the resulting profitability percentage for managing the fund, and the method used to determine the expenses and profit. The Board concluded that the profitability results were not unreasonable, given the services rendered and service levels provided by Dreyfus. The Board previously had been provided with information prepared by an independent consulting

#### INFORMATION ABOUT THE RENEWAL OF THE FUND'S INVESTMENT ADVISORY AND SUB-INVESTMENT ADVISORY AGREEMENTS (Unaudited) (continued)

firm regarding Dreyfus' approach to allocating costs to, and determining the profitability of, individual funds and the entire Dreyfus fund complex. The consulting firm also had analyzed where any economies of scale might emerge in connection with the management of a fund.

The Board's counsel stated that the Board should consider the profitability analysis (1) as part of their evaluation of whether the fees under the Agreements bear a reasonable relationship to the mix of services provided by Dreyfus and the Sub-Adviser, including the nature, extent and quality of such services, and (2) in light of the relevant circumstances for the fund and the extent to which economies of scale would be realized if the fund grows and whether fee levels reflect these economies of scale for the benefit of fund shareholders. Drevfus representatives also noted that, as a result of shared and allocated costs among funds in the Dreyfus fund complex, the extent of economies of scale could depend substantially on the level of assets in the complex as a whole, so that increases and decreases in complex-wide assets can affect potential economies of scale in a manner that is disproportionate to, or even in the opposite direction from, changes in the fund's asset level. The Board also considered potential benefits to Dreyfus and the Sub-Adviser from acting as investment adviser and sub-investment adviser, respectively, and noted the soft dollar arrangements in effect for trading the fund's investments.

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to the renewal of the Agreements. Based on the discussions and considerations as described above, the Board concluded and determined as follows.

- The Board concluded that the nature, extent and quality of the services provided by Dreyfus and the Sub-Adviser are adequate and appropriate.
- The Board was satisfied with the fund's performance.
- The Board concluded that the fees paid to Dreyfus and the Sub-Adviser were reasonable in light of the considerations described above.

• The Board determined that the economies of scale which may accrue to Dreyfus and its affiliates in connection with the management of the fund had been adequately considered by Dreyfus in connection with the fee rate charged to the fund pursuant to the Agreement and that, to the extent in the future it were determined that material economies of scale had not been shared with the fund, the Board would seek to have those economies of scale shared with the fund.

The Board considered these conclusions and determinations, along with information received on a routine and regular basis throughout the year. In addition, it should be noted that the Board's consideration of the contractual fee arrangements for this fund had the benefit of a number of years of reviews of prior or similar agreements during which lengthy discussions took place between the Board and Dreyfus representatives. Certain aspects of the arrangements may receive greater scrutiny in some years than in others, and the Board's conclusions may be based, in part, on their consideration of the same or similar arrangements in prior years. The Board determined that renewal of the Agreements was in the best interests of the fund and its shareholders.

## The Dreyfus Socially Responsible Growth Fund, Inc. The Fund

## A LETTER FROM THE CHAIRMAN AND CEO

Dear Shareholder:

We are pleased to present this semiannual report for The Dreyfus Socially Responsible Growth Fund, Inc., covering the six-month period from January 1, 2012, through June 30, 2012. For information about how the fund performed during the reporting period, as well as general market perspectives, we provide a Discussion of Fund Performance on the pages that follow.

Economic optimism helped drive stock prices higher in early 2012 when investors responded positively to improving U.S. employment trends and measures by European policymakers to address the region's sovereign debt crisis. However, political developments later raised doubts about some of Europe's proposed solutions, and U.S. economic data weakened in the spring. Consequently, U.S. stocks gave back their previous gains, and most major market indices ended the first half of the year close to where they began.

Despite the recent downturn in market sentiment, we believe the U.S. and global economies are likely to remain on mildly upward trajectories. In our judgment, current sluggishness is at least partly due to the lagging effects of tighter monetary policies in some areas of the world, and we expect stronger growth when a shift to more accommodative policies begins to have an impact on global economic activity. In addition, the adjustment among U.S. exporters to weaker European demand and slower economic growth in certain emerging markets should be largely completed later this year, setting the stage for better business conditions in 2013.

As always, we encourage you to discuss our observations with your financial advisor.

Thank you for your continued confidence and support.

Sincerely,

Jonathan R. Baum Chairman and Chief Executive Officer The Dreyfus Corporation July 16, 2012

## DISCUSSION OF FUND PERFORMANCE

For the period of January 1, 2012, through June 30, 2012, as provided by Jocelin Reed, Warren Chiang, C. Wesley Boggs and Ronald Gala, Portfolio Managers

## Market and Fund Performance Overview

For the six-month period ended June 30, 2012, The Dreyfus Socially Responsible Growth Fund's Initial shares produced a total return of 8.27%, and the fund's Service shares returned 8.15%.<sup>1</sup> In comparison, the fund's benchmark, the Standard & Poor's 500 Composite Stock Price Index ("S&P 500 Index"), produced a total return of 9.48% for the same period.<sup>2</sup>

Mixed economic data fueled heightened market volatility as gains over the first quarter of 2012 were partly offset by declines during the second quarter. The fund produced lower returns than its benchmark, chiefly due to shortfalls in the consumer discretionary and information technology sectors.

### The Fund's Investment Approach

The fund seeks capital growth, with current income as a secondary objective. To pursue these goals, the fund invests at least 80% of its assets in the common stocks of companies that, in our opinion, meet traditional investment standards while simultaneously conducting their businesses in a manner that contributes to the enhancement of the quality of life in America. In selecting stocks, we use quantitative research to identify and rank stocks within an industry or sector. Next, using fundamental analysis, we designate the most attractive of the higher ranked securities as potential purchase candidates. We then evaluate whether each company meets the fund's socially responsible investment criteria in order to determine whether the company is eligible for purchase or retention by the fund. With respect to those eligible securities, we then select investments that we consider to be the most attractive based on financial considerations.

The fund normally focuses on large-cap growth stocks; however, the fund also may invest in value-oriented stocks, midcap stocks and small-cap stocks.

#### Macroeconomic Developments Fueled Market Volatility

The first quarter of 2012 began with a strong rally among U.S. stocks amid employment gains and other encouraging domestic economic news. In addition, a quantitative easing program in Europe appeared to forestall a more severe banking crisis in the region, and monetary policymakers in China seemed to have engineered a "soft landing" and lower inflation in a major engine of global growth. Consequently, investors grew more tolerant of risks, and they turned their focus to companies expected to benefit from better business conditions worldwide.

However, these positive influences were called into question in the second quarter, when the U.S. labor market's rebound slowed as the public sector shed jobs and employment gains in the private sector proved more anemic than expected. Meanwhile, proposed austerity programs to relieve fiscal pressures in Europe encountered political resistance. These headwinds caused the S&P 500 Index to fall over the second quarter of the year, partly offsetting earlier gains.

### Security Selection Strategy Produced Mixed Results

In this challenging market environment, the fund suffered disappointments in the consumer discretionary sector. Although the sector fared relatively well for the benchmark, the fund's security selections dampened relative performance. Electronics retailer Best Buy reported weak quarterly earnings due to slower sales of entertainment products and sluggish demand in China. Office supplies seller Staples was hurt by falling paper sales and management turnover. Apparel chain Kohl's encountered inventory management issues and greater competitive pressures.

In the information technology sector, underweighted exposure to electronics innovator Apple dampened relative results, as did overweighted positions in hardware manufacturers Dell and Hewlett-Packard, which saw personal computer sales eroded by mobile devices. In the industrials sector, heavy equipment maker Caterpillar was hurt by the global economic slowdown, especially in the emerging markets. Finally, underweighted exposure to the financials sector prevented the fund from participating more fully in a rebound among large, diversified financial institutions.

The fund achieved better results in the consumer staples sector, where organic grocer Whole Foods Market benefited from more robust

spending by a relatively affluent customer base. In the health care sector, the fund scored success through an emphasis on biotechnology firms, such as Biogen Idec and Gilead Sciences, which was sold during the reporting period, and relatively light positions in traditional pharmaceutical developers.

#### Social Responsibility: Serving a Diverse Population

We take seriously our mandate to invest in socially responsible companies. One example is cosmetics maker Estee Lauder Companies, which has a history of diversity in its workforce and promotes a line of products specifically formulated for women of color. Moreover, Estee Lauder is a leader in the development of organic and healthy beauty products. These ventures are not just good social policy; they are sound business decisions as the company makes inroads into the emerging markets and a growing population of middle class consumers.

#### A Growth-Oriented Investment Posture

Our bottom-up security selection process has found a number of growth-oriented opportunities but fewer of the value-oriented variety, particularly among financial companies. In addition, we have favored companies with a presence in emerging markets. In our judgment, these strategies position the fund for potential market gains while managing risks.

July 16, 2012

Equity funds are subject generally to market, market sector, market liquidity, issuer and investment style risks, among other factors, to varying degrees, all of which are more fully described in the fund's prospectus.

The fund's socially responsible investment criteria may limit the number of investment opportunities available to the fund, and as a result, at times, the fund may produce more modest gains than funds that are not subject to such special investment considerations. The fund is only available as a funding vehicle under variable life insurance policies or variable

annuity contracts issued by insurance companies. Individuals may not purchase shares of the fund directly. A variable annuity is an insurance contract issued by an insurance company that enables investors to accumulate assets on a tax-deferred basis for retirement or other long-term goals.

- <sup>1</sup> Total return includes reinvestment of dividends and any capital gains paid. Past performance is no guarantee of future results. Share price and investment return fluctuate such that upon redemption, fund shares may be worth more or less than their original cost. The fund's performance does not reflect the deduction of additional charges and expenses imposed in connection with investing in variable insurance contracts, which will reduce returns.
- <sup>2</sup> SOURCE: LIPPER INC. Reflects reinvestment of dividends and, where applicable, capital gain distributions. The Standard & Poor's 500 Composite Stock Price Index is a widely accepted, unmanaged index of U.S. stock market performance. Investors cannot invest directly in any index.

## UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads), redemption fees and expenses associated with variable annuity or insurance contracts, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.

#### Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in The Dreyfus Socially Responsible Growth Fund, Inc. from January 1, 2012 to June 30, 2012. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

| Expenses and Value of a \$1,000 Investment<br>assuming actual returns for the six months ended June 30, 2012 |                |                |  |  |
|--|----------------|----------------|--|--|
|  | Initial Shares | Service Shares |  |  |
| Expenses paid per \$1,000†   | \$ 4.35        | \$ 5.74        |  |  |
| Ending value (after expenses)  | \$1,082.70     | \$1,081.50     |  |  |

## COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

#### Using the SEC's method to compare expenses

The Securities and Exchange Commission (SEC) has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to estimate your actual ending account balance and expenses paid during the period.

#### Expenses and Value of a \$1,000 Investment

assuming a hypothetical 5% annualized return for the six months ended June 30, 2012

|                               | Initial Shares | Service Shares |  |
|-------------------------------|----------------|----------------|--|
| Expenses paid per \$1,000+    | \$ 4.22        | \$ 5.57        |  |
| Ending value (after expenses) | \$1,020.69     | \$1,019.34     |  |

† Expenses are equal to the fund's annualized expense ratio of .84% for Initial Shares and 1.11% for Service Shares, multiplied by the average account value over the period, multiplied by 182/366 (to reflect the one-half year period).

## STATEMENT OF INVESTMENTS

June 30, 2012 (Unaudited)

| Common Stocks-99.5%                  | Shares    | Value (\$) |

## FINANCIAL HIGHLIGHTS

The following tables describe the performance for each share class for the fiscal periods indicated. All information (except portfolio turnover rate) reflects financial results for a single fund share. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. The fund's total returns do not reflect expenses associated with variable annuity or insurance contracts. These figures have been derived from the fund's financial statements.

## NOTES TO FINANCIAL STATEMENTS (Unaudited)

#### NOTE 1-Significant Accounting Policies:

The Dreyfus Socially Responsible Growth Fund, Inc. (the "fund") is registered under the Investment Company Act of 1940, as amended (the "Act"), as a diversified open-end management investment company. The fund's investment objective seeks to provide capital growth. The fund is only offered to separate accounts established by insurance companies to fund variable annuity contracts and variable life insurance policies. The Dreyfus Corporation (the "Manager" or "Dreyfus"), a wholly-owned subsidiary of The Bank of New York Mellon Corporation ("BNY Mellon"), serves as the fund's investment adviser.

MBSC Securities Corporation (the "Distributor"), a wholly-owned subsidiary of the Manager, is the distributor of the fund's shares, which are sold without a sales charge. The fund is authorized to issue 300 million shares of \$.001 par value Common Stock. The fund currently offers two classes of shares: Initial shares (150 million shares authorized) and Service shares (150 million shares authorized). Initial shares are subject to a shareholder services fee and Service shares are subject to a distribution fee. Each class of shares has identical rights and privileges, except with respect to the distribution plan, shareholder services plan and the expenses borne by each class, the allocation of certain transfer agency costs and certain voting rights. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification is the exclusive reference of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund's financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The fund enters into contracts that contain a variety of indemnifications. The fund's maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund's investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund's investments are as follows:

Investments in securities are valued at the last sales price on the securities exchange or national securities market on which such securities are primarily traded. Securities listed on the National Market System for which market quotations are available are valued at the official closing price or, if there is no official closing price that day, at the last sales price. Securities not listed on an exchange or the national securities market, or securities for which there were no transactions, are valued at the average of the most recent bid and asked prices, except for open short positions, where the asked price is used for valuation purposes. Bid price is used when no asked price is available. Registered investment companies that are not traded on an exchange are valued at their net asset value. All of the preceding securities are categorized within Level 1 of the fair value hierarchy.

Fair valuing of securities may be determined with the assistance of a pricing service using calculations based on indices of domestic securities and other appropriate indicators, such as prices of relevant ADRs and financial futures. Utilizing these techniques may result in transfers between Level 1 and Level 2 of the fair value hierarchy.

When market quotations or official closing prices are not readily available, or are determined not to reflect accurately fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded (for example, a foreign exchange or market), but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the fund's Board of Directors. Certain factors may be considered when fair valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized as Level 2 or 3 depending on the relevant inputs used.

For restricted securities where observable inputs are limited, assumptions about market activity and risk are used and are categorized within Level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of June 30, 2012 in valuing the fund's investments:

|                                 | Level 1-      | Level 2–Other<br>Significant | Level 3–<br>Significant |             |
|---------------------------------|---------------|------------------------------|-------------------------|-------------|
|                                 | Unadjusted    | Observable                   | Unobservable            |             |
|                                 | Quoted Prices | Inputs                       | Inputs                  | Total       |

| Equity Securities-              |               |                              |                         |             |
| Foreign+                        | 11,328,194    | -                            | -                       | 11,328,194  |
| Mutual Funds                    | 4,559,334     | -                            | -                       | 4,559,334   |

*†* See Statement of Investments for additional detailed categorizations.

For the period ended June 30, 2012, there were no transfers of exchange traded securities between Level 1 and Level 2 of the fair value hierarchy.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recognized on the ex-dividend date and interest income, including, where applicable, accretion of discount and amortization of premium on investments, is recognized on the accrual basis.

Pursuant to a securities lending agreement with The Bank of New York Mellon, a subsidiary of BNY Mellon and an affiliate of Dreyfus, the fund may lend securities to qualified institutions. It is the fund's policy

that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral equivalent to at least 100% of the market value of securities on loan is maintained at all times. At June 30, 2012, the value of the collateral was 99.2% of the market value of the securities on loan. The fund received additional collateral subsequent to period end which resulted in the market value of the collateral to be at least 100% of the market value of the securities on loan. Collateral is either in the form of cash, which can be invested in certain money market mutual funds managed by the Manager, U.S. Government and Agency securities or letters of credit. The fund is entitled to receive all income on securities loaned, in addition to income earned as a result of the lending transaction. Although each security loaned is fully collateralized, the fund bears the risk of delay in recovery of, or loss of rights in, the securities loaned should a borrower fail to return the securities in a timely manner. During the period ended June 30, 2012, The Bank of New York Mellon earned \$29,140 from lending portfolio securities, pursuant to the securities lending agreement.

(c) Affiliated issuers: Other investment companies advised by Dreyfus are considered to be "affiliated" with the fund.

The fund may invest in shares of certain affiliated investment companies also advised or managed by Dreyfus. Investments in affiliated investment companies for the period ended June 30, 2012 were as follows:

| Affiliated<br>Investment<br>Company                                   | Value<br>12/31/2011 (\$) | Purchases (\$) | Sales (\$) | Value<br>6/30/2012 (\$) | Net<br>Assets (%) |
|---|--------------------------|----------------|------------|-------------------------|-------------------|
| Dreyfus<br>Institutional<br>Preferred<br>Plus Money<br>Market<br>Fund | 1,532,244                | 9,167,347      | 9,412,477  | 1,287,114               | .6                |
| Dreyfus<br>Institutional<br>Cash<br>Advantage<br>Fund                 | 8.730.754                | 49.677.072     | 55.135.606 | 3.272.220               | 1.5               |
|   |                          |                |            |                         |                   |
| Total   | 10,262,998               | 58,844,419     | 64,548,083 | 4,559,334               | 2.1               |

(d) Dividends to shareholders: Dividends are recorded on the exdividend date. Dividends from investment income-net and dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

(e) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interests of its shareholders, by complying with the applicable provisions of the Code, and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended June 30, 2012, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period, the fund did not incur any interest or penalties.

Each of the tax years in the three-year period ended December 31, 2011 remains subject to examination by the Internal Revenue Service and state taxing authorities.

Under the Regulated Investment Company Modernization Act of 2010 (the "2010 Act"), the fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 ("post-enactment losses") for an unlimited period. Furthermore, post-enactment capital loss carryovers retain their character as either short-term or long-term capital losses rather than short-term as they were under previous statute. The 2010 Act requires post-enactment losses to be utilized before the utilization of losses incurred in taxable years prior to the effective date of the 2010 Act ("pre-enactment losses"). As a result of this ordering rule, pre-enactment losses may be more likely to expire unused.

The fund has an unused capital loss carryover of \$9,706,774 available for federal income tax purposes to be applied against future net realized capital gains, if any, realized subsequent to December 31, 2011. If not applied, the carryover expires in fiscal year 2017.

The tax character of distributions paid to shareholders during the fiscal year ended December 31, 2011was as follows: ordinary income \$2,035,303. The tax character of current year distributions will be determined at the end of the current fiscal year.

## NOTE 2-Bank Lines of Credit:

The fund participates with other Dreyfus-managed funds in a \$225 million unsecured credit facility led by Citibank, N.A. and a \$300 million unsecured credit facility provided by The Bank of New York Mellon (each, a "Facility"), each to be utilized primarily for temporary or emergency purposes, including the financing of redemptions. In connection therewith, the fund has agreed to pay its pro rata portion of commitment fees for each Facility. Interest is charged to the fund based on rates determined pursuant to the terms of the respective Facility at the time of borrowing.

The average amount of borrowings outstanding under the Facilities during the period ended June 30, 2012, was approximately \$24,200 with a related weighted average annualized interest rate of 1.18%.

## NOTE 3-Management Fee and Other Transactions With Affiliates:

(a) Pursuant to a management agreement with the Manager, the management fee is computed at the annual rate of .75% of the value of the fund's average daily net assets and is payable monthly.

(b) Under the Distribution Plan (the "Plan") adopted pursuant to Rule 12b-1 under the Act, Service shares pay the Distributor for distributing its shares, for servicing and/or maintaining Service shares' shareholder accounts and for advertising and marketing for Service shares. The Plan

provides for payments to be made at an annual rate of .25% of the value of the Service shares' average daily net assets. The Distributor may make payments to Participating Insurance Companies and to brokers and dealers acting as principal underwriter for their variable insurance products. The fees payable under the Plan are payable without regard to actual expenses incurred. During the period ended June 30, 2012, Service shares were charged \$8,236 pursuant to the Plan.

(c) Under the Shareholder Services Plan, Initial shares reimburse the Distributor an amount not to exceed an annual rate of .25% of the value of the Initial shares average daily net assets for certain allocated expenses with respect to servicing and/or maintaining Initial shares shareholder accounts.

The fund compensates Dreyfus Transfer, Inc., a wholly-owned subsidiary of the Manager, under a transfer agency agreement for providing personnel and facilities to perform transfer agency and cash management services for the fund. During the period ended June 30, 2012, the fund was charged \$548 pursuant to the transfer agency agreement, which is included in Shareholder servicing costs in the Statement of Operations.

The fund compensates The Bank of New York Mellon under a custody agreement for providing custodial services for the fund. During the period ended June 30, 2012, the fund was charged \$8,997 pursuant to the custody agreement.

The fund has arrangements with the transfer agent and the custodian whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset transfer agency and custody fees. For financial reporting purposes, the fund includes net earnings credits as an expense offset in the Statement of Operations.

Prior to May 29, 2012, the fund compensated The Bank of New York Mellon under a cash management agreement for performing cash management services related to fund subscriptions and redemptions. During the period ended June 30, 2012, the fund was charged \$89 pursuant to the cash management agreement, which is included in Shareholder servicing costs in the Statement of Operations. These fees were partially offset by earnings credits of \$4.

During the period ended June 30, 2012, the fund was charged \$3,183 for services performed by the Chief Compliance Officer and his staff.

The components of "Due to The Dreyfus Corporation and affiliates" in the Statement of Assets and Liabilities consist of: management fees \$132,279, Shareholder Services Plan fees \$6,000, Plan fees \$1,276, custodian fees \$4,185, Chief Compliance Officer fees \$3,183 and transfer agency per account fees \$440.

(d) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

#### NOTE 4-Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities, during the period ended June 30, 2012, amounted to \$58,411,528 and \$68,165,791, respectively.

At June 30, 2012, accumulated net unrealized appreciation on investments was \$21,018,873, consisting of \$32,032,686 gross unrealized appreciation and \$11,013,813 gross unrealized depreciation.

At June 30, 2012, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments). NOTES

#### Dreyfus Investment Portfolios, Technology Growth Portfolio The Fund

#### A LETTER FROM THE CHAIRMAN AND CEO

Dear Shareholder:

We are pleased to present this semiannual report for Dreyfus Investment Portfolios, Technology Growth Portfolio, covering the six-month period from January 1, 2012, through June 30, 2012. For information about how the fund performed during the reporting period, as well as general market perspectives, we provide a Discussion of Fund Performance on the pages that follow.

Economic optimism helped drive stock prices higher in early 2012 when investors responded positively to improving U.S. employment trends and measures by European policymakers to address the region's sovereign debt crisis. However, political developments later raised doubts about some of Europe's proposed solutions, and U.S. economic data weakened in the spring. Consequently, U.S. stocks gave back their previous gains, and most major market indices ended the first half of the year close to where they began.

Despite the recent downturn in market sentiment, we believe the U.S. and global economies are likely to remain on mildly upward trajectories. In our judgment, current sluggishness is at least partly due to the lagging effects of tighter monetary policies in some areas of the world, and we expect stronger growth when a shift to more accommodative policies begins to have an impact on global economic activity. In addition, the adjustment among U.S. exporters to weaker European demand and slower economic growth in certain emerging markets should be largely completed later this year, setting the stage for better business conditions in 2013.

As always, we encourage you to discuss our observations with your financial advisor.

Thank you for your continued confidence and support.

Sincerely,

Jonathan R. Baum Chairman and Chief Executive Officer The Dreyfus Corporation July 16, 2012

# DISCUSSION OF FUND PERFORMANCE

For the period of January 1, 2012, through June 30, 2012, as provided by Barry K. Mills, CFA, Portfolio Manager

#### Fund and Market Performance Overview

For the six-month period ended June 30, 2012, Dreyfus Investment Portfolios, Technology Growth Portfolio's Initial shares produced a total return of 11.11%, and its Service shares produced a total return of 10.98%.<sup>1</sup> The fund's benchmarks, the Morgan Stanley High Technology 35 Index ("MS High Tech 35 Index") and the Standard & Poor's 500 Composite Stock Price Index ("S&P 500 Index"), produced total returns of 10.25% and 9.48%, respectively, over the same period.<sup>2,3</sup>

Mixed economic data fueled heightened market volatility as gains over the first quarter of 2012 were offset to a degree by declines during the second quarter. The fund produced higher returns than its benchmark, mainly due to the success of our security selection strategy among wireless communications technology providers.

#### The Fund's Investment Approach

The fund seeks capital appreciation. To pursue this goal the fund normally invests at least 80% of its net assets in the stocks of growth companies of any size that Dreyfus believes to be leading producers or beneficiaries of technological innovation. In choosing stocks, the fund looks for technology companies with the potential for strong earnings or revenue growth rates, although some of the fund's investments may currently be experiencing losses. The fund's investment process centers on a multi-dimensional approach that looks for opportunities across emerging growth, cyclical or stable growth companies. The fund's investment approach seeks companies that appear to have strong earnings momentum, positive earnings revisions, favorable growth, product or market cycles and/or favorable valuations.

#### Macroeconomic Developments Fueled Market Volatility

The reporting period began with a strong rally among U.S. stocks amid employment gains and other encouraging domestic economic news. In addition, a quantitative easing program in Europe appeared to forestall a

#### DISCUSSION OF FUND PERFORMANCE (continued)

more severe banking crisis in the region, and monetary policymakers in China seemed to have engineered a "soft landing" and lower inflation in a major engine of global growth. Consequently, investors grew more tolerant of risks during the first quarter of 2012, and they focused on global companies expected to benefit from better business conditions. However, these positive influences were called into question in the second quarter, when the U.S. labor market's rebound slowed. At the same time, measures designed to relieve fiscal pressures in Europe encountered political resistance, threatening proposed bailout programs. These headwinds caused most stock market averages, including the S&P 500 Index, to fall over the second quarter of the year, partly offsetting previous gains.

Volatility in the technology sector was fueled by the ongoing trend toward cloud computing and mobile devices, as some companies led the new technologies' advance while others were slow to adapt to the changing marketplace. In addition, some technology firms struggled with reduced business spending in the uncertain economic climate.

#### Security Selection Strategy Buoyed Fund Results

Strong stock selections among wireless communications companies enabled the fund to participate fully in the technology market's gains. For example, the fund avoided wireless handset maker Nokia, which continued to struggle with disappointing new smartphone products. Semiconductor maker Skyworks Solutions encountered rising demand as handset manufacturers introduced products using 4G wireless service. Electronics innovator Apple continued to score successes with its smartphone and tablet computer products. Among landline technology providers, communications networking equipment provider Ciena advanced in anticipation of optical upgrades to wired telephone networks. Conversely, the fund benefited from lack of exposure to communications networking equipment maker Juniper Networks, which struggled with reduced capital spending by carriers.

As is to be expected from a broad-based technology portfolio, some holdings produced relatively disappointing results over the first half of 2012. Video game developer Electronic Arts reported weaker-than-expected earnings stemming from the disappointing launch of a new product. Memory specialist *SanDisk* suffered through bouts of weak flash memory prices. Disk drive maker *Seagate Technology* encountered a glut of unsold inventory when production resumed after floods in Thailand. Internet traffic facilitator Akamai Technologies reduced its profit forecast in light of higher-than-expected capital and operating spending to meet growing demand. Online media giant Google grappled with a difficult transition from PC-based products to mobile applications. The fund also did not participate in relatively strong returns from global commerce platform eBay, which fared well due to strong results in its PayPal electronic payments division.

#### Positioned for Continued Volatility

While we remain concerned regarding sluggish U.S. economic growth and continued turmoil in Europe, we believe that a number of positive, secular technology trends remain intact. Adoption of cloud computing technologies has accelerated, and the increased popularity of more sophisticated wireless devices is likely to benefit companies all along the industry's supply chain. On the other hand, we have found relatively few opportunities among companies selling legacy technologies such as personal computers and traditional wireless handsets.

July 16, 2012

Please note, the position in any security highlighted with italicized typeface was sold during the reporting period.

The fund's share price is likely to be more volatile than that of other funds that do not concentrate in one sector. The technology sector involves special risks, such as the faster rate of change and obsolescence of technological advances, and has been among the most volatile sectors of the stock market.

Equity funds are subject generally to market, market sector, market liquidity, issuer and investment style risks, among other factors, to varying degrees, all of which are more fully described in the fund's prospectus.

The fund is only available as a funding vehicle under variable life insurance policies or variable annuity contracts issued by insurance companies. Individuals may not purchase shares of the fund directly. A variable annuity is an insurance contract issued by an insurance company that enables investors to accumulate assets on a tax-deferred basis for retirement or other long-term goals.

- <sup>1</sup> Total return includes reinvestment of dividends and any capital gains paid. Past performance is no guarantee of future results. Share price and investment return fluctuate such that upon redemption, fund shares may be worth more or less than their original cost. The fund's performance does not reflect the deduction of additional charges and expenses imposed in connection with investing in variable insurance contracts, which will reduce returns.
- <sup>2</sup> SOURCE: BLOOMBERG L.P.— Reflects reinvestment of net dividends and, where applicable, capital gain distributions. The Morgan Stanley High Technology 35 Index is an unmanaged, equal dollar-weighted index of 35 stocks from the electronics-based subsectors. Investors cannot invest directly in any index.
- <sup>3</sup> SOURCE: LIPPER INC. Reflects monthly reinvestment of dividends and, where applicable, capital gain distributions. The Standard & Poor's 500® Composite Stock Price Index is a widely accepted, unmanaged index of U.S. stock market performance. Investors cannot invest directly in any index.

#### UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads), redemption fees and expenses associated with variable annuity or insurance contracts, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.

#### Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in Dreyfus Investment Portfolios, Technology Growth Portfolio from January 1, 2012 to June 30, 2012. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

| Expenses and Value of a \$1,000 Investment<br>assuming actual returns for the six months ended June 30, 2012 |                |                |  |  |  |
|--|----------------|----------------|--|--|--|
|  | Initial Shares | Service Shares |  |  |  |
| Expenses paid per \$1,000+   | \$ 4.36        | \$ 5.67        |  |  |  |
| Ending value (after expenses)  | \$1,111.10     | \$1,109.80     |  |  |  |

### COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

#### Using the SEC's method to compare expenses

The Securities and Exchange Commission (SEC) has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to help you make this comparison. Please note that you cannot use this information to estimate your actual ending account balance and expenses paid during the period.

#### Expenses and Value of a \$1,000 Investment

assuming a hypothetical 5% annualized return for the six months ended June 30, 2012

|                               | Initial Shares | Service Shares |  |
|-------------------------------|----------------|----------------|--|
| Expenses paid per \$1,000+    | \$ 4.17        | \$ 5.42        |  |
| Ending value (after expenses) | \$1,020.74     | \$1,019.49     |  |

† Expenses are equal to the fund's annualized expense ratio of .83% for Initial Shares and 1.08% for Service Shares, multiplied by the average account value over the period, multiplied by 182/366 (to reflect the one-half year period).

# FINANCIAL HIGHLIGHTS

The following tables describe the performance for each share class for the fiscal periods indicated. All information (except portfolio turnover rate) reflects financial results for a single fund share. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. The fund's total returns do not reflect expenses associated with variable annuity or insurance contracts. These figures have been derived from the fund's financial statements.

#### NOTES TO FINANCIAL STATEMENTS (Unaudited)

#### NOTE 1-Significant Accounting Policies:

Dreyfus Investment Portfolios (the "Company") is registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company, operating as a series company, currently offering four series, including the Technology Growth Portfolio (the "fund"). The fund is only offered to separate accounts established by insurance companies to fund variable annuity contracts and variable life insurance policies. The fund is a diversified series. The fund's investment objective is to seek capital appreciation. The Dreyfus Corporation (the "Manager" or "Dreyfus"), a whollyowned subsidiary of The Bank of New York Mellon Corporation ("BNY Mellon"), serves as the fund's investment adviser.

MBSC Service Corporation (the "Distributor"), a wholly-owned subsidiary of the Manager, is the distributor of the fund's shares, which are sold without a sales charge. The fund is authorized to issue an unlimited number of \$.001 par value shares of Beneficial Interest in each of the following classes of shares: Initial and Service. Each class of shares has identical rights and privileges, except with respect to the distribution plan, the expenses borne by each class, the allocation of certain transfer agency costs and certain voting rights. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets.

The Company accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification is the exclusive reference of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund's financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Company enters into contracts that contain a variety of indemnifications. The fund's maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund's investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund's investments are as follows:

Investments in securities are valued at the last sales price on the securities exchange or national securities market on which such securities are primarily traded. Securities listed on the National Market System for which market quotations are available are valued at the official closing price or, if there is no official closing price that day, at the last sales price. Securities not listed on an exchange or the national securities market, or securities for which there were no transactions, are valued at the average of the most recent bid and asked prices, except for open short positions, where the asked price is used for valuation purposes. Bid price is used when no asked price is available. Registered investment companies that are not traded on an exchange are valued at their net asset value. All of the preceding securities are categorized within Level 1 of the fair value hierarchy.

Fair valuing of securities may be determined with the assistance of a pricing service using calculations based on indices of domestic securities and other appropriate indicators, such as prices of relevant ADRs and financial futures. Utilizing these techniques may result in transfers between Level 1 and Level 2 of the fair value hierarchy.

When market quotations or official closing prices are not readily available, or are determined not to reflect accurately fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded (for example, a foreign exchange or market), but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the Company's Board of Trustees. Certain factors may be considered when fair valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized as Level 2 or 3 depending on the relevant inputs used.

For restricted securities where observable inputs are limited, assumptions about market activity and risk are used and are categorized within Level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of June 30, 2012 in valuing the fund's investments:

|                                 | Level 1–      | Level 2–Other<br>Significant | Level 3–<br>Significant |             |
|---------------------------------|---------------|------------------------------|-------------------------|-------------|
|                                 | Unadjusted    | Observable                   | Unobservable            |             |
|                                 | Quoted Prices | Inputs                       | Inputs                  | Total       |

| Mutual Funds                    | 18,410,572    | -                            | -                       | 18,410,572  |

† See Statement of Investments for additional detailed categorizations.

For the period ended June 30, 2012, there were no transfers of exchange traded securities between Level 1 and Level 2 of the fair value hierarchy.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recognized on the ex-dividend date and interest income, including, where applicable, accretion of discount and amortization of premium on investments, is recognized on the accrual basis.

Pursuant to a securities lending agreement with The Bank of New York Mellon, a subsidiary of BNY Mellon and an affiliate of Dreyfus, the fund may lend securities to qualified institutions. It is the fund's policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral equivalent to at least 100% of the market value of securities on loan is maintained at all times. At June 30, 2012, the value of the collateral was 98.6% of the market value of the securities on loan. The fund received additional collateral subsequent to period end which resulted in the market value of the collateral to be at least 100% of the market value of the securities on loan. Collateral is either in the form of cash, which can be invested in certain money market mutual funds managed by the Manager, U.S. Government and Agency securities or letters of credit. The fund is entitled to receive all income on securities loaned, in addition to income earned as a result of the lending transaction. Although each security loaned is fully collateralized, the fund bears the risk of delay in recovery of, or loss of rights in, the securities loaned should a borrower fail to return the securities in a timely manner. During the period ended June 30, 2012, The Bank of New York Mellon earned \$3,731 from lending portfolio securities, pursuant to the securities lending agreement.

(c) Affiliated issuers: Other investment companies advised by Dreyfus are considered to be "affiliated" with the fund.

The fund may invest in shares of certain affiliated investment companies also advised or managed by Dreyfus. Investments in affiliated investment companies for the period ended June 30, 2012 were as follows:

| Affiliated<br>Investment<br>Company                                   | Value<br>12/31/2011 (\$) | Purchases (\$) | Sales (\$)  | Value<br>6/30/2012 (\$) | Net<br>Assets (%) |
|---|--------------------------|----------------|-------------|-------------------------|-------------------|
| Dreyfus<br>Institutional<br>Preferred<br>Plus Money<br>Market<br>Fund | 4,277,772                | 58,136,025     | 55,704,253  | 6,709,544               | 2.9               |
| Dreyfus<br>Institutional<br>Cash<br>Advantage<br>Fund                 | 66,944                   | 70,838,022     | 59,203,938  | 11,701,028              | 5.1               |
| Total   | 4,344,716                | 128,974,047    | 114,908,191 | 18,410,572              | 8.0               |

(d) Dividends to shareholders: Dividends are recorded on the exdividend date. Dividends from investment income-net and dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

(e) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interests of its shareholders, by complying with the applicable provisions of the Code, and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended June 30, 2012, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period, the fund did not incur any interest or penalties.

Each of the tax years in the three-year period ended December 31, 2011 remains subject to examination by the Internal Revenue Service and state taxing authorities.

Under the Regulated Investment Company Modernization Act of 2010 (the "2010 Act"), the fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 ("post-enactment losses") for an unlimited period. Furthermore, post-enactment capital loss carryovers retain their character as either short-term or long-term capital losses rather than short-term as they were under previous statute. The 2010 Act requires post-enactment losses to be utilized before the utilization of losses incurred in taxable years prior to the effective date of the 2010 Act ("pre-enactment losses"). As a result of this ordering rule, pre-enactment losses may be more likely to expire unused.

The fund has an unused capital loss carryover of \$21,178,618 available for federal income tax purposes to be applied against future net realized capital gains, if any, realized subsequent to December 31, 2011. If not applied, \$6,076,376 of the carryover expires in fiscal year 2016 and \$15,102,242 expires in fiscal year 2017.

#### NOTE 2-Bank Lines of Credit:

The fund participates with other Dreyfus-managed funds in a \$225 million unsecured credit facility led by Citibank, N.A. and a \$300 million unsecured credit facility provided by The Bank of New York Mellon (each, a "Facility"), each to be utilized primarily for temporary or emergency purposes, including the financing of redemptions. In connection therewith, the fund has agreed to pay its pro rata portion of commitment fees for each Facility. Interest is charged to the fund based on rates determined pursuant to the terms of the respective Facility at the time of borrowing. During the period ended June 30, 2012, the fund did not borrow under the Facilities.

# NOTE 3-Management Fee and Other Transactions With Affiliates:

(a) Pursuant to an a management agreement with the Manager, the a management fee is computed at the annual rate of .75% of the value of the fund's average daily net assets and is payable monthly.

(b) Under the Distribution Plan (the "Plan") adopted pursuant to Rule 12b-1 under the Act, Service shares pay the Distributor for distributing its shares, for servicing and/or maintaining Service shares' shareholder accounts and for advertising and marketing for Service shares'. The Plan provides for payments to be made at an annual rate of .25% of the value of the Service shares' average daily net assets. The Distributor may make payments to Participating Insurance Companies and to brokers and dealers acting as principal underwriter for their variable insurance products. The fees payable under the Plan are payable without regard to actual expenses incurred. During the period ended June 30, 2012, Service shares were charged \$182,829 pursuant to the Plan.

The fund compensates Dreyfus Transfer, Inc., a wholly-owned subsidiary of the Manager, under a transfer agency agreement for providing personnel and facilities to perform transfer agency and cash management services for the fund. During the period ended June 30, 2012, the fund was charged \$337 pursuant to the transfer agency agreement, which is included in Shareholder servicing costs in the Statement of Operations.

The fund compensates The Bank of New York Mellon under a custody agreement for providing custodial services for the fund. During the period ended June 30, 2012, the fund was charged \$8,332 pursuant to the custody agreement.

The fund has arrangements with the transfer agent and custodian whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset transfer agency and custody fees. For financial reporting purposes, the fund includes net earnings credits as an expense offset in the Statement of Operations.

Prior to May 29, 2012, the fund compensated The Bank of New York Mellon under a cash management agreement for performing cash management services related to fund subscriptions and redemptions. During the period ended June 30, 2012, the fund was charged \$40 pursuant to the cash management agreement, which is included in Shareholder servicing costs in the Statement of Operations. These fees were partially offset by earnings credits of \$2.

During the period ended June 30, 2012, the fund was charged \$3,183 for services performed by the Chief Compliance Officer and his staff.

The components of "Due to The Dreyfus Corporation and affiliates" in the Statement of Assets and Liabilities consist of: management fees \$138,188, Plan fees \$29,635, custodian fees \$4,200, Chief Compliance Officer fees \$3,183 and transfer agency per account fees \$220.

(c) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

#### NOTE 4-Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities, during the period ended June 30, 2012, amounted to \$95,913,090 and \$89,044,230, respectively.

At June 30, 2012, accumulated net unrealized appreciation on investments was \$29,379,570, consisting of \$37,665,255 gross unrealized appreciation and \$8,285,685 gross unrealized depreciation.

At June 30, 2012, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments).

# IMPORTANT NOTES TO PERFORMANCE INFORMATION

Performance data is historical and cannot predict or guarantee future results. Principal value and investment return will fluctuate with market conditions, and you may have a gain or loss when you withdraw your money. Inception dates of the funds may have preceded the effective dates of the subaccounts, contracts, or their availability in all states.

When reviewing the index comparisons, please keep in mind that indexes have a number of inherent performance differentials over the funds. First, unlike the funds, which must hold a minimum amount of cash to maintain liquidity, indexes do not have a cash component. Second, the funds are actively managed and, thus, are subject to management fees to cover salaries of securities analysts or portfolio managers in addition to other expenses. Indexes are unmanaged and do not include any commissions or other expenses typically associated with investing in securities. Third, indexes often contain a different mix of securities than the fund to which they are compared. Additionally, please remember that indexes are simply a measure of performance and cannot be invested in directly.

# This semiannual report for Franklin Growth and Income Securities Fund covers the period ended June 30, 2012.

# Performance Summary as of 6/30/12

Franklin Growth and Income Securities Fund – Class 2 delivered a +5.66% total return for the six-month period ended 6/30/12.

Performance reflects the Fund's Class 2 operating expenses, but does **not** include any contract fees, expenses or sales charges. If they had been included, performance would be lower. These charges and deductions, particularly for variable life policies, can have a significant effect on contract values and insurance benefits. See the contract prospectus for a complete description of these expenses, including sales charges.

### Franklin Growth and Income Securities Fund Class 2

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. Fund Risks: All investments involve risks, including possible loss of principal. Stock prices fluctuate, sometimes rapidly and dramatically, due to factors affecting individual companies, *particular industries or sectors*, or general market conditions. Convertible securities are subject to the risks of stocks when the underlying stock price is high relative to the conversion price and debt securities when the underlying stock price is low relative to the conversion price. The Fund's investment in foreign securities also involves special risks, including currency fluctuations and economic as well as political uncertainty. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results. The Fund's prospectus also includes a description of the main investment risks.

Fund Goals and Main Investments: Franklin Growth and Income Securities Fund seeks capital appreciation with current income as a secondary goal. Under normal market conditions, the Fund invests predominantly in equity securities, including securities convertible into common stock.

#### **Performance Overview**

You can find the Fund's six-month total return in the Performance Summary. The Fund underperformed its benchmark, the Standard & Poor's<sup>®</sup> 500 Index (S&P 500<sup>®</sup>), which produced a +9.49% total return.<sup>1</sup> The Fund also underperformed its peers as measured by the Lipper VIP Equity Income Funds Classification Average, which posted a +7.33% return for the same period.<sup>2</sup>

#### **Economic and Market Overview**

The U.S. economy, as measured by gross domestic product, grew modestly during the six-month period ended June 30, 2012. In the first quarter, personal income and spending rose, while federal, state and local government spending declined. The national unemployment rate for June 2012 stood at 8.2%, compared with 8.5% at the start of the period.<sup>3</sup> Jobless claims touched a four-year low in February amid robust job creation; however, hiring slowed during the remainder of the period and jobless claims at period-end reached January's level. Industrial production and manufacturing activity continued to increase, but the manufacturing sector shrank unexpectedly in June. Although gasoline prices hit a peak in early April, they plunged to a five-month low near period-end due to lower crude oil prices. In keeping with its goal to strengthen U.S. economic recovery by fostering increased employment while keeping inflation in check, during June the Federal Reserve Board (Fed) extended through 2012 its program (dubbed Operation Twist) to buy long-term Treasuries in an attempt to lower long-term yields. The Fed also reaffirmed its intention to keep the federal funds target rate low at least through late 2014.

During late March and early April 2012, improved economic reports helped U.S. stock markets reach multi-year highs. The Dow Jones Industrial Average exceeded 13,000 and the S&P 500 topped 1,400 for the first time since 2008, while the NASDAQ Composite Index hit an 11-year high.<sup>4</sup> Global markets grew volatile, however, amid renewed

<sup>4.</sup> Please see Index Descriptions following the Fund Summaries.

concerns about eurozone debt and slowing global economic growth. Fears of a Greek debt default and exit from the eurozone were somewhat mitigated by secured bailout financing and bondholder concessions in February, as well as elections in May and June that resulted in the formation of a new coalition government. Risk-averse investors seeking safety drove U.S. Treasury yields to historical lows during the period.

At the end of the reporting period, significant challenges to the U.S. economy remained, including weak jobs reports, lack of broad public and political agreement on how to achieve U.S. deficit reduction, and uncertainty surrounding deeply indebted European countries including Greece, Italy and Spain. Signs of China's economic growth slowdown further contributed to pessimism. Although long-term resolution of European debt issues remained unclear, the European Central Bank's latest plan to allow the European Stability Mechanism to directly recapitalize troubled banks throughout the eurozone, as well as a late-June proposal leaning toward fiscal and banking union, supported cautious optimism in U.S. and global markets.

#### **Investment Strategy**

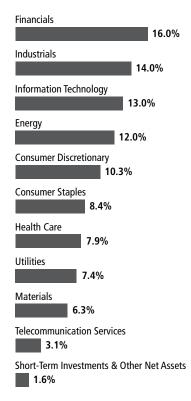

We seek to invest in a broadly diversified portfolio of equity securities that we consider to be financially strong, with a focus on "blue chip" companies. We apply a bottom-up approach to investing in individual securities. We will assess the market price of a company's securities relative to our evaluation of the company's long-term earnings, asset value and cash flow potential. We also consider a company's price/ earnings ratio, profit margins, balance sheet and liquidation value. We consider dividend yield in selecting stocks for the Fund because we believe that, over time, dividend income can contribute significantly to total return and can be a more consistent source of investment return than capital appreciation. We seek to take advantage of price dislocations that result from the market's short-term focus and choose to invest in those companies that, in our opinion, offer the best trade-off between growth opportunity, business and financial risk, and valuation.

#### **Manager's Discussion**

The Fund's absolute performance during the first six months of 2012 was aided primarily by its investments in the financials, industrials and consumer discretionary sectors. Within the financials sector, diversified financial services provider Well Fargo & Co. was a standout performer, driven in part by a surge in mortgage banking. Investment firm T. Rowe

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Statement of Investments. Price Group was another notable contributor. Among industrials stocks, trucking and transportation company J.B. Hunt Transport Services performed well, as did our holdings in multinational conglomerates General Electric and 3M. The Fund's consumer discretionary holdings, including cable television, Internet and phone service provider Comcast; discount retailer Target; and home-improvement chain Lowe's also boosted results.

The only sector held in the Fund that detracted from absolute performance during the period was the energy sector. Our energy-related equity linked securities issued by JPMorgan Chase and Credit Suisse as well as our holdings in major oil producers Chesapeake Energy and Royal Dutch Shell declined in value as oil prices became volatile. Other individual holdings that detracted from performance included network equipment maker Cisco Systems in information technology and sports apparel maker NIKE in consumer discretionary.

Thank you for your participation in Franklin Growth and Income Securities Fund. We look forward to serving your future investment needs.

The foregoing information reflects our analysis, opinions and portfolio holdings as of June 30, 2012, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

# **Fund Expenses**

As an investor in a variable insurance contract (Contract) that indirectly provides for investment in an underlying mutual fund, you can incur transaction and/or ongoing expenses at both the Fund level and the Contract level.

- Transaction expenses can include sales charges (loads) on purchases, surrender fees, transfer fees and premium taxes.
- Ongoing expenses can include management fees, distribution and service (12b-1) fees, contract fees, annual maintenance fees, mortality and expense risk fees and other fees and expenses. All mutual funds and Contracts have some types of ongoing expenses.

The expenses shown in the table are meant to highlight ongoing expenses at the Fund level only and do not include ongoing expenses at the Contract level, or transaction expenses at either the Fund or Contract levels. While the Fund does not have transaction expenses, if the transaction and ongoing expenses at the Contract level were included, the expenses shown below would be higher. You should consult your Contract prospectus or disclosure document for more information.

The table shows Fund-level ongoing expenses and can help you understand these expenses and compare them with those of other mutual funds offered through the Contract. The table assumes a \$1,000 investment held for the six months indicated. Please refer to the Fund prospectus for additional information on operating expenses.

# **Actual Fund Expenses**

The first line (Actual) of the table provides actual account values and expenses. The "Ending Account Value" is derived from the Fund's actual return, which includes the effect of ongoing Fund expenses, but does not include the effect of ongoing Contract expenses.

You can estimate the Fund-level expenses you incurred during the period by following these steps. *Of course, your account value and expenses will differ from those in this illustration:* 

- 1. Divide your account value by \$1,000. *If an account had an \$8,600 value, then \$8,600 ÷ \$1,000 = 8.6.*
- 2. Multiply the result by the number under the heading "Fund-Level Expenses Incurred During Period."
  If Fund-Level Expenses Incurred During Period were \$7.50, then
  8.6 x \$7.50 = \$64.50.

In this illustration, the estimated expenses incurred this period at the Fund level are \$64.50.

Franklin Growth and Income Securities Fund Class 2

# Hypothetical Example for Comparison with Other Mutual Funds

Information in the second line (Hypothetical) of the table can help you compare ongoing expenses of the Fund with those of other mutual funds offered through the Contract. This information may not be used to estimate the actual ending account balance or expenses you incurred during the period. The hypothetical "Ending Account Value" is based on the Fund's actual expense ratio and an assumed 5% annual rate of return before expenses, which does not represent the Fund's actual return. The figure under the heading "Fund-Level Expenses Incurred During Period" shows the hypothetical expenses your account would have incurred under this scenario. You can compare this figure with the 5% hypothetical examples that appear in shareholder reports of other funds offered through a Contract.

| Class 2                                  | Beginning<br>Account<br>Value 1/1/12 | Ending<br>Account<br>Value 6/30/12 | Fund-Level<br>Expenses Incurred<br>During Period*<br>1/1/12–6/30/12 |
|--|--------------------------------------|------------------------------------|---|
| Actual<br>Hypothetical (5% return before | \$1,000                              | \$1,056.60                         | \$4.30  |
| expenses)                                | \$1,000                              | \$1,020.69                         | \$4.22  |

\*Expenses are calculated using the most recent six-month annualized expense ratio for the Fund's Class 2 shares (0.84%), which does not include any ongoing expenses of the Contract for which the Fund is an investment option, multiplied by the average account value over the period, multiplied by 182/366 to reflect the one-half year period.

## Notes to Financial Statements (unaudited)

## Franklin Growth and Income Securities Fund

## **1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940, as amended, (1940 Act) as an open-end investment company, consisting of twenty separate funds. The Franklin Growth and Income Fund (Fund) is included in this report. The financial statements of the remaining funds in the Trust are presented separately. Shares of the Fund are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts. At June 30, 2012, 76.62% of the Fund's shares were held through one insurance company. The Fund offers two classes of shares: Class 1 and Class 2. Each class of shares differs by its distribution fees, voting rights on matters affecting a single class and its exchange privilege.

The following summarizes the Fund's significant accounting policies.

### a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Under procedures approved by the Trust's Board of Trustees (the Board), the Fund's administrator, investment manager and other affiliates have formed the Valuation and Liquidity Oversight Committee (VLOC). The VLOC provides administration and oversight of the Fund's valuation policies and procedures, which are approved annually by the Board. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities and derivative financial instruments (derivatives) listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the MYSE on the day that the value of the security is determined. Over-the-counter securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund's pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Repurchase agreements are valued at cost, which approximates market value.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the VLOC convenes on a regular basis to review such financial instruments and considers a number of factors, including significant unobservable valuation inputs, when arriving at fair value. The VLOC primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the values that would have been used had an active market existed. The VLOC employs various methods for calibrating these valuation approaches including a regular review of key inputs and assumptions, transactional back-testing or disposition analysis, and reviews of any related market activity.

Notes to Financial Statements (unaudited) (continued)

Franklin Growth and Income Securities Fund

## 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

### a. Financial Instrument Valuation (continued)

Trading in securities on foreign securities stock exchanges and over-the-counter markets may be completed before the daily close of business on the NYSE. Occasionally, events occur between the time at which trading in a foreign security is completed and the close of the NYSE that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at the close of the NYSE. In order to minimize the potential for these differences, the VLOC monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

### b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

### c. Joint Repurchase Agreement

The Fund enters into a joint repurchase agreement whereby its uninvested cash balance is deposited into a joint cash account with other funds managed by the investment manager or an affiliate of the investment manager and is used to invest in one or more repurchase agreements. The value and face amount of the joint repurchase agreement are allocated to the funds based on their pro-rata interest. A repurchase agreement is accounted for as a loan by the fund to the seller, collateralized by securities which are delivered to the fund's custodian. The market value, including accrued interest, of the initial collateralization is required to be at least 102% of the dollar amount invested by the funds, with the value of the underlying securities marked to market daily to maintain coverage of at least 100%. The joint repurchase agreement held by the Fund at period end had been entered into on June 29, 2012.

### d. Derivative Financial Instruments

The Fund invested in derivatives in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional amount, require no initial investment or an initial net investment that

## Notes to Financial Statements (unaudited) (continued)

## Franklin Growth and Income Securities Fund

## 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

### d. Derivative Financial Instruments (continued)

is smaller than would normally be required to have a similar response to changes in market factors, and require or permit net settlement. Derivatives contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and/or the potential for market movements which expose the Fund to gains or losses in excess of the amounts shown on the Statement of Assets and Liabilities. Realized gain and loss and unrealized appreciation and depreciation on these contracts for the period are included in the Statement of Operations.

The Fund purchased or wrote option contracts primarily to manage and/or gain exposure to equity price risk. An option is a contract entitling the holder to purchase or sell a specific amount of shares or units of an asset or notional amount of a swap (swaption), at a specified price. Options purchased are recorded as an asset while options written are recorded as a liability. Upon exercise of an option, the acquisition cost or sales proceeds of the underlying investment is adjusted by any premium received or paid. Upon expiration of an option, any premium received or paid is recorded as a realized gain or loss. Upon closing an option other than through expiration or exercise, the difference between the premium and the cost to close the position is recorded as a realized gain or loss. Pursuant to the terms of the written option contract, cash or securities may be required to be deposited as collateral.

See Notes 6 and 8 regarding investment transactions and other derivative information, respectively.

### e. Equity-Linked Securities

The Fund invests in equity-linked securities. Equity-linked securities are hybrid financial instruments that generally combine both debt and equity characteristics into a single note form. Income received from equity linked securities is recorded as realized gains in the Statement of Operations and may be based on the performance of an underlying equity security, an equity index, or an option position. The risks of investing in equity-linked securities include unfavorable price movements in the underlying security and the credit risk of the issuing financial institution. There may be no guarantee of a return of principal with equity linked securities and the appreciation potential may be limited. Equity-linked securities may be more volatile and less liquid than other investments held by the Fund.

### f. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and if applicable, excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is "more likely than not" to be sustained upon examination by the tax authorities based on the technical merits of the tax position. As of June 30, 2012, and for all open tax years, the Fund has determined that no liability for unrecognized tax benefits is required in the Fund's financial statements related to uncertain tax positions taken on a tax return (or expected to be taken on future tax returns). Open tax years are those that remain subject to examination and are based on each tax jurisdiction statute of limitation.

## Franklin Growth and Income Securities Fund

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

### g. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized as soon as the Fund is notified of the ex-dividend date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with accounting principles generally accepted in the United States of America. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the funds based on the ratio of net assets of each fund to the combined net assets of the Trust. Fund specific expenses are charged directly to the fund that incurred the expense.

Realized and unrealized gains and losses and net investment income, not including class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions, by class, are generally due to differences in class specific expenses.

### h. Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

### i. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Fund, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

### 2. SHARES OF BENEFICIAL INTEREST

At June 30, 2012, there were an unlimited number of shares authorized (without par value). Transactions in the Fund's shares were as follows:

|                         |           | iths Ended<br>30, 2012               |             | Ended<br>er 31, 2011ª                     |

<sup>a</sup>Effective March 4, 2011, Class 4 was liquidated.

## **3. TRANSACTIONS WITH AFFILIATES**

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

| Subsidiary  | Affiliation            |
|---|------------------------|
| Franklin Advisers, Inc. (Advisers)                            | Investment manager     |
| Franklin Templeton Services, LLC (FT Services)                | Administrative manager |
| Franklin Templeton Distributors, Inc. (Distributors)          | Principal underwriter  |
| Franklin Templeton Investor Services, LLC (Investor Services) | Transfer agent         |

### a. Management Fees

The Fund pays an investment management fee to Advisers based on the average daily net assets of the Fund as follows:

| Annualized Fee Rate | Net Assets  |
|---------------------|---|
| 0.625%              | Up to and including \$100 million                     |
| 0.500%              | Over \$100 million, up to and including \$250 million |
| 0.450%              | Over \$250 million, up to and including \$7.5 billion |
| 0.440%              | Over \$7.5 billion, up to and including \$10 billion  |
| 0.430%              | Over \$10 billion, up to and including \$12.5 billion |
| 0.420%              | Over \$12.5 billion, up to and including \$15 billion |
| 0.400%              | In excess of \$15 billion                             |

### b. Administrative Fees

Under an agreement with Advisers, FT Services provides administrative services to the Fund. The fee is paid by Advisers based on average daily net assets, and is not an additional expense of the Fund.

### c. Distribution Fees

The Board adopted a distribution plan for Class 2 shares pursuant to Rule 12b-1 under the 1940 Act. Under the Fund's compensation distribution plan, the Fund pays Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to 0.35% per year of its average daily net assets. The Board has agreed to limit the current rate to 0.25% per year for Class 2.

## Notes to Financial Statements (unaudited) (continued)

## Franklin Growth and Income Securities Fund

### 3. TRANSACTIONS WITH AFFILIATES (continued)

### d. Transfer Agent Fees

Investor Services, under terms of an agreement, performs shareholder servicing for the Fund and is not paid by the Fund for the services.

### 4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended June 30, 2012, there were no credits earned.

### **5. INCOME TAXES**

For tax purposes, capital losses may be carried over to offset future capital gains, if any. Capital loss carryforwards with no expiration, if any, must be fully utilized before those losses with expiration dates.

At December 31, 2011, the Fund had capital loss carryforwards of \$58,091,205 expiring in 2017.

At June 30, 2012, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

| Cost of investments                        | \$249,602,794 |
|--|---------------|
| Unrealized appreciation                    |               |
| Net unrealized appreciation (depreciation) | \$ 36,626,702 |

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatment of wash sales.

### 6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short term securities) for the period ended June 30, 2012, aggregated \$41,954,960 and \$47,968,140, respectively.

Transactions in options written during the period ended June 30, 2012, were as follows:

|  | Number of<br>Contracts | Premiums<br>Received |
|--|------------------------|----------------------|
| Options outstanding at December 31, 2011 | _                      | \$ —                 |
| Options written                          | 350                    | 105,428              |
| Options expired                          | —                      | —                    |
| Options exercised                        | (350)                  | (105,428)            |
| Options closed                           | _                      | _                    |
| Options outstanding at June 30, 2012     | _                      | \$ —                 |

See Notes 1(d) and 8 regarding derivative financial instruments and other derivative information, respectively.

## Notes to Financial Statements (unaudited) (continued)

## Franklin Growth and Income Securities Fund

## 7. CREDIT RISK

At June 30, 2012, the Fund had 6.85% of its portfolio invested in high yield or other securities rated below investment grade. These securities may be more sensitive to economic conditions causing greater price volatility and are potentially subject to a greater risk of loss due to default than higher rated securities.

## 8. OTHER DERIVATIVE INFORMATION

For the period ended June 30, 2012, the effect of derivative contracts on the Fund's Statement of Operations was as follows:

| Derivative Contracts Not Accounted<br>for as Hedging Instruments | Statement of Operations Locations   | Realized Gain<br>(Loss) for the<br>Period | Change in<br>Unrealized<br>Appreciation<br>(Depreciation)<br>for the Period |
|--|---|---|---|
| Equity contracts   | Net realized gain (loss) from investments and<br>written options/Net change in unrealized<br>appreciation (depreciation) on investments | \$ —                                      | \$ —  |

For the period ended June 30, 2012, the average month end market value of derivatives represented 0.01% of average month end net assets. The average month end number of open derivative contracts for the period was 1.

See Notes 1(d) and 6 regarding derivative financial instruments and investment transactions, respectively.

## 9. CREDIT FACILITY

The Fund, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton Investments, are borrowers in a joint syndicated senior unsecured credit facility totaling \$1.5 billion (Global Credit Facility) which matures on January 18, 2013. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund and other costs incurred by the Fund, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.08% based upon the unused portion of the Global Credit Facility, which is reflected in other expenses on the Statement of Operations. During the period ended June 30, 2012, the Fund did not use the Global Credit Facility.

### **10. FAIR VALUE MEASUREMENTS**

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

- Level 1 quoted prices in active markets for identical financial instruments
- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The inputs or methodology used for valuing financial instruments are not an indication of the risk associated with investing in those financial instruments.

## Notes to Financial Statements (unaudited) (continued)

## Franklin Growth and Income Securities Fund

### **10. FAIR VALUE MEASUREMENTS (continued)**

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfers as of the date of the underlying event which caused the movement.

A summary of inputs used as of June 30, 2012, in valuing the Fund's assets carried at fair value, is as follows:

|   | Level 1       | Level 2      | Level 3 | Total         |
|---|---------------|--------------|---------|---------------|
| Assets:                                   |               |              |         |               |
| Investments in Securities:                |               |              |         |               |
| Equity Investments: <sup>a</sup>          |               |              |         |               |
| Energy                                    | \$ 24,582,047 | \$ 3,114,216 | \$ —    | \$ 27,696,263 |
| All Other Equity Investments <sup>b</sup> | 247,850,199   | _            | _       | 247,850,199   |
| Equity-Linked Securities                  | —             | 6,729,616    | _       | 6,729,616     |
| Short Term Investments                    | _             | 3,953,418    | —       | 3,953,418     |
| Total Investments in Securities           | \$272,432,246 | \$13,797,250 | \$ —    | \$286,229,496 |

<sup>a</sup>Includes common, preferred and convertible preferred stocks as well as other equity investments. <sup>b</sup>For detailed categories, see the accompanying Statement of Investments.

### **11. NEW ACCOUNTING PRONOUNCEMENTS**

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. The amendments in the ASU enhance disclosures about offsetting of financial assets and liabilities to enable investors to understand the effect of these arrangements on a fund's financial position. The ASU is effective for interim and annual reporting periods beginning on or after January 1, 2013. The Fund believes the adoption of this ASU will not have a material impact on its financial statements.

## **12. SUBSEQUENT EVENTS**

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

### **ABBREVIATIONS**

### **Selected Portfolio**

ADR - American Depositary Receipt

## This semiannual report for Franklin Large Cap Growth Securities Fund covers the period ended June 30, 2012.

## Performance Summary as of 6/30/12

Franklin Large Cap Growth Securities Fund – Class 2 delivered a +6.75% total return for the six-month period ended 6/30/12.

Performance reflects the Fund's Class 2 operating expenses, but does **not** include any contract fees, expenses or sales charges. If they had been included, performance would be lower. These charges and deductions, particularly for variable life policies, can have a significant effect on contract values and insurance benefits. See the contract prospectus for a complete description of these expenses, including sales charges.

## Franklin Large Cap Growth Securities Fund Class 2

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. Fund Risks: All investments involve risks, including possible loss of principal. Stock prices fluctuate, sometimes rapidly and dramatically, due to factors affecting individual companies, *particular industries or sectors*, or general market conditions. The Fund may focus on particular sectors of the market from time to time, which can carry greater risks of adverse developments in such sectors. *Smaller- or midsized-company* securities can be particularly sensitive to changing economic *conditions, and their prospects* for growth are less certain than those of larger, more established companies. Investments in foreign securities may involve spe*cial risks including currency* fluctuations and economic and political uncertainty. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results. The Fund's prospectus also includes a description of the main investment risks.

Fund Goal and Main Investments: Franklin Large Cap Growth Securities Fund seeks capital appreciation. Under normal market conditions, the Fund invests at least 80% of its net assets in investments of large capitalization companies. For this Fund, large capitalization companies are those with market capitalization values within those of the top 50% of companies in the Russell 1000<sup>®</sup> Index at the time of purchase.<sup>1</sup>

## **Performance Overview**

You can find the Fund's six-month total return in the Performance Summary. The Fund underperformed its benchmark, the Standard & Poor's<sup>®</sup> 500 Index (S&P 500<sup>®</sup>), which posted a +9.49% total return.<sup>2</sup>

## **Economic and Market Overview**

The U.S. economy, as measured by gross domestic product, grew modestly during the six-month period ended June 30, 2012. In the first quarter, personal income and spending rose, while federal, state and local government spending declined. The national unemployment rate for June 2012 stood at 8.2%, compared with 8.5% at the start of the period.<sup>3</sup> Jobless claims touched a four-year low in February amid robust job creation; however, hiring slowed during the remainder of the period and jobless claims at period-end reached January's level. Industrial production and manufacturing activity continued to increase, but the manufacturing sector shrank unexpectedly in June. Although gasoline prices hit a peak in early April, they plunged to a five-month low near period-end due to lower crude oil prices. In keeping with its goal to strengthen U.S. economic recovery by fostering increased employment while keeping inflation in check, during June the Federal Reserve Board (Fed) extended through 2012 its program (dubbed Operation Twist) to buy long-term Treasuries in an attempt to lower long-term yields. The Fed also reaffirmed its intention to keep the federal funds target rate low at least through late 2014.

During late March and early April 2012, improved economic reports helped U.S. stock markets reach multi-year highs. The Dow Jones Industrial Average exceeded 13,000 and the S&P 500 topped 1,400 for the first time since 2008, while the NASDAQ Composite Index hit an 11-year high.<sup>1</sup> Global markets grew volatile, however, amid renewed

<sup>1.</sup> Please see Index Descriptions following the Fund Summaries.

<sup>2.</sup> Source: © 2012 Morningstar. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio. Please see Index Descriptions following the Fund Summaries.

<sup>3.</sup> Source: Bureau of Labor Statistics.

concerns about eurozone debt and slowing global economic growth. Fears of a Greek debt default and exit from the eurozone were somewhat mitigated by secured bailout financing and bondholder concessions in February, as well as elections in May and June that resulted in the formation of a new coalition government. Risk-averse investors seeking safety drove U.S. Treasury yields to historical lows during the period.

At the end of the reporting period, significant challenges to the U.S. economy remained, including weak jobs reports, lack of broad public and political agreement on how to achieve U.S. deficit reduction, and uncertainty surrounding deeply indebted European countries including Greece, Italy and Spain. Signs of China's economic growth slowdown further contributed to pessimism. Although long-term resolution of European debt issues remained unclear, the European Central Bank's latest plan to allow the European Stability Mechanism to directly recapitalize troubled banks throughout the eurozone, as well as a late-June proposal leaning toward fiscal and banking union, supported cautious optimism in U.S. and global markets.

## **Investment Strategy**

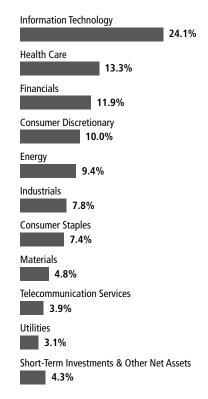

We employ our long-held strategy: bottom-up, individual-company, fundamental research aimed at opportunistically finding what we believe to be outstanding large-cap companies across all sectors, at valuations we believe understate their fair worth, with future growth potential being a key driver of estimated worth. In doing so, we work hard seeking to ensure we are being adequately compensated for the risks that are inherent to all forecasting efforts, aiming to own those stocks that make the most sense from a risk/return perspective. We believe this disciplined, bottom-up analysis of future growth potential, current valuation and other risks on a stock-by-stock basis best supports our efforts to maintain a portfolio with superior risk/return characteristics and thus affords us the best prospects for strong performance over the long term.

## **Manager's Discussion**

Looking back on the key factors impacting the Fund's returns during the six months under review, we would like to remind shareholders that our investment strategy is primarily bottom-up and driven by

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Statement of Investments. individual stock selection. However, we recognize that a sector-based discussion can be a helpful way to organize a portfolio review of key performance drivers.

From a sector perspective, our stock selection in the health care sector helped the Fund's performance relative to the S&P 500. In particular, our positions in genetic analysis solutions company Illumina,<sup>4</sup> pharmacy benefits manager Express Scripts Holdings and generic drug company Watson Pharmaceuticals boosted performance. Illumina's first-quarter earnings rose due to declining expenses, and the firm also announced a stock buyback. Watson Pharmaceuticals' first-quarter earnings also rose because of sharply higher revenue partly based on new generic drugs and robust growth in its branded drug business. In the case of Express Scripts Holdings, first-quarter revenues increased more than expected despite lower earnings due to expenses incurred before its April acquisition of Medco Health Solutions. Stock selection in the utilities sector also aided relative results. Other key contributors to relative Fund returns included diversified financial services firm Wells Fargo & Co., cable services provider Comcast and family entertainment and media company Walt Disney.

In contrast, stock selection in the information technology sector was a major detractor from returns relative to the S&P 500, particularly the Fund's positions in social networking service Facebook<sup>4</sup> and mobile phone hardware and software developer Research In Motion.<sup>5</sup> Facebook's stock price declined after its initial public offering in May amid controversy about revised revenue and earnings estimates as well as concerns about the profitability of the firm's mobile site. Research in Motion lost value largely because it posted a loss early in 2012 and delayed the launch of its next-generation BlackBerry phones until 2013. The Fund's stock selection and overweighted allocation in the materials sector also hampered relative performance, particularly our position in global technology materials producer Celanese.<sup>5</sup> First-quarter operating profit for Celanese declined by about half from the prior year due to European recessionary trends and the higher cost of raw materials. Other detractors included oil and gas exploration and production companies Anadarko Petroleum and Halliburton, which were impacted in part by declining oil and gas prices during the period.

<sup>4.</sup> This holding is not an index component and was sold by period-end.

<sup>5.</sup> This holding is not an index component.

Thank you for your participation in Franklin Large Cap Growth Securities Fund. We look forward to serving your future investment needs.

The foregoing information reflects our analysis, opinions and portfolio holdings as of June 30, 2012, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Franklin Large Cap Growth Securities Fund Class 2

## **Fund Expenses**

As an investor in a variable insurance contract (Contract) that indirectly provides for investment in an underlying mutual fund, you can incur transaction and/or ongoing expenses at both the Fund level and the Contract level.

- Transaction expenses can include sales charges (loads) on purchases, surrender fees, transfer fees and premium taxes.
- Ongoing expenses can include management fees, distribution and service (12b-1) fees, contract fees, annual maintenance fees, mortality and expense risk fees and other fees and expenses. All mutual funds and Contracts have some types of ongoing expenses.

The expenses shown in the table are meant to highlight ongoing expenses at the Fund level only and do not include ongoing expenses at the Contract level, or transaction expenses at either the Fund or Contract levels. While the Fund does not have transaction expenses, if the transaction and ongoing expenses at the Contract level were included, the expenses shown below would be higher. You should consult your Contract prospectus or disclosure document for more information.

The table shows Fund-level ongoing expenses and can help you understand these expenses and compare them with those of other mutual funds offered through the Contract. The table assumes a \$1,000 investment held for the six months indicated. Please refer to the Fund prospectus for additional information on operating expenses.

## **Actual Fund Expenses**

The first line (Actual) of the table provides actual account values and expenses. The "Ending Account Value" is derived from the Fund's actual return, which includes the effect of ongoing Fund expenses, but does not include the effect of ongoing Contract expenses.

You can estimate the Fund-level expenses you incurred during the period by following these steps. *Of course, your account value and expenses will differ from those in this illustration:* 

- 1. Divide your account value by \$1,000. *If an account had an \$8,600 value, then \$8,600 ÷ \$1,000 = 8.6.*
- 2. Multiply the result by the number under the heading "Fund-Level Expenses Incurred During Period."
  If Fund-Level Expenses Incurred During Period were \$7.50, then
  8.6 x \$7.50 = \$64.50.

In this illustration, the estimated expenses incurred this period at the Fund level are \$64.50.

# Hypothetical Example for Comparison with Other Mutual Funds

Information in the second line (Hypothetical) of the table can help you compare ongoing expenses of the Fund with those of other mutual funds offered through the Contract. This information may not be used to estimate the actual ending account balance or expenses you incurred during the period. The hypothetical "Ending Account Value" is based on the Fund's actual expense ratio and an assumed 5% annual rate of return before expenses, which does not represent the Fund's actual return. The figure under the heading "Fund-Level Expenses Incurred During Period" shows the hypothetical expenses your account would have incurred under this scenario. You can compare this figure with the 5% hypothetical examples that appear in shareholder reports of other funds offered through a Contract.

| Class 2                                  | Beginning<br>Account<br>Value 1/1/12 | Ending<br>Account<br>Value 6/30/12 | Fund-Level<br>Expenses Incurred<br>During Period*<br>1/1/12–6/30/12 |
|--|--------------------------------------|------------------------------------|---|
| Actual<br>Hypothetical (5% return before | \$1,000                              | \$1,067.50                         | \$5.35  |
| expenses)                                | \$1,000                              | \$1,019.69                         | \$5.22  |

\*Expenses are calculated using the most recent six-month annualized expense ratio for the Fund's Class 2 shares (1.04%), which does not include any ongoing expenses of the Contract for which the Fund is an investment option, multiplied by the average account value over the period, multiplied by 182/366 to reflect the one-half year period.

## Notes to Financial Statements (unaudited)

## Franklin Large Cap Growth Securities Fund

## **1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940, as amended, (1940 Act) as an open-end investment company, consisting of twenty separate funds. The Franklin Large Cap Growth Securities Fund (Fund) is included in this report. The financial statements of the remaining funds in the Trust are presented separately. Shares of the Fund are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts. The Fund offers two classes of shares: Class 1 and Class 2. Each class of shares differs by its distribution fees, voting rights on matters affecting a single class and its exchange privilege.

The following summarizes the Fund's significant accounting policies.

### a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Under procedures approved by the Trust's Board of Trustees (the Board), the Fund's administrator, investment manager and other affiliates have formed the Valuation and Liquidity Oversight Committee (VLOC). The VLOC provides administration and oversight of the Fund's valuation policies and procedures, which are approved annually by the Board. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the security is determined. Over-the-counter securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities. Repurchase agreements are valued at cost, which approximates market value.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the VLOC convenes on a regular basis to review such financial instruments and considers a number of factors, including significant unobservable valuation inputs, when arriving at fair value. The VLOC primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed. The VLOC employs various methods for calibrating these valuation approaches including a regular review of key inputs and assumptions, transactional back-testing or disposition analysis, and reviews of any related market activity.

Trading in securities on foreign securities stock exchanges and over-the-counter markets may be completed before the daily close of business on the NYSE. Occasionally, events occur between the time at which trading in a foreign security is completed and the close of the NYSE that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at the close of the NYSE. In order to minimize the potential for these differences, the VLOC monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may

## Notes to Financial Statements (unaudited) (continued)

## Franklin Large Cap Growth Securities Fund

## 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

### a. Financial Instrument Valuation (continued)

call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

### b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

### c. Joint Repurchase Agreement

The Fund enters into a joint repurchase agreement whereby its uninvested cash balance is deposited into a joint cash account with other funds managed by the investment manager or an affiliate of the investment manager and is used to invest in one or more repurchase agreements. The value and face amount of the joint repurchase agreement are allocated to the funds based on their pro-rata interest. A repurchase agreement is accounted for as a loan by the fund to the seller, collateralized by securities which are delivered to the fund's custodian. The market value, including accrued interest, of the initial collateralization is required to be at least 102% of the dollar amount invested by the funds, with the value of the underlying securities marked to market daily to maintain coverage of at least 100%. The joint repurchase agreement held by the Fund at period end had been entered into on June 29, 2012.

### d. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and if applicable, excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

## Notes to Financial Statements (unaudited) (continued)

## Franklin Large Cap Growth Securities Fund

## 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

### d. Income and Deferred Taxes (continued)

The Fund recognizes the tax benefits of uncertain tax positions only when the position is "more likely than not" to be sustained upon examination by the tax authorities based on the technical merits of the tax position. As of June 30, 2012, and for all open tax years, the Fund has determined that no liability for unrecognized tax benefits is required in the Fund's financial statements related to uncertain tax positions taken on a tax return (or expected to be taken on future tax returns). Open tax years are those that remain subject to examination and are based on each tax jurisdiction statute of limitation.

### e. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized as soon as the Fund is notified of the ex-dividend date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with accounting principles generally accepted in the United States of America. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the funds based on the ratio of net assets of each fund to the combined net assets of the Trust. Fund specific expenses are charged directly to the fund that incurred the expense.

Realized and unrealized gains and losses and net investment income, not including class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions, by class, are generally due to differences in class specific expenses.

### f. Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

### g. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Fund, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

| Class 4 Shares:<br>Shares redeemed<br>Net increase (decrease)                                       |                                   |   | (312)                             | \$ (4,876)<br>\$ (4,876)                   |

<sup>a</sup>Effective March 4, 2011, Class 4 was liquidated.

### **3. TRANSACTIONS WITH AFFILIATES**

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

| Subsidiary  | Affiliation            |
|---|------------------------|
| Franklin Advisers, Inc. (Advisers)                            | Investment manager     |
| Franklin Templeton Services, LLC (FT Services)                | Administrative manager |
| Franklin Templeton Distributors, Inc. (Distributors)          | Principal underwriter  |
| Franklin Templeton Investor Services, LLC (Investor Services) | Transfer agent         |

### a. Management Fees

The Fund pays an investment management fee to Advisers based on the average daily net assets of the Fund as follows:

| Annualized Fee Rate | Net Assets  |
|---------------------|---|
| 0.750%              | Up to and including \$500 million                   |
| 0.625%              | Over \$500 million, up to and including \$1 billion |
| 0.500%              | In excess of \$1 billion                            |

### b. Administrative Fees

Under an agreement with Advisers, FT Services provides administrative services to the Fund. The fee is paid by Advisers based on average daily net assets, and is not an additional expense of the Fund.

## Notes to Financial Statements (unaudited) (continued)

## Franklin Large Cap Growth Securities Fund

### 3. TRANSACTIONS WITH AFFILIATES (continued)

### c. Distribution Fees

The Board adopted a distribution plan for Class 2 shares pursuant to Rule 12b-1 under the 1940 Act. Under the Fund's compensation distribution plan, the Fund pays Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to 0.35% per year of its average daily net assets. The Board has agreed to limit the current rate to 0.25% per year for Class 2.

#### d. Transfer Agent Fees

Investor Services, under terms of an agreement, performs shareholder servicing for the Fund and is not paid by the Fund for the services.

### 4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended June 30, 2012, there were no credits earned.

### **5. INCOME TAXES**

For tax purposes, capital losses may be carried over to offset future capital gains, if any. Capital loss carryforwards with no expiration, if any, must be fully utilized before those losses with expiration dates.

At December 31, 2011, capital loss carryforwards were as follows:

| Capital loss carryforwards subject to expiration: |              |
|---|--------------|
| 2016  | \$22,027,788 |
| 2017  | 62,499,598   |
| Total capital loss carryforwards                  | \$84,527,386 |

At June 30, 2012, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

| Cost of investments                        | \$252,674,208 |
|--|---------------|
| Unrealized appreciation                    |               |
| Net unrealized appreciation (depreciation) | \$ 80,334,393 |

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatment of wash sales.

### 6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short term securities) for the period ended June 30, 2012, aggregated \$66,279,286 and \$103,399,390, respectively.

## Franklin Large Cap Growth Securities Fund

## 7. CREDIT FACILITY

The Fund, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton Investments, are borrowers in a joint syndicated senior unsecured credit facility totaling \$1.5 billion (Global Credit Facility) which matures on January 18, 2013. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund and other costs incurred by the Fund, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.08% based upon the unused portion of the Global Credit Facility, which is reflected in other expenses on the Statement of Operations. During the period ended June 30, 2012, the Fund did not use the Global Credit Facility.

## 8. FAIR VALUE MEASUREMENTS

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

- Level 1 quoted prices in active markets for identical financial instruments
- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The inputs or methodology used for valuing financial instruments are not an indication of the risk associated with investing in those financial instruments.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfers as of the date of the underlying event which caused the movement.

A summary of inputs used as of June 30, 2012, in valuing the Fund's assets carried at fair value, is as follows:

|                                 | Level 1       | Level 2      | Level 3 | Total         |
|---------------------------------|---------------|--------------|---------|---------------|
| Assets:                         |               |              |         |               |
| Investments in Securities:      |               |              |         |               |

| Short Term Investments          |               | 14,678,461   | —       | 14,678,461    |
| Total Investments in Securities | \$318,330,140 | \$14,678,461 | \$ —    | \$333,008,601 |

<sup>a</sup>For detailed categories, see the accompanying Statement of Investments.

## Notes to Financial Statements (unaudited) (continued)

## Franklin Large Cap Growth Securities Fund

## 9. NEW ACCOUNTING PRONOUNCEMENTS

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. The amendments in the ASU enhance disclosures about offsetting of financial assets and liabilities to enable investors to understand the effect of these arrangements on a fund's financial position. The ASU is effective for interim and annual reporting periods beginning on or after January 1, 2013. The Fund believes the adoption of this ASU will not have a material impact on its financial statements.

## **10. SUBSEQUENT EVENTS**

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

### ABBREVIATIONS

### **Selected Portfolio**

ADR - American Depositary Receipt

We are pleased to bring you Franklin Strategic Income Securities Fund's semiannual report for the period ended June 30, 2012.

#### Performance Summary as of 6/30/12

Franklin Strategic Income Securities Fund – Class 2 delivered a +5.64% total return for the six-month period ended 6/30/12.

Performance reflects the Fund's Class 2 operating expenses, but does **not** include any contract fees, expenses or sales charges. If they had been included, performance would be lower. These charges and deductions, particularly for variable life policies, can have a significant effect on contract values and insurance benefits. See the contract prospectus for a complete description of these expenses, including sales charges.

#### Franklin Strategic Income Securities Fund – Class 2

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. Fund Risks: All investments involve risks, including possible loss of principal. As the prices of bonds in the Fund adjust to a rise in interest rates, the Fund's share price may decline. Risks associated with higher yielding, lower rated securities (junk bonds) include higher risk of *default and loss of principal.* Floating rate loans and high yield corporate bonds are rated below investment grade and are subject to greater risk of default, which could result in loss of principal. Investments in foreign securities involve risks such as currency fluctuations and political uncertainty. Investments in developing markets involve heightened risks related to the same factors, in addition to those associated with their relatively small size and lesser liquidity. Investing in derivative securities and the use of foreign currency techniques involve special risks as such may not achieve the anticipated benefits and/or may result in losses to the Fund. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results. The Fund's prospectus also includes a description of the main investment risks.

Fund Goals and Main Investments: Franklin Strategic Income Securities Fund seeks a high level of current income, with capital appreciation over the long term as a secondary goal. Under normal market conditions, the Fund invests primarily to predominantly in U.S. and foreign debt securities, including those in emerging markets.

#### **Performance Overview**

You can find the Fund's six-month total return in the Performance Summary. The Fund outperformed the +2.37% total return of its benchmark, the Barclays U.S. Aggregate Index.<sup>1</sup> The Fund also outperformed the +5.03% total return of its peers, as measured by the Lipper Multi-Sector Income Funds Classification Average.<sup>2</sup>

#### **Economic and Market Overview**

During the six months under review, uncertainty regarding the eurozone's future continued to influence financial markets, and U.S. economic data appeared mixed. U.S. manufacturing indicators look to have weakened, employment gains slowed and wage growth was sluggish during the period. However, energy prices declined significantly over the period and housing data strengthened with new and existing home sales as well as house prices pointing toward a gradual strengthening trend, albeit from a low base. The U.S. consumer showed resilience as consumption remained steady even as consumer confidence declined.

The global economic recovery was mixed during the first half of 2012. Emerging markets continued to lead the recovery with many economies returning to and exceeding pre-crisis activity levels. Although some developed economies, such as those of Australia and some Scandinavian countries, also enjoyed relatively strong recoveries, growth in the G-3 (U.S., eurozone and Japan) continued to trail the pace of previous recoveries. Policymakers in the largest developed economies increased their already unprecedented efforts to supply liquidity and with few exceptions, policymakers elsewhere in the world either paused their monetary tightening cycles or reversed previous tightening efforts in response to the external environment. Positive economic data, including first-quarter year-over-year real gross domestic product growth of 2.0% in the U.S. and 8.1% in China, challenged more dire

predictions of a severe global economic slowdown.<sup>3</sup>

<sup>3.</sup> Sources: Bureau of Economic Analysis (U.S.); the website of the National Bureau of Statistics of the People's Republic of China (www.stats.gov.cn).

Financial markets seemed to be largely influenced by politics, sentiment and uncertainty in the eurozone, and they were quick to discount the latest Greek election results. The June 2012 Federal Open Market Committee meeting concluded with the extension of its plan designed to boost the economy by driving down long-term interest rates (dubbed Operation Twist) but made no formal announcement of an additional round of quantitative easing. Increased liquidity creation, particularly from the European Central Bank's Long-Term Refinancing Operation, and meaningful progress toward coordinated action to address persistent banking and structural economic issues alleviated investor fears of a disorderly sovereign credit event and the potential for financial contagion.

Overall, investor concerns about ongoing eurozone uncertainty, weak U.S. employment gains and a lack of broad public and political agreement on how to achieve U.S. deficit reduction drove the 10-year U.S. Treasury yield from 1.89% on December 31, 2011, to 1.67% on June 30, 2012. In the latter part of the period, commodities extended recent losses, with oil falling back below \$100, while the euro dipped and traditional safe havens like U.S. Treasuries, the U.S. dollar and the Japanese yen made gains.

#### **Investment Strategy**

We allocate our investments among the various types of debt available based on our assessment of changing economic, global market, industry and issuer conditions. We use a top-down analysis of macroeconomic trends, combined with a bottom-up fundamental analysis of market sectors, industries and issuers, seeking to take advantage of varying sector reactions to economic events. For example, we may evaluate business cycles, yield curves, country risk, and the relative interest rates among currencies, and values between and within markets. In selecting debt securities, we generally conduct our own analysis of the security's intrinsic value rather than simply relying on the coupon rate or rating. We may also enter into various transactions involving certain currency-, interest rate- or credit-related derivative instruments for hedging purposes, to enhance returns or to obtain exposure to various market sectors.

#### **Manager's Discussion**

During the six-month period ended June 30, 2012, macroeconomic and political headlines continued to drive financial market volatility. Financial markets began to rally in the first quarter of 2012 from their second-half 2011 lows amid healthier U.S. economic data as well as eurozone liquidity backstop measures that helped ease concerns regarding the European banking system. Consequently, during the first quarter the risk aversion that had driven down financial markets in the second half of 2011 had

#### **Asset Allocation**

Franklin Strategic Income Securities Fund Based on Total Net Assets 6/30/12 12/31/11

High Yield Corporate Bonds & Preferred Securities 30.2% 30.8% International Government & Agency Bonds (non-\$US)\* 23.2% 25.0% Floating Rate Bank Loans 17.3% 16.1% Investment Grade Corporate Bonds & Preferred Securities 6.6% 5.0% Mortgage-Backed Securities 4.0% 5.0% **Municipal Bonds** 3.4% 3.5% International Government & Agency Bonds (\$US) 2.5% 3.1% **Commercial Mortgage-Backed Securities** 2.4% 2.4% **U.S. Treasury Securities** 2.1% 1.5% Asset-Backed Securities 1.0% 1.0% **Common Stocks** 0.6% 0.5% **Convertible Securities** 0.0% 0.2% Short-Term Investments & Other Net Assets\*\* 6.7% 5.9% \*Includes short-term foreign

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Statement of Investments (SOI). largely dissipated, allowing stock markets to rally as indicated by the Standard & Poor's<sup>®</sup> 500 Index's (S&P 500<sup>®</sup>'s) 12.59% gain in the first quarter.<sup>1</sup> However, weaker economic data along with renewed concerns regarding the eurozone again pressured financial markets in the second quarter of 2012, and the S&P 500 fell 2.75%.<sup>1</sup> Given investors' generally more tempered view toward domestic economic growth and seemingly little concern regarding domestic inflationary pressures, U.S. longer term rates further declined during the period. As a result of this decline in long-dated U.S. Treasury rates, most fixed income sectors delivered positive total returns during the period. Strong performance during the first quarter of the year led many of the spread sectors to outperform the U.S. Treasury market for the full six-month period. Similarly, while the U.S. dollar strengthened compared to the euro and yen during the six-month period in review, a rebound in certain international fixed income currency markets drove relative outperformance from that sector during the period.

In this environment, the Fund posted a positive total return, outpacing the performance of the Barclays U.S. Aggregate Index as well as the Lipper Multi-Sector Income Funds Classification Average. The Fund's higher exposure to high yield credit sectors positively impacted performance compared to the index. Compared to the Lipper peer average, the Fund's higher exposure to certain non-U.S. dollar holdings also boosted returns.

While financial market volatility contributed to spread widening in the corporate credit sectors during the second quarter of 2012, overall corporate credit fundamentals remained fairly supportive during the six-month reporting period. Many companies have built up significant liquidity over the past few years and extended debt maturities given the relative openness of the new-issue debt markets. Major banks, particularly in the U.S., raised their capital ratios materially since 2008. Although the pace of gains began to slow as operating margins reached historical highs, improvements in corporate earnings furthered credit improvement. Nonetheless, the slowdown in eurozone economic growth is likely to be a headwind for certain corporates during the second half of 2012, and global default rates have begun to edge higher. Overall, however, with an expectation for positive U.S. economic growth and a soft landing in China, and considering spread valuations in line to somewhat cheap compared to historical averages, the Fund's largest sector weighting remained in corporate bonds. During the period the Fund incrementally added to its leveraged bank loan and investment-grade corporate weighting, while maintaining its largest weighting in high yield corporate bonds. Within investment-grade corporate bonds, the Fund's exposure was largely in financials, which offered a yield spread pick-up relative to the overall sector.<sup>4</sup>

4. The financials sector comprises banks, diversified financials, insurance and real estate in the SOI.

In the global markets, many of the currencies under pressure during the second half of 2011 experienced a rebound during the reporting period, particularly during the first four months of 2012. Non-U.S. dollar holdings in Mexico, the Philippines and Singapore performed well. The Fund's long currency positions in Sweden and Poland also outperformed the euro, which the Fund sold forward as a proxy hedge. On the other hand, currency positions in countries such as Brazil and India underperformed as those currencies declined in value. We maintained only a modest weighting in hard currency (U.S. dollar and euro) emerging market sovereign bonds, given valuations that remained somewhat rich to longer term averages.

The continued decline in longer term U.S. Treasury yields drove positive returns for the more interest rate-sensitive sectors of the domestic fixed income market, with the longest maturity bonds generally delivering the greatest total returns. Given their higher current yield, offset by their shorter effective maturities, agency mortgage-backed securities generally performed in line with Treasuries. While the slack in the U.S. economy could keep longer term inflationary pressures subdued, with five- to 10-year Treasury yields lower than the inflation rate, we did not find significant value in fixed income U.S. government securities at recent yield levels. Consequently, we maintained a relatively low weighting in these sectors, while favoring the higher current yield of agency mortgages relative to Treasuries. Commercial mortgage-backed securities (CMBS) generally performed well in the first half of 2012, with healthy demand for CMBS. The Fund modestly added exposure to certain less highly rated (by the national rating agencies) CMBS tranches while reducing exposure to higher priced CMBS, favoring the yield pickup in those less highly rated securities. Given the longer maturity profile for the Fund's municipal bond holdings, with a combination of a decline in long-term U.S. rates and healthy sector performance over the past year, the Fund continued to pare its municipal bond holdings.

Thank you for your participation in Franklin Strategic Income Securities Fund. We look forward to serving your future investment needs.

The foregoing information reflects our analysis, opinions and portfolio holdings as of June 30, 2012, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Franklin Strategic Income Securities Fund – Class 2

#### **Fund Expenses**

As an investor in a variable insurance contract (Contract) that indirectly provides for investment in an underlying mutual fund, you can incur transaction and/or ongoing expenses at both the Fund level and the Contract level.

- Transaction expenses can include sales charges (loads) on purchases, surrender fees, transfer fees and premium taxes.
- Ongoing expenses can include management fees, distribution and service (12b-1) fees, contract fees, annual maintenance fees, mortality and expense risk fees and other fees and expenses. All mutual funds and Contracts have some types of ongoing expenses.

The expenses shown in the table are meant to highlight ongoing expenses at the Fund level only and do not include ongoing expenses at the Contract level, or transaction expenses at either the Fund or Contract levels. While the Fund does not have transaction expenses, if the transaction and ongoing expenses at the Contract level were included, the expenses shown below would be higher. You should consult your Contract prospectus or disclosure document for more information.

The table shows Fund-level ongoing expenses and can help you understand these expenses and compare them with those of other mutual funds offered through the Contract. The table assumes a \$1,000 investment held for the six months indicated. Please refer to the Fund prospectus for additional information on operating expenses.

#### **Actual Fund Expenses**

The first line (Actual) of the table provides actual account values and expenses. The "Ending Account Value" is derived from the Fund's actual return, which includes the effect of ongoing Fund expenses, but does not include the effect of ongoing Contract expenses.

You can estimate the Fund-level expenses you incurred during the period by following these steps. *Of course, your account value and expenses will differ from those in this illustration*:

- Divide your account value by \$1,000.
   *If an account had an \$8,600 value, then \$8,600 ÷ \$1,000 = 8.6.*
- 2. Multiply the result by the number under the heading "Fund-Level Expenses Incurred During Period."
  If Fund-Level Expenses Incurred During Period were \$7.50, then
  8.6 x \$7.50 = \$64.50.

In this illustration, the estimated expenses incurred this period at the Fund level are \$64.50.

# Hypothetical Example for Comparison with Other Mutual Funds

Information in the second line (Hypothetical) of the table can help you compare ongoing expenses of the Fund with those of other mutual funds offered through the Contract. This information may not be used to estimate the actual ending account balance or expenses you incurred during the period. The hypothetical "Ending Account Value" is based on the Fund's actual expense ratio and an assumed 5% annual rate of return before expenses, which does not represent the Fund's actual return. The figure under the heading "Fund-Level Expenses Incurred During Period" shows the hypothetical expenses your account would have incurred under this scenario. You can compare this figure with the 5% hypothetical examples that appear in shareholder reports of other funds offered through a Contract.

| Class 2                                  | Beginning<br>Account<br>Value 1/1/12 | Ending<br>Account<br>Value 6/30/12 | Fund-Level<br>Expenses Incurred<br>During Period*<br>1/1/12–6/30/12 |
|--|--------------------------------------|------------------------------------|---|
| Actual<br>Hypothetical (5% return before | \$1,000                              | \$1,056.40                         | \$4.29  |
| expenses)                                | \$1,000                              | \$1,020.69                         | \$4.22  |

\*Expenses are calculated using the most recent six-month annualized expense ratio for the Fund's Class 2 shares (0.84%), which does not include any ongoing expenses of the Contract for which the Fund is an investment option, multiplied by the average account value over the period, multiplied 182/366 to reflect the one-half year period.

### Notes to Financial Statements (unaudited)

#### Franklin Strategic Income Securities Fund

#### **1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940, as amended, (1940 Act) as an open-end investment company, consisting of twenty separate funds. The Franklin Strategic Income Securities Fund (Fund) is included in this report. The financial statements of the remaining funds in the Trust are presented separately. Shares of the Fund are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts. At June 30, 2012, 91.09% of the Fund's shares were held through one insurance company. The Fund offers three classes of shares: Class 1, Class 2, and Class 4. Each class of shares differs by its distribution fees, voting rights on matters affecting a single class and its exchange privilege.

The following summarizes the Fund's significant accounting policies.

#### a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Under procedures approved by the Trust's Board of Trustees (the Board), the Fund's administrator, investment manager and other affiliates have formed the Valuation and Liquidity Oversight Committee (VLOC). The VLOC provides administration and oversight of the Fund's valuation policies and procedures, which are approved annually by the Board. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities. Investments in open-end mutual funds are valued at the closing net asset value.

Debt securities generally trade in the OTC market rather than on a securities exchange. The Fund's pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the date that the values of the foreign debt securities are determined.

Certain derivative financial instruments (derivatives) trade in the OTC market. The Fund's pricing services use various techniques including industry standard option pricing models and proprietary discounted cash flow models to determine the fair value of those instruments. The Fund's net benefit or obligation under the derivative contract, as measured by the fair market value of the contract, is included in net assets.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the VLOC convenes on a regular basis to review such financial instruments and considers a number of factors, including significant unobservable valuation inputs, when arriving at fair value. The VLOC primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due

## Franklin Strategic Income Securities Fund

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### a. Financial Instrument Valuation (continued)

to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed. The VLOC employs various methods for calibrating these valuation approaches including a regular review of key inputs and assumptions, transactional back-testing or disposition analysis, and reviews of any related market activity.

#### b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

#### c. Securities Purchased on a When-Issued and Delayed Delivery Basis

The Fund purchases securities on a when-issued and delayed delivery basis, with payment and delivery scheduled for a future date. These transactions are subject to market fluctuations and are subject to the risk that the value at delivery may be more or less than the trade date purchase price. Although the Fund will generally purchase these securities with the intention of holding the securities, it may sell the securities before the settlement date. Sufficient assets have been segregated for these securities.

### d. Derivative Financial Instruments

The Fund invested in derivatives in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional amount, require no initial investment or an initial net investment that is smaller than would normally be required to have a similar response to changes in market factors, and require or permit net settlement. Derivatives contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and/or the potential for market movements which expose the Fund to gains or losses in excess of the amounts shown on the Statement of Assets and Liabilities. Realized gain and loss and unrealized appreciation and depreciation on these contracts for the period are included in the Statement of Operations.

The Fund entered into OTC forward exchange contracts primarily to manage and/or gain exposure to certain foreign currencies. A forward exchange contract is an agreement between the Fund and a counterparty to buy or sell a foreign currency for a specific exchange rate on a future date. Pursuant to the terms of the forward exchange contracts, cash or securities may be required to be deposited as collateral. Unrestricted cash may be invested according to the Fund's investment objectives.

## Notes to Financial Statements (unaudited) (continued)

### Franklin Strategic Income Securities Fund

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### d. Derivative Financial Instruments (continued)

The Fund entered into OTC credit default swap contracts primarily to manage and/or gain exposure to credit risk. A credit default swap is an agreement between the Fund and a counterparty whereby the buyer of the contract receives credit protection and the seller of the contract guarantees the credit worthiness of a referenced debt obligation. The underlying referenced debt obligation may be a single issuer of corporate or sovereign debt, a credit index, or a tranche of a credit index. In the event of a default of the underlying referenced debt obligation, the buyer is entitled to receive the notional amount of the credit default swap contract from the seller in exchange for the referenced debt obligation, a net settlement amount equal to the notional amount of the credit default swap less the recovery value of the referenced debt obligation, or other agreed upon amount. Over the term of the contract, the buyer pays the seller a periodic stream of payments, provided that no event of default has occurred. Such periodic payments are accrued daily as an unrealized appreciation or depreciation until the payments are made, at which time they are realized. Payments received or paid to initiate a credit default swap contract are reflected on the Statement of Assets and Liabilities and represent compensating factors between stated terms of the credit default swap agreement and prevailing market conditions (credit spreads and other relevant factors). These upfront payments are amortized over the term of the contract, cash or securities may be required to be deposited as collateral. Unrestricted cash may be invested according to the Fund's investment objectives.

The Fund's investments in OTC derivatives are subject to the terms of International Swaps and Derivatives Association Master Agreements and other related agreements between the Fund and certain derivative counterparties. These agreements contain various provisions, including but not limited to collateral requirements, events of default, requirements for the Fund to maintain certain net asset levels and/or limit the decline in net assets over various periods of time. Should the Fund fail to meet any of these provisions, the derivative counterparty has the right to terminate the derivative contract and require immediate payment by the Fund for those OTC derivatives with that particular counterparty that are in a net unrealized loss position. At June 30, 2012, the Fund had OTC derivatives in a net unrealized loss position of \$523,562 and the aggregate value of collateral pledged for such contracts was \$890,000.

At June 30, 2012, the Fund holds \$4,289,069 in U.S. treasury bills, bonds, and notes as collateral for derivatives.

See Note 10 regarding other derivative information.

#### e. Restricted Cash

At June 30, 2012, the Fund held restricted cash in connection with investments in certain derivative securities. Restricted cash is held in a segregated account with the Fund's custodian / counterparty broker and is reflected in the Statement of Assets and Liabilities.

#### f. FT Holdings Corporation III (FT Subsidiary)

The Fund invests in certain securities through its investment in FT Subsidiary, a Delaware Corporation and a wholly-owned subsidiary of the Fund. The FT Subsidiary has the ability to invest in securities consistent with the investment objective of the Fund. At June 30, 2012, all FT Subsidiary investments as well as any other assets and liabilities are reflected in the Fund's Statement of Investments and Statement of Assets and Liabilities. All income and expenses of the FT Subsidiary during the period ended June 30, 2012, have been included in the Fund's Statement of Operations.

#### g. Mortgage Dollar Rolls

The Fund enters into mortgage dollar rolls, typically on a TBA basis. Mortgage dollar rolls are agreements between the Fund and a financial institution to simultaneously sell and repurchase mortgage-backed securities at a future date. Gains or losses are

## Notes to Financial Statements (unaudited) (continued)

### g. Mortgage Dollar Rolls (continued)

realized on the initial sale, and the difference between the repurchase price and the sale price is recorded as an unrealized gain or loss to the fund upon entering into the mortgage dollar roll. In addition, the Fund may invest the cash proceeds that are received from the initial sale. During the period between the sale and repurchase, the Fund is not entitled to principal and interest paid on the mortgage backed securities. The risks of mortgage dollar roll transactions include the potential inability of the counterparty to fulfill its obligations.

#### h. Senior Floating Rate Interests

The Fund invests in senior secured corporate loans that pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank or the London InterBank Offered Rate (LIBOR). Senior secured corporate loans often require prepayment of principal from excess cash flows or at the discretion of the borrower. As a result, actual maturity may be substantially less than the stated maturity.

Senior secured corporate loans in which the Fund invests are generally readily marketable, but may be subject to some restrictions on resale.

#### i. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and if applicable, excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is "more likely than not" to be sustained upon examination by the tax authorities based on the technical merits of the tax position. As of June 30, 2012, and for all open tax years, the Fund has determined that no liability for unrecognized tax benefits is required in the Fund's financial statements related to uncertain tax positions taken on a tax return (or expected to be taken on future tax returns). Open tax years are those that remain subject to examination and are based on each tax jurisdiction statute of limitation.

#### j. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Facility fees are recognized as income over the expected term of the loan. Dividend income is recorded on the ex-dividend date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with accounting principles generally accepted in the United States of America. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the funds based on the ratio of net assets of each fund to the combined net assets of the Trust. Fund specific expenses are charged directly to the fund that incurred the expense.

## Notes to Financial Statements (unaudited) (continued)

### Franklin Strategic Income Securities Fund

#### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### j. Security Transactions, Investment Income, Expenses and Distributions (continued)

Realized and unrealized gains and losses and net investment income, not including class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions, by class, are generally due to differences in class specific expenses.

Inflation-indexed bonds are adjusted for inflation through periodic increases or decreases in the security's interest accruals, face amount, or principal redemption value, by amounts corresponding to the rate of inflation as measured by an index. Any increase or decrease in the face amount or principal redemption value will be included as interest income on the Statement of Operations.

#### k. Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

#### I. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Fund, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

#### 2. SHARES OF BENEFICIAL INTEREST

At June 30, 2012, there were an unlimited number of shares authorized (without par value). Transactions in the Fund's shares were as follows:

|   |                                       | ths Ended<br>30, 2012                       | Year Ended<br>December 31, 2011        |  |  |  |

## Notes to Financial Statements (unaudited) (continued)

### Franklin Strategic Income Securities Fund

#### **3. TRANSACTIONS WITH AFFILIATES**

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

| Subsidiary  | Affiliation            |
|---|------------------------|
| Franklin Advisers, Inc. (Advisers)                            | Investment manager     |
| Franklin Templeton Services, LLC (FT Services)                | Administrative manager |
| Franklin Templeton Distributors, Inc. (Distributors)          | Principal underwriter  |
| Franklin Templeton Investor Services, LLC (Investor Services) | Transfer agent         |

#### a. Management Fees

The Fund pays an investment management fee to Advisers based on the average daily net assets of the Fund as follows:

| Annualized Fee Rate | Net Assets  |
|---------------------|---|
| 0.425%              | Up to and including \$500 million                       |
| 0.325%              | Over \$500 million, up to and including \$1 billion     |
| 0.280%              | Over \$1 billion, up to and including \$1.5 billion     |
| 0.235%              | Over \$1.5 billion, up to and including \$6.5 billion   |
| 0.215%              | Over \$6.5 billion, up to and including \$11.5 billion  |
| 0.200%              | Over \$11.5 billion, up to and including \$16.5 billion |
| 0.190%              | Over \$16.5 billion, up to and including \$19 billion   |
| 0.180%              | Over \$19 billion, up to and including \$21.5 billion   |
| 0.170%              | In excess of \$21.5 billion                             |

#### b. Administrative Fees

The Fund pays an administrative fee to FT Services of 0.20% per year of the net assets of the Fund.

#### c. Distribution Fees

The Board has adopted distribution plans for Class 2 and Class 4 shares pursuant to Rule 12b-1 under the 1940 Act. Under the Fund's compensation distribution plans, the Fund pays Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to 0.25% and 0.35% per year of its average daily net assets of Class 2 and Class 4, respectively.

#### d. Transfer Agent Fees

Investor Services, under terms of an agreement, performs shareholder servicing for the Fund and is not paid by the Fund for the services.

#### 4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended June 30, 2012, there were no credits earned.

## Notes to Financial Statements (unaudited) (continued)

### Franklin Strategic Income Securities Fund

### 5. INCOME TAXES

At June 30, 2012, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

| Cost of investments                        | \$1 | ,310,672,322               |
|--|-----|----------------------------|
| Unrealized appreciation                    |     | 55,132,637<br>(36,240,600) |
| Net unrealized appreciation (depreciation) | \$  | 18,892,037                 |

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatments of defaulted securities, foreign currency transactions, paydown losses, payments-in-kind, bond discounts and premiums, swaps, tax straddles, inflation related adjustments on foreign securities and wash sales.

### 6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short term securities) for the period ended June 30, 2012, aggregated \$314,373,645 and \$325,010,487, respectively.

### 7. INVESTMENTS IN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund invests in the Institutional Fiduciary Trust Money Market Portfolio (Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management and administrative fees paid by the Sweep Money Fund.

### 8. CREDIT RISK AND DEFAULTED SECURITIES

At June 30, 2012, the Fund had 52.45% of its portfolio invested in high yield, senior secured floating rate notes, or other securities rated below investment grade. These securities may be more sensitive to economic conditions causing greater price volatility and are potentially subject to a greater risk of loss due to default than higher rated securities.

The Fund held defaulted securities and/or other securities for which the income has been deemed uncollectible. At June 30, 2012, the aggregate value of these securities was \$7,051,843, representing 0.51% of the Fund's net assets. The Fund discontinues accruing income on securities for which income has been deemed uncollectible and provides an estimate for losses on interest receivable. The securities have been identified on the accompanying Statement of Investments.

### 9. UNFUNDED LOAN COMMITMENTS

The Fund enters into certain credit agreements, all or a portion of which may be unfunded. The Fund is obligated to fund these loan commitments at the borrowers' discretion. Funded portions of credit agreements are presented on the Statement of Investments.

At June 30, 2012, unfunded commitments were as follows:

| Borrower   | Unfunded<br>Commitment |
|--|------------------------|
| Wendy's International Inc., Delayed Draw Term Loan | \$964,282              |

Unfunded loan commitments and funded portions of credit agreements are marked to market daily and any unrealized appreciation or depreciation is included in the Statement of Assets and Liabilities and the Statement of Operations.

## Notes to Financial Statements (unaudited) (continued)

## Franklin Strategic Income Securities Fund

#### **10. OTHER DERIVATIVE INFORMATION**

At June 30, 2012, the Fund has invested in derivative contracts which are reflected on the Statement of Assets and Liabilities as follows:

|   | Asset Derivatives                                     |                         | Liability Derivatives                                 |                         |
|---|---|-------------------------|---|-------------------------|
| Derivative Contracts Not Accounted for as Hedging Instruments | Statement of Assets and<br>Liabilities Location       | Fair<br>Value<br>Amount | Statement of Assets and<br>Liabilities Location       | Fair<br>Value<br>Amount |
| Foreign exchange contracts                                    | Unrealized appreciation on forward exchange contracts | \$11,532,406            | Unrealized depreciation on forward exchange contracts | \$2,387,347             |

For the period ended June 30, 2012, the effect of derivative contracts on the Fund's Statement of Operations was as follows:

| Derivative Contracts Not Accounted<br>for as Hedging Instruments Statement of Operations Locations |   | Realized Gain<br>(Loss) for the<br>Period | Change in<br>Unrealized<br>Appreciation<br>(Depreciation)<br>for the<br>Period |  |  |
|--|---|---|--|--|--|
| Foreign exchange contracts   | Net realized gain (loss) from foreign currency transactions / Net<br>change in unrealized appreciation (depreciation) on translation of<br>other assets and liabilities denominated in foreign currencies | \$ 886,201                                | \$6,309,110  |  |  |
| Credit contracts   | Net realized gain (loss) from swap contracts / Net change in<br>unrealized appreciation (depreciation) on investments   | 2,551,176                                 | (776,779)  |  |  |

For the period ended June 30, 2012, the average month end market value of derivatives represented 0.93% of average month end net assets. The average month end number of open derivative contracts for the period was 202.

See Note 1(d) regarding derivative financial instruments.

### **11. CREDIT FACILITY**

The Fund, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton Investments, are borrowers in a joint syndicated senior unsecured credit facility totaling \$1.5 billion (Global Credit Facility) which matures on January 18, 2013. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund and other costs incurred by the Fund, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.08% based upon the unused portion of the Global Credit Facility, which is reflected in other expenses on the Statement of Operations. During the period ended June 30, 2012, the Fund did not use the Global Credit Facility.

#### **12. FAIR VALUE MEASUREMENTS**

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

• Level 1 - quoted prices in active markets for identical financial instruments

## Notes to Financial Statements (unaudited) (continued)

### Franklin Strategic Income Securities Fund

#### 12. FAIR VALUE MEASUREMENTS (continued)

- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The inputs or methodology used for valuing financial instruments are not an indication of the risk associated with investing in those financial instruments.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfers as of the date of the underlying event which caused the movement.

A summary of inputs used as of June 30, 2012, in valuing the Fund's assets and liabilities carried at fair value, is as follows:

|  | Level 1      | Level 2         | Level 3     | Total           |
|--|--------------|-----------------|-------------|-----------------|
| Assets:                                  |              |                 |             |                 |
| Investments in Securities:               |              |                 |             |                 |
| Equity Investments:a                     |              |                 |             |                 |
| Consumer Durables & Apparel              | \$ —         | \$ —            | \$ 720,359  | \$ 720,359      |

alncludes common and preferred stocks.

<sup>b</sup>For detailed categories, see the accompanying Statement of Investments.

A reconciliation of assets in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 investments at the end of the period.

### **13. NEW ACCOUNTING PRONOUNCEMENTS**

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. The amendments in the ASU enhance disclosures about offsetting of financial assets and liabilities to enable investors to understand the effect of these arrangements on a fund's financial position. The ASU is effective for interim and annual reporting periods beginning on or after January 1, 2013. The Fund believes the adoption of this ASU will not have a material impact on its financial statements.

[THIS PAGE INTENTIONALLY LEFT BLANK]

This semiannual report for Templeton Growth Securities Fund covers the period ended June 30, 2012.

## Performance Summary as of 6/30/12

# Templeton Growth Securities Fund – Class 2 delivered a +4.07% total return for the six-month period ended 6/30/12.

Performance reflects the Fund's Class 2 operating expenses, but does **not** include any contract fees, expenses or sales charges. If they had been included, performance would be lower. These charges and deductions, particularly for variable life policies, can have a significant effect on contract values and insurance benefits. See the contract prospectus for a complete description of these expenses, including sales charges.

## Templeton Growth Securities Fund – Class 2

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. All investments involve risks, including possible loss of principal. Special risks are associated with foreign investing, including currency fluctuations, economic instability and political developments; investments in emerging markets involve heightened risks related to the same factors. To the extent the Fund focuses on particular countries, regions, industries, sectors or types of investment from time to time, it may be subject to greater risks of adverse developments in such areas of focus than a fund that invests in a wider variety of countries, regions, industries, sectors or investments. Current political uncertainty surrounding the European Union (EU) and its *membership may increase market* volatility. The financial instability of some countries in the EU, including Greece, Italy and Spain, together with the risk of that impacting other more stable countries may increase the economic risk of investing in companies in Europe. The Fund is actively managed but there is no guaran*tee that the manager's investment* decisions will produce the desired results. The Fund's prospectus also includes a description of the main investment risks.

Fund Goal and Main Investments: Templeton Growth Securities Fund seeks long-term capital growth. Under normal market conditions, the Fund invests primarily in equity securities of companies located anywhere in the world, including those in the U.S. and in emerging markets.

## **Performance Overview**

You can find the Fund's six-month total return in the Performance Summary. The Fund underperformed the +6.29% total return of the MSCI World Index for the period under review.<sup>1</sup>

## **Economic and Market Overview**

The six months under review encompassed two different market environments. The first quarter of 2012 delivered the best annual start for global developed stocks in more than a decade, as measured by the MSCI World Index, as signs of U.S. economic recovery and European policy relief underpinned a rally in cyclical stocks. Yet, renewed global economic weakness and European debt concerns led the market lower in the second quarter, and stocks dropped sharply in the spring before additional policy action prompted a rebound in June. Politics largely drove the markets during the first half of 2012 as investors closely monitored developments in Europe, where German-led austerity demands were met with increasing resentment from some highly indebted eurozone members. Coalition-building efforts in Greece collapsed amid anger over the terms of the country's second bailout, forcing a new election that brought some relief when the pro-euro party won. Elsewhere in the region, France's socialist candidate clinched the presidency on a pro-growth platform and the Dutch cabinet resigned in the wake of a contentious austerity deal.

On the economic front, global growth trends generally moderated, led by Europe, which narrowly avoided recession mainly because of German export strength. Yet, even the more resilient economies of Germany, the U.S. and China showed signs of a slowdown at period-end. The combination of flagging growth, political uncertainty and populist unrest pressured investor confidence, and ratings agencies downgraded global banks and European sovereigns. Concerns about the sustainability of Italian and Spanish borrowing costs added to investor anxiety as bond yields climbed. Europe's initial policy responses — including enhanced liquidity measures and an ineffective Spanish banking bailout — did little to

<sup>1.</sup> Source: © 2012 Morningstar. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio. Please see Index Descriptions following the Fund Summaries.

address the structural imbalances of eurozone economies or the solvency fears plaguing the region's banking system. Yet, encouraging progress did emerge at period-end when leaders in Brussels agreed to ease conditions of sovereign bond purchases and permit the region's bailout fund to directly recapitalize banks. Meanwhile, the U.S. Federal Reserve Board opted to extend its strategy, dubbed Operation Twist, designed to lower systemically important interest rates, and the People's Bank of China slashed interest rates for the first time since the global financial crisis began. In the latter part of this period, commodities extended recent losses, with oil falling back below \$100, while the euro dipped and traditional safe havens like U.S. Treasuries, the U.S. dollar and the Japanese yen made gains.

## **Investment Strategy**

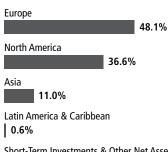

Our investment philosophy is bottom up, value oriented and long term. In choosing investments, we will focus on the market price of a company's securities relative to our evaluation of the company's potential long-term earnings, asset value and cash flow. Among factors we may consider are a company's historical value measures, including price/earnings ratio, profit margins and liquidation value. We do in-depth research to construct a bargain list from which we buy.

## **Manager's Discussion**

Although the Fund delivered absolute gains for shareholders during the volatile six months under review, the seemingly "bipolar" market environment that has persisted since the global financial crisis began continued to challenge bottom-up investors. What we viewed as the market's refusal to distinguish value at the stock level produced a negative "stock selection effect" for the Fund, offsetting allocation benefits and resulting in relative underperformance versus the benchmark. Although we find underperformance unacceptable, we note that such periods are not unprecedented or unexpected. Under Sir John Templeton's tenure, we experienced periods of long-term underperformance far deeper than what we have undergone recently. As Sir John explained in a note to clients in 1950, "The investor who selects stocks on the basis of long-term intrinsic value must expect certain problems." Yet, he also knew, "The most costly errors in selecting stocks are made by people whose thinking is dominated by the question of temporary short-term trend(s)." We believe our disciplined investment strategy can allow us to see past the market's myopic focus and allow us to uncover long-term values.

**Geographic Breakdown** 

Templeton Growth Securities Fund Based on Total Net Assets as of 6/30/12

Short-Term Investments & Other Net Assets
3.7%

The financials sector is one area where we believe near-term worries created selective long-term opportunities.<sup>2</sup> Fears abounded that a combination of asset impairment, funding seizure or deposit flight could possibly render European banks insolvent and spark a systemic contagion. Heavy investment outflows from financials accompanied this apprehension. By the end of the review period, the entire European banking sector's market capitalization had shrunken considerably. It was perhaps unsurprising that many of the main European banks at period-end traded at all-time low valuations roughly in line with those of U.S. banks in 1932.

Stock-specific weakness among the Fund's overweighting in European financials was a primary source of sector underperformance during the review period. Among the positions notably detracting from relative performance were French lender Credit Agricole, which fell to a record low following losses from its Greek operations, Italy's UniCredit, which undertook an ill-timed rights offering at the beginning of the period, and Swiss financial services firm Credit Suisse Group, which the Swiss National Bank (SNB) asked to increase capital reserves. However, we believe Credit Agricole's Greek exposure obscured the value of its core northern European businesses, where recent results confirmed to us encouraging operational progress. UniCredit, having already addressed capital adequacy concerns, is now progressing with cost-cutting and profit improvement initiatives. For Credit Suisse, the SNB is not the company's regulator, capital ratios remained in line with Basel III targets, and we believe an equity issuance is unlikely given the firm's various sources of available capital.

In our view, a stance against the European banking system at recent stock price levels reflected a bet that Europe's political dysfunction will lead to an unraveling of the euro currency, a fate we believe will be avoided as forecasted break-up costs would handily exceed the costs of keeping the union intact. Furthermore, in our view, powerful policy tools still remained available as of period-end, and we believe depressed valuations failed to acknowledge such potentially supportive measures. As a result, our analysis led us to conclude certain deeply discounted regional banks with adequate capital positions, solid brands and good core businesses are likely to survive and can offer considerable upside potential should Europe ultimately establish a credible federal system of checks and balances on regional fiscal policy. In addition to holding

2. The financials sector comprises capital markets, commercial banks, diversified financial services and insurance in the SOI.

deep-value European banks, we maintained exposure to financials stocks with what we viewed as defensive characteristics and attractive growth profiles in other regions. We believe our selective holdings represent a dynamic investing approach in the market's most challenging and potentially rewarding environment.

Although financial holdings were the primary source of relative underperformance at the sector level, the period also featured more modest laggards. An underweighted position and stock selection in the defensive consumer staples sector, where we believe volatile input costs and intense competition were likely to pressure margins for the foreseeable future, also detracted from relative returns.<sup>3</sup> The sector's underperformance was primarily attributable to stock-specific weakness at U.K. food retailer Tesco, which dropped sharply after holiday sales disappointed and the firm reduced earnings guidance due to weakness in its domestic operations. In our view, Tesco maintained a highly dominant domestic market position and remained arguably the most efficient food merchandiser with the best track record for global market expansion. A new management team brought a breath of fresh air to a company that many feared rested on its laurels, and could help address near-term challenges and sustain Tesco's historically strong record for maintaining long-term shareholder returns.

Energy holdings also lagged mainly due to stock-specific weakness; among these were three of the Fund's biggest detractors.<sup>4</sup> French oil company Total's share price retreated as oil prices declined and a gas leak at a North Sea well led the company to downgrade earnings forecasts. With the firm having contained the leak, we believe Total remained well positioned for long-term production growth given its sizable investments in its upstream portfolio. U.S. oilfield services firm Baker Hughes also lost value as low natural gas prices shifted activity to more profitable oil drilling, crimping margins as pressure pumping supply increased and equipment relocation stalled production. From our perspective, most issues plaguing Baker appeared transitory and the company was aggressively working to mitigate their impact, creating what we viewed as an opportunity to buy one of the world's highest quality oilfield services firms at multi-decade low valuation levels. Finally, Dutch drilling company SBM Offshore's share price slumped after allegations of improper sales practices surfaced. The full extent of this

<sup>3.</sup> The consumer staples sector comprises food and staples retailing in the SOI.

<sup>4.</sup> The energy sector comprises energy equipment and services; and oil, gas and consumable fuels in the SOI.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Statement of Investments (SOI). issue remained difficult to predict; however, our analysis of potential outcomes suggested the market priced in worst-case scenarios. According to our analysis, with its healthy backlog and favorable pipeline of future products, SBM offers considerable room for appreciation over a long-term investment horizon. Overall, we remained favorable toward our energy holdings and believe certain firms with the technology and expertise to extract hydrocarbons stand to benefit as new reserves are developed in increasingly remote and difficult locations.

Similar challenges and opportunities confronted the global mining industry; however, although energy multiples remained relatively reasonable in recent years, mining valuations hit a record high and profit margins reached peak levels as official stimulus debased the U.S. dollar and underpinned commodities strength. Although such positive momentum bolstered consensus optimism in the sector, it signaled caution to us, and our long-standing materials underweighting notably contributed to relative performance during the period as commodities extended their declines amid global growth concerns. Consumer discretionary stocks also significantly contributed to relative returns, driven by individual stock strength.<sup>5</sup> In particular, media holdings strongly outperformed, led by U.S. cable providers Comcast and Time Warner Cable each beating profit and sales estimates on broadband subscriber gains. We think recent results supported our long-held view that the cable industry's control of the valuable broadband pipeline represents a powerful secular growth driver to buffer more cyclical revenue sources such as video and advertising. Content producers like U.S.-based Disney and News Corp. also strongly outperformed the benchmark as the proliferation of media consumption services and devices enhanced demand for quality content. Disney rallied to its highest share price after growing earnings more than 20%, and News Corp. surged after its board agreed to split the company's low-growth publishing assets from its high-growth entertainment assets.

Regionally, the Fund's North American holdings significantly outperformed as stock selection overcame a detractive underweighting in the resilient U.S. market. Asian holdings also notably contributed to relative performance, led by an overweighting in Singapore and off-benchmark stock selection in South Korea. However, these contributors were largely offset by underperformance in Europe, where an overweighted position and stock-specific weakness weighed on

5. The consumer discretionary sector comprises auto components, automobiles, media, multiline retail and specialty retail in the SOI.

relative results. Although the situation in Europe remained fluid, we found recent policy pronouncements encouraging and identified considerable valuation support. We believe restoring sustainable economic balance to the eurozone will likely ultimately require a combination of stimulus and structural reform to improve competitiveness and growth, spending cuts to restore fiscal sustainability and credible policy advancement toward banking and fiscal union. Recently announced measures, which included direct bank recapitalizations and easier conditions for sovereign bond purchases, could potentially serve to break the cycle between sovereigns and banks that has challenged the region's private and public funding mechanisms.

Our bottom-up stock analysis indicated that European stocks at period-end traded at their lowest price-to-book levels since March 2009, offering what we believe were attractive entry points into some of the region's highest quality global brands. Asian and emerging market stocks also remained below their long-term average price-to-earnings ratios and stood to potentially benefit should growth in these regions exceed diminished expectations. Keep in mind, we are not pinning our hopes on economic growth. In an era of low interest rates and investor uncertainty, we believe the assets most likely to outperform over the long term are the most undervalued stocks. Such discounts often exist for a reason, and investing in deeply undervalued stocks in times of crisis requires rigorous analysis, as well as patience and fortitude through periods of considerable adversity. Our discipline in such challenging environments has paid off in the past, and we are confident it will yet again if investors re-focus on fundamental value. We thank you for your patience and support as this process unfolds.

Thank you for your participation in Templeton Growth Securities Fund. We look forward to serving your future investment needs.

The foregoing information reflects our analysis, opinions and portfolio holdings as of June 30, 2012, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

## Templeton Growth Securities Fund – Class 2

### **Fund Expenses**

As an investor in a variable insurance contract (Contract) that indirectly provides for investment in an underlying mutual fund, you can incur transaction and/or ongoing expenses at both the Fund level and the Contract level.

- Transaction expenses can include sales charges (loads) on purchases, surrender fees, transfer fees and premium taxes.
- Ongoing expenses can include management fees, distribution and service (12b-1) fees, contract fees, annual maintenance fees, mortality and expense risk fees and other fees and expenses. All mutual funds and Contracts have some types of ongoing expenses.

The expenses shown in the table are meant to highlight ongoing expenses at the Fund level only and do not include ongoing expenses at the Contract level, or transaction expenses at either the Fund or Contract levels. While the Fund does not have transaction expenses, if the transaction and ongoing expenses at the Contract level were included, the expenses shown below would be higher. You should consult your Contract prospectus or disclosure document for more information.

The table shows Fund-level ongoing expenses and can help you understand these expenses and compare them with those of other mutual funds offered through the Contract. The table assumes a \$1,000 investment held for the six months indicated. Please refer to the Fund prospectus for additional information on operating expenses.

## **Actual Fund Expenses**

The first line (Actual) of the table provides actual account values and expenses. The "Ending Account Value" is derived from the Fund's actual return, which includes the effect of ongoing Fund expenses, but does not include the effect of ongoing Contract expenses.

You can estimate the Fund-level expenses you incurred during the period by following these steps. *Of course, your account value and expenses will differ from those in this illustration:* 

- Divide your account value by \$1,000.
   *If an account had an \$8,600 value, then \$8,600 ÷ \$1,000 = 8.6.*
- 2. Multiply the result by the number under the heading "Fund-Level Expenses Incurred During Period."
  If Fund-Level Expenses Incurred During Period were \$7.50, then
  8.6 x \$7.50 = \$64.50.

In this illustration, the estimated expenses incurred this period at the Fund level are \$64.50.

# Hypothetical Example for Comparison with Other Mutual Funds

Information in the second line (Hypothetical) of the table can help you compare ongoing expenses of the Fund with those of other mutual funds offered through the Contract. This information may not be used to estimate the actual ending account balance or expenses you incurred during the period. The hypothetical "Ending Account Value" is based on the Fund's actual expense ratio and an assumed 5% annual rate of return before expenses, which does not represent the Fund's actual return. The figure under the heading "Fund-Level Expenses Incurred During Period" shows the hypothetical expenses your account would have incurred under this scenario. You can compare this figure with the 5% hypothetical examples that appear in shareholder reports of other funds offered through a Contract.

| Class 2                                  | Beginning<br>Account<br>Value 1/1/12 | Ending<br>Account<br>Value 6/30/12 | Fund-Level<br>Expenses Incurred<br>During Period*<br>1/1/12–6/30/12 |
|--|--------------------------------------|------------------------------------|---|
| Actual<br>Hypothetical (5% return before | \$1,000                              | \$1,040.70                         | \$5.18  |
| expenses)                                | \$1,000                              | \$1,019.79                         | \$5.12  |

\*Expenses are calculated using the most recent six-month annualized expense ratio for the Fund's Class 2 shares (1.02%), which does not include any ongoing expenses of the Contract for which the Fund is an investment option, multiplied by the average account value over the period, multiplied by 182/366 to reflect the one-half year period.

## Notes to Financial Statements (unaudited)

## **Templeton Growth Securities Fund**

### **1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940, as amended, (1940 Act) as an open-end investment company, consisting of twenty separate funds. The Templeton Growth Securities Fund (Fund) is included in this report. The financial statements of the remaining funds in the Trust are presented separately. Shares of the Fund are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts. The Fund offers three classes of shares: Class 1, Class 2, and Class 4. Each class of shares differs by its distribution fees, voting rights on matters affecting a single class and its exchange privilege.

The following summarizes the Fund's significant accounting policies.

#### a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Under procedures approved by the Trust's Board of Trustees (the Board), the Fund's administrator, investment manager and other affiliates have formed the Valuation and Liquidity Oversight Committee (VLOC). The VLOC provides administration and oversight of the Fund's valuation policies and procedures, which are approved annually by the Board. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the security is determined. Over-the-counter securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund's pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the date that the values of the foreign debt securities are determined. Investments in non-registered money market funds are valued at the closing net asset value. Time deposits are valued at cost, which approximates market value.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the VLOC convenes on a regular basis to review such financial instruments and considers a number of factors, including significant unobservable valuation inputs, when arriving at fair value. The VLOC primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the values that would have been used had an active market existed. The VLOC employs various methods for calibrating these valuation approaches including a regular review of key inputs and assumptions, transactional back-testing or disposition analysis, and reviews of any related market activity.

## Notes to Financial Statements (unaudited) (continued)

### **Templeton Growth Securities Fund**

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### a. Financial Instrument Valuation (continued)

Trading in securities on foreign securities stock exchanges and over-the-counter markets may be completed before the daily close of business on the NYSE. Occasionally, events occur between the time at which trading in a foreign security is completed and the close of the NYSE that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at the close of the NYSE. In order to minimize the potential for these differences, the VLOC monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depositary Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

#### b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

#### c. Investment in Templeton China Opportunities Fund, Ltd.

The Fund invests in Templeton China Opportunities Fund, Ltd. (China Fund), a private offering of unregistered shares in a Cayman Islands Exempt Company. The China Fund investment objective is to seek capital growth primarily through investments in A-shares of Chinese companies listed on the Shanghai and Shenzhen stock exchanges. Chinese A-shares are traded in Chinese Renminbi and are only available as an investment to domestic (Chinese) investors and holders of a Qualified Foreign Institutional Investors license. The China Fund is managed by Templeton Investment Counsel, LLC (an affiliate of the investment manager). No additional management or administrative fees are incurred on assets invested in the China Fund.

The China Fund may be subject to certain restrictions and administrative processes relating to its ability to repatriate cash balances, investment proceeds and earnings associated with its investment, as such activities are subject to approval by agencies of the Chinese government and thus the Fund may incur delays in redeeming its investment in the China Fund. The Fund's investment in the China Fund is valued based upon the fair value of the China Fund's portfolio securities and other assets and liabilities.

## Notes to Financial Statements (unaudited) (continued)

## **Templeton Growth Securities Fund**

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### d. Securities Lending

The Fund participates in an agency based securities lending program. The fund receives cash collateral against the loaned securities in an amount equal to at least 102% of the market value of the loaned securities. Collateral is maintained over the life of the loan in an amount not less than 100% of the market value of loaned securities, as determined at the close of fund business each day; any additional collateral required due to changes in security values is delivered to the fund on the next business day. The collateral is invested in a non-registered money fund as indicated on the Statement of Investments. The fund receives income from the investment of cash collateral, in addition to lending fees and rebates paid by the borrower. The fund bears the market risk with respect to the collateral investment, securities loaned, and the risk that the agent may default on its obligations to the fund. The securities lending agent has agreed to indemnify the fund in the event of default by a third party borrower.

#### e. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and if applicable, excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is "more likely than not" to be sustained upon examination by the tax authorities based on the technical merits of the tax position. As of June 30, 2012, and for all open tax years, the Fund has determined that no liability for unrecognized tax benefits is required in the Fund's financial statements related to uncertain tax positions taken on a tax return (or expected to be taken on future tax returns). Open tax years are those that remain subject to examination and are based on each tax jurisdiction statute of limitation.

#### f. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized as soon as the Fund is notified of the ex-dividend date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with accounting principles generally accepted in the United States of America. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the funds based on the ratio of net assets of each fund to the combined net assets of the Trust. Fund specific expenses are charged directly to the fund that incurred the expense.

Realized and unrealized gains and losses and net investment income, not including class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions, by class, are generally due to differences in class specific expenses.

## Notes to Financial Statements (unaudited) (continued)

### **Templeton Growth Securities Fund**

#### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### g. Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

#### h. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Fund, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

#### 2. SHARES OF BENEFICIAL INTEREST

At June 30, 2012, there were an unlimited number of shares authorized (without par value). Transactions in the Fund's shares were as follows:

## **Templeton Growth Securities Fund**

#### **3. TRANSACTIONS WITH AFFILIATES**

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

| Subsidiary  | Affiliation            |
|---|------------------------|
| Templeton Global Advisors Limited (TGAL)                      | Investment manager     |
| Franklin Templeton Services, LLC (FT Services)                | Administrative manager |
| Franklin Templeton Distributors, Inc. (Distributors)          | Principal underwriter  |
| Franklin Templeton Investor Services, LLC (Investor Services) | Transfer agent         |

#### a. Management Fees

The Fund pays an investment management fee to TGAL based on the average daily net assets of the Fund as follows:

| Annualized Fee Rate | Net Assets  |
|---------------------|---|
| 1.000%              | Up to and including \$100 million                     |
| 0.900%              | over \$100 million, up to and including \$250 million |
| 0.800%              | over \$250 million, up to and including \$500 million |
| 0.750%              | over \$500 million, up to and including \$1 billion   |
| 0.700%              | over \$1 billion, up to and including \$5 billion     |
| 0.675%              | over \$5 billion, up to and including \$10 billion    |
| 0.655%              | over \$10 billion, up to and including \$15 billion   |
| 0.635%              | over \$15 billion, up to and including \$20 billion   |
| 0.615%              | In excess of \$20 billion                             |

#### b. Administrative Fees

Under an agreement with TGAL, FT Services provides administrative services to the Fund. The fee is paid by TGAL based on average daily net assets, and is not an additional expense of the Fund.

#### c. Distribution Fees

The Board adopted distribution plans for Class 2 and Class 4 shares pursuant to Rule 12b-1 under the 1940 Act. Under the Fund's compensation distribution plans, the Fund pays Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to 0.35% per year of its average daily net assets of each class. The Board has agreed to limit the current rate to 0.25% per year for Class 2.

#### e. Transfer Agent Fees

Investor Services, under terms of an agreement, performs shareholder servicing for the Fund and is not paid by the Fund for the services.

#### g. Other Affiliated Transactions

At June 30, 2012, Franklin Templeton Variable Insurance Product Trust – Franklin Templeton VIP Founding Funds Allocation Fund owned 44.81% of the Fund's outstanding shares.

## Notes to Financial Statements (unaudited) (continued)

### **Templeton Growth Securities Fund**

#### 4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended June 30, 2012, the custodian fees were reduced as noted in the Statement of Operations.

#### 5. INCOME TAXES

For tax purposes, capital losses may be carried over to offset future capital gains, if any. Capital loss carryforwards with no expiration, if any, must be fully utilized before those losses with expiration dates.

At December 31, 2011, capital loss carryforwards were as follows:

| Capital loss carryforwards expiring in: |               |
|---|---------------|
| 2017                                    | \$240,654,060 |
| 2018                                    | 55,299,629    |
|   | \$295,953,689 |

At June 30, 2012, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

| Cost of investments                        | \$2,917,028,655  |
|--|------------------|
| Unrealized appreciation                    |                  |
| Net unrealized appreciation (depreciation) | \$ (295,064,390) |

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatment of wash sales.

#### 6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short term securities) for the period ended June 30, 2012, aggregated \$371,523,048 and \$285,912,627, respectively.

#### 7. CONCENTRATION OF RISK

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local and regional economic, political and social conditions, which may result in greater market volatility. In addition, certain foreign securities may not be as liquid as U.S. securities.

#### 8. RESTRICTED SECURITIES

The Fund invests in securities that are restricted under the Securities Act of 1933 (1933 Act) or which are subject to legal, contractual, or other agreed upon restrictions on resale. Restricted securities are often purchased in private placement transactions, and cannot be sold without prior registration unless the sale is pursuant to an exemption under the 1933 Act. Disposal of these securities may require greater effort and expense, and prompt sale at an acceptable price may be difficult. The Fund may have registration rights for restricted securities. The issuer generally incurs all registration costs.

## Notes to Financial Statements (unaudited) (continued)

## **Templeton Growth Securities Fund**

#### 8. RESTRICTED SECURITIES (continued)

At June 30 2012, the Fund held investments in restricted securities, excluding certain securities exempt from registration under the 1933 Act deemed to be liquid, as follows:

| Shares    | Issuer  | Acquisition<br>Dates | Cost         | Value        |
|-----------|---|----------------------|--------------|--------------|
| 1,194,518 | Templeton China Opportunities Fund, Ltd., Reg D (0.48% of Net Assets) | 3/17/10-12/1/11      | \$11,935,000 | \$12,745,505 |

#### 9. HOLDINGS OF 5% VOTING SECURITIES OF PORTFOLIO COMPANIES

The 1940 Act defines "affiliated companies" to include investments in portfolio companies in which a fund owns 5% or more of the outstanding voting securities. Investments in "affiliated companies" for the Fund for the period ended June 30, 2012, were as shown below.

| Name of Issuer  | Number of<br>Shares Held<br>at Beginning<br>of Period |   | Gross<br>Reductions | Number of<br>Shares<br>Held at End<br>of Period | Value at<br>End of<br>Period | Investment<br>Income | Realized<br>Capital<br>Gain (Loss) |  |
|---|---|---|---------------------|---|------------------------------|----------------------|------------------------------------|--|
| Non-Controlled Affiliates Templeton China Opportunities Fund, Ltd., Reg D | 1,194,518   | _ | _                   | 1,194,518                                       | \$12,745,505                 | \$ —                 | \$ —                               |  |
| Total Affiliated Securities (0.48% of Net Assets)                         |   |   |                     |   |                              |                      |                                    |  |

Total Affiliated Securities (0.48% of Net Assets)

#### **10. CREDIT FACILITY**

The Fund, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton Investments, are borrowers in a joint syndicated senior unsecured credit facility totaling \$1.5 billion (Global Credit Facility) which matures on January 18, 2013. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund and other costs incurred by the Fund, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.08% based upon the unused portion of the Global Credit Facility, which is reflected in other expenses on the Statement of Operations. During the period ended June 30, 2012, the Fund did not use the Global Credit Facility.

#### **11. REDEMPTION IN-KIND**

During the year ended December 31, 2011, the Fund realized \$9,941,638 of net gains resulting from a redemption in-kind in which a shareholder redeemed fund shares for securities held by the Fund rather than for cash. Because such gains are not taxable to the Fund and are not distributed to remaining shareholders, they have been reclassified from accumulated net realized gains to paid-in capital.

## Notes to Financial Statements (unaudited) (continued)

## **Templeton Growth Securities Fund**

#### **12. FAIR VALUE MEASUREMENTS**

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

- Level 1 quoted prices in active markets for identical financial instruments
- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The inputs or methodology used for valuing financial instruments are not an indication of the risk associated with investing in those financial instruments.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfers as of the date of the underlying event which caused the movement.

A summary of inputs used as of June 30, 2012, in valuing the Fund's assets carried at fair value, is as follows:

| Assets:                                 | Level 1         | Level 2      | Level 3      | Total           |
|---|-----------------|--------------|--------------|-----------------|
| Investments in Securities               |                 |              |              |                 |
| Equity Investments:                     |                 |              |              |                 |
| Diversified Financial Services          | \$ 98,659,238   | \$ —         | \$12,745,505 | \$ 111,404,743  |
| Other Equity Investments <sup>a,b</sup> | 2,431,308,085   | —            | —            | 2,431,308,085   |
| Short Term Investments                  |                 | 79,251,437   | _            | 79,251,437      |
| Total Investments in Securities         | \$2,529,967,323 | \$79,251,437 | \$12,745,505 | \$2,621,964,265 |

alncludes common preferred stocks as well as other equity investments. <sup>b</sup>For detailed categories, see the accompanying Statement of Investments.

A reconciliation of assets in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 investments at the end of the period.

#### **13. NEW ACCOUNTING PRONOUNCEMENTS**

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. The amendments in the ASU enhance disclosures about offsetting of financial assets and liabilities to enable investors to understand the effect of these arrangements on a fund's financial position. The ASU is effective for interim and annual reporting periods beginning on or after January 1, 2013. The Fund believes the adoption of this ASU will not have a material impact on its financial statements.

#### **14. SUBSEQUENT EVENTS**

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

# Tax Information (unaudited)

## **Templeton Growth Securities Fund**

At December 31, 2011, more than 50% of the Fund's total assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from income paid to the Fund on these investments. As shown in the table below, the Fund hereby reports to shareholders the foreign source income and foreign taxes paid, pursuant to Section 853 of the Internal Revenue Code. This written statement will allow shareholders of record on June 14, 2012, to treat their proportionate share of foreign taxes paid by the Fund as having been paid directly by them. The shareholder shall consider these amounts as foreign taxes paid in the tax year in which they receive the Fund distribution.

The following table provides a detailed analysis of foreign tax paid, and foreign source income as reported by the Fund, to Class 1, Class 2, and Class 4 shareholders of record.

| Class   | Foreign Tax<br>Paid<br>Per Share | Foreign<br>Source Income<br>Per Share |
|---------|----------------------------------|---------------------------------------|
| Class 1 | \$0.0106                         | \$0.2085                              |
| Class 2 | \$0.0106                         | \$0.1843                              |
| Class 4 | \$0.0106                         | \$0.1792                              |

Foreign Tax Paid Per Share (Column 1) is the amount per share available to you, as a tax credit (assuming you held your shares in the Fund for a minimum of 16 days during the 31-day period beginning 15 days before the ex-dividend date of the Fund's distribution to which the foreign taxes relate), or, as a tax deduction.

Foreign Source Income Per Share (Column 2) is the amount per share of income dividends attributable to foreign securities held by the Fund, plus any foreign taxes withheld on these dividends.

Russell<sup>®</sup> is a trademark and Russell<sup>™</sup> is a servicemark of the Frank Russell Company.

**Barclays U.S. Aggregate Index** is a market capitalization-weighted index representing the U.S. investment-grade, fixed-rate, taxable bond market with index components for government and corporate, mortgage pass-through and asset-backed securities. All issues included are SEC registered, taxable, dollar denominated and nonconvertible, must have at least one year to final maturity and must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, Standard & Poor's and Fitch, respectively.

**Barclays U.S. Government Index: Intermediate Component** is the intermediate component of the Barclays U.S. Government Index, which includes public obligations of the U.S. Treasury with at least one year to final maturity and publicly issued debt of U.S. government agencies, quasi-federal corporations, and corporate or foreign debt guaranteed by the U.S. government.

**Citigroup World Government Bond Index** is a market capitalization-weighted index consisting of investment-grade world government bond markets.

**Consumer Price Index (CPI)**, calculated by the U.S. Bureau of Labor Statistics, is a commonly used measure of the inflation rate.

**Credit Suisse (CS) High Yield Index** is designed to mirror the investable universe of the U.S. dollar-denominated high yield debt market.

Dow Jones Industrial Average is a price-weighted average of blue-chip stocks that are generally the leaders in their industry.

FTSE EPRA/NAREIT Developed Index is a free float-adjusted index designed to measure the performance of publicly traded real estate securities in the North American, European and Asian real estate markets. FTSE<sup>®</sup> is a trademark of London Stock Exchange Plc and The Financial Times Limited and is used by FTSE under license.

J.P. Morgan (JPM) Global Government Bond Index (GGBI) tracks total returns for liquid, fixed-rate, domestic government bonds with maturities greater than one year issued by developed countries globally.

**Lipper Multi-Sector Income Funds Classification Average** is calculated by averaging the total returns of all funds within the Lipper Multi-Sector Income Funds classification in the Lipper Open-End underlying funds universe. Lipper Multi-Sector Income Funds are defined as funds that seek current income by allocating assets among different fixed income securities sectors (not primarily in one sector except for defensive purposes), including U.S. and foreign governments, with a significant portion rated below investment grade. For the six-month period ended 6/30/12, there were 231 funds in this category. Lipper calculations do not include contract fees, expenses or sales charges, and may have been different if such charges had been considered.

**Lipper VIP Equity Income Funds Classification Average** is an equally weighted average calculation of performance figures for all funds within the Lipper Equity Income Funds classification in the Lipper VIP underlying funds universe. Lipper Equity Income Funds seek relatively high current income and growth of income through investing 60% or more of their portfolios in equities. For the six-month period ended 6/30/12, there were 64 funds in this category. Lipper calculations do not include contract fees, expenses or sales charges, and may have been different if such charges had been considered.

**Lipper VIP General U.S. Government Funds Classification Average** is an equally weighted average calculation of performance figures for all funds within the Lipper General U.S. Government Funds classification in the Lipper VIP underlying funds universe. Lipper General U.S. Government Funds invest primarily in U.S. government and agency issues. For the six-month period ended 6/30/12, there were 84 funds in this category. Lipper calculations do not include contract fees, expenses or sales charges, and may have been different if such charges had been considered.

**Lipper VIP High Current Yield Funds Classification Average** is an equally weighted average calculation of performance figures for all funds within the Lipper High Current Yield Funds Classification in the Lipper VIP underlying funds universe. Lipper High Current Yield Funds aim at high (relative) current yield from fixed income securities, have no quality or maturity restrictions, and tend to invest in lower grade debt issues. For the six-month period ended 6/30/12, there were 123 funds in this

category. Lipper calculations do not include contract fees, expenses or sales charges, and may have been different if such charges had been considered.

# Franklin Templeton Variable Insurance Products Trust Shareholder Information

#### Board Review of Investment Management Agreement

At a meeting held April 17, 2012, the Board of Trustees (Board), including a majority of non-interested or independent Trustees, approved renewal of the investment management agreement for each of the separate funds within the Trust (Fund(s)). In reaching this decision, the Board took into account information furnished throughout the year at regular Board meetings, as well as information prepared specifically in connection with the annual renewal review process. Information furnished and discussed throughout the year included investment performance reports and related financial information for each Fund, as well as periodic reports on expenses, shareholder services, legal and compliance matters, pricing, brokerage commissions and execution and other services provided by the Investment Manager (Manager) and its affiliates. Information furnished specifically in connection with the renewal process included reports prepared by Lipper, Inc. (Lipper), an independent organization, as well as additional material, including a Fund profitability analysis prepared by management. The Lipper reports compared a Fund's investment performance and expenses with those of other mutual funds deemed comparable to the Fund as selected by Lipper. The Fund profitability analysis discussed the profitability to Franklin Templeton Investments from its overall U.S. fund operations, as well as on an individual fund-by-fund basis. Additional material accompanying such profitability analysis included information on a fund-by-fund basis listing portfolio managers and other accounts they manage, as well as information on management fees charged by the Manager and its affiliates to U.S. mutual funds and other accounts, including management's explanation of differences where relevant. Such material also included a memorandum prepared by management describing project initiatives and capital investments relating to the services provided to the Funds by the Franklin Templeton Investments organization, as well as a memorandum relating to economies of scale.

In considering such materials, the independent Trustees received assistance and advice from and met separately with independent counsel. While the investment management agreements for all Funds were considered at the same Board meeting, the Board dealt with each Fund separately. In approving continuance of the investment management agreement for each Fund, the Board, including a majority of independent Trustees, determined that the existing management fee structure was fair and reasonable and that continuance of the investment management agreement was in the best interests of each Fund and its shareholders. While attention was given to all information furnished, the following discusses some primary factors relevant to the Board's decision.

NATURE, EXTENT AND QUALITY OF SERVICE. The Board was satisfied with the nature and quality of the overall services provided by the Manager and its affiliates to the Funds and their shareholders. In addition to investment performance and expenses discussed later, the Board's opinion was based, in part, upon periodic reports furnished it showing that the investment policies and restrictions for each Fund were consistently complied with as well as other reports periodically furnished the Board covering matters such as the compliance of portfolio managers and other management personnel with the code of ethics adopted throughout the Franklin Templeton fund complex, the adherence to fair value pricing procedures established by the Board, and the accuracy of net asset value calculations. Favorable consideration was given to management's continuous efforts and expenditures in establishing back-up systems and recovery procedures to function in the event of a natural disaster, it being noted that such systems and procedures had functioned smoothly during the Florida hurricanes and blackouts experienced in previous years. Among other factors taken into account by the Board were the Manager's best execution trading policies, including a favorable report by an independent portfolio trading analytical firm, which also covered FOREX transactions. Consideration was also given to the experience of each Fund's portfolio management team, the number of accounts managed and general method of compensation. In this latter respect, the Board noted that a primary factor in management's determination of a portfolio manager's bonus compensation was the relative investment performance of the funds he or she managed and that a portion of such bonus was required to be invested in a predesignated list of funds within such person's fund management area so as to be aligned with the interests of shareholders. Particular attention was given to management's conservative approach and diligent risk management procedures, including continuous monitoring of counterparty credit risk and attention given to derivatives and other complex instruments, including expanded collateralization requirements. The Board also took into account, among other things, management's efforts in establishing a global credit facility for the benefit of the Funds and other accounts managed by Franklin Templeton Investments to provide a source of cash for temporary and emergency purposes or to meet unusual redemption requests as well as the strong financial position of the Manager's parent company and its commitment to the mutual fund business as evidenced by its subsidization of money market funds.

## Shareholder Information (continued)

#### Board Review of Investment Management Agreement (continued)

**INVESTMENT PERFORMANCE.** The Board placed significant emphasis on the investment performance of each of the Funds in view of its importance to shareholders. While consideration was given to performance reports and discussions with portfolio managers at Board meetings throughout the year, particular attention in assessing performance was given to the Lipper reports furnished for the agreement renewals of all Funds. The Lipper reports prepared for each of the individual Funds showed the investment performance of Class 1 shares for those Funds having such class of shares and Class 2 shares for those Funds that did not have Class 1 shares, in comparison to a performance universe selected by Lipper. Comparative performance for each Fund was shown for the one-year period ended January 31, 2012, and previous periods ended that date of up to 10 years unless otherwise noted. Performance was shown on a total return basis for each of the Funds and the Board's view of such performance.

**Franklin Flex Cap Growth Securities Fund** – The performance universe for this Fund, which has been in operation for less than 10 full years, consisted of the Fund and all multi-cap growth funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's comparative total return for the one-year period to be in the second-lowest quintile of its performance universe, and on an annualized basis to be in the second-lowest quintile of such universe for the previous three-year period and the middle quintile of such universe for the previous five-year period. The Board was not satisfied with the Fund's portfolio management team with upper management. Based on such discussions and taking into account the Fund's more acceptable longer term performance, the Board did not believe any immediate change in portfolio management was warranted, but intends to monitor future performance.

**Franklin Global Real Estate Securities Fund** – The performance universe for this Fund consisted of the Fund and all real estate funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's total return to be in the second-lowest quintile of such universe for the one-year period, and on an annualized basis to be in the lowest quintile of such universe for the previous three-, five- and 10-year periods. The Lipper universe includes all real estate funds underlying variable annuities and is not limited to those having a global mandate such as the Fund. The Board noted, however, among the 14 global real estate funds with 26 share classes included in such universe, that the Fund's Class 1 shares had the highest and second-highest total returns for the previous one and two years, respectively. The Board also noted steps that had been taken by management to improve the Fund's performance, including the appointment of an additional portfolio manager in 2010. While the Board intends to continue monitoring the Fund's results, it was satisfied with the efforts being made by management to improve performance and believed no change in portfolio management was warranted, noting the Fund's favorable relative performance with respect to other global real estate funds as referred to above.

**Franklin Growth and Income Securities Fund** – The performance universe for this Fund consisted of the Fund and all equity income funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's income return during the one-year period to be in the highest or best performing quintile of its performance universe, and on an annualized basis in each of the previous three-, five- and 10-year periods to also be in the highest quintile of its performance universe. The Lipper report showed the Fund's total return for the one-year period to be in the second-highest quintile of its performance universe, and on an annualized basis to be in the highest quintile of such universe for the previous three-year period, the second-highest quintile of such universe for the previous five-year period, and the second-lowest quintile of such universe for the previous 10-year period. The Board was satisfied with the Fund's performance as shown in the Lipper report.

**Franklin High Income Securities Fund** – The performance universe for this Fund consisted of the Fund and all high current yield funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's income return for the one-year period to be in the second-lowest quintile of such universe, and on an annualized basis to also be in the second-lowest quintile for the previous three- and five-year periods, but to be in the highest quintile of such universe for the previous 10-year period. The Lipper report showed the Fund's total return to be in the second-highest quintile of its performance universe for the one-year period, and on an annualized basis to be in the middle quintile of such universe for the previous three-year period, the second-highest quintile of such universe for the previous three-year period, the second-highest quintile of such universe for the previous 10-year period. The Board believed the Fund's performance as shown in the Lipper report to be acceptable and did not

# Shareholder Information (continued)

#### Board Review of Investment Management Agreement (continued)

warrant any change in portfolio management. In reaching such conclusion, the Board noted that the Fund's overall favorable comparative total returns and the level of its annualized income return, which amounted to 6.40%, 6.96%, and 7.53% for the one-, three- and five-year periods, respectively, appeared generally consistent with the Fund's investment objective of earning a high level of current income with capital appreciation as a secondary goal.

**Franklin Income Securities Fund** – The performance universe for this Fund consisted of the Fund and all mixed-asset target allocation moderate funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's income return to be in the highest or best performing quintile of such universe for the one-year period and to also be in the highest quintile of such universe for each of the previous three-, five- and 10-year periods on an annualized basis. The Lipper report showed the Fund's total return to be in the middle quintile of such universe for each of the previous dard on an annualized basis to be in the highest or second-highest quintile of such universe for each of the previous three-, five- and 10-year periods. The Board was satisfied with the Fund's comparative performance as shown in the Lipper report.

**Franklin Large Cap Growth Securities Fund** – The performance universe for this Fund consisted of the Fund and all large-cap core funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's comparative total return to be in the upper half of such universe for the one-year period, and on an annualized basis to be in the second-lowest quintile of such universe for the previous three-year period, the second-highest quintile of such universe for the previous five-year period, and the second-lowest quintile of such universe for the previous 10-year period. The Board believed the Fund's overall performance as set forth in the Lipper report to be acceptable, noting that its three- and 10-year annualized returns in each case were within 50 basis points of the performance universe median.

**Franklin Large Cap Value Securities Fund** – The performance universe for this Fund, which has been in operation for less than 10 full years, consisted of the Fund and all large-cap value funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's total return to be in the lowest quintile of such universe for the one-year period and on an annualized basis to be in the second-highest quintile and middle quintile of such universe for the previous three- and five-year periods, respectively. The Board discussed with management the reasons for the Fund's one-year underperformance, including its holdings in energy stocks exposed to natural gas, which were hurt by lower gas prices, and also discussed steps being taken to improve performance, which included the addition of an experienced investment analyst to provide support for the Fund's lead manager. Based on such discussions and the Fund's longer term performance, the Board did not believe that any change in the Fund's portfolio management was warranted.

**Franklin Rising Dividends Securities Fund** – The performance universe for this Fund consisted of the Fund and all multi-cap core funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's comparative total return to be in the highest or best performing quintile of the performance universe for the one-year period, and on an annualized basis to be in the highest or second-highest quintile of such universe for each of the three-, five- and 10-year periods. The Board was satisfied with the Fund's performance as set forth in the Lipper report.

**Franklin Small Cap Value Securities Fund** – The performance universe for this Fund consisted of the Fund and all small-cap value funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's total return for the one-year period to be in the second-highest performing quintile of such performance universe, and on an annualized basis to also be in the second-highest quintile of such universe for each of the previous three- and five-year periods, and in the upper half of such universe for the previous 10-year period. The Board found the Fund's comparative performance as set forth in the Lipper report to be satisfactory.

**Franklin Small-Mid Cap Growth Securities Fund** – The performance universe for this Fund consisted of the Fund and all mid-cap growth funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's total return for the one-year period to be in the upper half of such universe, and on an annualized basis to also be in the upper half of such universe for each of the previous three- and five-year periods, and to be in the second-lowest quintile of such universe for the previous 10-year period. The Board found the Fund's comparative investment performance as set forth in the Lipper report to be acceptable.

## Shareholder Information (continued)

#### Board Review of Investment Management Agreement (continued)

**Franklin Strategic Income Securities Fund** – The performance universe for this Fund consisted of the Fund and all general bond funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's income return to be in the second-highest quintile of such performance universe for the one-year period, and on an annualized basis to also be in the second-highest quintiles of such universe during the previous three- and five-year periods, and in the second-lowest quintile of such universe for the one-year period the Fund's total return to be in the second-lowest quintile of such universe during the one-year period, and on an annualized basis to be in the second-lowest quintile of such universe during the one-year period, and on an annualized basis to be in the upper half of such universe for each of the previous three- and five-year periods, and in the highest quintile of such universe for the previous 10-year period. The Board was generally satisfied with the Fund's performance as shown in the Lipper report, noting its primary income objective and the fact that its total return for the one-year period exceeded 5%.

**Franklin Templeton VIP Founding Funds Allocation Fund** – The performance universe for this Fund consisted of the Fund and all mixed-asset target allocation growth funds underlying variable insurance products as selected by Lipper. The Fund has been in existence for only four full years and the Lipper report showed its income return to be in the lowest quintile of such performance universe for the one-year period, and on an annualized basis to be in the middle quintile of such universe for its four-year period of operation. The Lipper report showed the Fund's total return for the one-year period to be in the second-lowest quintile of such universe and on an annualized basis to be in the lowest quintile of such universe for its four-year period of operation. In assessing the relevance of such comparative performance, the Board noted the Fund is not actively managed and that its performance of such underlying funds with management and believes that each is being managed in accordance with its underlying investment mandate. The Board also notes management's explanation that the performance of certain of the underlying funds reflects the general underperformance of value stocks during the past year. In view of the foregoing and taking into account the nature of the Fund and its short period of operation, the Board did not believe the Fund's comparative investment performance as set forth in the Lipper report mandated any change in the investment strategy followed or manner in which the Fund operates.

**Franklin U.S. Government Fund** – The performance universe for this Fund consisted of the Fund and all general U.S. government funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's income return for the one-year period to be in the second-highest quintile of such universe and on an annualized basis to be in the highest or second-highest quintile of such universe for each of the previous three-, five- and 10-year periods. The Lipper report showed the Fund's total return to be in the lowest quintile of such universe for the one-year period, and on an annualized basis to be in the lowest quintile of such universe for the previous three-year period, the second-lowest quintile of such universe for the previous five-year period. The Board found the Fund's comparative performance as shown in the Lipper report to be acceptable, noting the Fund's income objective, the nature of the Fund's investments, which were primarily in U.S. mortgage-backed securities, and the fact that its total return exceeded 5% for all annualized periods shown in such report.

**Mutual Global Discovery Securities Fund** – The performance universe for this Fund consisted of the Fund and all global value funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's total return to be in the highest quintile of such universe for the one-year period, and on an annualized basis to be in the lowest quintile of such universe for the three-year period, but to be in the highest quintile of such universe for each of the previous five- and 10-year periods. The Board found the Fund's overall comparative performance as set forth in the Lipper report to be acceptable.

**Mutual International Securities Fund** – The performance universe for this Fund consisted of the Fund and all other international value funds underlying variable insurance products as selected by Lipper. The Fund has been in existence for only two full years at the date of the Lipper report, which showed its total return during each such year to be in either the highest or second-highest performing quintile of such universe. The Board was pleased with such comparative performance, but did not believe it to be particular meaningful in view of the Fund's short period of operations.

**Mutual Shares Securities Fund** – The performance universe for this Fund consisted of the Fund and all large-cap value funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's income return for the

## Shareholder Information (continued)

#### Board Review of Investment Management Agreement (continued)

one-year period to be in the highest or best performing quintile of such universe, and on an annualized basis to be in either the highest or second-highest quintile of such universe for each of the previous three-, five- and 10-year periods. The Lipper report showed the Fund's total return for the one-year period to be in the middle quintile of the performance universe, and on an annualized basis to be in the lowest quintile of such universe for the previous three-year period, the middle quintile of such universe for the previous five-year period, and the highest quintile of such universe for the previous 10-year period. The Board found the Fund's overall performance as shown in the Lipper report to be acceptable, noting its annualized three-year total return exceeded 15%.

**Templeton Developing Markets Securities Fund** – The performance universe for this Fund consisted of the Fund and all emerging markets funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's comparative total return for the one-year period to be in the highest or best performing quintile of such performance universe and on an annualized basis to be in the second-highest quintile of such universe during each of the previous three- and five-year periods, and the middle quintile of such universe during the previous 10-year period. The Board was satisfied with the comparative performance of the Fund as set forth in the Lipper report.

**Templeton Foreign Securities Fund** – The performance universe for this Fund consisted of the Fund and all international value funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's comparative total return for the one-year period to be in the highest or best performing quintile of such performance universe and on an annualized basis to be in the highest or best performing quintile of such universe in each of the previous three- and five-year periods, and the second-highest quintile of such universe for the previous 10-year period. The Board was satisfied with the Fund's comparative investment performance as set forth in the Lipper report.

**Templeton Global Bond Securities Fund** – The performance universe for this Fund consisted of the Fund and all global income funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's income return for the one-year period to be in the highest or best performing quintile of such performance universe, and on an annualized basis to also be in the highest or best performing quintile of such universe for each of the previous three-, five- and 10-year periods. The Lipper report showed the Fund's total return for the one-year period to be in the second-lowest performing quintile of its performance universe, but on an annualized basis to be in the highest or second-highest quintile of such universe during each of the previous three-, five- and 10-year periods. The Board discussed with management the reasons for the relative underperformance of the Fund's total return as shown in the Lipper report for the one-year period, noting, however, that it exceeded 5%. The Board was satisfied with the Fund's comparative performance as set forth in the Lipper report.

**Templeton Growth Securities Fund** – The performance universe for this Fund consisted of the Fund and all global value funds underlying variable insurance products as selected by Lipper. The Lipper report showed the Fund's total return for the one-year period to be in the second-lowest quintile of such performance universe and on an annualized basis to also be in the second-lowest quintile of such universe for each of the previous three-, five- and 10-year periods. The Board was not satisfied with the Fund's comparative performance as set forth in the Lipper report and discussed the Fund's portfolio management team, performance and investment process in detail with upper management. Such discussion included the analytic process and reviews followed by the Fund's portfolio managers in selecting securities for investment and the conviction of the Fund's portfolio management team with the correctness of adhering to their disciplined, long-term, bottom-up, fundamental approach to investing. Based on such discussions, the Board did not believe any immediate change in portfolio management was warranted, but intends to continuously monitor future performance.

**COMPARATIVE EXPENSES.** Consideration was given to expense comparison information contained in the Lipper reports furnished for each Fund, which compared its management fee and total expense ratio with those of a group of other funds selected by Lipper as its appropriate Lipper expense group. Lipper expense data is based upon information taken from each fund's most recent annual report, which reflects historical asset levels that may be quite different from those currently existing, particularly in a period of market volatility. While recognizing such inherent limitation and the fact that expense ratios generally increase as assets decline and decrease as assets grow, the Board believed the independent analysis conducted by Lipper to be an appropriate measure of comparative expenses. In reviewing comparative costs, Lipper provides information on a Fund's

## Shareholder Information (continued)

#### Board Review of Investment Management Agreement (continued)

contractual investment management fee rate in comparison with the contractual investment management fee rate that would have been charged by other funds within its Lipper expense group assuming they were similar in size to the Fund, as well as the actual total expense ratio of the Fund in comparison with those of its Lipper expense group. The Lipper contractual investment management fee analysis includes administrative charges at the fund level as being part of a management fee, and actual total expenses, for comparative consistency, are shown by Lipper for the same class of shares for all funds within a particular Lipper expense group. The results of such comparisons showed that both the contractual investment management fee rates and actual total expense ratios of the following Funds were in the least expensive quintile of their respective Lipper expense groups: Franklin Income Securities Fund, Franklin Small Cap Value Securities Fund, Franklin Growth and Income Securities Fund, Franklin High Income Securities Fund, Franklin Strategic Income Securities Fund and Templeton Global Bond Securities Fund. The Board was satisfied with the comparative contractual investment management fees and expenses of these Funds as shown in their Lipper reports. The contractual investment management fee rates and actual total expense ratios of each of Franklin Rising Dividend Securities Fund, Franklin Small-Mid Cap Growth Securities Fund and Franklin U.S. Government Fund were below the medians of their Lipper expense groups. The contractual investment management fee rate of Templeton Foreign Securities Fund was less than one-half of a basis point above the median of its Lipper expense group, while its actual total expense ratio was below the median of such group. The contractual investment fee rate and actual total expense ratio of Franklin Templeton VIP Founding Funds Allocation Fund were both at the median of its Lipper expense group. The Board was satisfied with the comparative contractual investment management fees and expenses of these Funds as shown in their Lipper reports. The contractual investment management fee rates for Mutual International Securities Fund, Templeton Growth Securities Fund and Franklin Large Cap Value Securities Fund were in the most expensive quintiles of their Lipper expense groups, but in each case their actual total expense ratios were below the median of such groups. The Board was satisfied with the comparative expenses of these Funds as shown in their Lipper reports, noting that, with the exception of Templeton Growth Securities Fund, the expenses of these Funds were subsidized through fee waivers. The contractual investment management fee rate of Franklin Flex Cap Growth Securities Fund was 13 basis points above its Lipper expense group median, while its actual total expense ratio was below its expense group median. The Board found the comparative expenses of this Fund as shown in its Lipper report to be acceptable, noting its expenses were subsidized through fee waivers. The contractual investment management fee rate and actual expense ratio for Franklin Large Cap Growth Securities Fund were in each case above but within eight basis points of the median of its Lipper expense group. The contractual investment fee rate of Franklin Global Real Estate Securities Fund was 20 basis points higher than the median of its Lipper expense group while its actual expense ratio was within nine basis points of its expense group median. The Board found the comparative expenses of these Funds as shown in their Lipper reports to be acceptable, noting with respect to Franklin Global Real Estate Securities Fund that a phased-in increase in its contractual investment fee rate had been approved by shareholders in 2007. The contractual investment management fee rate and actual total expense ratio of Templeton Developing Markets Securities Fund were both above the median of its Lipper expense group, but in each case were within 17 basis points of such median. The Board found the comparative expenses of this Fund to be acceptable, noting cost factors relating to the Fund's operations, such as the quality and experience of its portfolio managers and research staff and the depth of its physical presence and coverage in developing markets geographical areas, as well as the fact that its investment management fee had been reduced effective May 1, 2011. The contractual investment management fee rates of both Mutual Global Discovery Securities Fund and Mutual Shares Securities Fund were in the most expensive quintiles of their Lipper expense groups, while the actual total expense ratio of Mutual Global Discovery Fund was 17 basis points above its expense group median, and the actual total expense ratio of Mutual Shares Securities Fund was four basis points above its expense group median. In discussing these comparative expenses, management stated its view that the expenses of these Funds were at an appropriate level in view of their overall favorable comparative investment performance, the quality and experience of their portfolio managers and the research-driven fundamental value strategy employed in their portfolio selections. The Board found the comparative expenses of these Funds to be acceptable noting the points raised by management.

**MANAGEMENT PROFITABILITY.** The Board also considered the level of profits realized by the Manager and its affiliates in connection with the operation of each Fund. In this respect, the Board reviewed the Fund profitability analysis that addresses the overall profitability of Franklin Templeton's U.S. fund business, as well as its profits in providing management and other services to each of the individual funds during the 12-month period ended September 30, 2011, being the most recent fiscal year-end for Franklin Resources, Inc., the Manager's parent. In reviewing the analysis, specific attention was given to the methodology

# Shareholder Information (continued)

#### Board Review of Investment Management Agreement (continued)

followed in allocating costs to each Fund, it being recognized that allocation methodologies are inherently subjective and various allocation methodologies may each be reasonable while producing different results. In this respect, the Board noted that, while being continuously refined and reflecting changes in the Manager's own cost accounting, the allocation methodology was consistent with that followed in profitability report presentations for the Funds made in prior years and that the Funds' independent registered public accounting firm had been engaged by the Manager to review the reasonableness of the allocation methodologies solely for use by the Funds' Board in reference to the profitability analysis. In reviewing and discussing such analysis, management discussed with the Board its belief that costs incurred in establishing the infrastructure necessary for the type of mutual fund operations conducted by the Manager and its affiliates may not be fully reflected in the expenses allocated to each Fund in determining its profitability, as well as the fact that the level of profits, to a certain extent, reflected operational cost savings and efficiencies initiated by management. The Board also took into account management's expenditures in improving services provided the Funds, as well as the need to implement systems to meet additional regulatory and compliance requirements resulting from statutes such as the Sarbanes-Oxley and Dodd-Frank Acts and recent SEC and other regulatory requirements. In addition, the Board considered a third-party study comparing the profitability of the Manager's parent on an overall basis to other publicly held managers broken down to show profitability from management operations exclusive of distribution expenses, as well as profitability including distribution expenses. The Board also considered the extent to which the Manager and its affiliates might derive ancillary benefits from Fund operations, including potential benefits resulting from allocation of fund brokerage and the use of commission dollars to pay for research. Based upon its consideration of all these factors, the Board determined that the level of profits realized by the Manager and its affiliates from providing services to each Fund was not excessive in view of the nature, quality and extent of services provided.

**ECONOMIES OF SCALE.** The Board also considered whether economies of scale are realized by the Manager as the Funds grow larger and the extent to which this is reflected in the level of management fees charged. While recognizing that any precise determination is inherently subjective, the Board noted that based upon the Fund profitability analysis, it appears that as some funds get larger, at some point economies of scale do result in the Manager realizing a larger profit margin on management services provided such a fund. The Board also noted that economies of scale are shared with a fund and its shareholders through management fee breakpoints so that as a fund grows in size, its effective management fee rate declines. In the case of Franklin Templeton VIP Founding Funds Allocation Fund, the management fees of the underlying funds in which it invests have management fees contain breakpoints that extend beyond their existing asset sizes, and in the case of each of the other Funds, their management fees contain breakpoints that extend beyond their existing asset sizes. To the extent economies of scale may be realized by the manager and its affiliates, the Board believed the schedule of investment management fees provides a sharing of benefits for each Fund and its shareholders.

## **Proxy Voting Policies and Procedures**

The Trust's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Trust uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Trust's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Trust's proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

## Quarterly Statement of Investments

The Trust files a complete statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year on Form N-Q. Shareholders may view the filed Form N-Q by visiting the Commission's website at sec.gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.

# LETTER FROM THE CHAIRMAN AND CEO

Dear Contract Owners:

World financial markets remain a venue of uncertainty. The focus has shifted most recently to the eurozone, where policymakers are attempting to develop a plan that will help debt-laden countries and prevent their woes from spreading across the region. Volatility is likely to continue as investors test the resolve of European officials to make the tough decisions needed to solve the crisis. A slowing in the Chinese economy has added another layer of trepidation, as investors worry that the primary engine of global growth may be sputtering.

The U.S. economy is experiencing a period of growth. However, markets have been jittery in reaction to events in Europe and ahead of the U.S. presidential election. Voters in the United States are watching the economy closely and waiting to see if Congress agrees to cut the budget and extend the Bush administration tax cuts. Failure to do so could ultimately send the U.S. economy back into recession.

Amid this global uncertainty, managing risk becomes a top priority for investors and their advisors. At MFS® our global research platform is designed to ensure the smooth functioning of our investment process in all business climates. Real-time collaboration across the globe is vital in periods of heightened volatility and economic uncertainty. At MFS our investment staff shares ideas and evaluates opportunities across geographies, across both fundamental and quantitative disciplines, and across companies' entire capital structure. We employ this uniquely collaborative approach to build better insights for our clients.

We, like our investors, are mindful of the many economic challenges faced at the local, national, and international levels. It is in times such as these that we want to emphasize the merits of maintaining a long-term view, adhering to basic investing principles such as asset allocation and diversification, and working closely with investment advisors to research and identify appropriate investment opportunities.

Respectfully,

Robert ) Manning

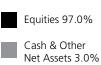

Robert J. Manning Chairman and Chief Executive Officer MFS Investment Management®

| Autos & Housing             | 2.0%  |

Percentages are based on net assets as of 6/30/12.

The portfolio is actively managed and current holdings may be different.

# **EXPENSE TABLE**

## Fund Expenses Borne by the Contract Holders During the Period,

## January 1, 2012 through June 30, 2012

As a contract holder of the fund, you incur ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

#### **Actual Expenses**

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical Example for Comparison Purposes

The second line for each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight the fund's ongoing costs only and do not take into account the fees and expenses imposed under the variable contracts through which your investment in the fund is made. Therefore, the second line for each share class in the table is useful in comparing ongoing costs associated with an investment in vehicles (such as the fund) which fund benefits under variable annuity and variable life insurance contracts and to qualified pension and retirement plans only, and will not help you determine the relative total costs of investing in the fund through variable annuity and variable life insurance contracts. If the fees and expenses imposed under the variable contracts were included, your costs would have been higher.

| Share Class   |                  | Annualized<br>Expense Ratio | Beginning<br>Account Value<br>1/01/12 | Ending<br>Account Value<br>6/30/12 | Expenses Paid<br>During Period (p)<br>1/01/12-6/30/12 |
|---------------|------------------|-----------------------------|---------------------------------------|------------------------------------|---|
| Initial Class | Actual           | 0.83%                       | \$1,000.00                            | \$1,091.21                         | \$4.32  |
|               | Hypothetical (h) | 0.83%                       | \$1,000.00                            | \$1,020.74                         | \$4.17  |
| Service Class | Actual           | 1.08%                       | \$1,000.00                            | \$1,089.52                         | \$5.61  |
|               | Hypothetical (h) | 1.08%                       | \$1,000.00                            | \$1,019.49                         | \$5.42  |

(h) 5% class return per year before expenses.

(p) Expenses paid are equal to each class' annualized expense ratio, as shown above, multiplied by the average account value over the period, multiplied by the number of days in the period, divided by the number of days in the year.

# PORTFOLIO OF INVESTMENTS - 6/30/12 (unaudited)

## MFS Growth Series

Portfolio of Investments (unaudited) - continued

- (a) Non-income producing security.
- (j) The rate quoted is the annualized seven-day yield of the fund at period end.
- (I) A portion of this security is on loan.
- (v) Underlying affiliated fund that is available only to investment companies managed by MFS. The rate quoted for the MFS Institutional Money Market Portfolio is the annualized seven-day yield of the fund at period end.

The following abbreviations are used in this report and are defined:

- ADR American Depositary Receipt
- PLC Public Limited Company
- REIT Real Estate Investment Trust

# FINANCIAL STATEMENTS | STATEMENT OF ASSETS AND LIABILITIES (unaudited)

This statement represents your fund's balance sheet, which details the assets and liabilities comprising the total value of the fund.

# FINANCIAL STATEMENTS | FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the fund's financial performance for the semiannual period and the past 5 fiscal years. Certain information reflects financial results for a single fund share. The total returns in the table represent the rate by which an investor would have earned (or lost) on an investment in the fund share class (assuming reinvestment of all distributions) held for the entire period.

#### Financial Highlights - continued

- (a) Annualized.
- (d) Per share data is based on average shares outstanding.
- (f) Ratios do not reflect reductions from fees paid indirectly, if applicable.
- (k) The total return does not reflect expenses that apply to separate accounts. Inclusion of these charges would reduce the total return figures for all periods shown.
- (n) Not annualized.
- $(r) \quad {\sf Certain\ expenses\ have\ been\ reduced\ without\ which\ performance\ would\ have\ been\ lower.}$
- (s) From time to time the fund may receive proceeds from litigation settlements, without which performance would be lower.
- (w) Per share amount was less than \$0.01.
- (x) The net asset values per share and total returns have been calculated on net assets which include adjustments made in accordance with U.S. generally accepted accounting principles required at period end for financial reporting purposes.

# **NOTES TO FINANCIAL STATEMENTS (unaudited)**

## (1) Business and Organization

MFS Growth Series (the fund) is a series of MFS Variable Insurance Trust (the trust). The trust is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The shareholders of each series of the trust are separate accounts of insurance companies, which offer variable annuity and/or life insurance products, and qualified retirement and pension plans.

## (2) Significant Accounting Policies

**General** – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In the preparation of these financial statements, management has evaluated subsequent events occurring after the date of the fund's Statement of Assets and Liabilities through the date that the financial statements were issued.

In this reporting period the fund adopted FASB Accounting Standards Update 2011-04, Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"). ASU 2011-04 seeks to improve the comparability of fair value measurements as presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS) by providing common requirements for fair value measurement and disclosure.

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-11, Balance Sheet (Topic 210) – Disclosures about Offsetting Assets and Liabilities ("ASU 2011-11"). Effective for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods, ASU 2011-11 is intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. Although still evaluating the potential impacts of ASU 2011-11 to the fund, management expects that the impact of the fund's adoption will be limited to additional financial statement disclosures.

**Investment Valuations** – Equity securities, including restricted equity securities, are generally valued at the last sale or official closing price as provided by a third-party pricing service on the market or exchange on which they are primarily traded. Equity securities, for which there were no sales reported that day, are generally valued at the last quoted daily bid quotation as provided by a third-party pricing service on which such securities are primarily traded. Short-term instruments with a maturity at issuance of 60 days or less generally are valued at amortized cost, which approximates market value. Open-end investment companies are generally valued at net asset value per share. Securities and other assets generally valued on the basis of information from a third-party pricing service may also be valued at a broker/dealer bid quotation. Values obtained from third-party pricing services can utilize both transaction data and market information such as yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of foreign securities and other assets and liabilities expressed in foreign currencies are converted to U.S. dollars using the mean of bid and asked prices for rates provided by a third-party pricing service.

The Board of Trustees has delegated primary responsibility for determining or causing to be determined the value of the fund's investments (including any fair valuation) to the adviser pursuant to valuation policies and procedures approved by the Board. If the adviser determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the adviser in accordance with such procedures under the oversight of the Board of Trustees. Under the fund's valuation policies and procedures, market quotations are not considered to be readily available for most types of debt instruments and floating rate loans and many types of derivatives. These investments are generally valued at fair value based on information from third-party pricing services. In addition, investments may be valued at fair value if the adviser determines that an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the fund's net asset value, or after the halting of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is principally traded. Events that occur on a frequent basis after foreign markets close (such as developments in foreign markets and significant movements in the U.S. markets) and prior to the determination of the fund's net asset value may be deemed to have a material effect on the value of securities traded in foreign markets. Accordingly, the fund's foreign equity securities may often be valued at fair value. The adviser generally relies on third-party pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for purposes of calculating the fund's net asset value can differ depending on the source and method used to determine value. When fair valuation is used, the value of an investment used to determine the fund's net asset value may differ from guoted or published prices for the same investment. There can be no assurance that the fund could obtain the fair value assigned to an investment if it were to sell the investment at the same time at which the fund determines its net asset value per share.

#### Notes to Financial Statements (unaudited) - continued

Various inputs are used in determining the value of the fund's assets or liabilities. These inputs are categorized into three broad levels. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fund's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. Level 1 includes unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 includes other significant observable market-based inputs (including quoted prices for similar securities, interest rates, prepayment speed, and credit risk). Level 3 includes unobservable inputs, which may include the adviser's own assumptions in determining the fair value of investments. The following is a summary of the levels used as of June 30, 2012 in valuing the fund's assets or liabilities:

| Investments at Value<br>Equity Securities: | Level 1       | Level 2     | Level 3 | Total         |
|--|---------------|-------------|---------|---------------|
| United States                              | \$533,729,143 | \$—         | \$—     | \$533,729,143 |

| Total Investments                          | \$582,381,439 | \$2,943,502 | \$—     | \$585,324,941 |

For further information regarding security characteristics, see the Portfolio of Investments.

**Foreign Currency Translation** – Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions or on the reporting date for foreign denominated receivables and payables. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on receivables, payables, income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

**Security Loans** – State Street Bank and Trust Company ("State Street"), as lending agent, loans the securities of the fund to certain qualified institutions (the "Borrowers") approved by the fund. The loans are collateralized by cash and/or U.S. Treasury and federal agency obligations in an amount typically at least equal to the market value of the securities loaned. The market value of the loaned securities is determined at the close of business of the fund and any additional required collateral is delivered to the fund on the next business day. State Street provides the fund with indemnification against Borrower default. The fund bears the risk of loss with respect to the investment of cash collateral. On loans collateralized by cash, the cash collateral is invested in a money market fund or short-term securities. A portion of the income generated upon investment of the collateral is remitted to the Borrowers, and the remainder is allocated between the fund and the lending agent. On loans collateralized by U.S. Treasury and/or federal agency obligations, a fee is received from the Borrower, and is allocated between the fund and the lending agent. Income from securities lending is included in "Interest" income on the Statement of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income.

**Indemnifications** – Under the fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the fund. Additionally, in the normal course of business, the fund enters into agreements with service providers that may contain indemnification clauses. The fund's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the fund that have not yet occurred.

**Investment Transactions and Income** – Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date.

The fund may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statement of Operations in realized gain/loss if the security has been disposed of by the fund or in unrealized gain/loss if the security is still held by the fund. Any other proceeds from litigation not related to portfolio holdings are reflected as other income in the Statement of Operations.

## MFS Growth Series

#### Notes to Financial Statements (unaudited) - continued

**Fees Paid Indirectly** – The fund's custody fee may be reduced according to an arrangement that measures the value of cash deposited with the custodian by the fund. This amount, for the six months ended June 30, 2012, is shown as a reduction of total expenses on the Statement of Operations.

**Tax Matters and Distributions** – The fund intends to qualify as a regulated investment company, as defined under Subchapter M of the Internal Revenue Code, and to distribute all of its taxable income, including realized capital gains. As a result, no provision for federal income tax is required. The fund's federal tax returns, when filed, will remain subject to examination by the Internal Revenue Service for a three year period. Foreign taxes have been accrued by the fund in the accompanying financial statements.

Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. Distributions in excess of net investment income or net realized gains are temporary overdistributions for financial statement and tax purposes.

Book/tax differences primarily relate to net operating losses, wash sale loss deferrals, and straddle loss deferrals.

The tax character of distributions declared to shareholders for the last fiscal year is as follows:

|  | 12/31/11     |
|--|--------------|
| Ordinary income (including any short-term capital gains) | \$934,874(a) |

42/24/44

(a) Included in the fund's distributions from ordinary income is \$1,176 in excess of investment company taxable income, which in accordance with applicable U.S. tax law, is taxable to shareholders as ordinary income distribution.

The federal tax cost and the tax basis components of distributable earnings were as follows:

| As of 6/30/12                              |               |
|--|---------------|
| Cost of investments                        | \$498,171,302 |
| Gross appreciation                         | 103,577,492   |
| Gross depreciation                         | (16,423,853)  |
| Net unrealized appreciation (depreciation) | \$87,153,639  |
| As of 12/31/11                             |               |
| Capital loss carryforwards                 | (44,674,146)  |
| Other temporary differences                | (186,624)     |
| Net unrealized appreciation (depreciation) | 61,201,393    |

The aggregate cost above includes prior fiscal year end tax adjustments, if applicable.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized after December 31, 2011 may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward for eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

As of December 31, 2011, the fund had capital loss carryforwards available to offset future realized gains. Such losses expire as follows:

| Pre-enactment losses: |                |
|-----------------------|----------------|
| 12/31/16              | \$(16,766,873) |
| 12/31/17              | (27,907,273)   |
| Total                 | \$(44,674,146) |

**Multiple Classes of Shares of Beneficial Interest** – The fund offers multiple classes of shares, which differ in their respective distribution and/or service fees. The fund's income, realized and unrealized gain (loss), and common expenses are allocated to shareholders based on the daily net assets of each class. Dividends are declared separately for each class. Differences in per share

dividend rates are generally due to differences in separate class expenses. The fund's distributions declared to shareholders as reported on the Statements of Changes in Net Assets are presented by class as follows:

|               |                             | From net investment income |  |  |
|---------------|-----------------------------|----------------------------|--|--|
|               | Six months ended<br>6/30/12 | Year ended<br>12/31/11     |  |  |
| Initial Class | \$—                         | \$925,433                  |  |  |
| Service Class |                             | 9,441                      |  |  |
| Total         | \$—                         | \$934,874                  |  |  |

#### (3) Transactions with Affiliates

**Investment Adviser** – The fund has an investment advisory agreement with MFS to provide overall investment management and related administrative services and facilities to the fund.

The management fee is computed daily and paid monthly at the following annual rates:

| First \$1 billion of average daily net assets     | 0.75% |
|---|-------|
| Average daily net assets in excess of \$1 billion | 0.65% |

The management fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.75% of the fund's average daily net assets.

**Distributor** – MFS Fund Distributors, Inc. (MFD), a wholly-owned subsidiary of MFS, is the distributor of shares of the fund. The Trustees have adopted a distribution plan for the Service Class shares pursuant to Rule 12b-1 under the Investment Company Act of 1940.

The fund's distribution plan provides that the fund will pay MFD distribution and/or service fees equal to 0.25% per annum of its average daily net assets attributable to Service Class shares as partial consideration for services performed and expenses incurred by MFD and financial intermediaries (including participating insurance companies that invest in the fund to fund variable annuity and variable life insurance contracts, sponsors of qualified retirement and pension plans that invest in the fund, and affiliates of these participating insurance companies and plan sponsors) in connection with the sale and distribution of the Service Class shares. MFD may subsequently pay all, or a portion, of the distribution and/or service fees to financial intermediaries.

**Shareholder Servicing Agent** – MFS Service Center, Inc. (MFSC), a wholly-owned subsidiary of MFS, receives a fee from the fund for its services as shareholder servicing agent. For the six months ended June 30, 2012, the fee was \$28,901, which equated to 0.0102% annually of the fund's average daily net assets. MFSC also receives payment from the fund for out-of-pocket expenses paid by MFSC on behalf of the fund. For the six months ended June 30, 2012, these costs amounted to \$1,028.

**Administrator** – MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to the fund. Under an administrative services agreement, the fund partially reimburses MFS the costs incurred to provide these services. The fund is charged an annual fixed amount of \$17,500 plus a fee based on average daily net assets. The administrative services fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.0167% of the fund's average daily net assets.

**Trustees' and Officers' Compensation** – The fund pays compensation to independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons. The fund does not pay compensation directly to Trustees or officers of the fund who are also officers of the investment adviser, all of whom receive remuneration for their services to the fund from MFS. Certain officers and Trustees of the fund are officers or directors of MFS, MFD, and MFSC.

**Other** – This fund and certain other funds managed by MFS (the funds) have entered into services agreements (the Agreements) which provide for payment of fees by the funds to Tarantino LLC and Griffin Compliance LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) and Assistant ICCO, respectively, for the funds. The ICCO and Assistant ICCO are officers of the funds and the sole members of Tarantino LLC and Griffin Compliance LLC, respectively. The funds can terminate the Agreements with Tarantino LLC and Griffin Compliance LLC at any time under the terms of the Agreements. For the six months ended June 30, 2012, the aggregate fees paid by the fund to Tarantino LLC and Griffin Compliance LLC were \$2,837 and are included in "Miscellaneous" expense on the Statement of Operations. MFS has agreed to reimburse the fund for a portion of the payments made by the fund in the amount of \$1,439, which is shown as a reduction of total expenses in the Statement of Operations. Additionally, MFS has agreed to bear all expenses associated with office space, other administrative support, and supplies provided to the ICCO and Assistant ICCO.

The fund invests in the MFS Institutional Money Market Portfolio which is managed by MFS and seeks a high level of current income consistent with preservation of capital and liquidity. Income earned on this investment is included in "Dividends from underlying affiliated funds" on the Statement of Operations. This money market fund does not pay a management fee to MFS.

## MFS Growth Series

Notes to Financial Statements (unaudited) - continued

## (4) Portfolio Securities

Purchases and sales of investments, other than U.S. Government securities, purchased option transactions, and short-term obligations, aggregated \$183,470,794 and \$175,185,773, respectively.

#### (5) Shares of Beneficial Interest

The fund's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. Transactions in fund shares were as follows:

|  | Six months ended 6/30/12 |                | Year ended 12/31/11 |                 |
|--|--------------------------|----------------|---------------------|-----------------|

## (6) Line of Credit

The fund and certain other funds managed by MFS participate in a \$1.1 billion unsecured committed line of credit, subject to a \$1 billion sublimit, provided by a syndication of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, generally at a rate equal to the higher of the Federal Reserve funds rate or one month LIBOR plus an agreed upon spread. A commitment fee, based on the average daily, unused portion of the committed line of credit, is allocated among the participating funds at the end of each calendar quarter. In addition, the fund and other funds managed by MFS have established unsecured uncommitted borrowing arrangements with certain banks for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the Federal Reserve funds rate plus an agreed upon spread. For the six months ended June 30, 2012, the fund's commitment fee and interest expense were \$1,899 and \$0, respectively, and are included in "Miscellaneous" expense on the Statement of Operations.

#### (7) Transactions in Underlying Affiliated Funds – Affiliated Issuers

An affiliated issuer may be considered one in which the fund owns 5% or more of the outstanding voting securities, or a company which is under common control. For the purposes of this report, the fund assumes the following to be an affiliated issuer:

| Underlying Affiliated Fund               | Beginning   | Acquisitions  | Dispositions | Ending       |
|--|-------------|---------------|--------------|--------------|
|  | Shares/Par  | Shares/Par    | Shares/Par   | Shares/Par   |
|  | Amount      | Amount        | Amount       | Amount       |
| MFS Institutional Money Market Portfolio | 13,485,319  | 98,644,827    | (92,960,879) | 19,169,267   |
| Underlying Affiliated Fund               | Realized    | Capital Gain  | Dividend     | Ending       |
|  | Gain (Loss) | Distributions | Income       | Value        |
| MFS Institutional Money Market Portfolio | \$—         | \$—           | \$7,426      | \$19,169,267 |

## BOARD REVIEW OF INVESTMENT ADVISORY AGREEMENT

A discussion regarding the Board's most recent review and renewal of the fund's Investment Advisory Agreement with MFS will be available on or about November 1, 2012 by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of the MFS Web site (*mfs.com*).

## PROXY VOTING POLICIES AND INFORMATION

A general description of the MFS funds' proxy voting policies and procedures is available without charge, upon request, by calling 1-800-225-2606, by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov*.

Information regarding how the fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available without charge by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov.* 

## QUARTERLY PORTFOLIO DISCLOSURE

The fund will file a complete schedule of portfolio holdings with the Securities and Exchange Commission (the Commission) for the first and third quarters of each fiscal year on Form N-Q. The fund's Form N-Q is available on the EDGAR database on the Commission's Internet Web site at *http://www.sec.gov*, and may be reviewed and copied at the:

Public Reference Room Securities and Exchange Commission 100 F Street, NE, Room 1580 Washington, D.C. 20549

Information on the operation of the Public Reference Room may be obtained by calling the Commission at 1-800-SEC-0330. Copies of the fund's Form N-Q also may be obtained, upon payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov or by writing the Public Reference Section at the above address.

## FURTHER INFORMATION

From time to time, MFS may post important information about the fund or the MFS funds on the MFS web site (*mfs.com*). This information is available by visiting the "News & Commentary" section of *mfs.com* or by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of *mfs.com*.

### LETTER FROM THE CHAIRMAN AND CEO

Dear Contract Owners:

World financial markets remain a venue of uncertainty. The focus has shifted most recently to the eurozone, where policymakers are attempting to develop a plan that will help debt-laden countries and prevent their woes from spreading across the region. Volatility is likely to continue as investors test the resolve of European officials to make the tough decisions needed to solve the crisis. A slowing in the Chinese economy has added another layer of trepidation, as investors worry that the primary engine of global growth may be sputtering.

The U.S. economy is experiencing a period of growth. However, markets have been jittery in reaction to events in Europe and ahead of the U.S. presidential election. Voters in the United States are watching the economy closely and waiting to see if Congress agrees to cut the budget and extend the Bush administration tax cuts. Failure to do so could ultimately send the U.S. economy back into recession.

Amid this global uncertainty, managing risk becomes a top priority for investors and their advisors. At MFS® our global research platform is designed to ensure the smooth functioning of our investment process in all business climates. Real-time collaboration across the globe is vital in periods of heightened volatility and economic uncertainty. At MFS our investment staff shares ideas and evaluates opportunities across geographies, across both fundamental and quantitative disciplines, and across companies' entire capital structure. We employ this uniquely collaborative approach to build better insights for our clients.

We, like our investors, are mindful of the many economic challenges faced at the local, national, and international levels. It is in times such as these that we want to emphasize the merits of maintaining a long-term view, adhering to basic investing principles such as asset allocation and diversification, and working closely with investment advisors to research and identify appropriate investment opportunities.

Respectfully,

Robert ) Manning

Robert J. Manning Chairman and Chief Executive Officer MFS Investment Management<sup>®</sup>

Percentages are based on net assets as of 6/30/12.

The portfolio is actively managed and current holdings may be different.

# **EXPENSE TABLE**

### Fund Expenses Borne by the Contract Holders During the Period,

### January 1, 2012 through June 30, 2012

As a contract holder of the fund, you incur ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

### **Actual Expenses**

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

### Hypothetical Example for Comparison Purposes

The second line for each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight the fund's ongoing costs only and do not take into account the fees and expenses imposed under the variable contracts through which your investment in the fund is made. Therefore, the second line for each share class in the table is useful in comparing ongoing costs associated with an investment in vehicles (such as the fund) which fund benefits under variable annuity and variable life insurance contracts and to qualified pension and retirement plans only, and will not help you determine the relative total costs of investing in the fund through variable annuity and variable life insurance contracts. If the fees and expenses imposed under the variable contracts were included, your costs would have been higher.

| Share Class   |                  | Annualized<br>Expense Ratio | Beginning<br>Account Value<br>1/01/12 | Ending<br>Account Value<br>6/30/12 | Expenses Paid<br>During Period (p)<br>1/01/12-6/30/12 |
|---------------|------------------|-----------------------------|---------------------------------------|------------------------------------|---|
| Initial Class | Actual           | 0.87%                       | \$1,000.00                            | \$1,089.46                         | \$4.52  |
|               | Hypothetical (h) | 0.87%                       | \$1,000.00                            | \$1,020.54                         | \$4.37  |
| Service Class | Actual           | 1.12%                       | \$1,000.00                            | \$1,087.84                         | \$5.81  |
| Service Class | Hypothetical (h) | 1.12%                       | \$1,000.00                            | \$1,019.29                         | \$5.62  |

(h) 5% class return per year before expenses.

(p) Expenses paid are equal to each class' annualized expense ratio, as shown above, multiplied by the average account value over the period, multiplied by the number of days in the period, divided by the number of days in the year.

### **Expenses Impacting Table**

Expense ratios include 0.01% of investment related expenses from short sale dividend and interest expenses.

# PORTFOLIO OF INVESTMENTS - 6/30/12 (unaudited)

The Portfolio of Investments is a complete list of all securities owned by your fund. It is categorized by broad-based asset classes.

# FINANCIAL STATEMENTS | FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the fund's financial performance for the semiannual period and the past 5 fiscal years. Certain information reflects financial results for a single fund share. The total returns in the table represent the rate by which an investor would have earned (or lost) on an investment in the fund share class (assuming reinvestment of all distributions) held for the entire period.

| Supplemental Ratios (%):  |                        |                     |          |                   |          |          |  |
| Ratio of expenses to average net assets after expense<br>reductions excluding short sale dividend and |                        |                     |          |                   |          |          |  |
| interest expense (f)  | 1.11(a)                | 1.11                | 1.14     | 1.15              | N/A      | N/A      |  |

(a) Annualized.

(d) Per share data is based on average shares outstanding.

(f) Ratios do not reflect reductions from fees paid indirectly, if applicable.

(k) The total return does not reflect expenses that apply to separate accounts. Inclusion of these charges would reduce the total return figures for all periods shown.

(n) Not annualized.

(r) Certain expenses have been reduced without which performance would have been lower.

(s) From time to time the fund may receive proceeds from litigation settlements, without which performance would be lower. Excluding the effect of the proceeds received from a non-recurring litigation settlement against Enron Corp., the Initial Class and Service Class total returns for the year ended December 31, 2008 would have each been lower by approximately 0.82%. Excluding the effect of the proceeds received from a non-recurring litigation settlement against Tyco International Ltd., the Initial Class and Service Class total returns for the year ended December 31, 2010 would have each been lower by approximately 0.60%.

(x) The net asset values per share and total returns have been calculated on net assets which include adjustments made in accordance with U.S. generally accepted accounting principles required at period end for financial reporting purposes.

### NOTES TO FINANCIAL STATEMENTS (unaudited)

### (1) Business and Organization

MFS Research Series (the fund) is a series of MFS Variable Insurance Trust (the trust). The trust is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The shareholders of each series of the trust are separate accounts of insurance companies, which offer variable annuity and/or life insurance products, and qualified retirement and pension plans.

### (2) Significant Accounting Policies

**General** – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In the preparation of these financial statements, management has evaluated subsequent events occurring after the date of the fund's Statement of Assets and Liabilities through the date that the financial statements were issued.

In this reporting period the fund adopted FASB Accounting Standards Update 2011-04, Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"). ASU 2011-04 seeks to improve the comparability of fair value measurements as presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS) by providing common requirements for fair value measurement and disclosure.

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-11, Balance Sheet (Topic 210) – Disclosures about Offsetting Assets and Liabilities ("ASU 2011-11"). Effective for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods, ASU 2011-11 is intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. Although still evaluating the potential impacts of ASU 2011-11 to the fund, management expects that the impact of the fund's adoption will be limited to additional financial statement disclosures.

Investment Valuations – Equity securities, including restricted equity securities, are generally valued at the last sale or official closing price as provided by a third-party pricing service on the market or exchange on which they are primarily traded. Equity securities, for which there were no sales reported that day, are generally valued at the last guoted daily bid guotation as provided by a third-party pricing service on the market or exchange on which such securities are primarily traded. Equity securities held short, for which there were no sales reported for that day, are generally valued at the last quoted daily ask quotation as provided by a third-party pricing service on the market or exchange on which such securities are primarily traded. Short-term instruments with a maturity at issuance of 60 days or less generally are valued at amortized cost, which approximates market value. Exchange-traded options are generally valued at the last sale or official closing price as provided by a third-party pricing service on the exchange on which such options are primarily traded. Exchange-traded options for which there were no sales reported that day are generally valued at the last daily bid quotation as provided by a third-party pricing service on the exchange on which such options are primarily traded. Options not traded on an exchange are generally valued at a broker/dealer bid quotation. Foreign currency options are generally valued at valuations provided by a third-party pricing service. Open-end investment companies are generally valued at net asset value per share. Securities and other assets generally valued on the basis of information from a third-party pricing service may also be valued at a broker/dealer bid quotation. Values obtained from third-party pricing services can utilize both transaction data and market information such as yield, guality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of foreign securities and other assets and liabilities expressed in foreign currencies are converted to U.S. dollars using the mean of bid and asked prices for rates provided by a third-party pricing service.

The Board of Trustees has delegated primary responsibility for determining or causing to be determined the value of the fund's investments (including any fair valuation) to the adviser pursuant to valuation policies and procedures approved by the Board. If the adviser determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the adviser in accordance with such procedures under the oversight of the Board of Trustees. Under the fund's valuation policies and procedures, market quotations are not considered to be readily available for most types of debt instruments and floating rate loans and many types of derivatives. These investments are generally valued at fair value based on information from third-party pricing services. In addition, investments may be valued at fair value if the adviser determines that an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the fund's net asset value, or after the halting of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is principally traded. Events that occur on a frequent basis after foreign markets close (such as developments in foreign markets and significant movements in the U.S. markets) and prior to the determination of the fund's net asset value may be deemed to have a material effect on the value of securities traded in foreign markets. Accordingly, the fund's foreign equity securities may often be valued at fair value. The adviser generally relies on third-party pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the

business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for purposes of calculating the fund's net asset value can differ depending on the source and method used to determine value. When fair valuation is used, the value of an investment used to determine the fund's net asset value may differ from quoted or published prices for the same investment. There can be no assurance that the fund could obtain the fair value assigned to an investment if it were to sell the investment at the same time at which the fund determines its net asset value per share.

Various inputs are used in determining the value of the fund's assets or liabilities. These inputs are categorized into three broad levels. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fund's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. Level 1 includes unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 includes other significant observable market-based inputs (including quoted prices for similar securities, interest rates, prepayment speed, and credit risk). Level 3 includes unobservable inputs, which may include the adviser's own assumptions in determining the fair value of investments. The following is a summary of the levels used as of June 30, 2012 in valuing the fund's assets or liabilities:

| Investments at Value | Level 1       | Level 2   | Level 3 | Total         |
|----------------------|---------------|-----------|---------|---------------|
| Equity Securities:   |               |           |         |               |

For further information regarding security characteristics, see the Portfolio of Investments.

Of the level 2 investments presented above, equity investments amounting to \$709,052 would have been considered level 1 investments at the beginning of the period. The primary reason for changes in the classifications between levels 1 and 2 occurs when foreign equity securities are fair valued using other observable market-based inputs in place of the closing exchange price due to events occurring after the close of the exchange or market on which the investment is principally traded. The fund's foreign equity securities may often be valued at fair value. The fund's policy is to recognize transfers between the levels as of the end of the period.

**Foreign Currency Translation** – Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions or on the reporting date for foreign denominated receivables and payables. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on receivables, payables, income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

**Derivatives** – The fund uses derivatives for different purposes, primarily to increase or decrease exposure to a particular market or segment of the market, or security, to increase or decrease interest rate or currency exposure, or as alternatives to direct investments. Derivatives are used for hedging or non-hedging purposes. While hedging can reduce or eliminate losses, it can also reduce or eliminate gains. When the fund uses derivatives as an investment to increase market exposure, or for hedging purposes, gains and losses from derivative instruments may be substantially greater than the derivative's original cost.

The derivative instruments used by the fund were written options and purchased options. At June 30, 2012, the fund did not have any outstanding derivative instruments.

The following table presents, by major type of derivative contract, the realized gain (loss) on derivatives held by the fund for the six months ended June 30, 2012 as reported in the Statement of Operations:

| Risk   | Investments<br>(Purchased Options) | Written Options |
|--------|------------------------------------|-----------------|
| Equity | \$(84,264)                         | \$8,538         |

The following table presents, by major type of derivative contract, the change in unrealized appreciation (depreciation) on derivatives held by the fund for the six months ended June 30, 2012 as reported in the Statement of Operations:

| Risk   | Written Options |
|--------|-----------------|
| Equity | \$63,775        |

Derivative counterparty credit risk is managed through formal evaluation of the creditworthiness of all potential counterparties. On certain over-the-counter derivatives, the fund attempts to reduce its exposure to counterparty credit risk whenever possible by entering into an International Swaps and Derivatives Association (ISDA) Master Agreement on a bilateral basis with each of the counterparties with whom it undertakes a significant volume of transactions. The ISDA Master Agreement gives each party to the agreement the right to terminate all transactions traded under such agreement if there is a certain deterioration in the credit quality of the other party. The ISDA Master Agreement gives the fund the right, upon an event of default by the applicable counterparty or a termination of the agreement, to close out all transactions traded under such agreement and to net amounts owed under each transaction to one net amount payable by one party to the other. This right to close out and net payments across all transactions traded under the ISDA Master Agreement could result in a reduction of the fund's credit risk to such counterparty equal to any amounts payable by the fund under the applicable transactions, if any. However, absent an event of default by the counterparty or a termination of the agreement, the ISDA Master Agreement does not result in an offset of reported amounts of assets and liabilities in the Statement of Assets and Liabilities across transactions between the fund and the applicable counterparty.

Collateral requirements differ by type of derivative. Collateral or margin requirements are set by the broker or exchange clearing house for exchange traded derivatives (i.e., futures contracts and exchange-traded options) while collateral terms are contract specific for over-the-counter traded derivatives (i.e., forward foreign currency exchange contracts, swap agreements and over-the-counter options). For derivatives traded under an ISDA Master Agreement, the collateral requirements are netted across all transactions traded under such agreement and one amount is posted from one party to the other to collateralize such obligations. Cash collateral that has been pledged to cover obligations of the fund under derivative contracts, if any, will be reported separately on the Statement of Assets and Liabilities as restricted cash. Securities collateral pledged for the same purpose, if any, is noted in the Portfolio of Investments.

**Written Options** – In exchange for a premium, the fund wrote call options on securities that it anticipated the price would decline and also wrote put options on securities that it anticipated the price would increase. At the time the option was written, the fund believed the premium received exceeded the potential loss that could result from adverse price changes in the options' underlying securities. In a written option, the fund as the option writer grants the buyer the right to purchase from, or sell to, the fund a specified number of shares or units of a particular security, currency or index at a specified price within a specified period of time.

The premium received is initially recorded as a liability on the Statement of Assets and Liabilities. The option is subsequently marked-to-market daily with the difference between the premium received and the market value of the written option being recorded as unrealized appreciation or depreciation. When a written option expires, the fund realizes a gain equal to the amount of the premium received. The difference between the premium received and the amount paid on effecting a closing transaction is considered a realized gain or loss. When a written call option is exercised, the premium received is offset against the proceeds to determine the realized gain or loss. When a written put option is exercised, the premium reduces the cost basis of the security purchased by the fund.

At the initiation of the written option contract, for exchange traded options, the fund is required to deposit securities or cash as collateral with the custodian for the benefit of the broker. For over-the-counter options, the fund may post collateral subject to the terms of an ISDA Master Agreement as generally described above if the market value of the options contract moves against it. The fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option. Losses from writing options can exceed the premium received and can exceed the potential loss from an ordinary buy and sell transaction. Although the fund's market risk may be significant, the maximum counterparty credit risk to the fund is equal to the market value of any collateral posted to the broker. For over-the-counter options, this risk is mitigated in cases where there is an ISDA Master Agreement between the fund and the counterparty providing for netting as described above.

### Written Options

|                                  | Number of<br>contracts | Premiums<br>received |
|----------------------------------|------------------------|----------------------|
| Outstanding, beginning of period | 67                     | \$23,427             |
| Options written                  | 114                    | 10,211               |
| Options closed                   | (48)                   | (7,597)              |
| Options exercised                | (102)                  | (23,641)             |
| Options expired                  | (31)                   | (2,400)              |
| Outstanding, end of period       |                        | \$—                  |

**Purchased Options** – The fund purchased call and put options for a premium. Purchased call and put options entitle the holder to buy and sell a specified number of shares or units of a particular security, currency or index at a specified price at a specified date or within a specified period of time. Purchasing call options may be used to hedge against an anticipated increase in the dollar cost of securities or currency to be acquired or to increase the fund's exposure to an underlying instrument. Purchasing put options may hedge against a decline in the value of portfolio securities or currency.

The premium paid is initially recorded as an investment in the Statement of Assets and Liabilities. That investment is subsequently marked-to-market daily with the difference between the premium paid and the market value of the purchased option being recorded as unrealized appreciation or depreciation. Premiums paid for purchased call and put options which have expired are treated as realized losses on investments in the Statement of Operations. Upon the exercise or closing of a purchased call option, the premium paid is added to the cost of the security or financial instrument. Upon the exercise or closing of a purchased put option, the premium paid is offset against the proceeds on the sale of the underlying security or financial instrument in order to determine the realized gain or loss on investments.

The risk in purchasing an option is that the fund pays a premium whether or not the option is exercised. The fund's maximum risk of loss due to counterparty credit risk is limited to the market value of the option. For over-the-counter options, this risk is mitigated in cases where there is an ISDA Master Agreement between the fund and the counterparty providing for netting as described above and for posting of collateral by the counterparty to the fund to cover the fund's exposure to the counterparty under such ISDA Master Agreement.

**Short Sales** – The fund entered into short sales whereby it sells a security it does not own in anticipation of a decline in the value of that security. The fund will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the fund replaces the borrowed security. Losses from short sales can exceed the proceeds of the security sold; and they can also exceed the potential loss from an ordinary buy and sell transaction. The amount of any premium, dividends, or interest the fund may be required to pay in connection with a short sale will be recognized as a fund expense. During the six months ended June 30, 2012, this expense amounted to \$10,159. The fund segregates cash or marketable securities in an amount that, when combined with the amount of proceeds from the short sale deposited with the broker, at least equals the current market value of the security sold short.

**Security Loans** – State Street Bank and Trust Company ("State Street"), as lending agent, loans the securities of the fund to certain qualified institutions (the "Borrowers") approved by the fund. The loans are collateralized by cash and/or U.S. Treasury and federal agency obligations in an amount typically at least equal to the market value of the securities loaned. The market value of the loaned securities is determined at the close of business of the fund and any additional required collateral is delivered to the fund on the next business day. State Street provides the fund with indemnification against Borrower default. The fund bears the risk of loss with respect to the investment of cash collateral. On loans collateralized by cash, the cash collateral is invested in a money market fund or short-term securities. A portion of the income generated upon investment of the collateral is remitted to the Borrowers, and the remainder is allocated between the fund and the lending agent. On loans collateralized by U.S. Treasury and/or federal agency obligations, a fee is received from the Borrower, and is allocated between the fund and the lending agent. Income from securities lending is included in "Interest" income on the Statement of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income.

**Indemnifications** – Under the fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the fund. Additionally, in the normal course of business, the fund enters into agreements with service providers that may contain indemnification clauses. The fund's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the fund that have not yet occurred.

**Investment Transactions and Income** – Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date.

The fund may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statement of Operations in realized gain/loss if the security has been disposed of by the fund or in unrealized gain/loss if the security is still held by the fund. Any other proceeds from litigation not related to portfolio holdings are reflected as other income in the Statement of Operations.

**Fees Paid Indirectly** – The fund's custody fee may be reduced according to an arrangement that measures the value of cash deposited with the custodian by the fund. This amount, for the six months ended June 30, 2012, is shown as a reduction of total expenses on the Statement of Operations.

### MFS Research Series

### Notes to Financial Statements (unaudited) - continued

**Tax Matters and Distributions** – The fund intends to qualify as a regulated investment company, as defined under Subchapter M of the Internal Revenue Code, and to distribute all of its taxable income, including realized capital gains. As a result, no provision for federal income tax is required. The fund's federal tax returns, when filed, will remain subject to examination by the Internal Revenue Service for a three year period. Foreign taxes have been accrued by the fund in the accompanying financial statements.

Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. Distributions in excess of net investment income or net realized gains are temporary overdistributions for financial statement and tax purposes.

Book/tax differences primarily relate to wash sale loss deferrals.

The tax character of distributions declared to shareholders for the last fiscal year is as follows:

| Ordinary income (including any short-term capital gains) | \$1,601,688 |
|--|-------------|

12/31/11

The federal tax cost and the tax basis components of distributable earnings were as follows:

| As of 6/30/12                              |               |
|--|---------------|
| Cost of investments                        | \$168,720,991 |
| Gross appreciation                         | 23,986,551    |
| Gross depreciation                         | (8,915,842)   |
| Net unrealized appreciation (depreciation) | \$15,070,709  |
| As of 12/31/11                             |               |
| Undistributed ordinary income              | 1,472,031     |
| Capital loss carryforwards                 | (35,088,790)  |
| Other temporary differences                | (122,847)     |
| Net unrealized appreciation (depreciation) | 9,997,273     |

The aggregate cost above includes prior fiscal year end tax adjustments, if applicable.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized after December 31, 2011 may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward for eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

As of December 31, 2011, the fund had capital loss carryforwards available to offset future realized gains. Such losses expire as follows:

| Pre-enactment losses: |                |
|-----------------------|----------------|
| 12/31/16              | \$(9,633,475)  |
| 12/31/17              | (25,455,315)   |
| Total                 | \$(35,088,790) |

**Multiple Classes of Shares of Beneficial Interest** – The fund offers multiple classes of shares, which differ in their respective distribution and/or service fees. The fund's income, realized and unrealized gain (loss), and common expenses are allocated to shareholders based on the daily net assets of each class. Dividends are declared separately for each class. Differences in per share dividend rates are generally due to differences in separate class expenses. The fund's distributions declared to shareholders as reported on the Statements of Changes in Net Assets are presented by class as follows:

|               | From net inve<br>income     |                        |
|---------------|-----------------------------|------------------------|
|               | Six months ended<br>6/30/12 | Year ended<br>12/31/11 |
| Initial Class | \$—                         | \$1,473,743            |
| Service Class | —                           | 127,945                |
| Total         | \$—                         | \$1,601,688            |

### (3) Transactions with Affiliates

**Investment Adviser** – The fund has an investment advisory agreement with MFS to provide overall investment management and related administrative services and facilities to the fund. The management fee is computed daily and paid monthly at the following annual rates:

| First \$1 billion of average daily net assets     | 0.75% |
|---|-------|
| Average daily net assets in excess of \$1 billion | 0.65% |

The management fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.75% of the fund's average daily net assets.

**Distributor** – MFS Fund Distributors, Inc. (MFD), a wholly-owned subsidiary of MFS, is the distributor of shares of the fund. The Trustees have adopted a distribution plan for the Service Class shares pursuant to Rule 12b-1 under the Investment Company Act of 1940.

The fund's distribution plan provides that the fund will pay MFD distribution and/or service fees equal to 0.25% per annum of its average daily net assets attributable to Service Class shares as partial consideration for services performed and expenses incurred by MFD and financial intermediaries (including participating insurance companies that invest in the fund to fund variable annuity and variable life insurance contracts, sponsors of qualified retirement and pension plans that invest in the fund, and affiliates of these participating insurance companies and plan sponsors) in connection with the sale and distribution of the Service Class shares. MFD may subsequently pay all, or a portion, of the distribution and/or service fees to financial intermediaries.

**Shareholder Servicing Agent** – MFS Service Center, Inc. (MFSC), a wholly-owned subsidiary of MFS, receives a fee from the fund for its services as shareholder servicing agent. For the six months ended June 30, 2012, the fee was \$9,610, which equated to 0.0103% annually of the fund's average daily net assets. MFSC also receives payment from the fund for out-of-pocket expenses paid by MFSC on behalf of the fund. For the six months ended June 30, 2012, these costs amounted to \$579.

**Administrator** – MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to the fund. Under an administrative services agreement, the fund partially reimburses MFS the costs incurred to provide these services. The fund is charged an annual fixed amount of \$17,500 plus a fee based on average daily net assets. The administrative services fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.0203% of the fund's average daily net assets.

**Trustees' and Officers' Compensation** – The fund pays compensation to independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons. The fund does not pay compensation directly to Trustees or officers of the fund who are also officers of the investment adviser, all of whom receive remuneration for their services to the fund from MFS. Certain officers and Trustees of the fund are officers or directors of MFS, MFD, and MFSC.

**Other** – This fund and certain other funds managed by MFS (the funds) have entered into services agreements (the Agreements) which provide for payment of fees by the funds to Tarantino LLC and Griffin Compliance LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) and Assistant ICCO, respectively, for the funds. The ICCO and Assistant ICCO are officers of the funds and the sole members of Tarantino LLC and Griffin Compliance LLC, respectively. The funds can terminate the Agreements with Tarantino LLC and Griffin Compliance LLC at any time under the terms of the Agreements. For the six months ended June 30, 2012, the aggregate fees paid by the fund to Tarantino LLC and Griffin Compliance LLC were \$970 and are included in "Miscellaneous" expense on the Statement of Operations. MFS has agreed to reimburse the fund for a portion of the payments made by the fund in the amount of \$482, which is shown as a reduction of total expenses in the Statement of Operations. Additionally, MFS has agreed to bear all expenses associated with office space, other administrative support, and supplies provided to the ICCO and Assistant ICCO.

The fund invests in the MFS Institutional Money Market Portfolio which is managed by MFS and seeks a high level of current income consistent with preservation of capital and liquidity. Income earned on this investment is included in "Dividends from underlying affiliated funds" on the Statement of Operations. This money market fund does not pay a management fee to MFS.

### (4) Portfolio Securities

Purchases and sales of investments, other than U.S. Government securities, purchased option transactions, short sales, and short-term obligations, aggregated \$63,695,974 and \$77,427,377, respectively.

### (5) Shares of Beneficial Interest

The fund's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. Transactions in fund shares were as follows:

|  | Six months  | Six months ended 6/30/12 |             | ed 12/31/11    |
|--|-------------|--------------------------|-------------|----------------|
|  | Shares      | Amount                   | Shares      | Amount         |
| Shares sold  |             |                          |             |                |
| Initial Class  | 297,178     | \$6,055,241              | 1,101,108   | \$20,631,224   |
| Service Class  | 133,921     | 2,718,545                | 194,431     | 3,679,825      |
|  | 431,099     | \$8,773,786              | 1,295,539   | \$24,311,049   |

|  | (677,264)   | \$(13,696,506)           | (1,016,229) | \$(19,927,763) |

### (6) Line of Credit

The fund and certain other funds managed by MFS participate in a \$1.1 billion unsecured committed line of credit, subject to a \$1 billion sublimit, provided by a syndication of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, generally at a rate equal to the higher of the Federal Reserve funds rate or one month LIBOR plus an agreed upon spread. A commitment fee, based on the average daily, unused portion of the committed line of credit, is allocated among the participating funds at the end of each calendar quarter. In addition, the fund and other funds managed by MFS have established unsecured uncommitted borrowing arrangements with certain banks for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the Federal Reserve funds rate plus an agreed upon spread. For the six months ended June 30, 2012, the fund's commitment fee and interest expense were \$655 and \$0, respectively, and are included in "Miscellaneous" expense on the Statement of Operations.

### (7) Transactions in Underlying Affiliated Funds – Affiliated Issuers

An affiliated issuer may be considered one in which the fund owns 5% or more of the outstanding voting securities, or a company which is under common control. For the purposes of this report, the fund assumes the following to be an affiliated issuer:

| Underlying Affiliated Fund               | Beginning   | Acquisitions  | Dispositions | Ending      |
|--|-------------|---------------|--------------|-------------|
|  | Shares/Par  | Shares/Par    | Shares/Par   | Shares/Par  |
|  | Amount      | Amount        | Amount       | Amount      |
| MFS Institutional Money Market Portfolio | 63          | 20,651,562    | (18,966,507) | 1,685,118   |
| Underlying Affiliated Fund               | Realized    | Capital Gain  | Dividend     | Ending      |
|  | Gain (Loss) | Distributions | Income       | Value       |
| MFS Institutional Money Market Portfolio | \$—         | \$—           | \$512        | \$1,685,118 |

### BOARD REVIEW OF INVESTMENT ADVISORY AGREEMENT

A discussion regarding the Board's most recent review and renewal of the fund's Investment Advisory Agreement with MFS will be available on or about November 1, 2012 by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of the MFS Web site (*mfs.com*).

### PROXY VOTING POLICIES AND INFORMATION

A general description of the MFS funds' proxy voting policies and procedures is available without charge, upon request, by calling 1-800-225-2606, by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov*.

Information regarding how the fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available without charge by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov.* 

### QUARTERLY PORTFOLIO DISCLOSURE

The fund will file a complete schedule of portfolio holdings with the Securities and Exchange Commission (the Commission) for the first and third quarters of each fiscal year on Form N-Q. The fund's Form N-Q is available on the EDGAR database on the Commission's Internet Web site at *http://www.sec.gov*, and may be reviewed and copied at the:

Public Reference Room Securities and Exchange Commission 100 F Street, NE, Room 1580 Washington, D.C. 20549

Information on the operation of the Public Reference Room may be obtained by calling the Commission at 1-800-SEC-0330. Copies of the fund's Form N-Q also may be obtained, upon payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov or by writing the Public Reference Section at the above address.

### FURTHER INFORMATION

From time to time, MFS may post important information about the fund or the MFS funds on the MFS web site (*mfs.com*). This information is available by visiting the "News & Commentary" section of *mfs.com* or by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of *mfs.com*.

### LETTER FROM THE CHAIRMAN AND CEO

Dear Contract Owners:

World financial markets remain a venue of uncertainty. The focus has shifted most recently to the eurozone, where policymakers are attempting to develop a plan that will help debt-laden countries and prevent their woes from spreading across the region. Volatility is likely to continue as investors test the resolve of European officials to make the tough decisions needed to solve the crisis. A slowing in the Chinese economy has added another layer of trepidation, as investors worry that the primary engine of global growth may be sputtering.

The U.S. economy is experiencing a period of growth. However, markets have been jittery in reaction to events in Europe and ahead of the U.S. presidential election. Voters in the United States are watching the economy closely and waiting to see if Congress agrees to cut the budget and extend the Bush administration tax cuts. Failure to do so could ultimately send the U.S. economy back into recession.

Amid this global uncertainty, managing risk becomes a top priority for investors and their advisors. At MFS® our global research platform is designed to ensure the smooth functioning of our investment process in all business climates. Real-time collaboration across the globe is vital in periods of heightened volatility and economic uncertainty. At MFS our investment staff shares ideas and evaluates opportunities across geographies, across both fundamental and quantitative disciplines, and across companies' entire capital structure. We employ this uniquely collaborative approach to build better insights for our clients.

We, like our investors, are mindful of the many economic challenges faced at the local, national, and international levels. It is in times such as these that we want to emphasize the merits of maintaining a long-term view, adhering to basic investing principles such as asset allocation and diversification, and working closely with investment advisors to research and identify appropriate investment opportunities.

Respectfully,

Robert ) Manning

Robert J. Manning Chairman and Chief Executive Officer MFS Investment Management®

# **PORTFOLIO COMPOSITION**

### Portfolio structure (i)

### Top ten holdings (i)

| Comcast Corp., "Special A"            | 4.0% |
|---------------------------------------|------|
| Virgin Media, Inc.                    | 3.6% |
| CMS Energy Corp.                      | 3.0% |
| Williams Cos., Inc.                   | 3.0% |
| Edison International                  | 2.7% |
| Kinder Morgan, Inc.                   | 2.6% |
| Energias de Portugal S.A.             | 2.4% |
| Public Service Enterprise Group, Inc. | 2.3% |
| AES Corp.                             | 2.2% |
| Calpine Corp.                         | 2.1% |

### Top five industries (i)

| Utilities – Electric Power    | 46.2% |
|-------------------------------|-------|
| Cable TV                      | 12.1% |
| Telephone Services            | 10.2% |
| Natural Gas – Pipeline        | 9.2%  |
| Telecommunications – Wireless | 7.1%  |

### Issuer country weightings (i)(x)

| United States   | 67.4% |
|-----------------|-------|
| Brazil          | 7.4%  |
| United Kingdom  | 4.1%  |
| Spain           | 4.1%  |
| Portugal        | 3.5%  |
| Germany         | 2.9%  |
| Czech Republic  | 1.5%  |
| Chile           | 1.4%  |
| Italy           | 1.3%  |
| Other Countries | 6.4%  |

(i) For purposes of this presentation, the components include the market value of securities, and reflect the impact of the equivalent exposure of derivative positions, if any. These amounts may be negative from time to time. The bond component will include any accrued interest amounts. Equivalent exposure is a calculated amount that translates the derivative position into a reasonable approximation of the amount of the underlying asset that the portfolio would have to hold at a given point in time to have the same price sensitivity that results from the portfolio's ownership of the derivative contract. When dealing with derivatives, equivalent exposure is a more representative measure of the potential impact of a position on portfolio performance than market value. Where the fund holds convertible bonds, these are treated as part of the equity portion of the portfolio.
 (x) Represents the portfolio's exposure to issuer countries as a percentage of a portfolio's net assets.

Percentages are based on net assets as of 6/30/12.

The portfolio is actively managed and current holdings may be different.

### **EXPENSE TABLE**

### Fund Expenses Borne by the Contract Holders During the Period,

### January 1, 2012 through June 30, 2012

As a contract holder of the fund, you incur ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

### **Actual Expenses**

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

### Hypothetical Example for Comparison Purposes

The second line for each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight the fund's ongoing costs only and do not take into account the fees and expenses imposed under the variable contracts through which your investment in the fund is made. Therefore, the second line for each share class in the table is useful in comparing ongoing costs associated with an investment in vehicles (such as the fund) which fund benefits under variable annuity and variable life insurance contracts and to qualified pension and retirement plans only, and will not help you determine the relative total costs of investing in the fund through variable annuity and variable life insurance contracts were included, your costs would have been higher.

| Share Class   |                  | Annualized<br>Expense Ratio | Beginning<br>Account Value<br>1/01/12 | Ending<br>Account Value<br>6/30/12 | Expenses Paid<br>During Period (p)<br>1/01/12-6/30/12 |
|---------------|------------------|-----------------------------|---------------------------------------|------------------------------------|---|
| Initial Class | Actual           | 0.82%                       | \$1,000.00                            | \$1,049.08                         | \$4.18  |
|               | Hypothetical (h) | 0.82%                       | \$1,000.00                            | \$1,020.79                         | \$4.12  |
| Sonvico Class | Actual           | 1.07%                       | \$1,000.00                            | \$1,047.80                         | \$5.45  |
| Service Class | Hypothetical (h) | 1.07%                       | \$1,000.00                            | \$1,019.54                         | \$5.37  |

(h) 5% class return per year before expenses.

(p) Expenses paid are equal to each class' annualized expense ratio, as shown above, multiplied by the average account value over the period, multiplied by the number of days in the period, divided by the number of days in the year.

# PORTFOLIO OF INVESTMENTS – 6/30/12 (unaudited)

The Portfolio of Investments is a complete list of all securities owned by your fund. It is categorized by broad-based asset classes.

(a) Non-income producing security.

(i) Interest only security for which the fund receives interest on notional principal (Par amount). Par amount shown is the notional principal and does not reflect the cost of the security.

(j) The rate quoted is the annualized seven-day yield of the fund at period end.

(I) A portion of this security is on loan.

 (n) Securities exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in the ordinary course of business in transactions exempt from registration, normally to qualified institutional buyers. At period end, the aggregate value of these securities was \$7,326,287, representing 0.6% of net assets.

(v) Underlying affiliated fund that is available only to investment companies managed by MFS. The rate quoted for the MFS Institutional Money Market Portfolio is the annualized seven-day yield of the fund at period end.

### MFS Utilities Series

Portfolio of Investments (unaudited) - continued

(z) Restricted securities are not registered under the Securities Act of 1933 and are subject to legal restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are subsequently registered. Disposal of these securities may involve time-consuming negotiations and prompt sale at an acceptable price may be difficult. The fund holds the following restricted securities:

| Restricted Securities                        | Acquisition<br>Date | Cost      | Value       |
|--|---------------------|-----------|-------------|
| Falcon Franchise Loan LLC, FRN, 5.541%, 2023 | 1/18/02             | \$3,929   | \$7,414     |

| Total Restricted Securities                  |                     |           | \$2,026,814 |
| % of Net assets                              |                     |           | 0.2%        |

The following abbreviations are used in this report and are defined:

ADR American Depositary Receipt

- FRN Floating Rate Note. Interest rate resets periodically and may not be the rate reported at period end.
- IPS International Preference Stock
- PLC Public Limited Company
- REIT Real Estate Investment Trust

Abbreviations indicate amounts shown in currencies other than the U.S. dollar. All amounts are stated in U.S. dollars unless otherwise indicated. A list of abbreviations is shown below:

- BRL Brazilian Real
- EUR Euro
- GBP British Pound

# FINANCIAL STATEMENTS | FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the fund's financial performance for the semiannual period and the past 5 fiscal years. Certain information reflects financial results for a single fund share. The total returns in the table represent the rate by which an investor would have earned (or lost) on an investment in the fund share class (assuming reinvestment of all distributions) held for the entire period.

### MFS Utilities Series

### Financial Highlights - continued

- (a) Annualized.
- (d) Per share data is based on average shares outstanding.
- (f) Ratios do not reflect reductions from fees paid indirectly, if applicable.
- (k) The total return does not reflect expenses that apply to separate accounts. Inclusion of these charges would reduce the total return figures for all periods shown.
- (n) Not annualized.
- (r) Certain expenses have been reduced without which performance would have been lower.
- (s) From time to time the fund may receive proceeds from litigation settlements, without which performance would be lower.
- (x) The net asset values per share and total returns have been calculated on net assets which include adjustments made in accordance with U.S. generally accepted accounting principles required at period end for financial reporting purposes.

### NOTES TO FINANCIAL STATEMENTS (unaudited)

### (1) Business and Organization

MFS Utilities Series (the fund) is a series of MFS Variable Insurance Trust (the trust). The trust is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The shareholders of each series of the trust are separate accounts of insurance companies, which offer variable annuity and/or life insurance products, and qualified retirement and pension plans.

### (2) Significant Accounting Policies

**General** – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In the preparation of these financial statements, management has evaluated subsequent events occurring after the date of the fund's Statement of Assets and Liabilities through the date that the financial statements were issued. The fund invests primarily in securities of issuers in the utility industry. Issuers in a single industry can react similarly to market, economic, political and regulatory conditions and developments. The fund invests in foreign securities, including securities of the local currency and the U.S. dollar and to the effects of changes in each country's legal, political, and economic environment. The markets of emerging markets countries are generally more volatile than the markets of developed countries with more mature economies. All of the risks of investing in foreign securities previously described are heightened when investing in emerging markets countries.

In this reporting period the fund adopted FASB Accounting Standards Update 2011-04, Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"). ASU 2011-04 seeks to improve the comparability of fair value measurements as presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS) by providing common requirements for fair value measurement and disclosure.

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-11, Balance Sheet (Topic 210) – Disclosures about Offsetting Assets and Liabilities ("ASU 2011-11"). Effective for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods, ASU 2011-11 is intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. Although still evaluating the potential impacts of ASU 2011-11 to the fund, management expects that the impact of the fund's adoption will be limited to additional financial statement disclosures.

**Investment Valuations** – Equity securities, including restricted equity securities, are generally valued at the last sale or official closing price as provided by a third-party pricing service on the market or exchange on which they are primarily traded. Equity securities, for which there were no sales reported that day, are generally valued at the last quoted daily bid quotation as provided by a third-party pricing service on the market or exchange on which securities are primarily traded. Debt instruments and floating rate loans (other than short-term instruments), including restricted debt instruments, are generally valued at an evaluated or composite bid as provided by a third-party pricing service. Short-term instruments with a maturity at issuance of 60 days or less generally are valued at amortized cost, which approximates market value. Forward foreign currency exchange contracts are generally valued at the mean of bid and asked prices for the time period interpolated from rates provided by a third-party pricing service for proximate time periods. Open-end investment companies are generally valued at net asset value per share. Securities and other assets generally valued on the basis of information from a third-party pricing service may also be valued at a broker/dealer bid quotation. Values obtained from third-party pricing services can utilize both transaction data and market information such as yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of foreign securities and other assets and liabilities expressed in foreign currencies are converted to U.S. dollars using the mean of bid and asked prices for rates provided by a third-party pricing service.

The Board of Trustees has delegated primary responsibility for determining or causing to be determined the value of the fund's investments (including any fair valuation) to the adviser pursuant to valuation policies and procedures approved by the Board. If the adviser determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the adviser in accordance with such procedures under the oversight of the Board of Trustees. Under the fund's valuation policies and procedures, market quotations are not considered to be readily available for most types of debt instruments and floating rate loans and many types of derivatives. These investments are generally valued at fair value based on information from third-party pricing services. In addition, investments may be valued at fair value if the adviser determines that an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the fund's net asset value, or after the halting of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is principally traded. Events that occur on a frequent basis after foreign markets close (such as developments in foreign markets and significant movements in the U.S. markets) and prior to the determination of the fund's net asset value may be deemed to have a

### MFS Utilities Series

### Notes to Financial Statements (unaudited) - continued

material effect on the value of securities traded in foreign markets. Accordingly, the fund's foreign equity securities may often be valued at fair value. The adviser generally relies on third-party pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for purposes of calculating the fund's net asset value can differ depending on the source and method used to determine value. When fair valuation is used, the value of an investment used to determine the fund's net asset value may differ from quoted or published prices for the same investment. There can be no assurance that the fund could obtain the fair value assigned to an investment if it were to sell the investment at the same time at which the fund determines its net asset value per share.

Various inputs are used in determining the value of the fund's assets or liabilities. These inputs are categorized into three broad levels. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fund's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. Level 1 includes unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 includes other significant observable market-based inputs (including quoted prices for similar securities, interest rates, prepayment speed, and credit risk). Level 3 includes unobservable inputs, which may include the adviser's own assumptions in determining the fair value of investments. Other financial instruments are derivative instruments not reflected in total investments, such as forward foreign currency exchange contracts. The following is a summary of the levels used as of June 30, 2012 in valuing the fund's assets or liabilities:

| Investments at Value                        | Level 1         | Level 2       | Level 3     | Total           |
|---|-----------------|---------------|-------------|-----------------|

For further information regarding security characteristics, see the Portfolio of Investments.

Of the level 2 investments presented above, equity investments amounting to \$75,098,476 would have been considered level 1 investments at the beginning of the period. Of the level 1 investments presented above, equity investments amounting to \$9,116,805 would have been considered level 2 investments at the beginning of the period. The primary reason for changes in the classifications between levels 1 and 2 occurs when foreign equity securities are fair valued using other observable market-based inputs in place of the closing exchange price due to events occurring after the close of the exchange or market on which the investment is principally traded. The fund's foreign equity securities may often be valued at fair value. The fund's policy is to recognize transfers between the levels as of the end of the period.

**Foreign Currency Translation** – Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions or on the reporting date for foreign denominated receivables and payables. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on receivables, payables, income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

**Derivatives** – The fund uses derivatives for different purposes, primarily to increase or decrease exposure to a particular market or segment of the market, or security, to increase or decrease interest rate or currency exposure, or as alternatives to direct investments.

#### Notes to Financial Statements (unaudited) – continued

Derivatives are used for hedging or non-hedging purposes. While hedging can reduce or eliminate losses, it can also reduce or eliminate gains. When the fund uses derivatives as an investment to increase market exposure, or for hedging purposes, gains and losses from derivative instruments may be substantially greater than the derivative's original cost.

The derivative instruments used by the fund were forward foreign currency exchange contracts. The fund's period end derivatives, as presented in the Portfolio of Investments and the associated Derivative Contract Tables generally are indicative of the volume of its derivative activity during the period.

The following table presents, by major type of derivative contract, the fair value, on a gross basis, of the asset and liability components of derivatives held by the fund at June 30, 2012 as reported in the Statement of Assets and Liabilities:

| Risk                              | Derivative Contracts                                     | Asset Derivatives         | Liability Derivatives |

#### Foreign Exchange

Derivative counterparty credit risk is managed through formal evaluation of the creditworthiness of all potential counterparties. On certain over-the-counter derivatives, the fund attempts to reduce its exposure to counterparty credit risk whenever possible by entering into an International Swaps and Derivatives Association (ISDA) Master Agreement on a bilateral basis with each of the counterparties with whom it undertakes a significant volume of transactions. The ISDA Master Agreement gives each party to the agreement the right to terminate all transactions traded under such agreement if there is a certain deterioration in the credit quality of the other party. The ISDA Master Agreement gives the fund the right, upon an event of default by the applicable counterparty or a termination of the agreement, to close out all transactions traded under such agreement and to net amounts owed under each transaction to one net amount payable by one party to the other. This right to close out and net payments across all transactions traded under the ISDA Master Agreement could result in a reduction of the fund's credit risk to such counterparty equal to any amounts payable by the fund under the applicable transactions, if any. However, absent an event of default by the counterparty or a termination of the agreement, the ISDA Master Agreement does not result in an offset of reported amounts of assets and liabilities in the Statement of Assets and Liabilities across transactions between the fund and the applicable counterparty.

Collateral requirements differ by type of derivative. Collateral or margin requirements are set by the broker or exchange clearing house for exchange traded derivatives (i.e., futures contracts and exchange-traded options) while collateral terms are contract specific for over-the-counter traded derivatives (i.e., forward foreign currency exchange contracts, swap agreements and over-the-counter options). For derivatives traded under an ISDA Master Agreement, the collateral requirements are netted across all transactions traded under such agreement and one amount is posted from one party to the other to collateralize such obligations. Cash collateral that has been pledged to cover obligations of the fund under derivative contracts, if any, will be reported separately on the Statement of Assets and Liabilities as "Restricted cash." Securities collateral pledged for the same purpose, if any, is noted in the Portfolio of Investments.

Forward Foreign Currency Exchange Contracts – The fund entered into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. These contracts may be used to hedge the fund's currency risk or for non-hedging purposes. For hedging purposes, the fund may enter into contracts to deliver or receive foreign currency that the fund will receive from or use in its normal investment activities. The fund may also use contracts to hedge against declines in the value of foreign currency denominated securities due to unfavorable exchange rate movements. For non-hedging purposes, the fund may enter into contracts with the intent of changing the relative exposure of the fund's portfolio of securities to different currencies to take advantage of anticipated exchange rate changes.

Forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any unrealized gains or losses are recorded as a receivable or payable for forward foreign currency exchange contracts until the contract settlement date. On contract settlement date, any gain or loss on the contract is recorded as realized gains or losses on foreign currency.

### MFS Utilities Series

#### Notes to Financial Statements (unaudited) - continued

Risks may arise upon entering into these contracts from unanticipated movements in the value of the contract and from the potential inability of counterparties to meet the terms of their contracts. Generally, the fund's maximum risk due to counterparty credit risk is the unrealized gain on the contract due to the use of Continuous Linked Settlement, an industry accepted settlement system. This risk is mitigated in cases where there is an ISDA Master Agreement between the fund and the counterparty providing for netting as described above and for posting of collateral by the counterparty to the fund to cover the fund's exposure to the counterparty under such ISDA Master Agreement.

**Security Loans** – State Street Bank and Trust Company ("State Street"), as lending agent, loans the securities of the fund to certain qualified institutions (the "Borrowers") approved by the fund. The loans are collateralized by cash and/or U.S. Treasury and federal agency obligations in an amount typically at least equal to the market value of the securities loaned. The market value of the loaned securities is determined at the close of business of the fund and any additional required collateral is delivered to the fund on the next business day. State Street provides the fund with indemnification against Borrower default. The fund bears the risk of loss with respect to the investment of cash collateral. On loans collateralized by cash, the cash collateral is invested in a money market fund or short-term securities. A portion of the income generated upon investment of the collateral is remitted to the Borrowers, and the remainder is allocated between the fund and the lending agent. On loans collateralized by U.S. Treasury and/or federal agency obligations, a fee is received from the Borrower, and is allocated between the fund and the lending agent. Income from securities lending is included in "Interest" income on the Statement of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income.

**Indemnifications** – Under the fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the fund. Additionally, in the normal course of business, the fund enters into agreements with service providers that may contain indemnification clauses. The fund's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the fund that have not yet occurred.

**Investment Transactions and Income** – Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. All premium and discount is amortized or accreted for financial statement purposes in accordance with U.S. generally accepted accounting principles. Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date.

The fund may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statement of Operations in realized gain/loss if the security has been disposed of by the fund or in unrealized gain/ loss if the security is still held by the fund. Any other proceeds from litigation not related to portfolio holdings are reflected as other income in the Statement of Operations.

**Fees Paid Indirectly** – The fund's custody fee may be reduced according to an arrangement that measures the value of cash deposited with the custodian by the fund. This amount, for the six months ended June 30, 2012, is shown as a reduction of total expenses on the Statement of Operations.

**Tax Matters and Distributions** – The fund intends to qualify as a regulated investment company, as defined under Subchapter M of the Internal Revenue Code, and to distribute all of its taxable income, including realized capital gains. As a result, no provision for federal income tax is required. The fund's federal tax returns, when filed, will remain subject to examination by the Internal Revenue Service for a three year period. Foreign taxes have been accrued by the fund in the accompanying financial statements.

Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. Distributions in excess of net investment income or net realized gains are temporary overdistributions for financial statement and tax purposes.

Book/tax differences primarily relate to amortization and accretion of debt securities, wash sale loss deferrals, and derivative transactions. The tax character of distributions declared to shareholders for the last fiscal year is as follows:

Ordinary income (including any short-term capital gains)

**12/31/11** \$60,160,403 The federal tax cost and the tax basis components of distributable earnings were as follows:

| As of 6/30/12                              |                 |
|--|-----------------|
| Cost of investments                        | \$1,312,896,783 |
| Gross appreciation                         | 106,694,613     |
| Gross depreciation                         | (159,681,382)   |
| Net unrealized appreciation (depreciation) | \$(52,986,769)  |
| As of 12/31/11                             |                 |
| Undistributed ordinary income              | 84,208,490      |
| Capital loss carryforwards                 | (101,608,243)   |
| Other temporary differences                | (86,432)        |
| Net unrealized appreciation (depreciation) | 28,896,855      |

The aggregate cost above includes prior fiscal year end tax adjustments, if applicable.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized after December 31, 2011 may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward for eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

As of December 31, 2011 the fund had capital loss carryforwards available to offset future realized gains. Such losses expire as follows:

#### Pre-enactment losses: 12/31/17

#### \$(101,608,243)

**Multiple Classes of Shares of Beneficial Interest** – The fund offers multiple classes of shares, which differ in their respective distribution and/or service fees. The fund's income, realized and unrealized gain (loss), and common expenses are allocated to shareholders based on the daily net assets of each class. Dividends are declared separately for each class. Differences in per share dividend rates are generally due to differences in separate class expenses. The fund's distributions declared to shareholders as reported on the Statements of Changes in Net Assets are presented by class as follows:

|               | From net inve<br>income     |                        |
|---------------|-----------------------------|------------------------|
|               | Six months ended<br>6/30/12 | Year ended<br>12/31/11 |
| Initial Class | \$—                         | \$17,376,268           |
| Service Class | —                           | 42,784,135             |
| Total         | \$—                         | \$60,160,403           |

#### (3) Transactions with Affiliates

**Investment Adviser** – The fund has an investment advisory agreement with MFS to provide overall investment management and related administrative services and facilities to the fund. The management fee is computed daily and paid monthly at the following annual rates:

| First \$1 billion of average daily net assets     | 0.75% |
|---|-------|
| Average daily net assets in excess of \$1 billion | 0.70% |

The management fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.73% of the fund's average daily net assets.

**Distributor** – MFS Fund Distributors, Inc. (MFD), a wholly-owned subsidiary of MFS, is the distributor of shares of the fund. The Trustees have adopted a distribution plan for the Service Class shares pursuant to Rule 12b-1 under the Investment Company Act of 1940.

The fund's distribution plan provides that the fund will pay MFD distribution and/or service fees equal to 0.25% per annum of its average daily net assets attributable to Service Class shares as partial consideration for services performed and expenses incurred by MFD and financial intermediaries (including participating insurance companies that invest in the fund to fund variable annuity and variable life insurance contracts, sponsors of qualified retirement and pension plans that invest in the fund, and affiliates of these participating insurance companies and plan sponsors) in connection with the sale and distribution of the Service Class shares. MFD may subsequently pay all, or a portion, of the distribution and/or service fees to financial intermediaries.

**Shareholder Servicing Agent** – MFS Service Center, Inc. (MFSC), a wholly-owned subsidiary of MFS, receives a fee from the fund for its services as shareholder servicing agent. For the six months ended June 30, 2012, the fee was \$76,301, which equated to

### MFS Utilities Series

#### Notes to Financial Statements (unaudited) - continued

0.0103% annually of the fund's average daily net assets. MFSC also receives payment from the fund for out-of-pocket expenses paid by MFSC on behalf of the fund. For the six months ended June 30, 2012, these costs amounted to \$962.

**Administrator** – MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to the fund. Under an administrative services agreement, the fund partially reimburses MFS the costs incurred to provide these services. The fund is charged an annual fixed amount of \$17,500 plus a fee based on average daily net assets. The administrative services fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.0157% of the fund's average daily net assets.

**Trustees' and Officers' Compensation** – The fund pays compensation to independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons. The fund does not pay compensation directly to Trustees or officers of the fund who are also officers of the investment adviser, all of whom receive remuneration for their services to the fund from MFS. Certain officers and Trustees of the fund are officers or directors of MFS, MFD, and MFSC.

**Other** – This fund and certain other funds managed by MFS (the funds) have entered into services agreements (the Agreements) which provide for payment of fees by the funds to Tarantino LLC and Griffin Compliance LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) and Assistant ICCO, respectively, for the funds. The ICCO and Assistant ICCO are officers of the funds and the sole members of Tarantino LLC and Griffin Compliance LLC, respectively. The funds can terminate the Agreements with Tarantino LLC and Griffin Compliance LLC at any time under the terms of the Agreements. For the six months ended June 30, 2012, the aggregate fees paid by the fund to Tarantino LLC and Griffin Compliance LLC were \$8,964 and are included in "Miscellaneous" expense on the Statement of Operations. MFS has agreed to reimburse the fund for a portion of the payments made by the fund in the amount of \$3,944, which is shown as a reduction of total expenses in the Statement of Operations. Additionally, MFS has agreed to bear all expenses associated with office space, other administrative support, and supplies provided to the ICCO and Assistant ICCO.

The fund invests in the MFS Institutional Money Market Portfolio which is managed by MFS and seeks a high level of current income consistent with preservation of capital and liquidity. Income earned on this investment is included in "Dividends from underlying affiliated funds" on the Statement of Operations. This money market fund does not pay a management fee to MFS.

#### (4) Portfolio Securities

Purchases and sales of investments, other than U.S. Government securities, purchased option transactions, and short-term obligations, aggregated \$396,442,690 and \$430,643,954, respectively.

#### (5) Shares of Beneficial Interest

The fund's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. Transactions in fund shares were as follows:

|  | Six months   | Six months ended 6/30/12 |              | Year ended 12/31/11 |  |
|--|--------------|--------------------------|--------------|---------------------|--|

#### (6) Line of Credit

The fund and certain other funds managed by MFS participate in a \$1.1 billion unsecured committed line of credit, subject to a \$1 billion sublimit, provided by a syndication of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, generally at a rate equal to the higher of the Federal Reserve funds

Notes to Financial Statements (unaudited) - continued

rate or one month LIBOR plus an agreed upon spread. A commitment fee, based on the average daily, unused portion of the committed line of credit, is allocated among the participating funds at the end of each calendar quarter. In addition, the fund and other funds managed by MFS have established unsecured uncommitted borrowing arrangements with certain banks for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the Federal Reserve funds rate plus an agreed upon spread. For the six months ended June 30, 2012, the fund's commitment fee and interest expense were \$6,641 and \$0, respectively, and are included in "Miscellaneous" expense on the Statement of Operations.

#### (7) Transactions in Underlying Affiliated Funds – Affiliated Issuers

An affiliated issuer may be considered one in which the fund owns 5% or more of the outstanding voting securities, or a company which is under common control. For the purposes of this report, the fund assumes the following to be an affiliated issuer:

| Underlying Affiliated Fund               | Beginning   | Acquisitions  | Dispositions  | Ending       |
|--|-------------|---------------|---------------|--------------|
|  | Shares/Par  | Shares/Par    | Shares/Par    | Shares/Par   |
|  | Amount      | Amount        | Amount        | Amount       |
| MFS Institutional Money Market Portfolio | 60,086,370  | 185,891,565   | (211,268,128) | 34,709,807   |
| Underlying Affiliated Fund               | Realized    | Capital Gain  | Dividend      | Ending       |
|  | Gain (Loss) | Distributions | Income        | Value        |
| MFS Institutional Money Market Portfolio | \$—         | \$—           | \$20,523      | \$34,709,807 |

### BOARD REVIEW OF INVESTMENT ADVISORY AGREEMENT

A discussion regarding the Board's most recent review and renewal of the fund's Investment Advisory Agreement with MFS will be available on or about November 1, 2012 by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of the MFS Web site (*mfs.com*).

### PROXY VOTING POLICIES AND INFORMATION

A general description of the MFS funds' proxy voting policies and procedures is available without charge, upon request, by calling 1-800-225-2606, by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov*.

Information regarding how the fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available without charge by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov.* 

## QUARTERLY PORTFOLIO DISCLOSURE

The fund will file a complete schedule of portfolio holdings with the Securities and Exchange Commission (the Commission) for the first and third quarters of each fiscal year on Form N-Q. The fund's Form N-Q is available on the EDGAR database on the Commission's Internet Web site at *http://www.sec.gov*, and may be reviewed and copied at the:

Public Reference Room Securities and Exchange Commission 100 F Street, NE, Room 1580 Washington, D.C. 20549

Information on the operation of the Public Reference Room may be obtained by calling the Commission at 1-800-SEC-0330. Copies of the fund's Form N-Q also may be obtained, upon payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov or by writing the Public Reference Section at the above address.

### FURTHER INFORMATION

From time to time, MFS may post important information about the fund or the MFS funds on the MFS web site (*mfs.com*). This information is available by visiting the "News & Commentary" section of *mfs.com* or by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of *mfs.com*.

# LETTER FROM THE CHAIRMAN AND CEO

Dear Contract Owners:

World financial markets remain a venue of uncertainty. The focus has shifted most recently to the eurozone, where policymakers are attempting to develop a plan that will help debt-laden countries and prevent their woes from spreading across the region. Volatility is likely to continue as investors test the resolve of European officials to make the tough decisions needed to solve the crisis. A slowing in the Chinese economy has added another layer of trepidation, as investors worry that the primary engine of global growth may be sputtering.

The U.S. economy is experiencing a period of growth. However, markets have been jittery in reaction to events in Europe and ahead of the U.S. presidential election. Voters in the United States are watching the economy closely and waiting to see if Congress agrees to cut the budget and extend the Bush administration tax cuts. Failure to do so could ultimately send the U.S. economy back into recession.

Amid this global uncertainty, managing risk becomes a top priority for investors and their advisors. At MFS® our global research platform is designed to ensure the smooth functioning of our investment process in all business climates. Real-time collaboration across the globe is vital in periods of heightened volatility and economic uncertainty. At MFS our investment staff shares ideas and evaluates opportunities across geographies, across both fundamental and quantitative disciplines, and across companies' entire capital structure. We employ this uniquely collaborative approach to build better insights for our clients.

We, like our investors, are mindful of the many economic challenges faced at the local, national, and international levels. It is in times such as these that we want to emphasize the merits of maintaining a long-term view, adhering to basic investing principles such as asset allocation and diversification, and working closely with investment advisors to research and identify appropriate investment opportunities.

Respectfully,

Robert ) Manning

Robert J. Manning Chairman and Chief Executive Officer MFS Investment Management®

| Special Products & Services | 0.7%  |

Percentages are based on net assets as of 6/30/12.

The portfolio is actively managed and current holdings may be different.

# **EXPENSE TABLE**

# Fund Expenses Borne by the Contract Holders During the Period, January 1, 2012 through June 30, 2012

As a contract holder of the fund, you incur ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

### **Actual Expenses**

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical Example for Comparison Purposes

The second line for each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight the fund's ongoing costs only and do not take into account the fees and expenses imposed under the variable contracts through which your investment in the fund is made. Therefore, the second line for each share class in the table is useful in comparing ongoing costs associated with an investment in vehicles (such as the fund) which fund benefits under variable annuity and variable life insurance contracts and to qualified pension and retirement plans only, and will not help you determine the relative total costs of investing in the fund through variable annuity and variable life insurance contracts were included, your costs would have been higher.

| Share Class   |                  | Annualized<br>Expense Ratio | Beginning<br>Account Value<br>1/01/12 | Ending<br>Account Value<br>6/30/12 | Expenses Paid<br>During Period (p)<br>1/01/12-6/30/12 |
|---------------|------------------|-----------------------------|---------------------------------------|------------------------------------|---|
| Initial Class | Actual           | 0.82%                       | \$1,000.00                            | \$1,088.61                         | \$4.26  |
|               | Hypothetical (h) | 0.82%                       | \$1,000.00                            | \$1,020.79                         | \$4.12  |
| Service Class | Actual           | 1.07%                       | \$1,000.00                            | \$1,087.00                         | \$5.55  |
| Service Class | Hypothetical (h) | 1.07%                       | \$1,000.00                            | \$1,019.54                         | \$5.37  |

(h) 5% class return per year before expenses.

(p) Expenses paid are equal to each class' annualized expense ratio, as shown above, multiplied by the average account value over the period, multiplied by the number of days in the period, divided by the number of days in the year.

# PORTFOLIO OF INVESTMENTS – 6/30/12 (unaudited)

The Portfolio of Investments is a complete list of all securities owned by your fund. It is categorized by broad-based asset classes.

| lssuer   | Shares/Par | Value (\$)    | lssuer                             | Shares/Par | Value (\$)    |

# FINANCIAL STATEMENTS | FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the fund's financial performance for the semiannual period and the past 5 fiscal years. Certain information reflects financial results for a single fund share. The total returns in the table represent the rate by which an investor would have earned (or lost) on an investment in the fund share class (assuming reinvestment of all distributions) held for the entire period.

### MFS Investors Trust Series

#### Financial Highlights - continued

- (a) Annualized.
- (d) Per share data is based on average shares outstanding.
- (f) Ratios do not reflect reductions from fees paid indirectly, if applicable.
- (k) The total return does not reflect expenses that apply to separate accounts. Inclusion of these charges would reduce the total return figures for all periods shown.
- (n) Not annualized.
- (r) Certain expenses have been reduced without which performance would have been lower.
- (s) From time to time the fund may receive proceeds from litigation settlements, without which performance would be lower.
- (x) The net asset values per share and total returns have been calculated on net assets which include adjustments made in accordance with U.S. generally accepted accounting principles required at period end for financial reporting purposes.

# NOTES TO FINANCIAL STATEMENTS (unaudited)

### (1) Business and Organization

MFS Investors Trust Series (the fund) is a series of MFS Variable Insurance Trust (the trust). The trust is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The shareholders of each series of the trust are separate accounts of insurance companies, which offer variable annuity and/or life insurance products, and qualified retirement and pension plans.

### (2) Significant Accounting Policies

**General** – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In the preparation of these financial statements, management has evaluated subsequent events occurring after the date of the fund's Statement of Assets and Liabilities through the date that the financial statements were issued. The fund invests in foreign securities. Investments in foreign securities are vulnerable to the effects of changes in the relative values of the local currency and the U.S. dollar and to the effects of changes in each country's legal, political, and economic environment.

In this reporting period the fund adopted FASB Accounting Standards Update 2011-04, Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"). ASU 2011-04 seeks to improve the comparability of fair value measurements as presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS) by providing common requirements for fair value measurement and disclosure.

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-11, Balance Sheet (Topic 210) – Disclosures about Offsetting Assets and Liabilities ("ASU 2011-11"). Effective for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods, ASU 2011-11 is intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. Although still evaluating the potential impacts of ASU 2011-11 to the fund, management expects that the impact of the fund's adoption will be limited to additional financial statement disclosures.

**Investment Valuations** – Equity securities, including restricted equity securities, are generally valued at the last sale or official closing price as provided by a third-party pricing service on the market or exchange on which they are primarily traded. Equity securities, for which there were no sales reported that day, are generally valued at the last quoted daily bid quotation as provided by a third-party pricing service on the market or exchange on which such securities are primarily traded. Short-term instruments with a maturity at issuance of 60 days or less generally are valued at amortized cost, which approximates market value. Open-end investment companies are generally valued at net asset value per share. Securities and other assets generally valued on the basis of information from a third-party pricing service may also be valued at a broker/dealer bid quotation. Values obtained from third-party pricing services can utilize both transaction data and market information such as yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of foreign securities and other assets and liabilities expressed in foreign currencies are converted to U.S. dollars using the mean of bid and asked prices for rates provided by a third-party pricing service.

The Board of Trustees has delegated primary responsibility for determining or causing to be determined the value of the fund's investments (including any fair valuation) to the adviser pursuant to valuation policies and procedures approved by the Board. If the adviser determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the adviser in accordance with such procedures under the oversight of the Board of Trustees. Under the fund's valuation policies and procedures, market quotations are not considered to be readily available for most types of debt instruments and floating rate loans and many types of derivatives. These investments are generally valued at fair value based on information from third-party pricing services. In addition, investments may be valued at fair value if the adviser determines that an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the fund's net asset value, or after the halting of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is principally traded. Events that occur on a frequent basis after foreign markets close (such as developments in foreign markets and significant movements in the U.S. markets) and prior to the determination of the fund's net asset value may be deemed to have a material effect on the value of securities traded in foreign markets. Accordingly, the fund's foreign equity securities may often be valued at fair value. The adviser generally relies on third-party pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for purposes of calculating the fund's net asset value can differ depending on the source and method used to determine value. When fair valuation is used, the value of an investment used to determine the fund's net asset value may differ from quoted or published prices for the same investment. There can be no assurance

#### Notes to Financial Statements (unaudited) - continued

that the fund could obtain the fair value assigned to an investment if it were to sell the investment at the same time at which the fund determines its net asset value per share.

Various inputs are used in determining the value of the fund's assets or liabilities. These inputs are categorized into three broad levels. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fund's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. Level 1 includes unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 includes other significant observable market-based inputs (including quoted prices for similar securities, interest rates, prepayment speed, and credit risk). Level 3 includes unobservable inputs, which may include the adviser's own assumptions in determining the fair value of investments. The following is a summary of the levels used as of June 30, 2012 in valuing the fund's assets or liabilities:

| Investments at Value | Level 1       | Level 2      | Level 3 | Total         |
|----------------------|---------------|--------------|---------|---------------|
| Equity Securities:   |               |              |         |               |
| United States        | \$488,361,433 | \$—          | \$—     | \$488,361,433 |
| France               | 8,132,115     | 5,204,627    | —       | 13,336,742    |
| Netherlands          | 2,842,652     | 7,537,841    | —       | 10,380,493    |
| United Kingdom       | 10,198,450    | —            | —       | 10,198,450    |
| Israel               | 9,013,157     | —            | —       | 9,013,157     |
| Germany              | —             | 8,327,768    | —       | 8,327,768     |
| Canada               | 6,779,933     | —            | —       | 6,779,933     |
| Sweden               | —             | 3,764,623    | —       | 3,764,623     |
| Mutual Funds         | 4,836,278     |              |         | 4,836,278     |
| Total Investments    | \$530,164,018 | \$24,834,859 | \$—     | \$554,998,877 |

For further information regarding security characteristics, see the Portfolio of Investments.

Of the level 2 investments presented above, equity investments amounting to \$5,294,681 would have been considered level 1 investments at the beginning of the period. Of the level 1 investments presented above, equity investments amounting to \$5,502,641 would have been considered level 2 investments at the beginning of the period. The primary reason for changes in the classifications between levels 1 and 2 occurs when foreign equity securities are fair valued using other observable market-based inputs in place of the closing exchange price due to events occurring after the close of the exchange or market on which the investment is principally traded. The fund's foreign equity securities may often be valued at fair value. The fund's policy is to recognize transfers between the levels as of the end of the period.

**Foreign Currency Translation** – Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions or on the reporting date for foreign denominated receivables and payables. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on receivables, payables, income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

**Security Loans** – State Street Bank and Trust Company ("State Street"), as lending agent, loans the securities of the fund to certain qualified institutions (the "Borrowers") approved by the fund. The loans are collateralized by cash and/or U.S. Treasury and federal agency obligations in an amount typically at least equal to the market value of the securities loaned. The market value of the loaned securities is determined at the close of business of the fund and any additional required collateral is delivered to the fund on the next business day. State Street provides the fund with indemnification against Borrower default. The fund bears the risk of loss with respect to the investment of cash collateral. On loans collateralized by cash, the cash collateral is invested in a money market fund or short-term securities. A portion of the income generated upon investment of the collateral is remitted to the Borrowers, and the remainder is allocated between the fund and the lending agent. On loans collateralized by U.S. Treasury and/or federal agency obligations, a fee is received from the Borrower, and is allocated between the fund and the lending agent. Income from securities lending is included in "Interest" income on the Statement of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income.

**Indemnifications** – Under the fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the fund. Additionally, in the normal course of business, the fund enters into agreements with service providers that may contain indemnification clauses. The fund's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the fund that have not yet occurred.

12/21/11

#### Notes to Financial Statements (unaudited) - continued

**Investment Transactions and Income** – Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date.

The fund may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statement of Operations in realized gain/loss if the security has been disposed of by the fund or in unrealized gain/loss if the security is still held by the fund. Any other proceeds from litigation not related to portfolio holdings are reflected as other income in the Statement of Operations.

**Fees Paid Indirectly** – The fund's custody fee may be reduced according to an arrangement that measures the value of cash deposited with the custodian by the fund. For the six months ended June 30, 2012, custody fees were not reduced.

**Tax Matters and Distributions** – The fund intends to qualify as a regulated investment company, as defined under Subchapter M of the Internal Revenue Code, and to distribute all of its taxable income, including realized capital gains. As a result, no provision for federal income tax is required. The fund's federal tax returns, when filed, will remain subject to examination by the Internal Revenue Service for a three year period. Foreign taxes have been accrued by the fund in the accompanying financial statements.

Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. Distributions in excess of net investment income or net realized gains are temporary overdistributions for financial statement purposes resulting from differences in the recognition or classification of income or distributions for financial statement and tax purposes.

Book/tax differences primarily relate to wash sale loss deferrals.

The tax character of distributions declared to shareholders for the last fiscal year is as follows:

|  | 12/31/11    |
|--|-------------|
| Ordinary income (including any short-term capital gains) | \$5,466,481 |

The federal tax cost and the tax basis components of distributable earnings were as follows:

| As of 6/30/12                              |               |
|--|---------------|
| Cost of investments                        | \$487,547,111 |
| Gross appreciation                         | 96,259,957    |
| Gross depreciation                         | (28,808,191)  |
| Net unrealized appreciation (depreciation) | \$67,451,766  |
| As of 12/31/11                             |               |
| Undistributed ordinary income              | 5,014,039     |
| Capital loss carryforwards                 | (44,745,032)  |
| Other temporary differences                | (1,435)       |
| Net unrealized appreciation (depreciation) | 45,858,492    |

The aggregate cost above includes prior fiscal year end tax adjustments, if applicable.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized after December 31, 2011 may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward for eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

As of December 31, 2011 the fund had capital loss carryforwards available to offset future realized gains. Such losses expire as follows:

Pre-enactment losses: 12/31/17

#### \$(44,745,032)

**Multiple Classes of Shares of Beneficial Interest** – The fund offers multiple classes of shares, which differ in their respective distribution and/or service fees. The fund's income, realized and unrealized gain (loss), and common expenses are allocated to shareholders based on the daily net assets of each class. Dividends are declared separately for each class. Differences in per share

### MFS Investors Trust Series

#### Notes to Financial Statements (unaudited) - continued

dividend rates are generally due to differences in separate class expenses. The fund's distributions declared to shareholders as reported on the Statements of Changes in Net Assets are presented by class as follows:

|               | From net inve<br>income     |                        |
|---------------|-----------------------------|------------------------|

| Initial Class | \$—                         | \$4,901,513            |
| Service Class | —                           | 564,968                |
| Total         | \$—                         | \$5,466,481            |

#### (3) Transactions with Affiliates

**Investment Adviser** – The fund has an investment advisory agreement with MFS to provide overall investment management and related administrative services and facilities to the fund. The management fee is computed daily and paid monthly at the following annual rates:

| First \$1 billion of average daily net assets     | 0.75% |
|---|-------|
| Average daily net assets in excess of \$1 billion | 0.65% |

The investment adviser has agreed in writing to reduce its management fee to 0.60% of average daily net assets in excess of \$2.5 billion. This written agreement will continue until modified by the fund's Board of Trustees, but such agreement will continue at least until April 30, 2014. For the six months ended June 30, 2012, the fund's average daily net assets did not exceed \$2.5 billion and therefore, the management fee was not reduced.

The management fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.75% of the fund's average daily net assets.

**Distributor** – MFS Fund Distributors, Inc. (MFD), a wholly-owned subsidiary of MFS, is the distributor of shares of the fund. The Trustees have adopted a distribution plan for the Service Class shares pursuant to Rule 12b-1 under the Investment Company Act of 1940.

The fund's distribution plan provides that the fund will pay MFD distribution and/or service fees equal to 0.25% per annum of its average daily net assets attributable to Service Class shares as partial consideration for services performed and expenses incurred by MFD and financial intermediaries (including participating insurance companies that invest in the fund to fund variable annuity and variable life insurance contracts, sponsors of qualified retirement and pension plans that invest in the fund, and affiliates of these participating insurance companies and plan sponsors) in connection with the sale and distribution of the Service Class shares. MFD may subsequently pay all, or a portion, of the distribution and/or service fees to financial intermediaries.

**Shareholder Servicing Agent** – MFS Service Center, Inc. (MFSC), a wholly-owned subsidiary of MFS, receives a fee from the fund for its services as shareholder servicing agent. For the six months ended June 30, 2012, the fee was \$29,559, which equated to 0.0103% annually of the fund's average daily net assets. MFSC also receives payment from the fund for out-of-pocket expenses paid by MFSC on behalf of the fund. For the six months ended June 30, 2012, these costs amounted to \$456.

**Administrator** – MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to the fund. Under an administrative services agreement, the fund partially reimburses MFS the costs incurred to provide these services. The fund is charged an annual fixed amount of \$17,500 plus a fee based on average daily net assets. The administrative services fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.0167% of the fund's average daily net assets.

**Trustees' and Officers' Compensation** – The fund pays compensation to independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons. The fund does not pay compensation directly to Trustees or officers of the fund who are also officers of the investment adviser, all of whom receive remuneration for their services to the fund from MFS. Certain officers and Trustees of the fund are officers or directors of MFS, MFD, and MFSC.

**Other** – This fund and certain other funds managed by MFS (the funds) have entered into services agreements (the Agreements) which provide for payment of fees by the funds to Tarantino LLC and Griffin Compliance LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) and Assistant ICCO, respectively, for the funds. The ICCO and Assistant ICCO are officers of the funds and the sole members of Tarantino LLC and Griffin Compliance LLC, respectively. The funds can terminate the Agreements with Tarantino LLC and Griffin Compliance LLC at any time under the terms of the Agreements. For the six months ended June 30, 2012, the aggregate fees paid by the fund to Tarantino LLC and Griffin Compliance LLC were \$3,007 and are included in "Miscellaneous" expense on the Statement of Operations. MFS has agreed to reimburse the fund for a portion of the payments made by the fund in the amount of \$1,487, which is shown as a reduction of total expenses in the Statement of Operations. Additionally, MFS has agreed to bear all expenses associated with office space, other administrative support, and supplies provided to the ICCO and Assistant ICCO.

The fund invests in the MFS Institutional Money Market Portfolio which is managed by MFS and seeks a high level of current income consistent with preservation of capital and liquidity. Income earned on this investment is included in "Dividends from underlying affiliated funds" on the Statement of Operations. This money market fund does not pay a management fee to MFS.

### (4) Portfolio Securities

Purchases and sales of investments, other than U.S. Government securities, purchased option transactions, and short-term obligations, aggregated \$98,615,584 and \$155,768,276, respectively.

### (5) Shares of Beneficial Interest

The fund's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. Transactions in fund shares were as follows:

|  | Six months ended 6/30/12 |                | Year ended 12/31/11 |                 |
|--|--------------------------|----------------|---------------------|-----------------|
|  | Shares                   | Amount         | Shares              | Amount          |

### (6) Line of Credit

The fund and certain other funds managed by MFS participate in a \$1.1 billion unsecured committed line of credit, subject to a \$1 billion sublimit, provided by a syndication of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, generally at a rate equal to the higher of the Federal Reserve funds rate or one month LIBOR plus an agreed upon spread. A commitment fee, based on the average daily, unused portion of the committed line of credit, is allocated among the participating funds at the end of each calendar quarter. In addition, the fund and other funds managed by MFS have established unsecured uncommitted borrowing arrangements with certain banks for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the Federal Reserve funds rate plus an agreed upon spread. For the six months ended June 30, 2012, the fund's commitment fee and interest expense were \$2,067 and \$0, respectively, and are included in "Miscellaneous" expense on the Statement of Operations.

#### (7) Transactions in Underlying Affiliated Funds – Affiliated Issuers

An affiliated issuer may be considered one in which the fund owns 5% or more of the outstanding voting securities, or a company which is under common control. For the purposes of this report, the fund assumes the following to be an affiliated issuer:

| Underlying Affiliated Fund               | Beginning   | Acquisitions  | Dispositions | Ending      |
|--|-------------|---------------|--------------|-------------|
|  | Shares/Par  | Shares/Par    | Shares/Par   | Shares/Par  |
|  | Amount      | Amount        | Amount       | Amount      |
| MFS Institutional Money Market Portfolio | 3,692,509   | 63,271,060    | (62,127,291) | 4,836,278   |
| Underlying Affiliated Fund               | Realized    | Capital Gain  | Dividend     | Ending      |
|  | Gain (Loss) | Distributions | Income       | Value       |
| MFS Institutional Money Market Portfolio | \$—         | \$—           | \$2,531      | \$4,836,278 |

## BOARD REVIEW OF INVESTMENT ADVISORY AGREEMENT

A discussion regarding the Board's most recent review and renewal of the fund's Investment Advisory Agreement with MFS will be available on or about November 1, 2012 by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of the MFS Web site (*mfs.com*).

### PROXY VOTING POLICIES AND INFORMATION

A general description of the MFS funds' proxy voting policies and procedures is available without charge, upon request, by calling 1-800-225-2606, by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov*.

Information regarding how the fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available without charge by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov*.

### QUARTERLY PORTFOLIO DISCLOSURE

The fund will file a complete schedule of portfolio holdings with the Securities and Exchange Commission (the Commission) for the first and third quarters of each fiscal year on Form N-Q. The fund's Form N-Q is available on the EDGAR database on the Commission's Internet Web site at *http://www.sec.gov*, and may be reviewed and copied at the:

Public Reference Room Securities and Exchange Commission 100 F Street, NE, Room 1580 Washington, D.C. 20549

Information on the operation of the Public Reference Room may be obtained by calling the Commission at 1-800-SEC-0330. Copies of the fund's Form N-Q also may be obtained, upon payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov or by writing the Public Reference Section at the above address.

### FURTHER INFORMATION

From time to time, MFS may post important information about the fund or the MFS funds on the MFS web site (*mfs.com*). This information is available by visiting the "News & Commentary" section of *mfs.com* or by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of *mfs.com*.

# LETTER FROM THE CHAIRMAN AND CEO

Dear Contract Owners:

World financial markets remain a venue of uncertainty. The focus has shifted most recently to the eurozone, where policymakers are attempting to develop a plan that will help debt-laden countries and prevent their woes from spreading across the region. Volatility is likely to continue as investors test the resolve of European officials to make the tough decisions needed to solve the crisis. A slowing in the Chinese economy has added another layer of trepidation, as investors worry that the primary engine of global growth may be sputtering.

The U.S. economy is experiencing a period of growth. However, markets have been jittery in reaction to events in Europe and ahead of the U.S. presidential election. Voters in the United States are watching the economy closely and waiting to see if Congress agrees to cut the budget and extend the Bush administration tax cuts. Failure to do so could ultimately send the U.S. economy back into recession.

Amid this global uncertainty, managing risk becomes a top priority for investors and their advisors. At MFS® our global research platform is designed to ensure the smooth functioning of our investment process in all business climates. Real-time collaboration across the globe is vital in periods of heightened volatility and economic uncertainty. At MFS our investment staff shares ideas and evaluates opportunities across geographies, across both fundamental and quantitative disciplines, and across companies' entire capital structure. We employ this uniquely collaborative approach to build better insights for our clients.

We, like our investors, are mindful of the many economic challenges faced at the local, national, and international levels. It is in times such as these that we want to emphasize the merits of maintaining a long-term view, adhering to basic investing principles such as asset allocation and diversification, and working closely with investment advisors to research and identify appropriate investment opportunities.

Respectfully,

Robert ) Manning

Robert J. Manning Chairman and Chief Executive Officer MFS Investment Management®

The portfolio is actively managed and current holdings may be different.

# **EXPENSE TABLE**

# Fund Expenses Borne by the Contract Holders During the Period, January 1, 2012 through June 30, 2012

As a contract holder of the fund, you incur ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

#### **Actual Expenses**

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical Example for Comparison Purposes

The second line for each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight the fund's ongoing costs only and do not take into account the fees and expenses imposed under the variable contracts through which your investment in the fund is made. Therefore, the second line for each share class in the table is useful in comparing ongoing costs associated with an investment in vehicles (such as the fund) which fund benefits under variable annuity and variable life insurance contracts and to qualified pension and retirement plans only, and will not help you determine the relative total costs of investing in the fund through variable annuity and variable life insurance contracts were included, your costs would have been higher.

| Share Class   |                  | Annualized<br>Expense Ratio | Beginning<br>Account Value<br>1/01/12 | Ending<br>Account Value<br>6/30/12 | Expenses Paid<br>During Period (p)<br>1/01/12-6/30/12 |
|---------------|------------------|-----------------------------|---------------------------------------|------------------------------------|---|
| Initial Class | Actual           | 0.90%                       | \$1,000.00                            | \$1,079.58                         | \$4.65  |
|               | Hypothetical (h) | 0.90%                       | \$1,000.00                            | \$1,020.39                         | \$4.52  |
| Service Class | Actual           | 1.15%                       | \$1,000.00                            | \$1,077.88                         | \$5.94  |
| Jervice Class | Hypothetical (h) | 1.15%                       | \$1,000.00                            | \$1,019.14                         | \$5.77  |

(h) 5% class return per year before expenses.

(p) Expenses paid are equal to each class' annualized expense ratio, as shown above, multiplied by the average account value over the period, multiplied by the number of days in the period, divided by the number of days in the year.

# PORTFOLIO OF INVESTMENTS – 6/30/12 (unaudited)

The Portfolio of Investments is a complete list of all securities owned by your fund. It is categorized by broad-based asset classes.

| lssuer                            | Shares/Par |          | Value (\$) | lssuer                                     | Shares/Par      |          | Value (\$)         |

#### (a) Non-income producing security.

- (s) Security or a portion of the security was pledged to cover collateral requirements for securities sold short and/or certain derivative transactions. At June 30, 2012, the fund had no short sales outstanding.
- (v) Underlying affiliated fund that is available only to investment companies managed by MFS. The rate quoted for the MFS Institutional Money Market Portfolio is the annualized seven-day yield of the fund at period end.
- (z) Restricted securities are not registered under the Securities Act of 1933 and are subject to legal restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are subsequently registered. Disposal of these securities may involve time-consuming negotiations and prompt sale at an acceptable price may be difficult. The fund holds the following restricted securities:

|                       | Acquisition |           |           |  |  |
|-----------------------|-------------|-----------|-----------|--|--|
| Restricted Securities | Date        | Cost      | Value     |  |  |
| EuroDekania Ltd.      | 6/25/07     | \$737,167 | \$107,283 |  |  |

#### % of Net assets

At June 30, 2012, the fund had liquid securities with an aggregate value of \$593,809 to cover any commitments for securities sold short and/or certain derivatives contracts.

The following abbreviations are used in this report and are defined:

ADR American Depositary Receipt

- PLC Public Limited Company
- REIT Real Estate Investment Trust

# FINANCIAL STATEMENTS | FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the fund's financial performance for the semiannual period and the past 5 fiscal years. Certain information reflects financial results for a single fund share. The total returns in the table represent the rate by which an investor would have earned (or lost) on an investment in the fund share class (assuming reinvestment of all distributions) held for the entire period.

(a) Annualized.

(d) Per share data is based on average shares outstanding.

(f) Ratios do not reflect reductions from fees paid indirectly, if applicable.

(k) The total return does not reflect expenses that apply to separate accounts. Inclusion of these charges would reduce the total return figures for all periods shown.

(n) Not annualized.

(r) Certain expenses have been reduced without which performance would have been lower.

(s) From time to time the fund may receive proceeds from litigation settlements, without which performance would be lower. Excluding the effect of the proceeds received from a non-recurring litigation settlement against Enron Corp, the Initial Class and Service Class total returns for the year end December 31, 2008 would have each been lower by approximately 0.87%.

(x) The net asset values per share and total returns have been calculated on net assets which include adjustments made in accordance with U.S. generally accepted accounting principles required at period end for financial reporting purposes.

# NOTES TO FINANCIAL STATEMENTS (unaudited)

### (1) Business and Organization

MFS Core Equity Series (the fund) is a series of MFS Variable Insurance Trust (the trust). The trust is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The shareholders of each series of the trust are separate accounts of insurance companies, which offer variable annuity and/or life insurance products, and qualified retirement and pension plans.

### (2) Significant Accounting Policies

**General** – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In the preparation of these financial statements, management has evaluated subsequent events occurring after the date of the fund's Statement of Assets and Liabilities through the date that the financial statements were issued.

In this reporting period the fund adopted FASB Accounting Standards Update 2011-04, Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"). ASU 2011-04 seeks to improve the comparability of fair value measurements as presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS) by providing common requirements for fair value measurement and disclosure.

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-11, Balance Sheet (Topic 210) – Disclosures about Offsetting Assets and Liabilities ("ASU 2011-11"). Effective for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods, ASU 2011-11 is intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. Although still evaluating the potential impacts of ASU 2011-11 to the fund, management expects that the impact of the fund's adoption will be limited to additional financial statement disclosures.

Investment Valuations – Equity securities, including restricted equity securities, are generally valued at the last sale or official closing price as provided by a third-party pricing service on the market or exchange on which they are primarily traded. Equity securities, for which there were no sales reported that day, are generally valued at the last guoted daily bid guotation as provided by a third-party pricing service on the market or exchange on which such securities are primarily traded. Equity securities held short, for which there were no sales reported for that day, are generally valued at the last quoted daily ask guotation as provided by a third-party pricing service on the market or exchange on which such securities are primarily traded. Short-term instruments with a maturity at issuance of 60 days or less generally are valued at amortized cost, which approximates market value. Exchange-traded options are generally valued at the last sale or official closing price as provided by a third-party pricing service on the exchange on which such options are primarily traded. Exchange-traded options for which there were no sales reported that day are generally valued at the last daily bid quotation as provided by a third-party pricing service on the exchange on which such options are primarily traded. Options not traded on an exchange are generally valued at a broker/dealer bid guotation. Foreign currency options are generally valued at valuations provided by a third-party pricing service. Open-end investment companies are generally valued at net asset value per share. Securities and other assets generally valued on the basis of information from a third-party pricing service may also be valued at a broker/dealer bid quotation. Values obtained from third-party pricing services can utilize both transaction data and market information such as yield, guality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of foreign securities and other assets and liabilities expressed in foreign currencies are converted to U.S. dollars using the mean of bid and asked prices for rates provided by a third-party pricing service.

The Board of Trustees has delegated primary responsibility for determining or causing to be determined the value of the fund's investments (including any fair valuation) to the adviser pursuant to valuation policies and procedures approved by the Board. If the adviser determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the adviser in accordance with such procedures under the oversight of the Board of Trustees. Under the fund's valuation policies and procedures, market quotations are not considered to be readily available for most types of debt instruments and floating rate loans and many types of derivatives. These investments are generally valued at fair value based on information from third-party pricing services. In addition, investments may be valued at fair value if the adviser determines that an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the fund's net asset value, or after the halting of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is principally traded. Events that occur on a frequent basis after foreign markets close (such as developments in foreign markets and significant movements in the U.S. markets) and prior to the determination of the fund's net asset value may be deemed to have a material effect on the value of securities traded in foreign markets. Accordingly, the fund's foreign equity securities may often be valued at fair value. The adviser generally relies on third-party pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the

### MFS Core Equity Series

#### Notes to Financial Statements (unaudited) – continued

business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for purposes of calculating the fund's net asset value can differ depending on the source and method used to determine value. When fair valuation is used, the value of an investment used to determine the fund's net asset value may differ from quoted or published prices for the same investment. There can be no assurance that the fund could obtain the fair value assigned to an investment if it were to sell the investment at the same time at which the fund determines its net asset value per share.

Various inputs are used in determining the value of the fund's assets or liabilities. These inputs are categorized into three broad levels. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fund's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. Level 1 includes unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 includes other significant observable market-based inputs (including quoted prices for similar securities, interest rates, prepayment speed, and credit risk). Level 3 includes unobservable inputs, which may include the adviser's own assumptions in determining the fair value of investments. The following is a summary of the levels used as of June 30, 2012 in valuing the fund's assets or liabilities:

| Investments at Value<br>Equity Securities: | Level 1      | Level 2   | Level 3   | Total        |
|--|--------------|-----------|-----------|--------------|

| United Kingdom                             | —            | _         | 107,283   | 107,283      |
| Brazil                                     | 95,243       | _         | —         | 95,243       |
| Mutual Funds                               | 295,172      | _         |           | 295,172      |
| Total Investments                          | \$58,140,690 | \$114,009 | \$107,283 | \$58,361,982 |

For further information regarding security characteristics, see the Portfolio of Investments.

The following is a reconciliation of level 3 assets for which significant unobservable inputs were used to determine fair value. The fund's policy is to recognize transfers between the levels as of the end of the period. The table presents the activity of level 3 securities held at the beginning and the end of the period.

|  | Equity<br>Securities |
|--|----------------------|
| Balance as of 12/31/11                           | \$127,787            |
| Change in unrealized appreciation (depreciation) | (20,504)             |
| Balance as of 6/30/12                            | \$107,283            |

The net change in unrealized appreciation (depreciation) from investments still held as level 3 at June 30, 2012 is \$(20,504).

**Foreign Currency Translation** – Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions or on the reporting date for foreign denominated receivables and payables. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on receivables, payables, income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

**Derivatives** – The fund uses derivatives for different purposes, primarily to increase or decrease exposure to a particular market or segment of the market, or security, to increase or decrease interest rate or currency exposure, or as alternatives to direct investments. Derivatives are used for hedging or non-hedging purposes. While hedging can reduce or eliminate losses, it can also reduce or eliminate gains. When the fund uses derivatives as an investment to increase market exposure, or for hedging purposes, gains and losses from derivative instruments may be substantially greater than the derivative's original cost.

The derivative instruments used by the fund were written options and purchased options. At June 30, 2012, the fund did not have any outstanding derivative instruments.

#### Notes to Financial Statements (unaudited) - continued

The following table presents, by major type of derivative contract, the realized gain (loss) on derivatives held by the fund for the six months ended June 30, 2012 as reported in the Statement of Operations:

|       |              |   | Investments                   |                          |    |  |  |

| Equity | \$(1,151)       |

Derivative counterparty credit risk is managed through formal evaluation of the creditworthiness of all potential counterparties. On certain over-the-counter derivatives, the fund attempts to reduce its exposure to counterparty credit risk whenever possible by entering into an International Swaps and Derivatives Association (ISDA) Master Agreement on a bilateral basis with each of the counterparties with whom it undertakes a significant volume of transactions. The ISDA Master Agreement gives each party to the agreement the right to terminate all transactions traded under such agreement if there is a certain deterioration in the credit quality of the other party. The ISDA Master Agreement gives the fund the right, upon an event of default by the applicable counterparty or a termination of the agreement, to close out all transactions traded under such agreement and to net amounts owed under each transaction to one net amount payable by one party to the other. This right to close out and net payments across all transactions traded under such agreement and te payments across all transactions traded under the ISDA Master Agreement could result in a reduction of the fund's credit risk to such counterparty equal to any amounts payable by the fund under the applicable transactions, if any. However, absent an event of default by the counterparty or a termination of the agreement, the ISDA Master Agreement does not result in an offset of reported amounts of assets and liabilities in the Statement of Assets and Liabilities across transactions between the fund and the applicable counterparty.

Collateral requirements differ by type of derivative. Collateral or margin requirements are set by the broker or exchange clearing house for exchange traded derivatives (i.e., futures contracts and exchange-traded options) while collateral terms are contract specific for over-the-counter traded derivatives (i.e., forward foreign currency exchange contracts, swap agreements and over-the-counter options). For derivatives traded under an ISDA Master Agreement, the collateral requirements are netted across all transactions traded under such agreement and one amount is posted from one party to the other to collateralize such obligations. Cash collateral that has been pledged to cover obligations of the fund under derivative contracts, if any, will be reported separately on the Statement of Assets and Liabilities as "Restricted cash." Securities collateral pledged for the same purpose, if any, is noted in the Portfolio of Investments.

**Written Options** – In exchange for a premium, the fund wrote call options on securities that it anticipated the price would decline and also wrote put options on securities that it anticipated the price would increase. At the time the option was written, the fund believed the premium received exceeded the potential loss that could result from adverse price changes in the options' underlying securities. In a written option, the fund as the option writer grants the buyer the right to purchase from, or sell to, the fund a specified number of shares or units of a particular security, currency or index at a specified price within a specified period of time.

The premium received is initially recorded as a liability on the Statement of Assets and Liabilities. The option is subsequently marked-to-market daily with the difference between the premium received and the market value of the written option being recorded as unrealized appreciation or depreciation. When a written option expires, the fund realizes a gain equal to the amount of the premium received. The difference between the premium received and the amount paid on effecting a closing transaction is considered a realized gain or loss. When a written call option is exercised, the premium received is offset against the proceeds to determine the realized gain or loss. When a written put option is exercised, the premium reduces the cost basis of the security purchased by the fund.

At the initiation of the written option contract, for exchange traded options, the fund is required to deposit securities or cash as collateral with the custodian for the benefit of the broker. For over-the-counter options, the fund may post collateral subject to the terms of an ISDA Master Agreement as generally described above if the market value of the options contract moves against it. The fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option. Losses from writing options can exceed the premium received and can exceed the potential loss from an ordinary buy and sell transaction. Although the fund's market risk may be significant, the maximum counterparty credit risk to the fund is equal to the market value of any collateral posted to the broker. For over-the-counter options, this risk is mitigated in cases where there is an ISDA Master Agreement between the fund and the counterparty providing for netting as described above.

### MFS Core Equity Series

Notes to Financial Statements (unaudited) - continued

#### Written Options

|                                  | Number of<br>contracts | Premiums<br>received |
|----------------------------------|------------------------|----------------------|
| Outstanding, beginning of period | 16                     | \$1,711              |
| Options written                  | 31                     | 4,784                |
| Options closed                   | (4)                    | (3,100)              |
| Options expired                  | (43)                   | (3,395)              |
| Outstanding, end of period       | _                      | \$—                  |

**Purchased Options** – The fund purchased put options for a premium. Purchased put options entitle the holder to sell a specified number of shares or units of a particular security, currency or index at a specified price at a specified date or within a specified period of time. Purchasing put options may hedge against a decline in the value of portfolio securities or currency.

The premium paid is initially recorded as an investment in the Statement of Assets and Liabilities. That investment is subsequently marked-to-market daily with the difference between the premium paid and the market value of the purchased option being recorded as unrealized appreciation or depreciation. Premiums paid for purchased put options which have expired are treated as realized losses on investments in the Statement of Operations. Upon the exercise or closing of a purchased put option, the premium paid is offset against the proceeds on the sale of the underlying security or financial instrument in order to determine the realized gain or loss on investments.

The risk in purchasing an option is that the fund pays a premium whether or not the option is exercised. The fund's maximum risk of loss due to counterparty credit risk is limited to the market value of the option. For over-the-counter options, this risk is mitigated in cases where there is an ISDA Master Agreement between the fund and the counterparty providing for netting as described above and for posting of collateral by the counterparty to the fund to cover the fund's exposure to the counterparty under such ISDA Master Agreement.

**Short Sales** – The fund entered into short sales whereby it sells a security it does not own in anticipation of a decline in the value of that security. The fund will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the fund replaces the borrowed security. Losses from short sales can exceed the proceeds of the security sold; and they can also exceed the potential loss from an ordinary buy and sell transaction. The amount of any premium, dividends, or interest the fund may be required to pay in connection with a short sale will be recognized as a fund expense. During the six months ended June 30, 2012, this expense amounted to \$22. The fund segregates cash or marketable securities in an amount that, when combined with the amount of proceeds from the short sale deposited with the broker, at least equals the current market value of the security sold short. At June 30, 2012, the fund had no short sales outstanding.

**Security Loans** – State Street Bank and Trust Company ("State Street"), as lending agent, loans the securities of the fund to certain qualified institutions (the "Borrowers") approved by the fund. The loans are collateralized by cash and/or U.S. Treasury and federal agency obligations in an amount typically at least equal to the market value of the securities loaned. The market value of the loaned securities is determined at the close of business of the fund and any additional required collateral is delivered to the fund on the next business day. State Street provides the fund with indemnification against Borrower default. The fund bears the risk of loss with respect to the investment of cash collateral. On loans collateralized by cash, the cash collateral is invested in a money market fund or short-term securities. A portion of the income generated upon investment of the collateral is remitted to the Borrowers, and the remainder is allocated between the fund and the lending agent. On loans collateralized by U.S. Treasury and/or federal agency obligations, a fee is received from the Borrower, and is allocated between the fund and the lending agent. Income from securities lending is included in "Interest" income on the Statement of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income.

**Indemnifications** – Under the fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the fund. Additionally, in the normal course of business, the fund enters into agreements with service providers that may contain indemnification clauses. The fund's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the fund that have not yet occurred.

**Investment Transactions and Income** – Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date.

The fund may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statement of Operations in realized gain/loss if the security has been disposed of by the fund or in unrealized gain/loss if the security is still held by the fund. Any other proceeds from litigation not related to portfolio holdings are reflected as other income in the Statement of Operations.

#### Notes to Financial Statements (unaudited) - continued

**Fees Paid Indirectly** – The fund's custody fee may be reduced according to an arrangement that measures the value of cash deposited with the custodian by the fund. For the six months ended June 30, 2012, custody fees were not reduced.

**Tax Matters and Distributions** – The fund intends to qualify as a regulated investment company, as defined under Subchapter M of the Internal Revenue Code, and to distribute all of its taxable income, including realized capital gains. As a result, no provision for federal income tax is required. The fund's federal tax returns, when filed, will remain subject to examination by the Internal Revenue Service for a three year period. Foreign taxes have been accrued by the fund in the accompanying financial statements.

Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. Distributions in excess of net investment income or net realized gains are temporary overdistributions for financial statement purposes resulting from differences in the recognition or classification of income or distributions for financial statement and tax purposes.

Book/tax differences primarily relate to wash sale loss deferrals.

Ac of 6/20/12

The tax character of distributions declared to shareholders for the last fiscal year is as follows:

|  | 12/31/11  |
|--|-----------|
| Ordinary income (including any short-term capital gains) | \$586,002 |

The federal tax cost and the tax basis components of distributable earnings were as follows:

| AS OT 6/30/12                              |              |
|--|--------------|
| Cost of investments                        | \$54,387,791 |
| Gross appreciation                         | 7,832,824    |
| Gross depreciation                         | (3,858,633)  |
| Net unrealized appreciation (depreciation) | \$3,974,191  |
| As of 12/31/11                             |              |
| Undistributed ordinary income              | 445,383      |
| Capital loss carryforwards                 | (21,325,098) |
| Other temporary differences                | (12,525)     |
| Net unrealized appreciation (depreciation) | 1,796,235    |

The aggregate cost above includes prior fiscal year end tax adjustments, if applicable.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized after December 31, 2011 may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward for eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

As of December 31, 2011, the fund had capital loss carryforwards available to offset future realized gains. Such losses expire as follows:

| Pre-enactment losses: |                |
|-----------------------|----------------|
| 12/31/16              | \$(12,320,793) |
| 12/31/17              | (9,004,305)    |
| Total                 | \$(21,325,098) |

**Multiple Classes of Shares of Beneficial Interest** – The fund offers multiple classes of shares, which differ in their respective distribution and/or service fees. The fund's income, realized and unrealized gain (loss), and common expenses are allocated to shareholders based on the daily net assets of each class. Dividends are declared separately for each class. Differences in per share dividend rates are generally due to differences in separate class expenses. The fund's distributions declared to shareholders as reported on the Statements of Changes in Net Assets are presented by class as follows:

|               | From net inve<br>income     |                        |
|---------------|-----------------------------|------------------------|
|               | Six months ended<br>6/30/12 | Year ended<br>12/31/11 |
| Initial Class | \$—                         | \$560,229              |
| Service Class |                             | 25,773                 |
| Total         | \$—                         | \$586,002              |

. .

Notes to Financial Statements (unaudited) - continued

### (3) Transactions with Affiliates

**Investment Adviser** – The fund has an investment advisory agreement with MFS to provide overall investment management and related administrative services and facilities to the fund. The management fee is computed daily and paid monthly at the following annual rates:

| First \$1 billion of average daily net assets     | 0.75% |
|---|-------|
| Average daily net assets in excess of \$1 billion | 0.65% |

The management fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.75% of the fund's average daily net assets.

The investment adviser has agreed in writing to pay a portion of the fund's total annual operating expenses, exclusive of interest, taxes, extraordinary expenses, brokerage and transaction costs and investment-related expenses, such that total annual operating expenses do not exceed 0.90% of average daily net assets for the Initial Class shares and 1.15% of average daily net assets for the Service Class shares. This written agreement will continue until modified by the fund's Board of Trustees, but such agreement will continue at least until April 30, 2014. For the six months ended June 30, 2012, this reduction amounted to \$25,490 and is reflected as a reduction of total expenses in the Statement of Operations.

**Distributor** – MFS Fund Distributors, Inc. (MFD), a wholly-owned subsidiary of MFS, is the distributor of shares of the fund. The Trustees have adopted a distribution plan for the Service Class shares pursuant to Rule 12b-1 under the Investment Company Act of 1940.

The fund's distribution plan provides that the fund will pay MFD distribution and/or service fees equal to 0.25% per annum of its average daily net assets attributable to Service Class shares as partial consideration for services performed and expenses incurred by MFD and financial intermediaries (including participating insurance companies that invest in the fund to fund variable annuity and variable life insurance contracts, sponsors of qualified retirement and pension plans that invest in the fund, and affiliates of these participating insurance companies and plan sponsors) in connection with the sale and distribution of the Service Class shares. MFD may subsequently pay all, or a portion, of the distribution and/or service fees to financial intermediaries.

**Shareholder Servicing Agent** – MFS Service Center, Inc. (MFSC), a wholly-owned subsidiary of MFS, receives a fee from the fund for its services as shareholder servicing agent. For the six months ended June 30, 2012, the fee was \$3,100, which equated to 0.0103% annually of the fund's average daily net assets. MFSC also receives payment from the fund for out-of-pocket expenses paid by MFSC on behalf of the fund. For the six months ended June 30, 2012, these costs amounted to \$264.

**Administrator** – MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to the fund. Under an administrative services agreement, the fund partially reimburses MFS the costs incurred to provide these services. The fund is charged an annual fixed amount of \$17,500 plus a fee based on average daily net assets. The administrative services fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.0314% of the fund's average daily net assets.

**Trustees' and Officers' Compensation** – The fund pays compensation to independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons. The fund does not pay compensation directly to Trustees or officers of the fund who are also officers of the investment adviser, all of whom receive remuneration for their services to the fund from MFS. Certain officers and Trustees of the fund are officers or directors of MFS, MFD, and MFSC.

**Other** – This fund and certain other funds managed by MFS (the funds) have entered into services agreements (the Agreements) which provide for payment of fees by the funds to Tarantino LLC and Griffin Compliance LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) and Assistant ICCO, respectively, for the funds. The ICCO and Assistant ICCO are officers of the funds and the sole members of Tarantino LLC and Griffin Compliance LLC, respectively. The funds can terminate the Agreements with Tarantino LLC and Griffin Compliance LLC at any time under the terms of the Agreements. For the six months ended June 30, 2012, the aggregate fees paid by the fund to Tarantino LLC and Griffin Compliance LLC were \$312 and are included in "Miscellaneous" expense on the Statement of Operations. MFS has agreed to reimburse the fund for a portion of the payments made by the fund in the amount of \$155 which is shown as a reduction of total expenses in the Statement of Operations. Additionally, MFS has agreed to bear all expenses associated with office space, other administrative support, and supplies provided to the ICCO and Assistant ICCO.

The fund invests in the MFS Institutional Money Market Portfolio which is managed by MFS and seeks a high level of current income consistent with preservation of capital and liquidity. Income earned on this investment is included in "Dividends from underlying affiliated funds" on the Statement of Operations. This money market fund does not pay a management fee to MFS.

### (4) Portfolio Securities

Purchases and sales of investments, other than U.S. Government securities, purchased option transactions, and short-term obligations, aggregated \$22,117,237 and \$25,899,486, respectively.

### (5) Shares of Beneficial Interest

The fund's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. Transactions in fund shares were as follows:

|  | Six months ended 6/30/12<br>Shares Amount |               | Year ended 12/31/11<br>Shares Amount |                |
|--|---|---------------|--------------------------------------|----------------|
| Shares sold  | Shares                                    | Amount        | Shares                               | Amount         |
| Initial Class  | 197,202                                   | \$3,258,310   | 432,255                              | \$6,792,348    |
| Service Class  | 6,378                                     | 105,362       | 22,622                               | 357,190        |
|  | 203,580                                   | \$3,363,672   | 454,877                              | \$7,149,538    |
| Shares issued to shareholders in reinvestment of distributions |   |               |                                      |                |
| Initial Class  | _   | \$—           | 38,215                               | \$560,229      |
| Service Class  | _   | _             | 1,762                                | 25,773         |
|  | _   | \$—           | 39,977                               | \$586,002      |
| Shares reacquired  |   |               |                                      |                |
| Initial Class  | (403,399)                                 | \$(6,670,823) | (917,874)                            | \$(14,513,082) |
| Service Class  | (30,326)                                  | (500,507)     | (89,506)                             | (1,416,145)    |
|  | (433,725)                                 | \$(7,171,330) | (1,007,380)                          | \$(15,929,227) |
| Net change   |   |               |                                      |                |
| Initial Class  | (206,197)                                 | \$(3,412,513) | (447,404)                            | \$(7,160,505)  |
| Service Class  | (23,948)                                  | (395,145)     | (65,122)                             | (1,033,182)    |
|  | (230,145)                                 | \$(3,807,658) | (512,526)                            | \$(8,193,687)  |

### (6) Line of Credit

The fund and certain other funds managed by MFS participate in a \$1.1 billion unsecured committed line of credit, subject to a \$1 billion sublimit, provided by a syndication of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, generally at a rate equal to the higher of the Federal Reserve funds rate or one month LIBOR plus an agreed upon spread. A commitment fee, based on the average daily, unused portion of the committed line of credit, is allocated among the participating funds at the end of each calendar quarter. In addition, the fund and other funds managed by MFS have established unsecured uncommitted borrowing arrangements with certain banks for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the Federal Reserve funds rate plus an agreed upon spread. For the six months ended June 30, 2012, the fund's commitment fee and interest expense were \$212 and \$0 respectively, and are included in "Miscellaneous" expense on the Statement of Operations.

#### (7) Transactions in Underlying Affiliated Funds – Affiliated Issuers

An affiliated issuer may be considered one in which the fund owns 5% or more of the outstanding voting securities, or a company which is under common control. For the purposes of this report, the fund assumes the following to be an affiliated issuer:

| Underlying Affiliated Fund               | Beginning   | Acquisitions  | Dispositions | Ending     |
|--|-------------|---------------|--------------|------------|
|  | Shares/Par  | Shares/Par    | Shares/Par   | Shares/Par |
|  | Amount      | Amount        | Amount       | Amount     |
| MFS Institutional Money Market Portfolio | 284,156     | 7,559,403     | (7,548,387)  | 295,172    |
| Underlying Affiliated Fund               | Realized    | Capital Gain  | Dividend     | Ending     |
|  | Gain (Loss) | Distributions | Income       | Value      |
| MFS Institutional Money Market Portfolio | \$—         | \$—           | \$319        | \$295,172  |

### BOARD REVIEW OF INVESTMENT ADVISORY AGREEMENT

A discussion regarding the Board's most recent review and renewal of the fund's Investment Advisory Agreement with MFS will be available on or about November 1, 2012 by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of the MFS Web site (*mfs.com*).

### PROXY VOTING POLICIES AND INFORMATION

A general description of the MFS funds' proxy voting policies and procedures is available without charge, upon request, by calling 1-800-225-2606, by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov*.

Information regarding how the fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available without charge by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov*.

### QUARTERLY PORTFOLIO DISCLOSURE

The fund will file a complete schedule of portfolio holdings with the Securities and Exchange Commission (the Commission) for the first and third quarters of each fiscal year on Form N-Q. The fund's Form N-Q is available on the EDGAR database on the Commission's Internet Web site at *http://www.sec.gov*, and may be reviewed and copied at the:

Public Reference Room Securities and Exchange Commission 100 F Street, NE, Room 1580 Washington, D.C. 20549

Information on the operation of the Public Reference Room may be obtained by calling the Commission at 1-800-SEC-0330. Copies of the fund's Form N-Q also may be obtained, upon payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov or by writing the Public Reference Section at the above address.

### FURTHER INFORMATION

From time to time, MFS may post important information about the fund or the MFS funds on the MFS web site (*mfs.com*). This information is available by visiting the "News & Commentary" section of *mfs.com* or by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of *mfs.com*.

# LETTER FROM THE CHAIRMAN AND CEO

Dear Contract Owners:

World financial markets remain a venue of uncertainty. The focus has shifted most recently to the eurozone, where policymakers are attempting to develop a plan that will help debt-laden countries and prevent their woes from spreading across the region. Volatility is likely to continue as investors test the resolve of European officials to make the tough decisions needed to solve the crisis. A slowing in the Chinese economy has added another layer of trepidation, as investors worry that the primary engine of global growth may be sputtering.

The U.S. economy is experiencing a period of growth. However, markets have been jittery in reaction to events in Europe and ahead of the U.S. presidential election. Voters in the United States are watching the economy closely and waiting to see if Congress agrees to cut the budget and extend the Bush administration tax cuts. Failure to do so could ultimately send the U.S. economy back into recession.

Amid this global uncertainty, managing risk becomes a top priority for investors and their advisors. At MFS® our global research platform is designed to ensure the smooth functioning of our investment process in all business climates. Real-time collaboration across the globe is vital in periods of heightened volatility and economic uncertainty. At MFS our investment staff shares ideas and evaluates opportunities across geographies, across both fundamental and quantitative disciplines, and across companies' entire capital structure. We employ this uniquely collaborative approach to build better insights for our clients.

We, like our investors, are mindful of the many economic challenges faced at the local, national, and international levels. It is in times such as these that we want to emphasize the merits of maintaining a long-term view, adhering to basic investing principles such as asset allocation and diversification, and working closely with investment advisors to research and identify appropriate investment opportunities.

Respectfully,

Robert ) Manning

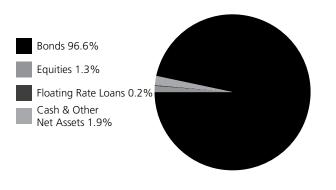

Robert J. Manning Chairman and Chief Executive Officer MFS Investment Management®

August 16, 2012

# **PORTFOLIO COMPOSITION**

#### Portfolio structure (i)

#### Top five industries (i)

| Energy – Independent                   | 8.5% |
|--|------|
| Medical & Health Technology & Services | 6.0% |
| Broadcasting                           | 5.8% |
| Utilities – Electric Power             | 5.2% |
| Gaming & Lodging                       | 4.3% |

#### Composition including fixed income credit quality (a)(i)

| A                | 0.3%  |
|------------------|-------|
| BBB              | 5.8%  |
| BB               | 32.4% |
| В                | 43.5% |
| ССС              | 14.2% |
| СС               | 0.1%  |
| С                | 0.1%  |
| D                | 0.1%  |
| Not Rated        | 0.3%  |
| Non-Fixed Income | 1.3%  |
| Cash & Other     | 1.9%  |

#### Portfolio facts (i)

| Average Duration (d)           | 4.1      |
|--------------------------------|----------|
| Average Effective Maturity (m) | 7.1 yrs. |

- (a) For all securities other than those specifically described below, ratings are assigned to underlying securities utilizing ratings from Moody's, Fitch, and Standard & Poor's rating agencies and applying the following hierarchy: If all three agencies provide a rating, the middle rating (after dropping the highest and lowest ratings) is assigned; if two of the three agencies rate a security, the lower of the two is assigned. Ratings are shown in the S&P and Fitch scale (e.g., AAA). Securities rated BBB or higher are considered investment grade. All ratings are subject to change. Not Rated includes fixed income securities, including fixed income futures contracts, which have not been rated by any rating agency. Non-Fixed Income includes equity securities (including convertible bonds and equity derivatives) and commodities. Cash & Other includes cash, other assets less liabilities, offsets to derivative positions, and short-term securities. The fund may not hold all of these instruments. The fund is not rated by these agencies.
- (d) Duration is a measure of how much a bond's price is likely to fluctuate with general changes in interest rates, e.g., if rates rise 1.00%, a bond with a 5-year duration is likely to lose about 5.00% of its value due to the interest rate move.
- (i) For purposes of this presentation, the components include the market value of securities, and reflect the impact of the equivalent exposure of derivative positions, if any. These amounts may be negative from time to time. The bond component will include any accrued interest amounts. Equivalent exposure is a calculated amount that translates the derivative position into a reasonable approximation of the amount of the underlying asset that the portfolio would have to hold at a given point in time to have the same price sensitivity that results from the portfolio's ownership of the derivative contract. When dealing with derivatives, equivalent exposure is a more representative measure of the potential impact of a position on portfolio performance than market value. Where the fund holds convertible bonds, these are treated as part of the equity portion of the portfolio.
- (m) In determining an instrument's effective maturity for purposes of calculating the fund's dollar-weighted average effective maturity, MFS uses the instrument's stated maturity or, if applicable, an earlier date on which MFS believes it is probable that a maturity-shortening device (such as a put, pre-refunding or prepayment) will cause the instrument to be repaid. Such an earlier date can be substantially shorter than the instrument's stated maturity.

Percentages are based on net assets as of 6/30/12.

The portfolio is actively managed and current holdings may be different.

# **EXPENSE TABLE**

### Fund Expenses Borne by the Contract Holders During the Period,

### January 1, 2012 through June 30, 2012

As a contract holder of the fund, you incur ongoing costs, including management fees; distribution and/or service (12b-1) fees; and other fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period January 1, 2012 through June 30, 2012.

#### **Actual Expenses**

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical Example for Comparison Purposes

The second line for each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight the fund's ongoing costs only and do not take into account the fees and expenses imposed under the variable contracts through which your investment in the fund is made. Therefore, the second line for each share class in the table is useful in comparing ongoing costs associated with an investment in vehicles (such as the fund) which fund benefits under variable annuity and variable life insurance contracts and to qualified pension and retirement plans only, and will not help you determine the relative total costs of investing in the fund through variable annuity and variable life insurance contracts were included, your costs would have been higher.

| Share Class   |                  | Annualized<br>Expense Ratio | Beginning<br>Account Value<br>1/01/12 | Ending<br>Account Value<br>6/30/12 | Expenses Paid<br>During Period (p)<br>1/01/12-6/30/12 |
|---------------|------------------|-----------------------------|---------------------------------------|------------------------------------|---|
| Initial Class | Actual           | 0.80%                       | \$1,000.00                            | \$1,067.55                         | \$4.11  |
|               | Hypothetical (h) | 0.80%                       | \$1,000.00                            | \$1,020.89                         | \$4.02  |
| Service Class | Actual           | 1.05%                       | \$1,000.00                            | \$1,066.67                         | \$5.40  |
| Service Class | Hypothetical (h) | 1.05%                       | \$1,000.00                            | \$1,019.64                         | \$5.27  |

(h) 5% class return per year before expenses.

(p) Expenses paid are equal to each class' annualized expense ratio, as shown above, multiplied by the average account value over the period, multiplied by the number of days in the period, divided by the number of days in the year.

# PORTFOLIO OF INVESTMENTS – 6/30/12 (unaudited)

The Portfolio of Investments is a complete list of all securities owned by your fund. It is categorized by broad-based asset classes.

(a) Non-income producing security.

(d) In default. Interest and/or scheduled principal payment(s) have been missed.

(g) The rate shown represents a weighted average coupon rate on settled positions at period end, unless otherwise indicated.

 (n) Securities exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in the ordinary course of business in transactions exempt from registration, normally to qualified institutional buyers. At period end, the aggregate value of these securities was \$79,251,935, representing 25.9% of net assets.

(p) Payment-in-kind security.

(r) Remaining maturities of floating rate loans may be less than stated maturities shown as a result of contractual or optional prepayments by the borrower. Such prepayments cannot be predicted with certainty. These loans may be subject to restrictions on resale. Floating rate loans generally have rates of interest which are determined periodically by reference to a base lending rate plus a premium.

(v) Underlying affiliated fund that is available only to investment companies managed by MFS. The rate quoted for the MFS Institutional Money Market Portfolio is the annualized seven-day yield of the fund at period end.

#### Portfolio of Investments (unaudited) - continued

(z) Restricted securities are not registered under the Securities Act of 1933 and are subject to legal restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are subsequently registered. Disposal of these securities may involve time-consuming negotiations and prompt sale at an acceptable price may be difficult. The fund holds the following restricted securities:

| Restricted Securities  | Acquisition<br>Date | Cost      | Value        |

# FINANCIAL STATEMENTS | FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the fund's financial performance for the semiannual period and the past 5 fiscal years. Certain information reflects financial results for a single fund share. The total returns in the table represent the rate by which an investor would have earned (or lost) on an investment in the fund share class (assuming reinvestment of all distributions) held for the entire period.

#### (a) Annualized.

- (d) Per share data is based on average shares outstanding.
- (f) Ratios do not reflect reductions from fees paid indirectly, if applicable.
- (k) The total return does not reflect expenses that apply to separate accounts. Inclusion of these charges would reduce the total return figures for all periods shown.
- (n) Not annualized.
- $(r)\$  Certain expenses have been reduced without which performance would have been lower.
- (s) From time to time the fund may receive proceeds from litigation settlements, without which performance would be lower.
- (x) The net asset values per share and total returns have been calculated on net assets which include adjustments made in accordance with U.S. generally accepted accounting principles required at period end for financial reporting purposes.

# NOTES TO FINANCIAL STATEMENTS (unaudited)

### (1) Business and Organization

MFS High Income Series (the fund) is a series of MFS Variable Insurance Trust (the trust). The trust is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The shareholders of each series of the trust are separate accounts of insurance companies, which offer variable annuity and/or life insurance products, and qualified retirement and pension plans.

### (2) Significant Accounting Policies

**General** – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In the preparation of these financial statements, management has evaluated subsequent events occurring after the date of the fund's Statement of Assets and Liabilities through the date that the financial statements were issued. The fund invests in high-yield securities rated below investment grade. Investments in high-yield securities involve greater degrees of credit and market risk than investments in higher-rated securities are vulnerable to the effects of changes in the relative values of the local currency and the U.S. dollar and to the effects of changes in each country's legal, political, and economic environment.

In this reporting period the fund adopted FASB Accounting Standards Update 2011-04, Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"). ASU 2011-04 seeks to improve the comparability of fair value measurements as presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS) by providing common requirements for fair value measurement and disclosure.

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-11, Balance Sheet (Topic 210) – Disclosures about Offsetting Assets and Liabilities ("ASU 2011-11"). Effective for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods, ASU 2011-11 is intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. Although still evaluating the potential impacts of ASU 2011-11 to the fund, management expects that the impact of the fund's adoption will be limited to additional financial statement disclosures.

Investment Valuations – Debt instruments and floating rate loans (other than short-term instruments), including restricted debt instruments, are generally valued at an evaluated or composite bid as provided by a third-party pricing service. Equity securities, including restricted equity securities, are generally valued at the last sale or official closing price as provided by a third-party pricing service on the market or exchange on which they are primarily traded. Equity securities, for which there were no sales reported that day, are generally valued at the last quoted daily bid quotation as provided by a third-party pricing service on the market or exchange on which such securities are primarily traded. Short-term instruments with a maturity at issuance of 60 days or less generally are valued at amortized cost, which approximates market value. Exchange-traded options are generally valued at the last sale or official closing price as provided by a third-party pricing service on the exchange on which such options are primarily traded. Exchange-traded options for which there were no sales reported that day are generally valued at the last daily bid guotation as provided by a third-party pricing service on the exchange on which such options are primarily traded. Options not traded on an exchange are generally valued at a broker/dealer bid quotation. Foreign currency options are generally valued at valuations provided by a third-party pricing service. Forward foreign currency exchange contracts are generally valued at the mean of bid and asked prices for the time period interpolated from rates provided by a third-party pricing service for proximate time periods. Open-end investment companies are generally valued at net asset value per share. Securities and other assets generally valued on the basis of information from a third-party pricing service may also be valued at a broker/dealer bid quotation. Values obtained from third-party pricing services can utilize both transaction data and market information such as yield, guality, coupon rate, maturity, type of issue, trading characteristics, and other market data. The values of foreign securities and other assets and liabilities expressed in foreign currencies are converted to U.S. dollars using the mean of bid and asked prices for rates provided by a third-party pricing service.

The Board of Trustees has delegated primary responsibility for determining or causing to be determined the value of the fund's investments (including any fair valuation) to the adviser pursuant to valuation policies and procedures approved by the Board. If the adviser determines that reliable market quotations are not readily available, investments are valued at fair value as determined in good faith by the adviser in accordance with such procedures under the oversight of the Board of Trustees. Under the fund's valuation policies and procedures, market quotations are not considered to be readily available for most types of debt instruments and floating rate loans and many types of derivatives. These investments are generally valued at fair value based on information from third-party pricing services. In addition, investments may be valued at fair value if the adviser determines that an investment's value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded (such as foreign exchange or market) and prior to the determination of the fund's net asset value, or after the halting of trading of a specific security where trading does not resume prior to the close of the exchange or market on which the security is

#### Notes to Financial Statements (unaudited) - continued

principally traded. The adviser generally relies on third-party pricing services or other information (such as the correlation with price movements of similar securities in the same or other markets; the type, cost and investment characteristics of the security; the business and financial condition of the issuer; and trading and other market data) to assist in determining whether to fair value and at what value to fair value an investment. The value of an investment for purposes of calculating the fund's net asset value can differ depending on the source and method used to determine value. When fair valuation is used, the value of an investment used to determine the fund's net asset value may differ from quoted or published prices for the same investment. There can be no assurance that the fund could obtain the fair value assigned to an investment if it were to sell the investment at the same time at which the fund determines its net asset value per share.

Various inputs are used in determining the value of the fund's assets or liabilities. These inputs are categorized into three broad levels. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fund's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. Level 1 includes unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 includes other significant observable market-based inputs (including quoted prices for similar securities, interest rates, prepayment speed, and credit risk). Level 3 includes unobservable inputs, which may include the adviser's own assumptions in determining the fair value of investments. Other financial instruments are derivative instruments not reflected in total investments, such as forward foreign currency exchange contracts. The following is a summary of the levels used as of June 30, 2012 in valuing the fund's assets or liabilities:

| Investments at Value                        | Level 1     | Level 2       | Level 3   | Total         |
|---|-------------|---------------|-----------|---------------|
| Equity Securities                           | \$1,356,148 | \$1,394,853   | \$134,565 | \$2,885,566   |
| Corporate Bonds                             | _           | 241,024,142   | _         | 241,024,142   |
| Commercial Mortgage-Backed Securities       | —           | 818,583       | _         | 818,583       |
| Asset-Backed Securities (including CDOs)    | _           | 759,872       | _         | 759,872       |
| Foreign Bonds                               | —           | 48,048,172    | _         | 48,048,172    |
| Floating Rate Loans                         | —           | 734,046       | _         | 734,046       |
| Mutual Funds                                | 5,674,903   |               | _         | 5,674,903     |
| Total Investments                           | \$7,031,051 | \$292,779,668 | \$134,565 | \$299,945,284 |
| Other Financial Instruments                 |             |               |           |               |
| Forward Foreign Currency Exchange Contracts | \$—         | \$109,266     | \$—       | \$109,266     |

For further information regarding security characteristics, see the Portfolio of Investments.

The following is a reconciliation of level 3 assets for which significant unobservable inputs were used to determine fair value. The fund's policy is to recognize transfers between the levels as of the end of the period. The table presents the activity of level 3 securities held at the beginning and the end of the period.

|  | Equity<br>Securities |
|--|----------------------|
| Balance as of 12/31/11                           | \$288,285            |
| Change in unrealized appreciation (depreciation) | (153,720)            |
| Balance as of 6/30/12                            | \$134,565            |

The net change in unrealized appreciation (depreciation) from investments still held as level 3 at June 30, 2012 is \$(153,720).

**Foreign Currency Translation** – Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions or on the reporting date for foreign denominated receivables and payables. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on receivables, payables, income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

**Derivatives** – The fund uses derivatives for different purposes, primarily to increase or decrease exposure to a particular market or segment of the market, or security, to increase or decrease interest rate or currency exposure, or as alternatives to direct investments. Derivatives are used for hedging or non-hedging purposes. While hedging can reduce or eliminate losses, it can also reduce or eliminate gains. When the fund uses derivatives as an investment to increase market exposure, or for hedging purposes, gains and losses from derivative instruments may be substantially greater than the derivative's original cost.

The derivative instruments used by the fund were purchased options and forward foreign currency exchange contracts. The fund's period end derivatives, as presented in the Portfolio of Investments and the associated Derivative Contract Tables, generally are indicative of the volume of its derivative activity during the period.

## MFS High Income Series

#### Notes to Financial Statements (unaudited) - continued

The following table presents, by major type of derivative contract, the fair value, on a gross basis, of the asset and liability components of derivatives held by the fund at June 30, 2012 as reported in the Statement of Assets and Liabilities:

| Risk             | Derivative Contracts              | Asset Derivatives |
|------------------|-----------------------------------|-------------------|
| Foreign Exchange | Forward Foreign Currency Exchange | \$109,266         |

The following table presents, by major type of derivative contract, the realized gain (loss) on derivatives held by the fund for the six months ended June 30, 2012 as reported in the Statement of Operations:

| Risk             | Foreign Currency<br>Transactions | Investment<br>Transactions<br>(Purchased Options) |
|------------------|----------------------------------|---|
| Foreign Exchange | \$109,703                        | \$—   |
| Equity           | —                                | (161,611)   |
| Total            | \$109,703                        | \$(161,611)                                       |

The following table presents, by major type of derivative contract, the change in unrealized appreciation (depreciation) on derivatives held by the fund for the six months ended June 30, 2012 as reported in the Statement of Operations:

| Risk             | Translation of<br>Assets and<br>Liabilities in<br>Foreign Currencies | Investments<br>(Purchased Options) |
|------------------|--|------------------------------------|
| Foreign Exchange | \$(25,847)   | \$—                                |
| Equity           | —  | 131,872                            |
| Total            | \$(25,847)   | \$131,872                          |

Derivative counterparty credit risk is managed through formal evaluation of the creditworthiness of all potential counterparties. On certain over-the-counter derivatives, the fund attempts to reduce its exposure to counterparty credit risk whenever possible by entering into an International Swaps and Derivatives Association (ISDA) Master Agreement on a bilateral basis with each of the counterparties with whom it undertakes a significant volume of transactions. The ISDA Master Agreement gives each party to the agreement the right to terminate all transactions traded under such agreement if there is a certain deterioration in the credit quality of the other party. The ISDA Master Agreement gives the fund the right, upon an event of default by the applicable counterparty or a termination of the agreement, to close out all transactions traded under such agreement and to net amounts owed under each transaction to one net amount payable by one party to the other. This right to close out and net payments across all transactions traded under the ISDA Master Agreement or any amounts payable by the fund under the applicable transactions, if any. However, absent an event of default by the counterparty or a termination of the agreement, the ISDA Master Agreement does not result in an offset of reported amounts of assets and liabilities in the Statement of Assets and Liabilities across transactions between the fund and the applicable counterparty.

Collateral requirements differ by type of derivative. Collateral or margin requirements are set by the broker or exchange clearing house for exchange traded derivatives (i.e., futures contracts and exchange-traded options) while collateral terms are contract specific for over-the-counter traded derivatives (i.e., forward foreign currency exchange contracts, swap agreements and over-the-counter options). For derivatives traded under an ISDA Master Agreement, the collateral requirements are netted across all transactions traded under such agreement and one amount is posted from one party to the other to collateralize such obligations. Cash collateral that has been pledged to cover obligations of the fund under derivative contracts, if any, will be reported separately on the Statement of Assets and Liabilities as "Restricted cash." Securities collateral pledged for the same purpose, if any, is noted in the Portfolio of Investments.

**Purchased Options** – The fund purchased put options for a premium. Purchased put options entitle the holder to sell a specified number of shares or units of a particular security, currency or index at a specified price at a specified date or within a specified period of time. Purchasing put options may hedge against a decline in the value of portfolio securities or currency.

The premium paid is initially recorded as an investment in the Statement of Assets and Liabilities. That investment is subsequently marked-to-market daily with the difference between the premium paid and the market value of the purchased option being recorded as unrealized appreciation or depreciation. Premiums paid for purchased call and put options which have expired are treated as realized losses on investments in the Statement of Operations. Upon the exercise or closing of a purchased put option, the premium paid is offset against the proceeds on the sale of the underlying security or financial instrument in order to determine the realized gain or loss on investments.

The risk in purchasing an option is that the fund pays a premium whether or not the option is exercised. The fund's maximum risk of loss due to counterparty credit risk is limited to the market value of the option. For over-the-counter options, this risk is mitigated in

#### Notes to Financial Statements (unaudited) - continued

cases where there is an ISDA Master Agreement between the fund and the counterparty providing for netting as described above and for posting of collateral by the counterparty to the fund to cover the fund's exposure to the counterparty under such ISDA Master Agreement.

**Forward Foreign Currency Exchange Contracts** – The fund entered into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. These contracts may be used to hedge the fund's currency risk or for non-hedging purposes. For hedging purposes, the fund may enter into contracts to deliver or receive foreign currency that the fund will receive from or use in its normal investment activities. The fund may also use contracts to hedge against declines in the value of foreign currency denominated securities due to unfavorable exchange rate movements. For non-hedging purposes, the fund may enter into contracts to take advantage of anticipated exchange rate changes.

Forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any unrealized gains or losses are recorded as a receivable or payable for forward foreign currency exchange contracts until the contract settlement date. On contract settlement date, any gain or loss on the contract is recorded as realized gains or losses on foreign currency.

Risks may arise upon entering into these contracts from unanticipated movements in the value of the contract and from the potential inability of counterparties to meet the terms of their contracts. Generally, the fund's maximum risk due to counterparty credit risk is the unrealized gain on the contract due to the use of Continuous Linked Settlement, an industry accepted settlement system. This risk is mitigated in cases where there is an ISDA Master Agreement between the fund and the counterparty providing for netting as described above and for posting of collateral by the counterparty to the fund to cover the fund's exposure to the counterparty under such ISDA Master Agreement.

**Loans and Other Direct Debt Instruments** – The fund invests in loans and loan participations or other receivables. These investments may include standby financing commitments, including revolving credit facilities, which obligate the fund to supply additional cash to the borrower on demand. Loan participations involve a risk of insolvency of the lending bank or other financial intermediary.

**Indemnifications** – Under the fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the fund. Additionally, in the normal course of business, the fund enters into agreements with service providers that may contain indemnification clauses. The fund's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the fund that have not yet occurred.

**Investment Transactions and Income** – Investment transactions are recorded on the trade date. Interest income is recorded on the accrual basis. All premium and discount is amortized or accreted for financial statement purposes in accordance with U.S. generally accepted accounting principles. The fund earns certain fees in connection with its floating rate loan purchasing activities. These fees are in addition to interest payments earned and may include amendment fees, commitment fees, facility fees, consent fees, and prepayment fees. Commitment fees are recorded on an accrual basis as income in the accompanying financial statements. Dividends received in cash are recorded on the ex-dividend date. Certain dividends from foreign securities will be recorded when the fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date. Dividend and interest payments received in additional securities are recorded on non-accrual status or set to accrue at a rate of interest less than the contractual coupon when the collection of all or a portion of interest has become doubtful. Interest income for those debt obligations may be further reduced by the write-off of the related interest receivables when deemed uncollectible.

The fund may receive proceeds from litigation settlements. Any proceeds received from litigation involving portfolio holdings are reflected in the Statement of Operations in realized gain/loss if the security has been disposed of by the fund or in unrealized gain/loss if the security is still held by the fund. Any other proceeds from litigation not related to portfolio holdings are reflected as other income in the Statement of Operations.

**Fees Paid Indirectly** – The fund's custody fee may be reduced according to an arrangement that measures the value of cash deposited with the custodian by the fund. This amount, for the six months ended June 30, 2012, is shown as a reduction of total expenses on the Statement of Operations.

**Tax Matters and Distributions** – The fund intends to qualify as a regulated investment company, as defined under Subchapter M of the Internal Revenue Code, and to distribute all of its taxable income, including realized capital gains. As a result, no provision for federal income tax is required. The fund's federal tax returns, when filed, will remain subject to examination by the Internal Revenue Service for a three year period.

Distributions to shareholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income,

## MFS High Income Series

#### Notes to Financial Statements (unaudited) - continued

A - - + C /20 /42

expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. Distributions in excess of net investment income or net realized gains are temporary overdistributions for financial statement purposes resulting from differences in the recognition or classification of income or distributions for financial statement and tax purposes.

Book/tax differences primarily relate to amortization and accretion of debt securities and wash sale loss deferrals.

The tax character of distributions declared to shareholders for the last fiscal year is as follows:

|  | 12/31/11     |
|--|--------------|
| Ordinary income (including any short-term capital gains) | \$28,856,819 |

The federal tax cost and the tax basis components of distributable earnings were as follows:

| As of 6/30/12                              |               |
|--|---------------|
| Cost of investments                        | \$300,841,720 |
| Gross appreciation                         | 10,828,529    |
| Gross depreciation                         | (11,724,965)  |
| Net unrealized appreciation (depreciation) | \$(896,436)   |
| As of 12/31/11                             |               |
| Undistributed ordinary income              | 25,018,410    |
| Capital loss carryforwards                 | (27,951,482)  |
| Other temporary differences                | (12,385)      |
| Net unrealized appreciation (depreciation) | (9,914,767)   |

The aggregate cost above includes prior fiscal year end tax adjustments, if applicable.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized after December 31, 2011 may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward for eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

As of December 31, 2011, the fund had capital loss carryforwards available to offset future realized gains. Such losses expire as follows:

| Pre-enactment losses: |                |
|-----------------------|----------------|
| 12/31/16              | \$(20,426,634) |
| 12/31/17              | (7,524,848)    |
| Total                 | \$(27,951,482) |

**Multiple Classes of Shares of Beneficial Interest** – The fund offers multiple classes of shares, which differ in their respective distribution and/or service fees. The fund's income, realized and unrealized gain (loss), and common expenses are allocated to shareholders based on the daily net assets of each class. Dividends are declared separately for each class. Differences in per share dividend rates are generally due to differences in separate class expenses. The fund's distributions declared to shareholders as reported on the Statements of Changes in Net Assets are presented by class as follows:

|               |                             | From net investment<br>income |  |  |
|---------------|-----------------------------|-------------------------------|--|--|
|               | Six months ended<br>6/30/12 | Year ended<br>12/31/11        |  |  |
| Initial Class | \$—                         | \$28,197,014                  |  |  |
| Service Class | —                           | 659,805                       |  |  |
| Total         | \$—                         | \$28,856,819                  |  |  |

## (3) Transactions with Affiliates

**Investment Adviser** – The fund has an investment advisory agreement with MFS to provide overall investment management and related administrative services and facilities to the fund. The management fee is computed daily and paid monthly at the following annual rates:

| First \$1 billion of average daily net assets     | 0.70% |
|---|-------|
| Average daily net assets in excess of \$1 billion | 0.65% |

The management fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.70% of the fund's average daily net assets.

#### Notes to Financial Statements (unaudited) - continued

The investment adviser has agreed in writing to pay a portion of the fund's total annual operating expenses, exclusive of interest, taxes, extraordinary expenses, brokerage and transaction costs, and investment-related expenses, such that total annual operating expenses do not exceed 0.85% of average daily net assets for the Initial Class shares and 1.10% of average daily net assets for the Service Class shares. This written agreement will continue until modified by the fund's Board of Trustees, but such agreement will continue at least until April 30, 2014. For the six months ended June 30, 2012, the fund's actual operating expenses did not exceed the limit and therefore, the investment adviser did not pay any portion of the fund's expenses related to this agreement.

**Distributor** – MFS Fund Distributors, Inc. (MFD), a wholly-owned subsidiary of MFS, is the distributor of shares of the fund. The Trustees have adopted a distribution plan for the Service Class shares pursuant to Rule 12b-1 under the Investment Company Act of 1940.

The fund's distribution plan provides that the fund will pay MFD distribution and/or service fees equal to 0.25% per annum of its average daily net assets attributable to Service Class shares as partial consideration for services performed and expenses incurred by MFD and financial intermediaries (including participating insurance companies that invest in the fund to fund variable annuity and variable life insurance contracts, sponsors of qualified retirement and pension plans that invest in the fund, and affiliates of these participating insurance companies and plan sponsors) in connection with the sale and distribution of the Service Class shares. MFD may subsequently pay all, or a portion, of the distribution and/or service fees to financial intermediaries.

**Shareholder Servicing Agent** – MFS Service Center, Inc. (MFSC), a wholly-owned subsidiary of MFS, receives a fee from the fund for its services as shareholder servicing agent. For the six months ended June 30, 2012, the fee was \$16,647, which equated to 0.0103% annually of the fund's average daily net assets. MFSC also receives payment from the fund for out-of-pocket expenses paid by MFSC on behalf of the fund. For the six months ended June 30, 2012, these costs amounted to \$204.

**Administrator** – MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to the fund. Under an administrative services agreement, the fund partially reimburses MFS the costs incurred to provide these services. The fund is charged an annual fixed amount of \$17,500 plus a fee based on average daily net assets. The administrative services fee incurred for the six months ended June 30, 2012 was equivalent to an annual effective rate of 0.0180% of the fund's average daily net assets.

**Trustees' and Officers' Compensation** – The fund pays compensation to independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons. The fund does not pay compensation directly to Trustees or officers of the fund who are also officers of the investment adviser, all of whom receive remuneration for their services to the fund from MFS. Certain officers and Trustees of the fund are officers or directors of MFS, MFD, and MFSC.

**Other** – This fund and certain other funds managed by MFS (the funds) have entered into services agreements (the Agreements) which provide for payment of fees by the funds to Tarantino LLC and Griffin Compliance LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) and Assistant ICCO, respectively, for the funds. The ICCO and Assistant ICCO are officers of the funds and the sole members of Tarantino LLC and Griffin Compliance LLC, respectively. The funds can terminate the Agreements with Tarantino LLC and Griffin Compliance LLC at any time under the terms of the Agreements. For the six months ended June 30, 2012, the aggregate fees paid by the fund to Tarantino LLC and Griffin Compliance LLC were \$1,699 and are included in "Miscellaneous" expense on the Statement of Operations. MFS has agreed to reimburse the fund for a portion of the payments made by the fund in the amount of \$840, which is shown as a reduction of total expenses in the Statement of Operations. Additionally, MFS has agreed to bear all expenses associated with office space, other administrative support, and supplies provided to the ICCO and Assistant ICCO.

The fund invests in the MFS Institutional Money Market Portfolio which is managed by MFS and seeks a high level of current income consistent with preservation of capital and liquidity. Income earned on this investment is included in "Dividends from underlying affiliated funds" on the Statement of Operations. This money market fund does not pay a management fee to MFS.

#### (4) Portfolio Securities

Purchases and sales of investments, other than U.S. Government securities, purchased option transactions, and short-term obligations, aggregated \$68,734,204 and \$85,516,448, respectively.

## MFS High Income Series

|  | _           | \$—                      | 3,589,464    | \$28,856,819        |  |
| Shares reacquired  |             |                          |              |                     |  |
| Initial Class  | (6,826,352) | \$(59,183,968)           | (15,422,605) | \$(135,365,132)     |  |
| Service Class  | (82,086)    | (708,554)                | (228,069)    | (1,954,577)         |  |
|  | (6,908,438) | \$(59,892,522)           | (15,650,674) | \$(137,319,709)     |  |
| Net change   |             |                          |              |                     |  |
| Initial Class  | (4,063,285) | \$(35,153,105)           | (4,574,208)  | \$(44,388,089)      |  |
| Service Class  | (63,111)    | (543,964)                | (37,310)     | (327,600)           |  |
|  | (4,126,396) | \$(35,697,069)           | (4,611,518)  | \$(44,715,689)      |  |

#### (6) Line of Credit

The fund and certain other funds managed by MFS participate in a \$1.1 billion unsecured committed line of credit, subject to a \$1 billion sublimit, provided by a syndication of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, generally at a rate equal to the higher of the Federal Reserve funds rate or one month LIBOR plus an agreed upon spread. A commitment fee, based on the average daily, unused portion of the committed line of credit, is allocated among the participating funds at the end of each calendar quarter. In addition, the fund and other funds managed by MFS have established unsecured uncommitted borrowing arrangements with certain banks for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the Federal Reserve funds rate plus an agreed upon spread. For the six months ended June 30, 2012, the fund's commitment fee and interest expense were \$1,140 and \$0, respectively, and are included in "Miscellaneous" expense on the Statement of Operations.

#### (7) Transactions in Underlying Affiliated Funds – Affiliated Issuers

An affiliated issuer may be considered one in which the fund owns 5% or more of the outstanding voting securities, or a company which is under common control. For the purposes of this report, the fund assumes the following to be an affiliated issuer:

| Underlying Affiliated Fund               | Beginning   | Acquisitions  | Dispositions | Ending      |
|--|-------------|---------------|--------------|-------------|
|  | Shares/Par  | Shares/Par    | Shares/Par   | Shares/Par  |
|  | Amount      | Amount        | Amount       | Amount      |
| MFS Institutional Money Market Portfolio | 10,895,508  | 58,326,062    | (63,546,667) | 5,674,903   |
| Underlying Affiliated Fund               | Realized    | Capital Gain  | Dividend     | Ending      |
|  | Gain (Loss) | Distributions | Income       | Value       |
| MFS Institutional Money Market Portfolio | \$—         | \$—           | \$4,796      | \$5,674,903 |

## BOARD REVIEW OF INVESTMENT ADVISORY AGREEMENT

A discussion regarding the Board's most recent review and renewal of the fund's Investment Advisory Agreement with MFS will be available on or about November 1, 2012 by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of the MFS Web site (*mfs.com*).

## PROXY VOTING POLICIES AND INFORMATION

A general description of the MFS funds' proxy voting policies and procedures is available without charge, upon request, by calling 1-800-225-2606, by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov*.

Information regarding how the fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available without charge by visiting the Proxy Voting section of *mfs.com* or by visiting the SEC's Web site at *http://www.sec.gov.* 

# QUARTERLY PORTFOLIO DISCLOSURE

The fund will file a complete schedule of portfolio holdings with the Securities and Exchange Commission (the Commission) for the first and third quarters of each fiscal year on Form N-Q. The fund's Form N-Q is available on the EDGAR database on the Commission's Internet Web site at *http://www.sec.gov*, and may be reviewed and copied at the:

Public Reference Room Securities and Exchange Commission 100 F Street, NE, Room 1580 Washington, D.C. 20549

Information on the operation of the Public Reference Room may be obtained by calling the Commission at 1-800-SEC-0330. Copies of the fund's Form N-Q also may be obtained, upon payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov or by writing the Public Reference Section at the above address.

## FURTHER INFORMATION

From time to time, MFS may post important information about the fund or the MFS funds on the MFS web site (*mfs.com*). This information is available by visiting the "News & Commentary" section of *mfs.com* or by clicking on the fund's name under "Variable Insurance Portfolios — VIT" in the "Products and Performance" section of *mfs.com*.
